MBA 200P Problem Finding, Problem Solving 1 Unit
Department: Masters in Business Administration
Course level: Graduate
Terms course may be offered: Fall and spring
Grading: The grading option will be decided by the instructor when the class is offered.
Problem Finding, Problem Solving (PFPS) teaches basic skills drawn from the fields of critical thinking, design thinking and systems thinking that support innovation. Specifically, it covers ways of collecting information to characterize a problem, framing and re-framing that problem, coming up with a range of solutions and then gathering feedback to assess those solutions. Following Confucius’s notion: “I hear and I forget. I see and I remember. I do and I understand. ” The class consists primarily of hands-on exercises to experiment with and learn the tools and techniques presented, applying them to the design and testing of alternative business models for start-up and other businesses.
