International and Area Studies (IAS)

Courses

IAS 45 Survey of World History 4 Units
Terms offered: Spring 2019, Fall 2018, Spring 2018
This course focuses on benchmarks of the history of various nations and civilizations. It begins with the ancient Greeks, Romans, and Chinese, but emphasizes world developments since the 15th century. The purpose of the course is to gain a better understanding of the rise and decline of states, empires, and international trading systems. Therefore, political and economic structures and developments as well as military factors will be presented along with the more traditional historical perspectives.

IAS N45 Survey of World History 4 Units
Terms offered: Summer 2021 Second 6 Week Session, Summer 2020 Second 6 Week Session, Summer 2019 Second 6 Week Session
This course focuses on benchmarks of the history of various nations and civilizations. It begins with the ancient Greeks, Romans, and Chinese, but emphasizes world developments since the 15th century. The purpose of the course is to gain a better understanding of the rise and decline of states, empires, and international trading systems. Therefore, political and economic structures and developments as well as military factors will be presented along with the more traditional historical perspectives.

IAS 98 Issues in Political Economy and Development 2 Units
Terms offered: Fall 2015, Spring 2015, Fall 2014
This course is geared towards intended Political Economy and Development Studies majors. It consists of a series of guest lectures presenting different issues and perspectives of political economy and development. Topics will be divided into three general sections: 1) theories on political economy and development; 2) historical background on the causes and effects of politics and markets; and 3) case studies on both the international and domestic levels. Peer discussion groups are led by honors students.

IAS 102 Scope and Methods of Research in International and Area Studies 4 Units
Terms offered: Fall 2018, Spring 2018, Fall 2017
This course is an introduction to interdisciplinary research strategies for the collection, interpretation and analysis of data; teaching skills in research, analysis, and writing to social scientific standards. This course integrates the study of the fundamental theories of social science with the practical techniques of social science research methods. It satisfies the Methodology requirement for IAS undergraduate majors and aims to prepare IAS majors for thesis writing, senior capstone projects, and varying research projects.
IAS H102 Scope and Methods of Research in International and Area Studies 4 Units
Terms offered: Fall 2018, Fall 2017, Fall 2016
Required prerequisite for all students intending to enroll in Development Studies H195, Latin American Studies H195, Political Economy of Industrial Societies H195, and Peace and Conflict Studies H195. Course provides an introduction to interdisciplinary research strategies for the collection, interpretation, and analysis of data. Course integrates the study of the fundamental theories of social science with the practical techniques of social science research methods.
Scope and Methods of Research in International and Area Studies: Read More [+]
Rules & Requirements
Prerequisites: Open only to students meeting the requirements for participation and who intend to enroll in the honors seminar during the spring term. Consent of instructor
Credit Restrictions: Students will receive no credit for H102 after taking 102, C118, Political Economy of Industrial Societies.

IAS 106 Intermediate Microeconomic Theory 4 Units
Terms offered: Summer 2018 First 6 Week Session, Spring 2018, Summer 2017 First 6 Week Session
This course is designed as a comprehensive overview of intermediate microeconomic theory. It covers a number of topics including consumer and demand theory, firm, production and cost theory, competitive market theory, imperfect competition, welfare economics, choice under uncertainty and information. All analysis conducted in the course relies on graphical and algebraic techniques. Outside readings and discussion sections will demonstrate the applicability of the models covered in class to topics with an international dimension, such as the setting of tariffs, cartel behavior, and international trade.
Intermediate Microeconomic Theory: Read More [+]
Rules & Requirements
Prerequisites: Economics 1 or equivalent
Credit Restrictions: Students will receive no credit for 106 after taking Economics 100A, 101A, Business Administration 110, Undergraduate Business Administration 101A, and Environmental Economics and Policy 100.

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of lecture per week

Summer:
6 weeks - 10 hours of lecture and 2.5 hours of discussion per week
8 weeks - 7.5 hours of lecture and 2 hours of discussion per week

Additional Details
Subject/Course Level: International and Area Studies/Undergraduate
Grading/Final exam status: Letter grade. Final exam required.
Formerly known as: Political Economy of Industrial Societies 102
Scope and Methods of Research in International and Area Studies: Read Less [-]
IAS 107 Intermediate Macroeconomic Theory
4 Units
Terms offered: Fall 2018, Fall 2017, Fall 2016
This course is designed as a comprehensive overview of intermediate macroeconomic theory focusing on economic growth and international economics. It covers a number of topics including history of economic growth, industrial revolution, post-industrial revolution divergence, flexible-price and sticky-price macroeconomics, and macroeconomic policy. Course is structured for majors in International and Area Studies and other non-economic social science majors.

Rules & Requirements
Prerequisites: Economics 1 or equivalent
Credit Restrictions: Students will receive no credit for IAS 107 after completing BUS ADM 111, UGBA 101B, ECON 100B, or ECON 101B. A deficient grade in IAS 107 may be removed by taking POLECON 107.

Hours & Format
Fall and/or spring: 15 weeks: 3 hours of lecture and 1 hour of discussion per week
Summer:
6 weeks: 10 hours of lecture and 2.5 hours of discussion per week
8 weeks: 7.5 hours of lecture and 2 hours of discussion per week

Additional Details
Subject/Course Level: International and Area Studies/Undergraduate
Grading/Final exam status: Letter grade. Final exam required.
Instructor: Hsieh

IAS C118 Introductory Applied Econometrics
4 Units
Terms offered: Fall 2022, Summer 2022 8 Week Session, Spring 2022
Formulation of a research hypothesis and definition of an empirical strategy. Regression analysis with cross-sectional and time-series data; econometric methods for the analysis of qualitative information; hypothesis testing. The techniques of statistical and econometric analysis are developed through applications to a set of case studies and real data in the fields of environmental, resource, and international development economics. Students learn the use of a statistical software for economic data analysis.

Rules & Requirements
Prerequisites: Statistics 2, 20, 21, or equivalent

Hours & Format
Fall and/or spring: 15 weeks: 3 hours of lecture and 1 hour of discussion per week
Summer: 8 weeks: 6 hours of lecture and 2 hours of discussion per week

IAS 120 Selected Topics - International and Area Studies 3 Units
Terms offered: Summer 2019 3 Week Session, Summer 2018 3 Week Session, Summer 2017 3 Week Session
Interdisciplinary study of selected topics in international and area studies focusing on issues involving modern and current political, cultural, artistic and/or socio-economic life. Through the use of lectures, discussions, and/or multimedia presentations, students will explore a variety of perspectives relating to the subject matter of the course. Students will be expected to successfully complete writing assignments or short projects, and written exams. Instructor and topic may vary from term to term.
Selected Topics - International and Area Studies: Read More [+]

Rules & Requirements
Repeat rules: Course may be repeated for credit without restriction.

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of lecture per week
Summer:
3 weeks - 14 hours of lecture per week
6 weeks - 7.5 hours of lecture per week

IAS 157AC Engineering, The Environment, and Society 4 Units
Terms offered: Spring 2022, Spring 2021, Spring 2020
This course engages students at the intersection of environmental justice, social justice, and engineering to explore how problems that are commonly defined in technical terms are at their roots deeply socially embedded. Through partnerships with community-based organizations, students are trained to recognize the socio-political nature of technical problems so that they may approach solutions in ways that prioritize social justice. Topics covered include environmental engineering as it relates to air, water, and soil contamination; race, class, and privilege; expertise; ethics; and engaged citizenship. This course cannot be used to complete any engineering technical unit requirements.

**IAS 160 Berkeley Summer Institute for the Global Generation 4 Units**

Terms offered: Summer 2010 10 Week Session, Summer 2010 3 Week Session, Summer 2009 3 Week Session

This course is designed to expose both precollege and college level students to the issues, challenges, and skills needed to negotiate the global economic, social, political, and physical environment. It is an innovative and integrated approach to global studies pedagogy and leadership development. Students will be exposed to and trained in the fundamental concepts of globalization, global inequality, and global change. In addition to the general education provided by the core module of the course, each year the course will tackle a different theme that amplifies key issues in global studies. The course will link theory and analysis to the transformative forms of practice. Students will work in teams on a real-world project related to the course theme, thus developing valuable leadership skills. The faculty coordinator will be joined by experts both from within and outside the institution to bring to students lectures, presentations, experiential opportunities, workshops, and group projects to explore the concept of leadership, issues of human poverty, human rights, social justice, urban planning for sustainable growth, and development.

Grading/Final exam status: Letter grade. Final exam not required.

**IAS C175 The Economics of Climate Change 4 Units**

Terms offered: Spring 2016, Fall 2015, Fall 2014, Fall 2013

The course will start with a brief introduction and evaluation of the scientific aspects behind climate change. Economic models will be developed to analyze the impacts of climate change and provide and critique existing and proposed policy tools. Specific topics studied are impacts on water resources and agriculture, economic evaluation of impacts, optimal control of greenhouse gases, benefit cost analysis, international treaty formation, discounting, uncertainty, irreversibility, and extreme events.

IAS C176 Climate Change Economics 4 Units
Terms offered: Fall 2022, Summer 2022 8 Week Session, Fall 2021
This course is a self-contained introduction to the economics of climate change. Climate change is caused by a large variety of economic activities, and many of its impacts will have economic consequences. Economists have studied climate change for more than two decades, and economic arguments are often powerful in policy decisions. The course will familiarize students with these arguments and equip them with the tools to participate in discussions of climate change policy through an economic lens.

Course Objectives: The course will start with a brief review of the science of climate change, discuss scenarios of economic growth and the greenhouse gas emissions caused by economic activities and investigate various emission reduction opportunities and their economic costs. A significant amount of time will be spent on studying the impacts of climate change, their economic evaluation and how adaptation can lower the costs of climate damages.

We will then study various theoretical frameworks economists have developed that answer the question how estimates about the costs and benefits of climate policy can be combined to find “good” climate policies. We then study three more specialized topics that turn out to be of great importance when analyzing climate change policy: first, how do we compare costs and benefits of generations that live many centuries apart? Second, how do we design climate policy when our projections of both the costs and the benefits of climate policy are highly uncertain? And third, how can equity considerations be accounted for in an economic assessment of climate change policy? The course will close with a look at international cooperation on climate policy and why it has been so difficult to agree on effective treaties that implement climate change policy.

Student Learning Outcomes: Students will also have gained insight into the practical aspects of modeling the economics of climate change by building a simple integrated assessment model in Excel. They will be able to use that model to do simple analysis of climate change policy themselves. Students will be familiar with the tools economists use to analyze climate change policy. They will have studied empirical estimates of the costs and benefits of climate policy and have an understanding of the analytical issues that drive research on the economics of climate change.

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of lecture and 2 hours of laboratory per week
Summer: 8 weeks - 6 hours of lecture and 4 hours of laboratory per week

IAS 194 Senior Seminar in International and Area Studies 4 Units
Terms offered: Spring 2018, Fall 2017, Spring 2017
Interdisciplinary research seminar for students in IAS majors. Intensive writing on research questions in social science and public policy best approached from an interdisciplinary perspective. Course assumes intermediate to advanced knowledge of central focus or topic of course. Weekly discussions and critiques of readings and assignments. Final paper or project required. Topic must be approved by instructor. Topics vary from term to term.

IAS 196 Special Field Research 2 - 6 Units
Terms offered: Summer 2019 8 Week Session, Summer 2019 First 6 Week Session, Summer 2018 8 Week Session
Students to work in internship programs selected and approved in advance by the faculty advisory committee and for which volunteer agreements have been established between the sponsoring organization and the student. Students will be expected to produce two brief progress reports for their faculty advisor during the course of the internship, as well as produce a final capstone piece for the course consisting of no fewer than 25 pages. The capstone paper will be graded A-F and judged on the same scholastic merits as a seminar or honors course. If taken on a P/NP basis, the established C+ standard will apply. The course is only available to students in the Global Poverty and Practice minor. Other International Area Studies majors may enroll if approved by their respective faculty chair.

IAS 375 Professional Training: Teaching in IAS 2 Units

Terms offered: Fall 2016, Fall 2015, Fall 2014

This course is intended to prepare students from the various social science disciplines to be instructors in interdisciplinary/multi-departmental courses. It will serve as a forum to discuss problems and create innovative solutions to these problems. Focusing on course construction and operation, specialists from various disciplines will discuss strategies for moving outside of their areas of specialization and into broader areas of international and area studies. Graduate students will be provided training in building their own interdisciplinary courses from the ground up. Organizing syllabi, preparing lectures, devising written assignments, leading discussion sections, constructing evaluative mechanisms and grading them, will all be covered over the course of the semester.

Professional Training: Teaching in IAS:

Rules & Requirements

Prerequisites: Appointment as a graduate student instructor in one of the International and Area Studies Teaching Programs

Credit Restrictions: Required for graduate student instructors in International Area Studies major programs for the first time, and is strongly recommended for all IASTP GSIs.

Repeat rules: Course may be repeated for credit up to a total of 8 units.

Hours & Format

Fall and/or spring: 15 weeks - 2 hours of lecture per week

Additional Details

Subject/Course Level: International and Area Studies/Professional course for teachers or prospective teachers

Grading: Offered for satisfactory/unsatisfactory grade only.
