Education

The Graduate School of Education is committed to high-quality scholarship and professionalism in order to prepare future leaders of education practice, policy, and research. Faculty research and teaching are grounded equally in theory and practice. Our research, teaching, and practice approaches support a vision of public education that has as its goal equity and inclusion at all levels — classroom, school, community, district, state, national, and global — and that positively impacts personal growth and social transformation. Our renowned faculty engage students in theoretical and practical studies, providing opportunities to develop interdisciplinary scholarship, as well as to participate in field studies, unpack the history and philosophy of education, and explore cutting-edge research.

The Graduate School of Education offers Doctor of Philosophy (PhD), Master's of Arts (MA), and credential degree programs. The PhD degree is designed for students interested in pursuing scholarly research and academic careers in education. The MA degree serves the interest of students who want to carve out a career in education, either as an education researcher or as an education practitioner. Credential programs, which all contain an MA component, are designed for students who plan to work in schools as teachers, principals, district and county administrators, and school psychologists.

The school also offers an undergraduate minor in Education, which is the second most popular minor program at Berkeley.

MA/PhD Program

Students build their knowledge about education and its policies and practices in a dynamic learning environment facilitates the development of human, organizational, and systemic capacities. The breadth of our faculty’s expertise allows students to conduct research in a number of areas, including:

- Critical Studies of Race, Class, and Gender (https://gse.berkeley.edu/critical-studies-race-class-gender/)
- Culture, Development, and the Learning Sciences (https://gse.berkeley.edu/culture-development-learning-sciences/)
- Policy, Politics, and Leadership (https://gse.berkeley.edu/policy-politics-leadership/)
- Social Research Methodologies (https://gse.berkeley.edu/social-research-methodologies/)

Preparing for K-12

Students learn how to develop professional leadership skills, elevate their understanding of the causes of educational inequality, and contribute to the development of pedagogical, curricular, and policy innovations that provide for greater educational opportunity. We prepare students for a career in one of these fields:

- Classroom teaching
- School site leadership (principals and other administrators)
- District-level/systems leadership; or
- Other education-related fields

Learn more about the GSE’s Professional Programs (https://gse.berkeley.edu/careers-k-12-education/).

Additional Programs

Graduate Group in Science and Mathematics Education (SESAME) (http://gse.berkeley.edu/sesame/)

Informally known as SESAME, this interdisciplinary graduate program is for students who seek advanced expertise in a scientific discipline as well as in educational theory and research methodologies. The course of study leads to a doctoral degree in science, mathematics, or engineering education.

Intersection of Sport and Education (https://gse.berkeley.edu/language-literacy-society-culture/csser/

We investigate the ways in which institutionalized sport both conflicts with and complements the educational missions of American secondary and post-secondary schools.

School Psychology (https://gse.berkeley.edu/school-psychology/school-psychology-program-philosophy/)

Our School Psychology program is based on the assumption that school psychologists, through the skilled application of their knowledge, can work together with teachers and other education professionals to clarify and resolve problems regarding the educational and mental health needs of children in classrooms.

Special Education (Joint Doctoral Program with SF State University) (https://gse.berkeley.edu/cognition-development/joint-special-ed/)

This program prepares leaders in research, teaching, administration, and supervision for the variety of professional needs facing children, youth, and adults with disabilities. It integrates the resources of Berkeley and SFSU, allowing students to combine theoretical interests with applied practices in a broad spectrum of specializations within Special Education.

Admission to the University

Minimum Requirements for Admission

The following minimum requirements apply to all graduate programs and will be verified by the Graduate Division:

1. A bachelor’s degree or recognized equivalent from an accredited institution;
2. A grade point average of B or better (3.0);
3. If the applicant comes from a country or political entity (e.g., Quebec) where English is not the official language, adequate proficiency in English to do graduate work, as evidenced by a TOEFL score of at least 90 on the iBT test, 570 on the paper-and-pencil test, or an IELTS Band score of at least 7 on a 9-point scale (note that individual programs may set higher levels for any of these); and
4. Sufficient undergraduate training to do graduate work in the given field.

Applicants Who Already Hold a Graduate Degree

The Graduate Council views academic degrees not as vocational training certificates, but as evidence of broad training in research methods, independent study, and articulation of learning. Therefore, applicants who already have academic graduate degrees should be able to pursue new subject matter at an advanced level without the need to enroll in a related or similar graduate program.

Programs may consider students for an additional academic master’s or professional master’s degree only if the additional degree is in a distinctly different field.
Applicants admitted to a doctoral program that requires a master’s degree to be earned at Berkeley as a prerequisite (even though the applicant already has a master’s degree from another institution in the same or a closely allied field of study) will be permitted to undertake the second master’s degree, despite the overlap in field.

The Graduate Division will admit students for a second doctoral degree only if they meet the following guidelines:

1. Applicants with doctoral degrees may be admitted for an additional doctoral degree only if that degree program is in a general area of knowledge distinctly different from the field in which they earned their original degree. For example, a physics PhD could be admitted to a doctoral degree program in music or history; however, a student with a doctoral degree in mathematics would not be permitted to add a PhD in statistics.
2. Applicants who hold the PhD degree may be admitted to a professional doctorate or professional master’s degree program if there is no duplication of training involved.

Applicants may apply only to one single degree program or one concurrent degree program per admission cycle.

**Required Documents for Applications**

1. **Transcripts**: Applicants may upload unofficial transcripts with your application for the departmental initial review. *If the applicant is admitted, then official transcripts of all college-level work will be required. Official transcripts must be in sealed envelopes as issued by the school(s) attended. If you have attended Berkeley, upload your unofficial transcript with your application for the departmental initial review. If you are admitted, an official transcript with evidence of degree conferral will not be required.*
2. **Letters of recommendation**: Applicants may request online letters of recommendation through the online application system. Hard copies of recommendation letters must be sent directly to the program, not the Graduate Division.
3. **Evidence of English language proficiency**: All applicants from countries or political entities in which the official language is not English are required to submit official evidence of English language proficiency. This applies to applicants from Bangladesh, Burma, Nepal, India, Pakistan, Latin America, the Middle East, the People’s Republic of China, Taiwan, Japan, Korea, Southeast Asia, most European countries, and Quebec (Canada). However, applicants who, at the time of application, have already completed at least one year of full-time academic course work with grades of B or better at a US university may submit an official transcript from the US university to fulfill this requirement. The following courses will not fulfill this requirement:
   - courses in English as a Second Language,
   - courses conducted in a language other than English,
   - courses that will be completed after the application is submitted, and
   - courses of a non-academic nature.

If applicants have previously been denied admission to Berkeley on the basis of their English language proficiency, they must submit new test scores that meet the current minimum from one of the standardized tests. Official TOEFL score reports must be sent directly from Educational Test Services (ETS). The institution code for Berkeley is 4833. Official IELTS score reports must be mailed directly to our office from the British Council. TOEFL and IELTS score reports are only valid for two years.

**Where to Apply**

Visit the Berkeley Graduate Division application page (http://grad.berkeley.edu/admissions/apply/).

**Normative Time Requirements**

**Normative Time Schedule**

Normative time refers to the amount of time that the Graduate Division has determined it should take a student enrolled full time to complete a particular degree program. The normative time for all doctoral degree programs in the School of Education is six years, whether you enter with an MA or not. The following schedule reflects the maximum time to complete the various stages in PhD programs in order to complete your degree within the six-year limit.

**First Year**
- 1st Semester Coursework
- 2nd Semester First Year Evaluation/ Outline of Program for the MA Degree
- Advance to Candidacy for the MA Degree

**Second Year**
- 3rd Semester Complete MA Degree
- 4th Semester Outline of Program for PhD

**Third Year**
- 5th Semester Complete Prequalifying Review Papers
- 6th Semester Prequalifying Review (Completion of Position Papers and a Dissertation Prospectus)

**Fourth Year**
- 7th Semester Qualifying Examination
- Advance to Candidacy

**Fifth Year**
- 10th Semester Conduct dissertation research

**Sixth Year**
- 11th Semester Report on Progress in Candidacy
- 12th Semester File Dissertation

**Time to Advancement**

**Curriculum**

- EDUC 290A Special Topics Seminars: Policy, Organization, Measurement, and Evaluation [1-4]

Select two Quantitative Methods Courses:

- EDUC 271B Introduction to Qualitative Research Methods [3]

Introductory Courses:

- EDUC 293A/293L Data Analysis in Education Research [4]
examination is to test eligibility of the student for admission to candidacy in consultation with his or her faculty adviser. The purpose of this committee is composed of four faculty members selected by the student for a two or three hour oral examination in the Graduate School of Education. The qualifying examination is required for all doctoral degree programs certifying the adequacy and appropriateness of your preparation for the doctorate. This examination is the University’s means of evaluating and qualifying the candidate for the degree of Doctor of Philosophy in Education and to evaluate his or her ability to complete a satisfactory doctoral dissertation.

CITI Protocol Course Certifications

If conducting research using human subjects, student is required to take the online Collaborative IRB Training Initiative (CITI) course (citiprogram.org/default.asp) and submit a copy of the CITI Course Completion Record with the candidacy application. For more information, contact the Committee for the Protection of Human Subjects at cphs.berkeley.edu.

Time in Candidacy

Dissertation Presentation/Finishing Talk

There is no formal defense of the completed dissertation. Education students are required to schedule a proposal review meeting with their dissertation committee. Students are required to develop the prospectus into a proposal for this purpose.

Required Professional Development
Presentations

Students participate in the annual GSE Research Day.

Professional Conference Presentation

Students present in AERA or other national conferences.

Teaching

The department gives students an opportunity to gain teaching experience. Our students work as graduate student instructors, readers, or tutors not only in Education but also in other departments on campus.

Normative Time Requirements

Total Normative Time is three years. See our website (http://leep.berkeley.edu/leep/signature-pedagogy-design-development-studies/) for a sample timeline.

See our website (http://leep.berkeley.edu/leep/leep-program-study/) for more information.
Field Papers
This is the step that calls for the student to pull together his/her graduate education course work, tutorials, and research into a coherent whole. Student is expected to relate what he/she learned to issues of concern in their field of study, and to be able to take and defend positions on these varying issues. The prequalifying review for EdD students consists of the approval of two position papers and a dissertation prospectus.

Prospectus
The dissertation prospectus is a preliminary version of the dissertation proposal and is usually five to ten pages in length. It is a statement of preliminary work (pilot studies, prior research findings, research goals, hypotheses and methodology) as well as the theories, strategies, and analyses that will be used in the dissertation research.

Qualifying Examination
The qualifying examination is the University’s means of evaluating and certifying the adequacy and appropriateness of your preparation for the doctorate. This examination is required for all doctoral degree programs in the Graduate School of Education. The qualifying examination is an oral examination of two or three hours duration. The examination committee is composed of four faculty members selected by the student in consultation with his or her faculty adviser. The purpose of this examination is to test eligibility of the student for admission to candidacy for the degree of Doctor of Education and to evaluate his or her ability to complete a satisfactory doctoral dissertation.

CITI Protocol Course Certifications
If conducting research uses human subjects, the student is required to take the online Collaborative IRB Training Initiative (CITI) (https://www.citiprogram.org/) course and submit a copy of the CITI Course Completion Record with the candidacy application. For more information, contact the Committee for the Protection of Human Subjects at cphs.berkeley.edu.

Time in Candidacy
Dissertation Presentation/Finishing Talk
There is no formal defense of the completed dissertation. Education students are required to schedule a proposal review meeting with their dissertation committee. Students are required to develop the prospectus into a proposal for this purpose.

Required Professional Development Presentations
Students participate in the annual GSE Research Day.

Professional Conference Presentation
Students present in AERA or other national conferences.

Unit Requirements
Described below are the two plans of study for completing an MA. The plan selected is generally a matter of personal choice. Some programs, however, restrict their students to a designated plan.

Plan I Requirements
Twenty-four semester units and a comprehensive examination, including at least 12 units in 200 series education courses. The remaining units are selected from 100 and 200 series courses in education or related departments, including a School of Education core course. A maximum of one-third of the total units may be taken on a Satisfactory/Unsatisfactory basis. Please note that EDUC 299 courses may not be used to meet the master’s unit requirement.

The MA thesis is the report of a research investigation appropriate to the student’s specialization. It should be succinct but comparable in style, organization, and depth of understanding to investigations of greater scope, such as the dissertations of doctoral candidates. It should offer a critique or synthesis that is the author’s own original contribution. The thesis is written under the supervision of a three-member faculty committee appointed at the time of advancement to candidacy and approved by the head graduate adviser and the dean of the Graduate Division.

Plan II Requirements
Twenty-four semester units and a comprehensive examination, including at least 12 units in 200 series education courses. The remaining units are selected from 100 and 200 series courses in education or related departments, including a School of Education core course. A maximum of one-third of the total units as shown on your transcript may be taken on a Satisfactory/Unsatisfactory basis. Please note that EDUC 299 courses may not be used to meet the master’s unit requirement.

The MA Comprehensive Examination is taken after advancement to candidacy. It can take the form of a written examination or a written seminar paper, which may include an oral examination.

The written examination, taking two or three hours to complete, examines students in their area of specialization.

Examinations are evaluated by the faculty adviser and at least one other faculty member.

The written seminar study is ordinarily completed in connection with an advanced seminar in the student’s field of study. The topic is selected in consultation with both the faculty advisor and the instructor of the seminar. After completing the seminar study, the MA candidate may be required to pass an oral examination.

The faculty advisor and at least one other faculty member evaluate the seminar study.

Curriculum
Courses Required
Cognition & Development—Development in Mathematics and Science (DMS)
EDUC 200A Culture and Cognitive Development: Theoretical Perspectives 3
EDUC 200B Social Development 3

Culture and Cognitive Development: Theoretical Perspectives: Read Less [-]
EDUC 200B Social Development 3 Units
Terms offered: Spring 2015, Spring 2013, Spring 2012
An examination of theory and research on social development from childhood to early adulthood. Review of different theoretical orientations to social cognition, morality, psychosexual development, and the role of social-environmental factors.

Rules & Requirements
Prerequisites: Consent of instructor

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of lecture per week

Additional Details
Subject/Course Level: Education/Graduate
Grading: Letter grade.
Instructor: Turiel

EDUC 200C Culture and Cognitive Development 3 Units
Terms offered: Fall 2012, Fall 2011, Fall 2010
This course explores advanced topic in Piaget's and Vygotsky's frameworks for the analysis of cognition development. Of particular concern is the representation of cultural processes in each treatment. Reading will include primary sources from these authors and contemporary writers who extend and critique the treatment of culture in each.

Rules & Requirements
Prerequisites: 200A and consent of instructor

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of lecture per week

Additional Details
Subject/Course Level: Education/Graduate
Grading: Letter grade.
Instructor: Saxe

EDUC 200D Psychosocial Development: Identity, Culture, and Education 3 Units
Terms offered: Fall 2020, Fall 2019, Fall 2017
This course is a doctoral seminar in developmental psychology, with a broad focus on psychosocial development and its impact on children in educational contexts. The course begins with a discussion of Erikson's psychosocial theory and the sociocultural perspectives of Vygotsky and other theorists. We then review some of the major psychosocial variables related to educational achievement, including competence, motivation, self-concept, self-efficacy, self-regulation, and volition. We touch briefly on moral development and values as psychosocial factors affecting correlates. We examine (a) how social and personal identity factors are used to explain underachievement (e.g., cultural ecological theory and stereotype threat), (b) the role of identity in different cultural groups, (c) the impact of these factors on teacher and student behavior, and (d) the role that identity plays in helping students develop a sense of future.

Rules & Requirements
Prerequisites: One course in statistics

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of lecture per week

Additional Details
Subject/Course Level: Education/Graduate
Grading: Letter grade.
Instructor: Worrell

EDUC 200G Socialization Processes within the Family 3 Units
Terms offered: Prior to 2007
This course provides an overview of theoretical perspectives on family socialization. We review the empirical literature on child-rearing practices and their relationship to children's socioemotional development. We also examine family beliefs and routines in the context of culture and social class. Students in the course write a literature review on a family socialization topic of their choice.

Rules & Requirements
Prerequisites: Graduate Student Standing

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of lecture per week

Additional Details
Subject/Course Level: Education/Graduate
Grading: Letter grade.
Instructor: Holloway
EDUC 200H Cognitive Development: Neo Vygotskian Approaches 3 Units
Terms offered: Prior to 2007
This seminar explores interpretations, extensions, and reformulations of Vygotsky’s writings on cognitive development. The seminar will consider Vygotsky’s books, Thought and Language and Mind in Society, and also read scholars who build on Vygotsky’s seminal ideas—these including his students, like Luria and Leontiev, as well as contemporary writers. A focus throughout the seminar will be on activity-oriented treatments of cognition that incorporate social and historical processes.

EDUC 207B Assessment of Cognitive Functioning 4 Units
Terms offered: Fall 2020, Fall 2019, Fall 2018
This course is a doctoral seminar that covers theories of intelligence, the individual assessment of intellectual functioning and cognitive abilities, and relevant measurement concepts. Students will become familiar with a range of standardized assessment tools and techniques and learn how to administer and interpret some of the commonly used measures. Students also learn about appropriate test use, cultural influences, interpretation, related ethical and legal considerations, and report writing.

Assessment of Cognitive Functioning: Read More [+]
Assessment of Cognitive Functioning: Read Less [-]

EDUC 207C Assessment of Developmental, Learning, and Socio-emotional-behavioral Disorders in Children 4 Units
Terms offered: Spring 2021, Spring 2020, Spring 2019
This is a doctoral seminar in which students learn a variety of assessment techniques and procedures for making diagnostic decisions about the learning strengths and weaknesses and socio-emotional status of children. They learn how to conduct observations and clinical interviews, administer and interpret standardized tests of cognitive and neuropsychological functioning, and interpret behavior rating scales. Finally, they become knowledgeable about the criteria for Special Education eligibility and how to present assessment findings orally and in writing.

EDUC 210 Developmental Psychopathology 2 Units
Terms offered: Fall 2020, Spring 2020
Developmental Psychopathology, which is the study of psychological problems in the context of human development. Students will examine theories and research that seek to explain the developmental origins and pathways by which psychopathology develops during childhood and adolescence. A wide range of influences relevant to the etiology and presentation of psychological and behavioral disorders-biological, cognitive, social, and environmental/societal-will be explored. In addition to childhood precursors of mental health disorders, students will also learn about the developmental consequences of such conditions. Students will also become familiar with the diagnostic criterion for the most common disorder in childhood and adolescence.

EDUC 212 Adolescent Development and the Teaching of Secondary English 3 Units
This graduate seminar relates the goals of secondary English teaching to three major themes in the study of adolescent development: rationality, morality, and identity. These themes are then explored with reference to urban youth, along with other themes emerging from research in urban settings. The theme of identity is pursued further through a consideration of adolescents’ “self-theories” and their motivational consequences. Students write papers on related topics for a class anthology.

EDUC 217 Methods in Educational and Psychological Research 3 Units
Terms offered: Spring 2021, Spring 2020
This course introduces students to the process of evaluating and conducting educational research. Students learn to become critical users of research by reading and evaluating published studies and by practicing formulating problem statements and research questions germane to their research topic of interest. Students learn the basic methods of qualitative and quantitative research and how to engage in applied research by proposing and discussing small-scale studies that can be carried out in their professional settings. The course provides students opportunities to practice crafting, critiquing and revising research questions and developing rigorous but practical methodologies.

EDUC 220A History and Social Studies Methods: Secondary 3 Units
Terms offered: Spring 2021
This class is the second in the two-course series that is grounded in a critical understanding of California's 2016 History-Social Science Framework with the goal of articulating a history-social science pedagogy that humanizes and empowers all students. Our year-long course question is: How can robust history-social science instruction support our students to connect their lives to the past, develop as critical thinkers about past, present, and future challenges, and take actions towards a more just and democratic world? This semester in particular aims to deepen pre-service teachers' understanding of the range of ways scholars have conceptualized U.S. history, world history, economics and civics.

EDUC 221 Curriculum Development and Design 2 Units
Terms offered: Fall 2020
Curriculum Development and Design's central challenge is to create curriculum that expresses your philosophy and knowledge of curriculum and teaching. Using the practical and conceptual tools that you have learned in your coursework and your experience in the field, you will design a unit for your students. The unit will teach significant conceptual understandings and skills while supporting students' academic language development as well as other needs and interests. We will draw on Wiggins and McTighe’s model of “backward design” to guide us through this process.

EDUC 221A Towards Ambitious Instruction in Mathematics: Research Into Practice 3 Units
Terms offered: Fall 2012, Fall 2011, Fall 2010
In this course, students learn to turn mathematics education research into practice through the vehicle of lesson design. Students work in collaborative teams consisting of one beginning mathematics teacher in a teaching credential program and one or more doctoral student researchers. Together each team is responsible for designing, justifying, implementing, researching, and re-designing a lesson that seeks to embody one key aspect of the teacher's vision of effective mathematics instruction.

EDUC 221C Scientific Cognition: Development, Learning, and Instructional Design 3 Units
Terms offered: Spring 2010
Examination of the relation between development, learning, and instruction of scientific cognition, from the perspective of the cognitive developmental and cognition and instruction research literatures. The course project takes the form of the design, implementation and microgenetic analysis of a short-term educational design experiment. Emphasis on K-8.

Rules & Requirements
Prerequisites: Consent of instructor
Hours & Format
Fall and/or spring: 15 weeks - 3 hours of seminar per week

EDUC 222 Politics and Pedagogies at the Intersections of Data, Technologies, and Inequalities 3 Units
Terms offered: Fall 2020
This course examines the societal risks and promises of our data-entrenched society and how classrooms might address the new emergent necessities of democracy.

Rules & Requirements
Repeat rules: Course may be repeated for credit with instructor consent.
Hours & Format
Fall and/or spring: 15 weeks - 3 hours of seminar per week

EDUC 223B Special Problems in Mathematics, Science and Technology Education 2 - 6 Units
Terms offered: Spring 2021, Fall 2020, Spring 2020
Study of special problems and issues in education related to mathematics, science and technology. Sections may vary from semester to semester.

Rules & Requirements
Repeat rules: Course may be repeated for credit with instructor consent.
Hours & Format
Fall and/or spring: 15 weeks - 2-6 hours of lecture per week
EDUC 224 Introduction to Block-Based Programming for Teachers 2 Units

Terms offered: Not yet offered

This course is designed to introduce future Computer Science teachers to fundamental CS concepts through block-based programming. It will cover abstraction and decomposition and how these processes allow problems to be made simpler and solved algorithmically. It will also introduce teachers to the concepts of variables, loops, conditionals, functions, and arrays.

This course will focus on teaching computer science in ways that build on students' intuitive ideas.

EDUC 224A Mathematical Thinking and Problem Solving 3 Units

Terms offered: Fall 2019, Fall 2017, Fall 2015

This course explores contemporary research on mathematical cognition, with a particular emphasis on "higher order thinking skills" and mathematical problem solving. We discuss various frameworks for characterizing mathematical behavior and various methodologies for examining it. As an "action oriented" course in the EMST curricular sequence, this course includes a major course project. In their project, students engage in research incorporating the main ideas studied in the course.

EDUC 224B Paradigmatic Didactical Mathematical Problematic Situations 3 Units

Terms offered: Fall 2018, Fall 2016, Fall 2014

Paradigmatic Didactical Mathematical Problematic Situations are contexts for collaborative inquiry into the practice, epistemology, and pedagogy of mathematics. Building on the Learning Sciences literature, the course creates opportunities for students to engage in interesting mathematical problems from secondary-school content. Final projects include design, implementation, and analysis of a lesson. Meets the "Discipline" programmatic requirement of graduate students in EMST and MACSME.

EDUC 224C Gender, Mathematics and Science 3 Units

Terms offered: Spring 2020, Spring 2017, Spring 2013

The course explores commonly asked questions concerning gender, mathematics, and science. We will discuss whether these are appropriate questions and examine evidence related to the questions. This course will also consider whether policies and practices concerning gender, mathematics, and science should be changed and, if so, identify some of the steps that could be taken to improve the current situation.

EDUC 225 Shaping Education Policy: An Introductory Course for Aspiring Teachers, Researchers, and Policymakers 3 Units
Terms offered: Spring 2021
Understanding education policy is important to improve U.S. public schools. Students have opportunities to read about and analyze the design and implementation of policy, as well as have interactions with individuals who make and influence federal, state and local educational policy. One aim of this course is to support aspiring teachers, researchers, and policymakers to develop a knowledge base about key policies that have informed (and continue to inform) the outcomes of K-12 public schools.

EDUC 226 Constructive Epistemology 3 Units
Terms offered: Fall 2012, Fall 2010, Fall 2008
Many approaches to education take the knowledge to be taught as fixed, and the manipulable objects to be things like methods. By focusing on knowledge per se: what is it; how is it organized and encoded in humans, we are led to questions about what should be taught, based on principles of learnability, etc., rather than just "effective methods." This tactic is valuable in view of the radical changes information technology may have on what we need to teach and what general areas are teachable.

EDUC 229 Methods for Teaching Computer Science 1 Unit
Terms offered: Not yet offered
This course will introduce teachers to principles and practices to effectively teach introductory middle-school and high-school computer science courses. In particular, the course will focus on methods to support students who have been historically marginalized in computer science. Teachers will learn how to promote collaboration and engage in assessment in computer science classes.

EDUC 229D Discourse and Learning in Math and Science Classrooms 3 Units
Terms offered: Spring 2016, Fall 2015, Spring 2015
This seminar is an introduction to research on how language and other forms of communication influence what and how people learn. Students are introduced to influential theories of discourse from sociolinguistics, psycholinguistics, and the philosophy of language and learn about how they have been used to understand learning, especially in math and science classrooms. Students take turns helping lead discussion and complete a project relevant to the topic and their own research interests.

EDUC 229F Conceptual Change 3 Units
Terms offered: Fall 2014, Fall 2013, Fall 2011
"Conceptual change" concerns broad and deep changes in a person’s knowledge about a domain. This opposes it, for example, to the learning of facts and skill acquisition. The course emphasizes recent cognitive science-oriented approaches to: defining "broad and deep" learning; understanding its properties. It draws on diverse other approaches including developmental psychology; analogies to the history of science; "misconceptions;" computational and epistemological approaches.

EDUC C229A Proseminar: Problem Solving and Understanding 3 Units
Terms offered: Spring 2019, Spring 2018, Spring 2016, Fall 2013
Students will examine problem solving in children and adults, from a predominantly cognitive science perspective, beginning with an examination of thinking involved in diverse problem types. Students will then analyze the literature concerning cognitive issues that transcend problem types, including representation, "understanding," access and availability of knowledge, access to one’s own cognitive processing, categorization, the architecture of knowledge, and the control of cognition.

Theoretical Issues in the Study of Literacy: Read Less [-]
EDUC 240C Issues in First and Second Language Acquisition 3 Units
Terms offered: Spring 2014, Spring 2011, Fall 2010
This course deals with issues related to language learning and development in school-age children. How do they acquire the language skills needed for literacy and academic development? How do children make the transition from home to school language use? How do children learn a second language? What happens when learning a second language results in the loss of the first language? We will consider the educational, social and cognitive implications of these issues.

Prerequisites: Course in linguistics or language acquisition

EDUC 240D Foundations of Curriculum Theory in the United States: A Survey 3 Units
Terms offered: Spring 2017, Spring 2016, Fall 2014
This course explores the development of curriculum theory and the role of the curriculum specialist in the United States since the Progressive Period. Emphasizing a survey of classic texts and key figures, the course covers the development of three schools of thought: social efficiency approaches, child-centered approaches, and social reconstructionist approaches. It concludes with a study of curriculum theory since the Reconceptualists.

Prerequisites: Course in linguistics or language acquisition

EDUC 241B Language Socialization 3 Units
Terms offered: Fall 2014, Fall 2013, Fall 2012
Throughout the lifespan we are socialized through language to become competent participants and members of various groups and communities, including schooling institutions. For the past 20 years, this theory and method for analyzing human development has made important contribution to our understanding of how we learn to become competent members of community, how we learn through language, and how we are socialized into language. This course will provide opportunities to overview the theoretical cornerstones of language socialization as a field of study, as well as review current studies and chart future research trajectories. Course participants are expected to collect and analyze audio/video data from any educational and other learning context where language socialization might be taking place.

Prerequisites: Course in linguistics or language acquisition

EDUC 241C Narrative across Learning Contexts 3 Units
Terms offered: Fall 2016, Fall 2012, Fall 2011
The study of narrative has solidified into an important body of literature that is of particular relevance to educators. Across learning contexts, narrative is a ubiquitous literacy tool, and as such, it underlies many learning activities. We tell narratives for their potency to explain, rationalize, and delineate past, present, and possible experience. This narrative act is a collaborative undertaking, co-told and designed with the audience's input, addressing an audience's present and future concerns. Narrative can thus potentially create shared understandings and community among those participating in narrative activity, yet narratives can become sites for rejection and contestation. Narrative is also a socializing tool. The course will also address methodological approaches to the study of narrative that are relevant to the field of education. Students enrolled in this course are expected to collect narrative samples from naturally occurring interactions (video and audio-taped conversation, classroom interaction), written narrative texts, or other.

Prerequisites: Course in linguistics or language acquisition
EDUC 241D Perspectives on Classroom Discourse 3 Units
Terms offered: Fall 2015, Spring 2012
This course is designed to provide opportunities for students to observe and analyze classroom talk and interaction, and the language of classroom material and ideological artifacts. In this course we will survey the classic literature on classroom discourse and we explore new orientations to the study of classroom talk. We will draw from literature from interrelated disciplinary perspectives that include linguistics, language socialization, linguistic anthropology, conversation analysis, ethnomethodology, and the ethnography of speaking.
Perspectives on Classroom Discourse: Read More [+]

EDUC 241E Design, Practice, and Policy in Educational Settings for English Language Learners 3 Units
Terms offered: Summer 2015 10 Week Session, Summer 2013 10 Week Session, Summer 2013 8 Week Session
We will examine the instructional design, practice, and policies that shape educational contexts for English Language Learners (ELLs) in urban schools. The topics address the relationship between language policy, immigration, language development, and the intersections of race and ethnicity. The course will also survey key research on language use, bilingualism, and second language acquisition and how the findings of this research are reflected on educational practices and policies.

Grading: Letter grade.
Instructor: Gutierrez
Advanced Qualitative Methods: Read Less [-]

EDUC 244 Data Mining and Analytics 3 Units
Terms offered: Not yet offered
This course introduces students to the practical fundamentals of data mining and machine learning with just enough theory to aid intuition building. The course is project-oriented, with a project beginning in class every week and to be completed outside of class by the following week, or two weeks for longer assignments. The in-class portion of the project is meant to be collaborative, with the instructor working closely with groups to understand the learning objectives and help them work through any logistics that may be slowing them down. Weekly lectures introduce the concepts and algorithms which will be used in the upcoming project.

EDUC 244C Methods for Teaching English in the Secondary Schools 3 Units
Terms offered: Spring 2021, Spring 2020, Spring 2019
The second semester of the methods course is designed to continue introducing the teaching of English, with a focus on strategies grounded in an understanding of theories of teaching and learning. Besides considering the English curriculum in general, the course focuses special attention on several topics, such as second language learners and the uses of technology in the English classroom. It also explores the uses of portfolios for tracking student learning and for assessing teachers’ growth. By the end of the term, students will have a repertoire of theoretically grounded strategies to use to meet the learning needs of diverse student populations.

EDUC 245A Approaches in Teaching English as a Second Language 3 Units
Terms offered: Summer 2011 10 Week Session, Summer 2009 10 Week Session, Spring 2009
This course is primarily concerned with methods of teaching English as a second language (ESL) to K-12 students and adults. Traditional methods emphasizing the development of structural knowledge, and new methods focused on the development of communications skills, will be examined. Topics include teaching English through content instruction, “structured English immersion,” syllabus and curriculum design, second language reading, and language testing for placement and evaluation.

EDUC 247C New Literacies of Digital Youth 3 Units
Terms offered: Prior to 2007
This course explores new practices of literacy by contemporary youth enabled by digital technologies in places beyond schools. It also assesses how these practices work to enhance or impede literacy and social development in schools. It develops a New Literacy Studies conceptual framework and an ethnography of communications methodological framework for students to understand and analyze these new literacy practices.

EDUC 248 Learning & Identity in a Racially-Structured Society 3 Units
Terms offered: Spring 2019
The central question for this course is “what does it mean to learn in a racially-structured society?” Existing frameworks are often constrained by their theoretical and methodological approaches, often emphasizing the lens of structure, participation, or the individual. This course will explore an emerging body of scholarship in the Learning Sciences that has taken a uniquely interdisciplinary approach to questions of learning, identity, power, politics, and ethics.

EDUC 249B Evaluation and Assessment in Reading and Literacy Instruction 3 Units
Terms offered: Summer 2001 10 Week Session, Summer 2000 10 Week Session, Summer 1999 10 Week Session
Explores both formal (e.g., standardized measures) and informal (e.g., reading inventories, portfolios) measures of assessing reading and writing ability. The course is designed to familiarize students with the most widely used reading measures, to develop competency in administering and interpreting these measures, and to develop an understanding of current issues in the assessment of reading comprehension. Students will explore the issues of cultural bias in testing, the organization and display of student knowledge in different formats, and expectations for the achievement of cultural and linguistic minority students.

EDUC 249C Foundations in Reading (Learning from Text) for Secondary Schools 3 Units
Terms offered: Spring 2018, Summer 2017 8 Week Session, Spring 2016
Introduction to reading and writing in secondary school settings, basic literacy skills, instructional materials and approaches, and assessment procedures appropriate for use in secondary content area courses. Learning from text theory to practice. Foundations in Reading (Learning from Text) for Secondary Schools:

EDUC 250B Second Language Acquisition: Concepts and Theories 3 Units
Terms offered: Fall 2011, Fall 2010, Spring 2009
Psycholinguistic theory and research on the acquisition of second languages by learners at secondary and post-secondary institutions. How do adults learn languages other than their own in instructional settings? What skills can they transfer from their native languages, and literacy in L1 transfer to the way the L2 is used in its spoken and written forms? Exploration of various hypotheses and theories that consider language learning from a linguistic, cognitive and discourse perspective. Topics include: interlanguage hypothesis, input, transfer and variation in second language acquisition, interlanguage strategies, affective and cultural variable, schema theory, speech act and discourse theory, and cross-cultural pragmatics.

EDUC 252B The Ethnography of Literacy 3 Units
Terms offered: Fall 2019, Fall 2018, Fall 2017
This course approaches literacy as a socio-cultural activity and considers recent ethnographic work on reading practices in different educational settings, communities, and historical epochs. By considering how reading is differently conceived and realized in a wide range of contexts, this course will shed light on reading as a historically contingent, ideologically shaped, and socio-culturally organized practice. More specifically, this course has a twofold aim: 1) to introduce students to recent ethnographic research on reading practices; 2) to familiarize them with ethnographic methodology. To this scope, in addition to reading exemplary studies of reading practices, students will also conduct a small-scale ethnographic research project.

EDUC 257 Theoretical Foundations for the Cultural Study of Sport in Education 3 Units
Terms offered: Fall 2020, Fall 2019, Fall 2018
The cultural study of sport examines the ways in which institutionalized physical activity embodies and reflects social meanings and identities. The social practice of sport provides a space in which dominant discourses of race, gender, and social class are reproduced and resisted. As these physical activities become institutionalized, commercialized, and embedded within educational institutions themselves, individuals must navigate a nuanced and often conflicted terrain in their respective participation and performance. This course, then, examines the role of sport in society broadly and the relationship of sport and education more specifically. The curriculum reviews the writing and research on sport and education from a sociological, psychological, and philosophical perspective, with a particular focus on the constructed divide of mind and body, as manifested in the institutional conflicts between school and sport.

EDUC 260E Good Schools for All Children 3 Units
Terms offered: Spring 2010
The course brings together three bodies of knowledge, developed by people who often work quite separately in the academy: philosophical discourses on the aims of education; research on effective schools and instruction; socio-cultural critiques of schooling inequities. Our quest in this course is to derive from these bodies of theory a conceptualization of the good school around the aims of performance, understanding, and justice.

EDUC C260F Machine Learning in Education 3 Units
Terms offered: Spring 2021, Spring 2020, Fall 2018, Fall 2017
This course covers computational approaches to the task of modeling learning and improving outcomes in Intelligent Tutoring Systems (ITS) and Massive Open Online Courses (MOOCs). We will cover theories and methodologies underpinning current approaches to knowledge discovery and data mining in education and survey the latest developments in the broad field of human learning research. The course is project based; teams will be introduced to online learning platforms and their datasets with the objective of pairing data analysis with theory or implementation. Literature review will add context and grounding to projects.

EDUC 261A Organization Theory in Education and Other Social Services 3 Units

EDUC 262G Research on the Education of Teachers 3 Units
Terms offered: Spring 2016, Spring 2015, Spring 2013
The course focuses on research on the education of prospective and practicing teachers, and on the institutional, organizational and policy contexts in which that research has been pursued. It is designed for students who are interested in doing research in this field or in becoming teacher educators, and is built on several organizing questions. What is the work (and workplace) for which teachers are being prepared? What is the occupational conception of teaching that underpins practice, policy, and research? What is the significance of teacher education's fluctuating fortunes and shifting institutional forms? What is the field's capacity for research on teacher education? By comparison with research on teaching and learning, research on the education of teachers has been under-developed both conceptually and methodologically. Throughout the course, we will be judging the accomplishments and limitations of this field of practice and study, and locating opportunities for future research and development.

EDUC 265A Economics of Education and Other Social Services 3 Units
Terms offered: Fall 2012, Fall 2011, Fall 2009
Topics to be considered include the following: alternative methods of assessing the contribution of education to economic growth, demand for education services, education production functions, cost analysis and sectorial planning, economic aspects of innovation.

EDUC 266B School Site Finance and Resources 1 1 Unit
The purpose of this course is to ground aspiring urban school leaders in the essential concepts, skills, and demands related to managing school finance and resources at the site level. Specifically, it will focus on resource allocations and concepts of equity with resources allocations.

EDUC C265C Research Advances in Race, Diversity, and Educational Policy 3 Units
Terms offered: Fall 2020, Fall 2019, Fall 2018
This introductory graduate seminar will engage the research literature on race, diversity, and educational policy to provide a foundation for examining contemporary issues in American public schooling. We will examine research on race, culture, and learning alongside more policy driven research on school structures, governance, finance, politics, and policy. In doing so, we will blend micro level examinations of teaching and learning with macro level considerations of politics and policy.

EDUC 266C School Site Finance and Resources II 2 Units
Terms offered: Summer 2014 10 Week Session
The purpose of this course is to ground aspiring urban school leaders in the essential concepts, skills, and demands related to managing school finance and resources at the site level. Specifically, it will focus on understanding funding sources, analyzing resource allocations, governance related to resource allocations, and leveraging different types of resources.

Fall and/or spring: 15 weeks - 3 hours of lecture per week

EDUC 270B BEAR Center Seminar 2 or 3 Units
Terms offered: Spring 2021, Fall 2020, Spring 2020
This seminar constitutes one of the ways in which the Berkeley Evaluation and Assessment Research (BEAR) Center fulfills its role of supporting student research. The topic of the seminar will change from semester to semester, following themes chosen by the instructor and the participants. The seminar is an opportunity for students and faculty to present their recent and ongoing work for in-depth review and commentary. In addition, visitors to the campus with expertise relevant to the topic(s) under examination will be invited to present at the seminar and join in the discussion. Students taking this course for two units will make a presentation of a current research interest to the seminar. Students taking this course for three units will also be required to attend a one-hour discussion following each presentation and will write a critique of one other student’s presentation.

EDUC 271B Introduction to Qualitative Research Methods 3 Units
Terms offered: Spring 2021, Spring 2019, Spring 2018
Introduces principles and methods commonly associated with qualitative field research in the social sciences. Includes assigned readings on basic methodological topics; structured activities related to research design, research ethics and human subjects protection, data collection, data organization and reduction, data analysis; and field research experience through individual or team projects. Course satisfies the qualitative methods requirement for students in the Policy, Organization, Measurement, and Evaluation (POME) program.

EDUC 271E Issues in Teaching and Learning for Educational Leaders I 3 Units
Terms offered: Prior to 2007
This course explores the educational contexts and experiences of teachers and students in urban schools. The topics that we will cover include issues of race and privilege, the relationship between good teaching and learning in the context of immigration, desegregation efforts, and educational policies towards linguistic and culturally diverse students. We will discuss the politics of access and inclusion, in particular we will examine issues affecting the performance of language learners.

EDUC 271G Research Methods in Educational Leadership: Qualitative Methods 3 Units
Terms offered: Fall 2015, Fall 2013, Fall 2011
This course introduces future educational leaders to the world of qualitative research so that they will be able to read qualitative studies intelligently, and learn to design and conduct qualitatively oriented studies themselves. Beginning with an overview of the epistemological assumptions behind different kinds of research, the course will explore various types of qualitative research approaches and the kinds of topics and queries they support. Students will read and critique examples of published research of various kinds, partially chosen for the interests and inputs of course participants. Next, students will investigate topic development, the various methods of collecting and analyzing qualitative data, and writing the report. The class is designed so that students simultaneously read about and discuss qualitative research, and conduct research themselves.

EDUC 273B Research Group on Policy Implementation 3 Units
Terms offered: Spring 2016, Fall 2015, Spring 2015
This year-long research and writing group is intended for graduate students who plan to specialize in studying educational policy implementation. In the course, we will investigate what happens from the time a policy is enacted until the policy is actually implemented in classrooms, schools, and districts. The centerpiece of the research group is reviewing and providing feedback to members on their works-in-progress related to policy implementation. The goal is to strengthen participants' preparation for research in this area through a combination of consultation and feedback on specific problems related to conceptualizing and enacting high quality research, including but not limited to the formulation of research questions, theory development, research design, data collection, analysis, writing, and publication. We will supplement this activity by reading research together to help build a shared understanding of the different theoretical perspectives that can potentially inform the study of policy implementation, including institutional theory, social movements analysis, conflict perspectives, and organizational learning theory.

EDUC 273C Decision Making Based on Data Evidence 3 Units
Terms offered: Spring 2014, Spring 2012
This course builds on the premise that data evidence is one of the powerful tools that can help us make informed decisions. The course plans to examine and practice effective and thoughtful use of data for educational improvement at all levels of a school district. Main topics include: evaluating policy, programs, and interventions; understanding assessment and key accountability indicators; and becoming a critical consumer of research and evaluation.

Rules & Requirements
Prerequisites: Good Standing in LEEP
Hours & Format

Instructor: Coburn

EDUC 274A Measurement in Education and the Social Sciences I 4 Units
Terms offered: Fall 2020, Fall 2019, Fall 2018
Students will learn good measurement practice by constructing an instrument and investigating its measurement properties (specifically, validity, and reliability). The act of measuring will be positioned as a link between qualitative observations and quantitative measures, and this will be discussed in a variety of contexts, such as interviewing, standardized testing, and performance assessment. We will discuss both classical and modern testing approaches from conceptual and practical points of view.

Rules & Requirements
Prerequisites: Good standing in LEEP

**EDUC 275G Hierarchical and Longitudinal Modeling**  
3 Units  
Terms offered: Fall 2020, Fall 2018, Fall 2017  
The course introduces hierarchical linear and generalized linear models for longitudinal or clustered data. Such models are important in education research where longitudinal development such as learning is of interest and where students are clustered in classes or schools. Other examples of clustering are people nested in neighborhoods, hospitals, or firms. Students will practice formulating and estimating hierarchical models using either educational data sets provided or their own data sets.  
Hierarchical and Longitudinal Modeling: Read More [+]

**Rules & Requirements**

Prerequisites: Linear and logistic regression, 275B or equivalent

**Hours & Format**

Fall and/or spring: 15 weeks - 2 hours of lecture and 2 hours of laboratory per week

Hierarchical and Longitudinal Modeling: Read Less [-]
EDUC 275H Research Group in Multilevel Modeling 1 or 2 Units
Terms offered: Spring 2021, Spring 2020, Spring 2019
Multilevel models are useful when the units of observation are grouped in clusters such as students in schools, patients in hospitals, or prisoners in prisons. The research group is for students who wish to analyze such data or who have an interest in the methodology. In each meeting, we will either discuss students' ongoing research projects, or a methodological topic of interest. Readings (papers, chapters, drafts of student projects) will be distributed a week in advance.
Research Group in Multilevel Modeling: Read More [+]  
Rules & Requirements
Prerequisites: Linear and logistic regression, equivalent to 275B
Repeat rules: Course may be repeated for credit without restriction.

EDUC 276A Introduction to Program Evaluation 3 Units
Terms offered: Fall 2020, Fall 2019, Fall 2018
This course provides an introduction to the field of program evaluation ("programs" might be curriculum innovations, school reorganizations, teacher training reforms, instructional methods innovations, funding programs, or programs in the health or welfare areas). It will give an overview of issues of concern to practicing evaluators, researchers, program managers, and academics interested in field-based research. Those taking the course will be introduced to the history of the field, the basic concepts and intellectual disputes, the major methodological issues, and to some common "models" of how an evaluation ought to be conducted. Based on the understandings of the topics and issues discussed in this course, participants will be asked to conceptualize and design an evaluation in their area of personal and/or professional interests. The purpose of this exercise is for participants to develop skills for framing evaluation questions, designing, and describing an evaluation plan.
Introduction to Program Evaluation: Read More [+]  
Hours & Format

Introduction to Program Evaluation: Read Less [-]
EDUC 276C Practicum in Evaluation 2 - 4 Units
Terms offered: Spring 2015, Fall 2013, Spring 2013
For students involved in an evaluation or assessment project as graduate student researchers or part of a practicum or apprenticeship experience. The purpose of this course is to integrate practical experiences with evaluation theory and research literatures relevant to specific evaluation questions or methods. Also provides additional instructional support to students using project data in courses, position papers, dissertations. Readings relate to evaluation topics (e.g., evaluation of professional development programs, use of student data to evaluate teaching) and discussions focus on design, methodology, and research questions of specific projects being conducted by the students.

Rules & Requirements
Prerequisites: 293A, 293L
Repeat rules: Course may be repeated for credit without restriction.

Hours & Format
Fall and/or spring: 15 weeks - 2 hours of seminar and 4-3 hours of laboratory per week

Practicum in Evaluation: Read More [+]

EDUC 276D Theoretical Issues in Evaluation 3 Units
Terms offered: Spring 2013, Spring 2010, Spring 2008
In this seminar, we will engage in a critical examination of various scholars' theoretical perspectives on some of the fundamental issues in evaluation practice, understand why we should care about these issues and what theorists have to say, how theorists' perspectives reflect their disciplinary training, methodological preferences, and/or their personal evaluation experiences, and the extent to which their theoretical perspectives are or are not connected with evaluation practice.

Rules & Requirements
Prerequisites: 276A

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of seminar per week

Additional Details
Subject/Course Level: Education/Graduate
Grading: Letter grade.
Instructor: Newton

Theoretical Issues in Evaluation: Read Less [-]

EDUC 276E Research Design and Methods for Program and Policy Evaluation 3 Units
Terms offered: Spring 2011, Spring 2009, Spring 2005
This course, designed to graduate students with some prior training to quantitative research methods, will introduce students to a toolkit of methods to enable them to address issues related to "what works" in program and policy evaluation. In addition, the course intends to help students understand the assumptions implicit in each of these approaches. Topics include (1) validity, threats to validity, and causal inference framework; (2) randomized experiments and quasi-experiment designs (regression discontinuity and propensity score matching); (3) multilevel modeling technique used in multi-site evaluation and longitudinal intervention studies; (4) mixed-methods approach; (5) meta-analysis for synthesizing evaluation/empirical studies; and (6) power and sample size in designing new evaluation studies.

Rules & Requirements
Prerequisites: 276A or consent of instructor

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of seminar per week

Additional Details
Subject/Course Level: Education/Graduate
Grading: Letter grade.

EDUC 277A Systemic Educational Reform I 3 Units
Terms offered: Summer 2013 10 Week Session, Summer 2013 8 Week Session, Summer 2011 8 Week Session
At the conclusion of this course you should be able to understand the history of and core concepts associated with accountability and systemic reform, especially those associated with No Child Left Behind and California accountability policy; analyze the strengths and weaknesses of various accountability schemes, particularly in terms of their likely effect on student academic achievement, teacher effectiveness, and organizational flexibility and responsiveness; forge closer connections among your personal experiences as a successful professional educator, your practice-derived theories of education reform, and your readings, presentations, and other activities related to this course to create your own formal, evidence-based theory of systemic educational change; think strategically and systemically about how districts can support schools in increasing student learning and achievement; develop an understanding of initial processes that are essential for undertaking systemic reform at the district level; and frame questions for further inquiry on key topics in the course based on a review of existing literature.

Rules & Requirements
Prerequisites: Admission to the Joint Doctoral Program or consent of instructor

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of lecture per week
Summer: 8 weeks - 6 hours of lecture per week

EDUC 278B Excellence and Equity 2: The Dynamics of Improving Schools and Districts 3 Units
Terms offered: Fall 2014, Spring 2014, Spring 2013
The design of this course starts from the assumption that the question of "what works" in schools is not easily answered. Much of it depends on what sorts of outcomes educators value and hinges on specific conditions schools and districts face. The course aims at developing and refining judgment by looking in-depth at improvement strategies, interventions, or levers for change employed by urban school districts. Given that the theme of the course is school improvement and, given LEEP students' administrative and leadership expertise, the course is envisioned as an opportunity for deep reflection and exchange among knowledgeable actors.

EDUC 279A Resource Management 1 3 Units
Terms offered: Fall 2011, Fall 2009, Fall 2006
This course examines management tools and financial methods of effective leadership of school districts in California. The course will present strategies from both business and educational perspectives and will challenge conventional financial management practices in California school systems. Specific areas of emphasis will be on maximizing the effective use of educational resources (e.g., financial analyses, budget techniques, cost analyses, management information systems), understanding the constraints that influence public school expenditures (e.g., state and federal legislation), and accomplishing the educational objectives of the school system through financial application (cost analysis and project management techniques). The underlying assumption of the course is that informed financial leadership can improve the opportunity to achieve educational achievement and equity in public school organizations.

EDUC 280A Proseminar: Sociocultural Critique of Education 3 Units
Terms offered: Fall 2020, Fall 2019, Fall 2018
These interdisciplinary seminars address a series of questions. In what ways can philosophical, sociological, anthropological, historical, and psychological forms of inquiry be brought together to bear on the analysis of learning, on schooling, and on education more generally? What do we mean by critical and interpretive theories, and what are their relations with social practice? How can education come to constitute itself otherwise than in its current form?

EDUC 280C Research Apprenticeship and Qualitative Methodology Seminar I 3 Units
Terms offered: Fall 2017, Fall 2016, Fall 2015
The emphasis in this course is on the practice of research. Each student, ordinarily in the second year of graduate study, develops a research project with a faculty mentor and carries it out under direction. At the same time, students work together in this seminar. Short written assignments during the first eight weeks result in a research proposal to be carried out by the end of the semester. Students spend about 50 hours on the field research.

EDUC 281A Race, Whiteness Studies and Education 3 Units
Terms offered: Spring 2021, Spring 2019
Course is designed to introduce graduate students to the area of whiteness studies and how it has been taken up by scholars in education, the social sciences and humanities. It asks the student to assess what this innovation within race theory (as well as secondarily within other theories, such as class and gender analysis) produces in terms of knowledge and understanding of a general racial predicament.

EDUC 282 Introduction to Disciplined Inquiry 3 Units
Terms offered: Spring 2021, Spring 2019
How educational researchers ask questions, marshal evidence, and draw conclusions varies widely. This variance is due, in part, to researchers' disciplinary backgrounds, interests, and positionalities, as well as the nature of the phenomena and people being studied. This course builds students' fluency with the basic theoretical and methodological considerations that inform the educational research process.

EDUC 283B Historical Perspectives on American Education 3 Units
Terms offered: Spring 2020, Spring 2017, Spring 2016
Public schooling today reflects a long evolution, producing an institution that embodies social inequalities as well as democratic aspirations. Politicians, teachers, school reformers, and others interested in education invoke elements of this history to justify their efforts. This course examines the relationship of the changing goals, organization, and practices of American schools to broader social, economic, political, and intellectual developments.

EDUC 283D Popular Education 3 Units
Terms offered: Spring 2010, Spring 2009, Spring 2008
The empowerment of adults through democratically structured cooperative study and action directed toward achieving more just and peaceful societies within a life-sustaining global environment. The historical development of theory and practice as well as the current state of this major international educational movement and its associated research model--participatory research--will be examined using case studies and theoretical works. Our principal method will be dialogue.

EDUC 283F Urban Education 3 Units
Terms offered: Fall 2019, Fall 2018, Fall 2017
This course will explore the relationship between macroeconomic and political trends and public education in inner city schools. The impact of these larger societal phenomena upon drop-out rates, school climate, teacher morale, and academic achievement will be investigated through a combination of reading and field research in Oakland and Berkeley schools. An examination and evaluation of current proposals for reform of urban schools will also be included.

EDUC 285 Globalization and International Education 3 Units
Terms offered: Spring 2015, Fall 2012, Spring 2009
What is globalization? What are the implications of living in a "global world" for educational systems? In this course, we explore these questions by first examining various theoretical perspectives on globalization. We will then discuss several major developments associated with globalization that are affecting different levels of education (from primary to university) including the rise in accountability and testing, skills for the "knowledge" economy, and immigration. We will consider the role of international organizations such as the World Bank and the United Nations in shaping international policy and programs. We will also examine the role that the state, local communities, and non-governmental agencies play in providing and improving the quality of education. In the final part of the course, we examine topics including language policy, technology, and strategies to combat educational inequality. To explore these topics, we will read and discuss case studies from Asia, Africa, Latin America, and the United States to provide concrete examples of how global forces are changing the context and content of education internationally.

EDUC C286 The Education of African-American Students 3 Units
Terms offered: Spring 2012, Fall 2010, Spring 2010
This seminar will examine a wide range of perspectives on the education of African American children and adolescents in the United States. Readings will support students in understanding some of the key issues and tensions in African American education and school achievement, including the roles that culture, identity, parents, families, and communities play in the education and schooling of African American students; systemic issues in educational improvement and the perpetuation of "achievement gaps"; and language and power.

EDUC 287 Race, Gender, and Immigration: Citizenship and Education 3 Units
Terms offered: Spring 2013, Spring 2012, Spring 2011
U.S. citizenship has been defined in racialized and gendered terms since the nation's founding. This course explores how those definitions have affected the historical development of U.S. public schooling, particularly the unequal educational opportunities available to racial minorities and women, and how they have affected American approaches to civic education.

EDUC 288 Intersectionality in Education Research 3 Units
Terms offered: Fall 2013, Fall 2012, Fall 2011
This course is designed to explore the theoretical and methodological questions raised by the concept of intersectionality - the idea that human beings possess multiple identities simultaneously. Most of the work in this area has been theoretical. This course acquaints students with that theoretical literature and helps them apply these theories in their empirical work. The goal is to provide students with the background necessary to incorporate intersectionality into their future research.

EDUC 289 Comprehensive Health Education for Teachers 1 Unit
Terms offered: Spring 2021, Spring 2020, Spring 2019
This course addresses comprehensive school health education, including content areas of health instruction in the California Health Framework for teachers K-12, e.g., nutrition, communicable diseases, drug use and abuse, physical fitness, and community health services. For elementary teachers, the focus is on their responsibilities as primary health instructors. For secondary teachers, the focus is on their role as a member of a comprehensive health team with responsibility for providing adolescents with guidance on decision making regarding consumerism, environmental issues, drugs, and sex.

EDUC 291 Purposes and Values in Urban Educational Leadership 3 Units
Terms offered: Summer 2003 10 Week Session
This course examines the relationships among multiple and often competing purposes of public education, dilemmas rooted in a history of persistent race- and class-linked inequities in American schools, and the possibilities and challenges of educational leadership. It highlights the pursuit of educational quality and equity in urban school systems as the organizing problem for educational leadership. Students will use research to analyze leadership practices to strengthen urban education.

EDUC 293V Video-Analysis Seminar 1 - 3 Units
Terms offered: Spring 2018, Fall 2014, Spring 2013
This ongoing seminar is for anyone devoting a significant portion of a given semester to analyzing videotaped records as part of their research. Video-based data are now ubiquitous in educational research and this group is designed to help us all become more savvy at analyzing them. Strands of the seminar, each worth 1 unit of credit, are devoted to participating in video-analysis sessions, reading about video-analysis methods, and completing a paper on your own video-analysis project.

EDUC 294B Thesis Seminar--ELLC 1 - 6 Units
Terms offered: Fall 2020, Spring 2020, Spring 2019
Recommended for students working on seminar papers, qualifying papers, theses, and dissertation proposals in language and literacy studies. # Section 1: Recommended for Ed.D. students and M.A. students working on curriculum projects. # Section 2: Recommended for Ph.D. students and M.A. students working on research studies.

EDUC 294C Seminar on Formulation of Educational Research 1 - 4 Units
Terms offered: Spring 2012, Spring 2011, Spring 2010
Discussion of criteria for useful educational research. Emphasis is on applying these criteria while developing plans for research on topics of interest to the participants.

EDUC 294A Thesis Seminar: Policy, Organization, Measurement, and Evaluation (POME) 1 - 4 Units
Terms offered: Fall 2017, Fall 2016, Fall 2015
Recommended for M.A. students working on seminar papers or theses, and doctoral students preparing dissertation proposals. Topic varies with instructor.

EDUC 460C Research Practicum in Administration 1 - 3 Units
Terms offered: Spring 2019, Summer 2018 8 Week Session, Spring 2018
During the fall semester, students complete 294A in which the preliminary Leadership Action Research Project is designed - a summative assessment for the Principal Leadership Institute and the MA program at Berkeley. Through the LARP process, students engage in a cycle of inquiry about a problem or concern that matters to their overall leadership agenda and creates more equitable spaces in urban schools. In this course, students solidify the design of their LARP, take leadership action to implement their action plan, reflect on the action plan, revise the action plan - and make changes as appropriate - thus, engaging actively in the cycle of inquiry.

Rules & Requirements
Prerequisites: 294A
Repeat rules: Course may be repeated for credit without restriction.

Hours & Format
Fall and/or spring: 15 weeks - 1 hour of lecture and 3-6 hours of fieldwork per week
Summer: 6 weeks - 2.5 hours of lecture and 7.5-15 hours of fieldwork per week
8 weeks - 2 hours of lecture and 6-12 hours of fieldwork per week

Additional Details
Subject/Course Level: Education/Other professional
Grading: Letter grade.
Instructor: Cheung

EDUC 470A Residency: Introduction to School Districts 3 Units
Terms offered: Spring 2008, Fall 2006, Fall 2005
This course is designed to expose students to the role and purpose of school systems. It addresses the school district as service centers for schools as well as leaders of education reform, and explores the relationship between the district and its schools and why and how each serves as a collaborative function to improve and facilitate education excellence.

Rules & Requirements
Prerequisites: Good standing in LEEP
Repeat rules: Course may be repeated for credit without restriction.

Hours & Format
Fall and/or spring: 15 weeks - 2 hours of lecture and 3 hours of fieldwork per week
Summer: 8 weeks - 4 hours of lecture and 6 hours of fieldwork per week

Additional Details
Subject/Course Level: Education/Other professional
Grading: Letter grade.
Instructor: Love

EDUC 470B Residency: Excellence and Equity and Systemic Reform 3 Units
Terms offered: Summer 2011 10 Week Session, Summer 2009 10 Week Session, Spring 2009
Students will meet weekly for one hour with a residency adviser at one of the following campuses: San Francisco State University; California State University, East Bay; or San Jose State University. The residency will require six hours weekly at a school district site to conduct research on curriculum, instruction, assessment, and professional development topics selected by students in conjunction with their faculty counselors and residency advisers in collaboration with the district consultant. An additional two hours weekly will be dedicated to preparation of case study materials from the residency assignment. Students will be expected to present the results of their residency research to the faculty and students of the Joint Doctoral Program.
Residency: Excellence and Equity and Systemic Reform: Read More [+]
Prerequisites: 470A, Good standing in LEEP
Repeat rules: Course may be repeated for credit without restriction.
Hours & Format
Fall and/or spring: 15 weeks - 2 hours of lecture and 3 hours of fieldwork per week
Summer: 8 weeks - 4 hours of lecture and 6 hours of fieldwork per week

EDUC 470C Residency: Decision Making and Resource Management 3 Units
Terms offered: Summer 2012 10 Week Session, Summer 2012 8 Week Session, Summer 2010 10 Week Session
Residencies are a central part of the LEEP curriculum. The goals of the residencies are to give students a first-hand experience of the workings of district or system level administration and encourage them to conduct systematic inquiries in this setting; help them make the transition from school-based actors to district-based actors with an appreciation for systemic and political aspects of that role; anchor theoretical knowledge acquired in campus-based seminars in the practice of management and leadership; and prepare for their dissertation projects.
Residency: Decision Making and Resource Management: Read More [+]
Prerequisites: 470A, Good standing in LEEP
Repeat rules: Course may be repeated for credit without restriction.
Hours & Format
Fall and/or spring: 15 weeks - 2 hours of lecture and 3 hours of fieldwork per week
