Business Administration: MBA for Executives

The Berkeley MBA for Executives Program is a unique learning experience because of how—not simply what—you learn. You will integrate your intellectual talents and industry experience, and apply your classroom and experiential learning to actual business situations in unprecedented ways. Although the program is competitive and challenging (it offers the same rigorous degree as our Full Time and Evening & Weekend MBA programs) it is also intensely collaborative, making the often-repeated statement that you learn as much from your peers as from your professors more than a truism.

Our Executive MBA program focuses on applying knowledge and skills to challenges that leaders face in today's workplace. As an accomplished professional seeking a highly relevant learning experience, you will find that your studies and classroom discussions have a direct bearing on choices you are making for your organization.

Please see departmental website at http://mbaforexecs.haas.berkeley.edu/

Admission to the University

Minimum Requirements for Admission

The following minimum requirements apply to all graduate programs and will be verified by the Graduate Division:

1. A bachelor’s degree or recognized equivalent from an accredited institution;
2. A grade point average of B or better (3.0);
3. If the applicant comes from a country or political entity (e.g., Quebec) where English is not the official language, adequate proficiency in English to do graduate work, as evidenced by a TOEFL score of at least 90 on the iBT test, 570 on the paper-and-pencil test, 230 on the computer-based test, or an IELTS Band score of at least 7 (note that individual programs may set higher levels for any of these); and
4. Sufficient undergraduate training to do graduate work in the given field.

Applicants Who Already Hold a Graduate Degree

The Graduate Council views academic degrees not as vocational training certificates but as evidence of broad training in research methods, independent study, and articulation of learning. Therefore, applicants who already have academic graduate degrees should be able to pursue new subject matter at an advanced level without need to enroll in a related or similar graduate program.

Programs may consider students for an additional academic master's or professional master’s degree only if the additional degree is in a distinctly different field.

Applicants admitted to a doctoral program that requires a master’s degree to be earned at Berkeley as a prerequisite (even though the applicant already has a master’s degree from another institution in the same or a closely allied field of study) will be permitted to undertake the second master’s degree, despite the overlap in field.

The Graduate Division will admit students for a second doctoral degree only if they meet the following guidelines:

1. Applicants with doctoral degrees may be admitted for an additional doctoral degree only if that degree program is in a general area of knowledge distinctly different from the field in which they earned their original degree. For example, a physics PhD could be admitted to a doctoral degree program in music or history; however, a student with a doctoral degree in mathematics would not be permitted to add a PhD in statistics.
2. Applicants who hold the PhD degree may be admitted to a professional doctorate or professional master’s degree program if there is no duplication of training involved.

Applicants may apply only to one single degree program or one concurrent degree program per admission cycle.

Any applicant who was previously registered at Berkeley as a graduate student, no matter how briefly, must apply for readmission, not admission, even if the new application is to a different program.

Required Documents for Applications

1. Transcripts: Applicants may upload unofficial transcripts with your application for the departmental initial review. If the applicant is admitted, then official transcripts of all college-level work will be required. Admitted applicants must request a current transcript from every post-secondary school attended, including community colleges, summer sessions, and extension programs. Official transcripts must be in sealed envelopes as issued by the school(s) attended. If you have attended Berkeley, upload your unofficial transcript with your application for the departmental initial review. If you are admitted, an official transcript with evidence of degree conferral will not be required.

2. Letters of recommendation: Applicants may request online letters of recommendation through the online application system. Hard copies of recommendation letters must be sent directly to the program, not the Graduate Division.

3. Evidence of English language proficiency: All applicants from countries or political entities in which the official language is not English are required to submit official evidence of English language proficiency. This applies to applicants from Bangladesh, Burma, Nepal, India, Pakistan, Latin America, the Middle East, the People’s Republic of China, Taiwan, Japan, Korea, Southeast Asia, most European countries, and Quebec (Canada). However, applicants who, at the time of application, have already completed at least one year of full-time academic course work with grades of B or better at a US university may submit an official transcript from the US university to fulfill this requirement. The following courses will not fulfill this requirement: 1) courses in English as a Second Language, 2) courses conducted in a language other than English, 3) courses that will be completed after the application is submitted, and 4) courses of a non-academic nature. If applicants have previously been denied admission to Berkeley on the basis of their English language proficiency, they must submit new test scores that meet the current minimum from one of the standardized tests.

XMBA 200P Problem Finding, Problem Solving 1 Unit
Offered through: Business Administration
Terms offered: Prior to 2007
Problem Finding, Problem Solving (PFPS) teaches basic skills drawn from the fields of critical thinking, design thinking and systems thinking that support innovation. Specifically, it covers ways of collecting information to characterize a problem, framing and re-framing that problem, coming up with a range of solutions and then gathering feedback to assess those solutions. Following Confucius’s notion: “I hear and I forget. I see and I remember. I do and I understand.” The class consists primarily of hands-on exercises to experiment with and learn the tools and techniques presented, applying them to the design and testing of alternative business models for start-up and other businesses.
Problem Finding, Problem Solving: Read More [+]

Hours & Format
Fall and/or spring: 8 weeks - 3 hours of lecture per week

**XMBA 236M Turnarounds 2 Units**  
Offered through: Business Administration  
Terms offered: Prior to 2007  
This course introduces the world of operational and strategic turnarounds of troubled and underperforming businesses. It focuses on the leadership practices that work in fixing flawed enterprises, from underperforming businesses to those on the brink of a death spiral. Most time in the course is spent learning how to more effectively lead companies that are underperforming or in trouble. The course is taught by cases, with the view that the best way to learn leadership is by taking the perspective of business leaders facing crises that demand new direction. Since a rescue plan only works if it is embraced, students take various roles in the cases, including bosses, subordinates, boards and lenders.  
Turnarounds: Read More [+]

**Hours & Format**

**Fall and/or spring:** 15 weeks - 2 hours of lecture per week  
**Summer:** 1 weeks - 40 hours of lecture per week

XMBA 253 Decision Making 2 Units
Offered through: Business Administration
Terms offered: Prior to 2007
This course aims to improve the quality of decisions people make. Students learn to be aware of, and to avoid, common inferential errors and systematic biases in decision making. There are many decision traps that we tend to repeatedly fall into. These traps relate to how we think about risk and probability, how we learn from experience, and how we make choices. Upon completion, students will have internalized the basic principles of decision making and will be able to avoid falling into these traps. The course additionally aims to create a deeper understanding of the psychology of decision making, which can create an advantage in negotiations and other interactions through gaining an awareness of the predictable mistakes of others.
Decision Making: Read More [+]

XMBA 291L Leader as Coach 1 Unit
Offered through: Business Administration
Terms offered: Prior to 2007
This course focuses on the art and science of coaching including theory and practice. The curriculum will cover theory and practice for three aspects of the coaching process – knowledge-based (information and skills), motivation-based (inspiration and passion), and strategy-based (communication and integration). The curriculum will focus on primary coaching skills, tools, processes and behaviors that a coach uses. In addition, participants will learn facilitation skills as the preferred methodology in achieving successful coaching programs. Course participants will have the opportunity to utilize this material in practice coaching sessions with supervision and feedback from peers and the instructor.

XMBA 292P Strategic and Sustainable Business Solutions 1 - 3 Units
Offered through: Business Administration
Terms offered: Fall 2012, Spring 2005
This course explores the concept and practice of corporate sustainability (CS) and corporate social responsibility (CSR) through a series of lectures, guest speakers, and live consulting projects focused on CS and CSR challenges facing actual companies. The course provides the tools and experiences that sustainable management practitioners can utilize as a part of their value-creating strategies. Viewing CS and CSR from a corporate strategy perspective enables students to understand how considerations of social impact can, in fact, support core business objectives, core competencies, and bottom-line profits.

XMBA 295F Customer and Business Development in High-Tech Enterprise 2 Units
Offered through: Business Administration
Terms offered: Fall 2011
This course is about how to successfully organize sales, marketing, and business development in a startup. For the purpose of this course, a "startup" can either be a new venture, or an existing company entering a new market. Both must solve a common set of issues: Where is our market? Who are our customers? How do we build the right team? How do we scale sales? These issues are at the heart of the "Customer Development" process covered in this course.

XMBA 295T Special Topics in Entrepreneurship 1 - 3 Units
Offered through: Business Administration
Terms offered: Fall 2014, Fall 2013, Fall 2010
Advanced study in the field of entrepreneurship. Topics will vary from year to year and will be announced at the beginning of each semester.

XMBA 295A Entrepreneurship and Innovation 2 Units
Offered through: Business Administration
Terms offered: Summer 2010 10 Week Session, Summer 2008 10 Week Session, Summer 2006 10 Week Session
The development of creative marketing strategies for new ventures, as well as the resolution of specific marketing problems in smaller companies which provide innovative goods and services. Emphasis is on decision making under conditions of weak data, inadequate resources, emerging markets, and rapidly changing environments.
