Business Administration: PhD

The Berkeley-Haas PhD Program offers six fields of academic study, for a curriculum of unusual richness and breadth. Since the program enrolls only 14 to 16 new PhD students each year, you work very closely with the faculty members in their chosen specialties.

The Berkeley-Haas PhD Program is strongly oriented toward discipline and research. Emphasis is placed on preparing you to evaluate the state of knowledge in your particular field and to advance it through the application of theory from the social sciences, mathematics, or statistics.

Upon applying to the program, you are required to choose a field of study, which will not only determine your coursework, but also focus your future employment opportunities. You may choose from the following six fields:

- Accounting (http://haas.berkeley.edu/Phd/academics/accounting)
- Business and Public Policy (http://haas.berkeley.edu/Phd/academics/bpp)
- Finance (http://haas.berkeley.edu/Phd/academics/finance)
- Marketing (http://haas.berkeley.edu/Phd/academics/marketing)
- Management of Organizations (http://haas.berkeley.edu/Phd/academics/management)
- Real Estate (http://haas.berkeley.edu/Phd/academics/realestate)

Admission to the University

Minimum Requirements for Admission

The following minimum requirements apply to all graduate programs and will be verified by the Graduate Division:

1. A bachelor’s degree or recognized equivalent from an accredited institution;
2. A grade point average of B or better (3.0);
3. If the applicant comes from a country or political entity (e.g., Quebec) where English is not the official language, adequate proficiency in English to do graduate work, as evidenced by a TOEFL score of at least 90 on the iBT test, 570 on the paper-and-pencil test, or an IELTS Band score of at least 7 (note that individual programs may set higher levels for any of these); and
4. Sufficient undergraduate training to do graduate work in the given field.

Applicants Who Already Hold a Graduate Degree

The Graduate Council views academic degrees not as vocational training certificates, but as evidence of broad training in research methods, independent study, and articulation of learning. Therefore, applicants who already have academic graduate degrees should be able to pursue new subject matter at an advanced level without need to enroll in a related or similar graduate program.

Programs may consider students for an additional academic master’s or professional master’s degree only if the additional degree is in a distinctly different field.

Applicants admitted to a doctoral program that requires a master’s degree to be earned at Berkeley as a prerequisite (even though the applicant already has a master’s degree from another institution in the same or a closely allied field of study) will be permitted to undertake the second master’s degree, despite the overlap in field.

The Graduate Division will admit students for a second doctoral degree only if they meet the following guidelines:

1. Applicants with doctoral degrees may be admitted for an additional doctoral degree only if that degree program is in a general area of knowledge distinctly different from the field in which they earned their original degree. For example, a physics PhD could be admitted to a doctoral degree program in music or history; however, a student with a doctoral degree in mathematics would not be permitted to add a PhD in statistics.
2. Applicants who hold the PhD degree may be admitted to a professional doctorate or professional master’s degree program if there is no duplication of training involved.

Applicants may apply only to one single degree program or one concurrent degree program per admission cycle.

Required Documents for Applications

1. Transcripts: Applicants may upload unofficial transcripts with your application for the departmental initial review. If the applicant is admitted, then official transcripts of all college-level work will be required. Official transcripts must be in sealed envelopes as issued by the school(s) attended. If you have attended Berkeley, upload your unofficial transcript with your application for the departmental initial review. If you are admitted, an official transcript with evidence of degree conferral will not be required.
2. Letters of recommendation: Applicants may request online letters of recommendation through the online application system. Hard copies of recommendation letters must be sent directly to the program, not the Graduate Division.
3. Evidence of English language proficiency: All applicants from countries or political entities in which the official language is not English are required to submit official evidence of English language proficiency. This applies to applicants from Bangladesh, Burma, Nepal, India, Pakistan, Latin America, the Middle East, the People’s Republic of China, Taiwan, Japan, Korea, Southeast Asia, most European countries, and Quebec (Canada). However, applicants who, at the time of application, have already completed at least one year of full-time academic course work with grades of B or better at a US university may submit an official transcript from the US university to fulfill this requirement. The following courses will not fulfill this requirement:
   - courses in English as a Second Language,
   - courses conducted in a language other than English,
   - courses that will be completed after the application is submitted, and
   - courses of a non-academic nature.

If applicants have previously been denied admission to Berkeley on the basis of their English language proficiency, they must submit new test scores that meet the current minimum from one of the standardized tests.

Where to Apply

Visit the Berkeley Graduate Division application page (http://grad.berkeley.edu/admissions/apply).

Business Administration: PhD
PHDBA 219S Research Seminar in Economic Analysis and Policy 1 - 3 Units
Offered through: Business Administration
Terms offered: Spring 2018, Fall 2017, Spring 2017
The research seminar presents new research on economics applied to business management issues.
Research Seminar in Economic Analysis and Policy: Read More [+]
Rules & Requirements
Repeat rules: Course may be repeated for credit.
Hours & Format
Fall and/or spring: 8 weeks - 1.5 hours of seminar per week
Additional Details
Subject/Course Level: Ph.D. in Business Administration/Graduate
Grading: Offered for satisfactory/unsatisfactory grade only.
Research Seminar in Economic Analysis and Policy: Read Less [-]

PHDBA 229A Doctoral Seminar in Accounting I 3 Units
Offered through: Business Administration
Terms offered: Fall 2015, Spring 2013, Spring 2009
A critical evaluation of accounting literature with emphasis on seminar contributions. Topics covered include research methodology in accounting, the private and social value of information.
Doctoral Seminar in Accounting I: Read More [+]
Rules & Requirements
Prerequisites: Business Administration 202A or equivalent, and Economics 201A-201B
Credit Restrictions: Students will receive no credit for 229A after taking 239A.
Hours & Format
Fall and/or spring: 15 weeks - 3 hours of seminar per week
Additional Details
Subject/Course Level: Ph.D. in Business Administration/Graduate
Grading: Letter grade.
Formerly known as: Business Administration 223A

**Grading:** Offered for satisfactory/unsatisfactory grade only.

Research Seminar in Accounting: Read Less [-]
PHDBA 239A Discrete Time Asset Pricing 3 Units
Offered through: Business Administration
Terms offered: Fall 2017, Fall 2016, Fall 2015
Asset pricing and portfolio choice in partial equilibrium and asset pricing in General Equilibrium. Specifically, static and intertemporal theories of choice under risk and uncertainty and portfolio choice. Includes two-fund separation, Capital Asset Pricing Model, and the Arbitrage Pricing Theory. In a General Equilibrium framework, it covers the notion of complete markets and welfare theorems. Also, some macro-asset pricing models are developed in addition to an analysis of incomplete markets.
Discrete Time Asset Pricing: Read More [+]

Grading: Letter grade.

Discrete Time Asset Pricing: Read Less [-]

PHDBA 239B Continuous Time Asset Pricing 3 Units
Offered through: Business Administration
This course covers topics in dynamic asset pricing, portfolio choice and general equilibrium theory in a continuous time setting. The first part of the course covers basic mathematical and statistical results. Finance results that have been developed in continuous times include the intertemporal CAPM, corporate securities and default risk, the term structure of interest rates. In addition, results are developed on non-time additive utility.
Continuous Time Asset Pricing: Read More [+]

Rules & Requirements
Prerequisites: 239A

Grading: Letter grade.

Continuous Time Asset Pricing: Read Less [-]

PHDBA 239C Empirical Asset Pricing 3 Units
Offered through: Business Administration
Terms offered: Fall 2016, Fall 2015, Fall 2014
Introduction and guide to issues in empirical asset pricing. Students learn key features of asset-price behavior and study how researchers test various theoretical models from finance and economics, focusing on advantages and disadvantages of research designs. Intuition behind practical econometric tools is developed and applied to asset pricing questions. By critically evaluating research, students determine which characteristics of an empirical paper influence the finance profession.
Empirical Asset Pricing: Read More [+]

Rules & Requirements
Prerequisites: Graduate level econometrics recommended

PHDBA C270 Workshop in Institutional Analysis 2 Units
Offered through: Business Administration
Terms offered: Spring 2018, Fall 2017, Spring 2017, Fall 2015, Fall 2014, Fall 2013
This seminar features current research of faculty, from UC Berkeley and elsewhere, and of advanced doctoral students who are investigating the efficacy of economic and non-economic forms of organization. An interdisciplinary perspective—combining aspects of law, economics, and organization—is maintained. Markets, hierarchies, hybrids, bureaus, and the supporting institutions of law and politics all come under scrutiny. The aspiration is to progressively build toward a new science of organization.

PHDBA 279B The Political Economy of Capitalism 3 Units
Offered through: Business Administration
Comprehensive introduction to historical development of contemporary capitalism. Class will (1) compare the “classics” in political economy and their alternative explanations of markets, politics, class, and culture in industrial development; (2) provide an overview of the history of the United States economic system and business institutions; and (3) examine competing theories of the corporation.

PHDBA 279A Political Economy: Frameworks 3 Units
Offered through: Business Administration
Terms offered: Fall 2015, Fall 2013, Fall 2011
Surveys recent literature on public decision-making in government institutions, emphasizing a systematic framework for evaluating questions of public policy formation. Explores the new institutionalism in political science, applies the methods of rational choice theory to political problems, and links relevant theoretical and empirical literatures in economics and political science. Considers implications of public choice for corporate strategy and business-government relations.

PHDBA 279C Corporate Strategy and Technology 3 Units
Offered through: Business Administration
Terms offered: Spring 2018, Spring 2017, Spring 2015
The course has two broad objectives: 1) providing an overview of important work (mainly empirical) in the economics of technological change and technology policy; and 2) analyzing the role of technological and organizational innovation in firm strategy and performance.
PHDBA 279D Economic Institutions in Historical Perspective 3 Units
Offered through: Business Administration
Terms offered: Spring 2018, Spring 2017
This course develops the proposition that institutions have pervasive ramifications for understanding economic organization. A comparative institutional approach is employed whereby the transaction is made the basic unit of analysis and alternative modes of organization are assessed with respect to their comparative contracting properties.

Rules & Requirements
Credit Restrictions: This course is not eligible for credit for students who have completed ECON 224A.

Hours & Format
Fall and/or spring: 15 weeks - 2 hours of lecture per week

Additional Details

Subject/Course Level: Ph.D. in Business Administration/Graduate
Grading: Letter grade.

PHDBA 375 Teaching Business 3 Units
Offered through: Business Administration
This course will cover the broad range of knowledge and skills necessary to teach in top business schools. Teaching business effectively requires a myriad of pedagogical styles and techniques, as well as the confidence and preparation necessary to convey the course material. This course seeks to prepare doctoral students for careers as faculty in business schools, giving them the insight and experience that will make their first courses successful ones. Students will learn effective teaching strategies by observing faculty mentors, reading pedagogical texts, and openly discussing the challenges and rewards of business instruction with experienced faculty and graduate student instructors.
