City and Regional Planning

Overview
The mission of the Department of City and Regional Planning is to improve equity, the economy and the environment in neighborhoods, communities, cities, and metropolitan regions by creating knowledge and engagement through our teaching, research, and service. We aim to design and create cities, infrastructure, and public services that are sustainable, affordable, enjoyable, and accessible to all.

Wisely and successfully intervening in the public realm, whether locally, nationally, or globally, is a challenge. Our urban future is complex and rapidly changing. Resource scarcity and conflict, technological innovation, retrofitting of existing built environments, and social empowerment will alter the ways in which planning has conventionally been carried out. We believe the planning academy has a special responsibility to always address social justice, equity, and ethics; to teach and research means of public participation, collective decision making, and advocacy; and to focus on reforming institutions, urban governance, policy, and planning practices to make these goals possible.

Our undergraduate and graduate programs, as well as faculty research and community service activities, address social justice, equity, and ethics; innovative means of public participation, collective decision making, and advocacy; and ways to reform institutions, urban governance, policy, and planning practices. Faculty research harnesses the latest methods and data, ranging from ethnography to sophisticated 3-D simulations and visualization. Faculty expertise is diverse and includes sustainable transportation and land use, economic development, urban health and social policy, environmental assessment and sustainability, global urbanization and poverty, and urban design for livable places.

Lecture Series
The Department of City and Regional Planning sponsors lecture series, which offers students the opportunity to hear internationally acclaimed speakers. These speakers often also participate in classes and seminars as part of their visit to campus. For a schedule of speakers and events in this lecture series, see the College of Environmental Design website (http://ced.berkeley.edu/events-media/lecture-series).

Undergraduate Programs
Urban Studies (http://guide.berkeley.edu/undergraduate/degree-programs/urban-studies): BA
City Planning (http://guide.berkeley.edu/undergraduate/degree-programs/city-planning): Minor
Geospatial Information Science and Technology (http://guide.berkeley.edu/undergraduate/degree-programs/geospatial-information-science-technology): Minor (offered in conjunction with the College of Natural Resources)

Graduate Programs
City and Regional Planning (http://guide.berkeley.edu/graduate/degree-programs/city-regional-planning): Master of City Planning (MCP), and PhD in City Planning
CY PLAN 101 Introduction to Urban Data Analytics 4 Units
Terms offered: Spring 2017
This course (1) provides a basic intro to census and economic data collection, processing, and analysis; (2) surveys forecasting and modeling techniques in planning; (3) demonstrates the uses of real-time urban data and analytics; and (4) provides a socio-economic-political context for the smart cities movement, focusing on data ethics and governance.
Introduction to Urban Data Analytics: Read More [+]

Objectives Outcomes

Student Learning Outcomes: This course will teach students systematic approaches to collecting, analyzing, modeling, and interpreting quantitative data used to inform robust research, and, ultimately, urban planning practice and policymaking. This contributes to the urban studies major's objective of introducing students to "conceptual tools, analytical methods, and theoretical frameworks to understand urban environments, such as economic analysis, social science theory, and visualization technologies," with the objective of training undergraduates for a future career or further graduate study in the field of urban studies and planning.

Rules & Requirements

Prerequisites: Upper division standing

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of lecture and 1.5 hours of laboratory per week

Additional Details
Subject/Course Level: City and Regional Planning/Undergraduate
Grading/Final exam status: Letter grade. Final exam required.
Instructors: Chapple, Karen

Introduction to Urban Data Analytics: Read Less [-]

CY PLAN 110 Introduction to City Planning 4 Units
Terms offered: Fall 2017, Summer 2017 First 6 Week Session, Fall 2016
Survey of city planning as it has evolved in the United States since 1800 in response to physical, social, and economic problems; major concepts and procedures used by city planners and local governments to improve the urban environment.
Introduction to City Planning: Read More [+]

Rules & Requirements

Prerequisites: Open to majors in all fields

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of lecture and 1 hour of discussion per week
Summer:
6 weeks - 7.5 hours of lecture and 2.5 hours of discussion per week
8 weeks - 6 hours of lecture and 1.5 hours of discussion per week

Additional Details
Subject/Course Level: City and Regional Planning/Undergraduate
Grading/Final exam status: Letter grade. Final exam required.

Instructor: Chapple, Karen

Introduction to City Planning: Read Less [-]

CY PLAN 111 Introduction to Housing: An International Survey 3 Units
Terms offered: Spring 2014, Spring 2013, Spring 2012
Housing problems, government housing policy, and housing as a field of urban planning practice. Emphasis on critical International Issues in the Third World and the United States.
Introduction to Housing: An International Survey: Read More [+]

Rules & Requirements

Prerequisites: 110 or Economics 1 or consent of instructor; open to majors in all fields

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of lecture per week
Summer: 8 weeks - 6 hours of lecture per week

Additional Details
Subject/Course Level: City and Regional Planning/Undergraduate
Grading/Final exam status: Letter grade. Final exam required.
Instructor: AlSayyad

Introduction to Housing: An International Survey: Read Less [-]
CY PLAN 113A Economic Analysis for Planning 3 Units
Terms offered: Fall 2017, Fall 2016, Spring 2016
Introduction to economic concepts and thinking as used in planning. Micro-economic theory is reviewed and critiqued.
Economic Analysis for Planning: Read More [+]

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of lecture per week
Summer: 8 weeks - 6 hours of lecture per week

Subject/Course Level: City and Regional Planning/Undergraduate
Instructor: Acey

Planning for Sustainability: Read Less [-]
Over half of the world’s population is now urban. As urban populations swell, metropolitan areas in both the developed and the developing world struggle to provide basic services and address the negative externalities associated with rapid growth. Sanitation, transportation, pollution, energy services, and public safety typically fall to sub-national governments. Yet local sub-national institutions face difficulties as they tackle these challenges because development tends to spill over political boundaries and resources are limited. Such difficulties are particularly acute in the developing world due to tighter resource constraints, weak institutions, and the comparative severity of the underlying problems. Moreover, democratization and decentralization suggest that urban governance and service delivery may have become more democratic, but present challenges with respect to priority setting, coordination, and corruption.

Urban and Sub-national Politics in Developing Countries: Read More [+]
CY PLAN 190 Advanced Topics in Urban Studies 1 - 4 Units
Terms offered: Fall 2017, Spring 2017, Spring 2016
Analysis of selected topics in urban studies. Topics vary by semester.
Advanced Topics in Urban Studies: Read More [+]

Rules & Requirements
Prerequisites: Upper division standing
Repeat rules: Course may be repeated for credit.

Hours & Format
Fall and/or spring: 15 weeks - 1-4 hours of lecture per week
Summer: 8 weeks - 2-8 hours of lecture per week

Additional Details
Subject/Course Level: City and Regional Planning/Undergraduate
Grading/Final exam status: The grading option will be decided by the instructor when the class is offered. Final exam not required.

Advanced Topics in Urban Studies: Read Less [-]

CY PLAN 197 Field Studies 1 - 3 Units
Terms offered: Fall 2016, Spring 2007, Fall 2006
Supervised experiences in the study of off-campus organizations relevant to specific aspects of city planning. Regular individual meetings with faculty sponsor and a written report are required.
Field Studies: Read More [+]

Rules & Requirements
Prerequisites: Consent of instructor
Credit Restrictions: Enrollment is restricted; see the Introduction to Courses and Curricula section of this catalog.
Repeat rules: Course may be repeated for credit.

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of fieldwork per week

Hours & Format
Fall and/or spring: 15 weeks - 0 hours of independent study per week
Summer:
6 weeks - 2.5-10 hours of independent study per week
8 weeks - 1.5-7.5 hours of independent study per week

Additional Details
Subject/Course Level: City and Regional Planning/Undergraduate
Grading/Final exam status: Offered for pass/not pass grade only. Final exam not required.

Special Study for Advanced Undergraduates: Read Less [-]
CY PLAN 200 History of City Planning 3 Units
Terms offered: Fall 2017, Fall 2016, Fall 2015
The history of city planning and the city planning profession in the context of urban history. Principal focus on the evolution of North American planning practice and theory since the late 19th century; some comparative and earlier material.

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of lecture per week

Additional Details
Subject/Course Level: City and Regional Planning/Graduate
Grading: Letter grade.
Instructor: Roy

History of City Planning: Read More [+]

CY PLAN 201A Planning Methods Gateway: Part I 4 Units
Terms offered: Fall 2017, Fall 2016, Fall 2015
Two-semester course sequence that introduces first-year students in the Master of City Planning (MCP) program to a suite of data collection, data analysis, problem solving, and presentation methods that are essential for practicing planners. 201A focuses on supporting integrated problem solving, using a case-based approach to introduce methods in sequenced building-blocks. 201B prepares MCP students for more advanced courses in statistics, GIS, observation, qualitative methods, survey methods, and public participation.

Objectives Outcomes
Course Objectives: The CY PLAN 201A and 201B course sequence is designed to introduce students to problem identification in the planning realm, and to the data collection and analysis skills relevant to addressing those problems. Students will learn how to define planning problems; identify the information needed to better understand and develop solutions to those problems; collect data and conduct analysis to provide that information; and understand the mechanics, promises and pitfalls of those methods. Practical skills include downloading and using secondary data, conducting statistical tests of difference, observation, making maps from secondary data, interviewing, and conducting financial analyses. Through lectures, case studies, group assignments, and individual assignments, students will achieve the following learning objectives:

Student Learning Outcomes:
• Identify planning problems and questions
• Design and implement a research project in response to a planning problem or question
• Become a critical consumer of statistics, methods, and evidence/arguments in the press and in policy, planning and advocacy publications
• Think critically about research problems and research design, learn what kinds of problems planners address in day-to-day life, and recognize the role of theory in shaping both questions and research design
• Prepare clear, accurate and compelling text, graphics and maps for use in documents and presentations
• Build public presentation skills, and have an opportunity to practice and receive feedback on presentations of various lengths
• Learn how to write for different audiences, and effectively include data/evidence in writing
• Be introduced to the faculty in DCRP and their research methods and approaches

Rules & Requirements
Prerequisites: This course is a prerequisite to 201B; exceptions made with instructor approval

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of lecture and 1 hour of laboratory per week

Additional Details
Subject/Course Level: City and Regional Planning/Graduate
Grading: Letter grade.
Instructors: Chatman, Reid

Planning Methods Gateway: Part I: Read Less [-]
CY PLAN 201B Planning Methods Gateway: Part II 4 Units
Terms offered: Spring 2017, Spring 2016, Spring 2015
Second course in two-semester course sequence that introduces first-year students in the Master of City Planning (MCP) program to a suite of data collection, data analysis, problem solving, and presentation methods that are essential for practicing planners. 201B prepares MCP students for more advanced courses in statistics, GIS, observation, qualitative methods, survey methods, and public participation.
Planning Methods Gateway: Part II: Read More [+]

Objectives Outcomes

Planning Methods Gateway: Part II: Read Less [-]

CY PLAN 202 Practice Gateway: Introduction to Planning Practice 3 Units
Terms offered: Fall 2016, Fall 2015, Fall 2014
Using challenging real-world cases, this course introduces first year MCP students to the persistent dilemmas, the power and limits of planning action, the multiple roles in which planners find themselves in communities around the globe, and the political and other constraints that planners face as they try to be effective, and the key issues facing planning practice. In all these ways, our focus is on planning action, not the history of urban development or urban social theory, though we will explore the ways in which planning ideals and cities have shaped each other as society evolves.

Practice Gateway: Introduction to Planning Practice: Read More [+]

Objectives Outcomes

Course Objectives: To develop core competencies essential to effective practice, including problem analysis, teamwork, and communication skills (written and oral presentation, media support); and

To help students develop models of practice that contribute to their understanding of the varied demands of effective practice and that guide their professional development and lifelong learning;

To introduce incoming students, through hands-on work, to DCRP, including our faculty, research specializations, the domestic and international elements of our work (and bridges across them), and options within the curriculum.

To introduce students to the professional practice of planning and, in the process, a language and set of reference points that help define the profession and the many fields it touches;

To stimulate a critical awareness of the opportunities and challenges specific to planning in diverse societies, whether diversity is defined in racial, ethnic, religious, class, or other dimensions;

Student Learning Outcomes: This class focuses on case-based teaching, with a combination of lectures, large and small group discussions and in-class problem-solving based on case materials. The assignments are focused on professional outputs, learning how to work as part of a professional team and supporting each student to develop their own Professional Development Plan. Assignments would also force students to grapple with one or more dimensions of the case studies, such as: who defined the problem, what evidence was used, who participated in the process, what public policies, institutions and private sector practices influenced the case/plan, what were impacts on places and people (at different scales) and how do we know?

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture per week

Grading: Letter grade.
Instructor: Reid

U.S. Housing, Planning, and Policy: Read Less [-]
CY PLAN 231 Housing in Developing Countries 3 Units
Terms offered: Fall 2015, Spring 2011, Spring 2009
This course covers issues of housing policy and housing form in the urbanizing developing world from a comparative and cross-cultural perspective. Using case studies from Latin America, Asia, and the Middle East, it highlights the role of physical planners as community activists involved in practices like squatter development, slum upgrading, sites and services, and self-help.
Housing in Developing Countries: Read More [+]

Additional Details

Fall and/or spring: 15 weeks - 3 hours of lecture per week

CY PLAN 235 Methods of Project Analysis 3 Units
Terms offered: Fall 2017, Fall 2016, Fall 2015
Using case studies, this course acquaints students with the techniques of project feasibility; analysis of project proposals and overall project compatibility assessment. Case studies will be based on a variety of public and private sector developments, in central city and suburb locations.
Methods of Project Analysis: Read More [+]

Prerequisites: 207 or equivalent

Additional Details

Subject/Course Level: City and Regional Planning/Graduate

Grading: Letter grade.

Instructor: AlSayyad

CY PLAN 238 Development--Design Studio 4 Units
Terms offered: Fall 2016, Fall 2015, Fall 2014
Studio experience in analysis, policy advising, and project design or general plan preparation for urban communities undergoing development, with a focus on site development and project planning.
Development--Design Studio: Read More [+]

Prerequisites: 235

Credit Restrictions: "Students will receive no credit for City and Regional Planning 238 after taking City and Regional Planning 216" -- please remove this course restriction. The content of CP 216 has change and restriction no longer applies.

CY PLAN C243 Shaping the Public Realm 5 Units
Terms offered: Fall 2017, Fall 2016, Fall 2015
This interdisciplinary studio focuses on the public realm of cities and explores opportunities for creating more humane and delightful public places. Problems will be at multiple scales in both existing urban centers and in areas of new growth. Skills in analyzing, designing, and communicating urban design problems will be developed. Studio work will be supplemented with lectures, discussions, and field trips. Visiting professionals will present case studies and will serve on reviews.
Shaping the Public Realm: Read More [+]
Rules & Requirements
Prerequisites: Previous design studio or consent of instructor
Hours & Format
Fall and/or spring: 15 weeks - 3 hours of lecture and 6 hours of studio per week

CY PLAN 255 Urban Planning Applications of Geographic Information Systems 3 Units
Terms offered: Fall 2017, Fall 2016, Fall 2015
This course introduces students to the relatively new and rapidly expanding field of Geographical Information Systems (GIS). The course focuses on GIS and its application to both city and regional problems in the San Francisco Bay Area and offers students a toolkit for integrating spatial information into planning solutions. The laboratory sessions will mainly employ a vector model to solving problems. Topics include problem identification, data discovery, database design, construction, modeling, and analytical measurement.
Urban Planning Applications of Geographic Information Systems: Read More [+]

Rules & Requirements

Community Development Studio/Workshop: Read Less [-]
CY PLAN 271 Development Theories and Practices 3 Units
Terms offered: Spring 2014, Spring 2013, Spring 2012
This course covers the theory and praxis of international development. It studies the project of development, from its Cold War launching to its metamorphosis into the current era of economic globalization and liberalization. And it examines the theoretical models and discursive debates that have accompanied each phase, including the recent critiques put forth by feminism and postcolonialism. The course also locates development in the industrialized world, “here” rather than “elsewhere,” thereby unsettling the normalized hierarchy of First and Third Worlds.
Development Theories and Practices: Read More [+]

Rules & Requirements

**CY PLAN 281 Theories of Planning Practice** 3 Units

Terms offered: Spring 2014, Spring 2013, Spring 2012
Focuses on theory and practice of planning, with emphasis on the role of different types of knowledge in different kinds of practice. Compares positivist, interpretive, and critical theory views of knowledge and links these to policy analysis, interactive planning, group processes, and emerging models of critical planning practice.

Rules & Requirements

Prerequisites: Graduate standing. Suitable for graduate students in professional programs doing research on planning and policy practice issues

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of seminar per week

Additional Details

Subject/Course Level: City and Regional Planning/Graduate

Grading: Letter grade.

**CY PLAN 284 Urban Theory** 3 Units

Terms offered: Fall 2017, Spring 1999, Spring 1997
The investigation of modern cities has presented great challenges for social theory. For over a century, scholars have debated about how to read and explain the modern industrial city. This course traces the main ways in which these debates have unfolded since the middle of the nineteenth century to the present. To follow these debates is to understand how scholars have struggled to make cities legible, to fix them as objects of analysis, and simultaneously to capture their processes of transformation.
