**Journalism**

UC Berkeley’s Graduate School of Journalism is looking for the leaders of the next generation of journalists—strongly motivated individuals with reverence for truth, a hunger to discover and to inform, a deep regard for thorough analysis, and an ardent embrace of civic engagement.

The digital explosion has created an unparalleled appetite for news as more and more people hunger to witness, experience, and learn about what’s happening around them. That’s why, more than ever, our world needs professionals who are committed to reporting on contemporary realities with precision and eloquence. You’ll be prepared not just to make a living, but to make a difference.

Our Master of Journalism degree (MJ) demands a rigorous two-year immersion. That commitment is what’s needed for you to achieve the full range of proficiencies you’ll need as a twenty-first-century journalist: narrative writing, audio, photography, broadcast and online video production, multimedia storytelling, data, and investigative-based journalism.

By the end of your second year you will have created a portfolio of ambitious, high-quality work, much of it published—with the help of our exceptional faculty of seasoned journalists. What’s more, a vibrant worldwide network of media professionals, many of them alumni, will be open to you; professionals who fully appreciate what having a Berkeley Master of Journalism degree means. Concurrent degree programs with Law, Asian Studies, International and Area Studies, Latin American Studies, and Public Health are available.

**Admission to the Program**

The Journalism Program requires two statements (Statement of Purpose and Personal History Statement), one PDF of your transcript (official transcript requested if admitted), letters of recommendation, journalist work samples, and resume. All admissions are subject to Graduate Division approval. For full details, see the admissions page on the school’s website (http://journalism.berkeley.edu/admissions).

**Admission to the University**

**Minimum Requirements for Admission**

The following minimum requirements apply to all graduate programs and will be verified by the Graduate Division:

1. A bachelor’s degree or recognized equivalent from an accredited institution;
2. A grade point average of B or better (3.0);
3. If the applicant comes from a country or political entity (e.g., Quebec) where English is not the official language, adequate proficiency in English to do graduate work, as evidenced by a TOEFL score of at least 90 on the iBT test, 570 on the paper-and-pencil test, or an IELTS Band score of at least 7 on a 9-point scale (note that individual programs may set higher levels for any of these); and
4. Sufficient undergraduate training to do graduate work in the given field.

**Applicants Who Already Hold a Graduate Degree**

The Graduate Council views academic degrees not as vocational training certificates, but as evidence of broad training in research methods, independent study, and articulation of learning. Therefore, applicants who already have academic graduate degrees should be able to pursue new subject matter at an advanced level without the need to enroll in a related or similar graduate program.

Programs may consider students for an additional academic master’s or professional master’s degree only if the additional degree is in a distinctly different field.

Applicants admitted to a doctoral program that requires a master’s degree to be earned at Berkeley as a prerequisite (even though the applicant already has a master’s degree from another institution in the same or a closely allied field of study) will be permitted to undertake the second master’s degree, despite the overlap in field.

The Graduate Division will admit students for a second doctoral degree only if they meet the following guidelines:

1. Applicants with doctoral degrees may be admitted for an additional doctoral degree only if that degree program is in a general area of knowledge distinctly different from the field in which they earned their original degree. For example, a physics PhD could be admitted to a doctoral degree program in music or history; however, a student with a doctoral degree in mathematics would not be permitted to add a PhD in statistics.
2. Applicants who hold the PhD degree may be admitted to a professional doctorate or professional master’s degree program if there is no duplication of training involved.

Applicants may apply only to one single degree program or one concurrent degree program per admission cycle.

**Required Documents for Applications**

1. **Transcripts**: Applicants may upload unofficial transcripts with your application for the departmental initial review. If the applicant is admitted, then official transcripts of all college-level work will be required. Official transcripts must be in sealed envelopes as issued by the school(s) attended. If you have attended Berkeley, upload your unofficial transcript with your application for the departmental initial review. If you are admitted, an official transcript with evidence of degree conferral will not be required.

2. **Letters of recommendation**: Applicants may request online letters of recommendation through the online application system. Hard copies of recommendation letters must be sent directly to the program, not the Graduate Division.

3. **Evidence of English language proficiency**: All applicants from countries or political entities in which the official language is not English are required to submit official evidence of English language proficiency. This applies to applicants from Bangladesh, Burma, Nepal, India, Pakistan, Latin America, the Middle East, the People’s Republic of China, Taiwan, Japan, Korea, Southeast Asia, most European countries, and Quebec (Canada). However, applicants who, at the time of application, have already completed at least one year of full-time academic course work with grades of B or better at a US university may submit an official transcript from the US university to fulfill this requirement. The following courses will not fulfill this requirement:
   - courses in English as a Second Language,
   - courses conducted in a language other than English,
   - courses that will be completed after the application is submitted, and
   - courses of a non-academic nature.
If applicants have previously been denied admission to Berkeley on the basis of their English language proficiency, they must submit new test scores that meet the current minimum from one of the standardized tests. Official TOEFL score reports must be sent directly from Educational Test Services (ETS). The institution code for Berkeley is 4833. Official IELTS score reports must be mailed directly to our office from the British Council. TOEFL and IELTS score reports are only valid for two years.

Where to Apply
Visit the Berkeley Graduate Division application page (http://grad.berkeley.edu/admissions/apply).

Unit Requirements
The Master of Journalism (MJ) degree at Berkeley requires the completion of at least 36 semester units of coursework and the submission of a satisfactory master's project. A minimum of 24 units must be earned from coursework in the Graduate School of Journalism. All students are expected to graduate in four consecutive semesters. The Master of Journalism (MJ) degree requires two (S/U) units of credit. The internship requirement is met once a student completes 300 hours of journalistic work under the tutelage of a mentor/supervisor who can vouch for the student’s professional progress. A 2-3 paragraph report is due from both the student and the mentor/supervisor at the end of the internship period. You may combine the hours of two different internships. You may also get additional credits during the academic year as needed if an employer requires this.

Additional Requirements

1. One advanced reporting course is required for each semester after the first semester.
2. Two units from the JOURN 297 can count toward the 36 units requirement. Therefore, 34 of 36 units required for the MJ degree must be from coursework.
3. Submission of an approved master’s project with all valid approvals is required by the announced deadline.
4. Twelve units per semester are required for all Berkeley graduate students.
5. All courses must be taken at Berkeley; credit from other institutions is not transferable.
6. Students may take up to 4 units of JOURN 601 each semester without approval. Approval is required for more than 4 units JOURN 601 in a semester. JOURN 601 units cannot be counted towards the 36 total units requirement.
7. Submission of all required Graduate Division paperwork is required by the announced deadline.
8. All required classes must be taken for a letter grade except for the JOURN 297. Only one-third of total UC master’s credits can be S grades.
9. Up to 12 of the required 36 units for the MJ degree can be from other departments at Berkeley. Graduate-level courses (numbered 200-299) and upper division undergraduate courses (numbered 100-199) are acceptable.
10. Concurrent degree students may have additional or modified requirements and should confirm requirements with a student affairs officer.

Internship/Field Work/Practicum
The Master of Journalism degree requires two (S/U) units of JOURN 297 Credit. The internship requirement is met once a student completes 300 hours of journalistic work under the tutelage of a mentor/supervisor who can vouch for the student’s professional progress. A 2-3 paragraph report is due from both the student and the mentor/supervisor at the end of the internship period. You may combine the hours of two different internships. You may also get additional credits during the academic year as needed if an employer requires this.

Capstone/Master’s Project (Plan II)
The master’s project represents the culmination of two years of study. It can take many forms: a polished piece of in-depth writing, a long-form television story or series of stories, a series of shorter print stories on a single connected theme, a documentary, a radio, photography, multimedia or editing project incorporating original journalistic content. The faculty added a new category that allows a student to fulfill the master’s project requirement as a community site fellow.

Successful completion of the master’s project is a requirement for graduation. While we will encourage you to try to publish your project, the publication is not a requirement for graduation. Work may originate in another course, such as investigative reporting, magazine writing, multimedia, or television. In other words, it does not have to be a special project developed for the master’s tutorial alone. However, the quality of the final project must be more polished and substantial than the work originally produced for another course.

The program’s career services offer a full complement of career planning workshops and opportunities for professional development including
Professional Experience

To work in journalism, students need professional experience. One of the solid benefits of Berkeley's two-year program is our students' unmatched opportunities to get hands-on experience both inside and outside the classroom—covering news and developing enterprise projects for their courses and for individual and group projects, and producing freelance work as reporters or interns for scores of media outlets in the Bay Area and nationally.

Students first build skills and confidence through the J-School's own publications and broadcasts. In the fall of their first year, students learn the basics of reporting while contributing to Richmond Confidential and Oakland North, the School's hyperlocal websites, and creating specialized content for the topical reporting classes. Later, they write long-form articles intended for publication; they produce broadcasts for Berkeley's student radio station, and they develop magazine-style and theme-based television shows that are showcased throughout each semester and welcomed by web-based sites and broadcasters with whom the school has collaborative relations.

Career Services

Our students are well supported when the time comes to plan their moves to internships or jobs in the field. The J-School maintains an extensive database of the best and newest internship and job opportunities drawn from industry newsletters, internet job listings, and contact lists in print, broadcast, and new media. We cull the most interesting prospects and distribute them to students in frequent email bulletins and a weekly internal newsletter. What's more, individual faculty make it a point of pride to keep their own networks fresh and vibrant, and routinely link students to promising opportunities.

Most importantly, we work one-on-one with students. Students fill out questionnaires and meet regularly with our career services director to discuss their aspirations and changing interests, and to develop a strategy to achieve those objectives through freelancing, part-time school year internships, full-time summer internships between the first and second years of the program and finally, a rewarding job—or a demanding startup opportunity—in the media workforce.

We offer workshops to prepare students for interviewing, writing CVs and cover letters, clip selection, job-hunting strategies and making the most of their first internships or jobs. Each year, print, broadcast, and new media organizations send representatives to Berkeley to recruit and interview our students.

Our commitment to students doesn't end at graduation. We are now developing a comprehensive career resources program for students and alumni so that we can provide long-term alumni career services. At the same time, we value and cultivate relationships with graduates who can serve as mentors and contacts for our students.

More information can be found on our website (http://journalism.berkeley.edu/career).

Journalism

**JOURN 200 Reporting the News 3 - 7 Units**

Terms offered: Fall 2019, Fall 2018, Fall 2017

This course is an intensive 15-week research and workshop experience. It provides the foundation for the rest of the curriculum offered at the J-School. 200 Stresses hard news reporting, writing, and editing. In small classes faculty members with extensive experience in newspaper reporting work to develop the scope and quality of the reporting and writing ability of their students. The researching, reporting, rewriting, and editing schedule is extensive and students work on a range of stories covering a broad spectrum of subjects. The aim is to produce professional level work—publishable newspaper stories—in an environment and timeline similar to a professional environment.

JOURN 209 Multimedia Reporting Bootcamp 1 Unit
Terms offered: Fall 2019, Fall 2018, Fall 2017
This is a required one-week intensive multimedia training workshop at the beginning of the fall semester to equip all first-year graduate journalism students with basic knowledge of digital storytelling techniques as well as the use of multimedia equipment and editing software to produce multimedia content. The objective is to train all students—regardless of their planned area of specialty—with some foundational digital skills to be applied during their reporting for the school’s local online news sites in the J200 Intro To Reporting class. The concepts and skills taught during the workshop also will be reaffirmed and expanded over the semester in the Multimedia Skills class.

JOURN 211 News Reporting Laboratory 2 - 4 Units
Terms offered: Fall 2019, Fall 2018, Fall 2017
This course is an intensive laboratory course taken in conjunction with our core reporting class, 200. It is designed to simulate as closely as possible the deadline and production pressures of a modern, multi-media news organization. Students report to the newsroom during the week to receive their reporting assignments. Print, audio, and video elements are gathered, produced, edited, rewritten as necessary and then made available to pre-selected media outlets for publication. Each section will produce a themed final project.

JOURN 233 Advanced Coding Interactive Stories 3 Units
Terms offered: Prior to 2007
This course teaches students code literacy. Beyond the specific skills they learn, students will have a more well-rounded understanding of crucial technologies that influence the news industry in innumerable ways. They become better decision makers when working with technologists, and will help to forge the future of the journalism industry. This class covers prototypical object-oriented programming, an important component in many web coding languages. Topics covered include variables, typecasting, arrays, for-loops, conditional statements, comparison operators, functions, enclosures and cross-domain data requesting. This course will also cover popular data libraries like D3 and Pandas.

**JOURN 255 Law and Ethics 3 Units**  
Terms offered: Fall 2019, Fall 2018, Fall 2017  
The first eight weeks will concentrate on First Amendment and media law, including libel and slander, privacy, free press/fair trial conflicts, and litigation arising from controversial reporting methods. The closing weeks will focus on ethical dilemmas faced by reporters and editors. Using case studies, readings and guest lecturers, the course examines the murkier conflicts that don't necessarily make it to court but nevertheless force difficult newsroom decision-making.

**JOURN 276 Audio on Assignment 3 Units**  
Terms offered: Spring 2020  
Assigned stories are part of life as a professional journalist. This course teaches students how to be creative, resourceful and rigorous in pursuing a wide range of stories, of the sort students could be expected to do as public radio journalists. Students in this class will report early and often, building on their existing audio journalism skills and honing their ability to tell mid-length (5-12 minute) audio journalism stories well. Guest-speakers will include award-winning audio journalists and editors, who will share tips for making audio stories memorable and impactful.  
Audio on Assignment: Read More [+]  

**Rules & Requirements**

JOURN 286 History of Documentary 3 Units
Terms offered: Spring 2020, Spring 2019, Spring 2018
This course covers the evolution of American documentary film from
1920 to the present, with special attention to independent productions
and documentaries for network television. In the works of Fred Wiseman,
Henry Hampton, Lourdes Portillo, Errol Morris, Marlon Riggs, Barbara
Kopple, Orlando Bagwell, the Maysles, and the network staff producers,
we look at the practical problems of making documentaries for a
mass audience. (Required for J-School students who are considering
specializing in documentary.)

**JOURN 290 Editing Workshop 2 or 3 Units**
Terms offered: Spring 2020, Spring 2011, Fall 2009
It can take a lifetime of writing to learn how to critique and revise your work. Hard as writing can be, rewriting -- breaking back into your own framework, rethinking, re-imagining, and revising -- can be harder yet. Sometimes only an editor can help you gain the distance needed to view your work. No matter how good a journalist you may be, an editor can help you reach another stage in your writing process.
