Special Education

The Doctoral Program in Special Education, offered jointly with San Francisco State University, culminates in a PhD degree. The joint program draws on the strengths of both universities in developing leaders and researchers in the field of atypical development and learning.

Students select an area of academic specialization in both special and general education. Faculty and program resources on the two campuses are used to develop advanced knowledge of theory and research in an area of exceptionality. Specializations include human development; early childhood, language and literacy; mathematics, science, and technology; educational policy and administration; and other areas selected by students in consultation with faculty advisers. In the program, students develop three areas of emphasis or specialization.

Courses are taken on both university campuses, and faculty are drawn from both institutions.

Admission to the University

Minimum Requirements for Admission

The following minimum requirements apply to all graduate programs and will be verified by the Graduate Division:

1. A bachelor’s degree or recognized equivalent from an accredited institution;
2. A grade point average of B or better (3.0);
3. If the applicant comes from a country or political entity (e.g., Quebec) where English is not the official language, adequate proficiency in English to do graduate work, as evidenced by a TOEFL score of at least 90 on the iBT test, 570 on the paper-and-pencil test, or an IELTS Band score of at least 7 on a 9-point scale (note that individual programs may set higher levels for any of these); and
4. Sufficient undergraduate training to do graduate work in the given field.

Applicants Who Already Hold a Graduate Degree

The Graduate Council views academic degrees not as vocational training certificates, but as evidence of broad training in research methods, independent study, and articulation of learning. Therefore, applicants who already have academic degrees should be able to pursue new subject matter at an advanced level without the need to enroll in a related or similar graduate program.

Programs may consider students for an additional academic master’s or professional master’s degree only if the additional degree is in a distinctly different field.

Applicants admitted to a doctoral program that requires a master’s degree to be earned at Berkeley as a prerequisite (even though the applicant already has a master’s degree from another institution in the same or a closely allied field of study) will be permitted to undertake the second master’s degree, despite the overlap in field.

The Graduate Division will admit students for a second doctoral degree only if they meet the following guidelines:

1. Applicants with doctoral degrees may be admitted for an additional doctoral degree only if that degree program is in a general area of knowledge distinctly different from the field in which they earned their original degree. For example, a physics PhD could be admitted to a doctoral degree program in music or history; however, a student with a doctoral degree in mathematics would not be permitted to add a PhD in statistics.
2. Applicants who hold the PhD degree may be admitted to a professional doctorate or professional master’s degree program if there is no duplication of training involved.

Applicants may apply only to one single degree program or one concurrent degree program per admission cycle.

Required Documents for Applications

1. Transcripts: Applicants may upload unofficial transcripts with your application for the departmental initial review. If the applicant is admitted, then official transcripts of all college-level work will be required. Official transcripts must be in sealed envelopes as issued by the school(s) attended. If you have attended Berkeley, upload your unofficial transcript with your application for the departmental initial review. If you are admitted, an official transcript with evidence of degree conferral will not be required.
2. Letters of recommendation: Applicants may request online letters of recommendation through the online application system. Hard copies of recommendation letters must be sent directly to the program, not the Graduate Division.
3. Evidence of English language proficiency: All applicants from countries or political entities in which the official language is not English are required to submit official evidence of English language proficiency. This applies to applicants from Bangladesh, Burma, Nepal, India, Pakistan, Latin America, the Middle East, the People’s Republic of China, Taiwan, Japan, Korea, Southeast Asia, most European countries, and Quebec (Canada). However, applicants who, at the time of application, have already completed at least one year of full-time academic course work with grades of B or better at a US university may submit an official transcript from the US university to fulfill this requirement. The following courses will not fulfill this requirement:
   • courses in English as a Second Language,
   • courses conducted in a language other than English,
   • courses that will be completed after the application is submitted, and
   • courses of a non-academic nature.

If applicants have previously been denied admission to Berkeley on the basis of their English language proficiency, they must submit new test scores that meet the current minimum from one of the standardized tests. Official TOEFL score reports must be sent directly from Educational Test Services (ETS). The institution code for Berkeley is 4833. Official IELTS score reports must be mailed directly to our office from the British Council. TOEFL and IELTS score reports are only valid for two years.

Where to Apply

Visit the Berkeley Graduate Division application page (http://grad.berkeley.edu/admissions/apply).

EDUC 275B Data Analysis in Educational Research II 4
EDUC 275L Educational Data Analysis Laboratory II 1
EDUC 293A Data Analysis in Education Research 4
EDUC 293L Educational Data Analysis Laboratory 1
EDUC 299 Special Study and Research 1-12

Courses Required at SFSU
SPED 902: Seminar in Program Development
SPED 903: Research in Special Education: Program Design and Analysis
SPED 905: University-level Teaching Internship (RECOMMENDED, not required).
SPED 907: Learning and Development: The Influence of Disabilities
SPED 908: Directed Special Study Topics
SPED 909: Current Issues in Special Education Policy and Practice

Additional Courses per Area of Study (Concentrations)
Areas of Study: Early Childhood Special Education; Communicative Disorders; Deaf/Hard of Hearing; Mild/Moderate Disabilities; Autism Spectrum; Moderate Severe Disabilities; Physical Disabilities & Augmentative & Alternative Communication; Visual Impairment; Orientation & Mobility
3 Areas of Specialization required within the Area of Study requiring 3 UCB Graduate courses (or 9 semester units) per each area of specialization as approved by adviser
Foundational courses (SFSU) approved by adviser for Area of Study as needed per possible individual student background deficiencies

Special Education

EDUC 200A Culture and Cognitive Development: Theoretical Perspectives 3 Units
Terms offered: Fall 2016, Fall 2015, Spring 2015
The seminar explores Piaget’s and Vygotsky’s seminal frameworks for the analysis of cognitive development and recent extensions of their work. A focus will be on culture and its representation in treatments of cognition.
Culture and Cognitive Development: Theoretical Perspectives: Read More [+ ]

Rules & Requirements
Prerequisites: Consent of instructor

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of lecture per week

Additional Details
Subject/Course Level: Education/Graduate
Grading: Letter grade.
Instructor: Saxe

Culture and Cognitive Development: Theoretical Perspectives: Read Less [-]

EDUC 200B Social Development 3 Units
Terms offered: Spring 2015, Spring 2013, Spring 2012
An examination of theory and research on social development from childhood to early adulthood. Review of different theoretical orientations to social cognition, morality, psychosexual development, and the role of social-environmental factors.
Social Development: Read More [+ ]

Rules & Requirements
Prerequisites: Consent of instructor

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of lecture per week

Grading: Letter grade.
Instructor: Turiel

Social Development: Read Less [-]

EDUC 200C Culture and Cognitive Development 3 Units
Terms offered: Fall 2012, Fall 2011, Fall 2010
This course explores advanced topic in Piaget’s and Vygotsky’s frameworks for the analysis of cognition development. Of particular concern is the representation of cultural processes in each treatment. Reading will include primary sources from these authors and contemporary writers who extend and critique the treatment of culture in each.
Culture and Cognitive Development: Read More [+ ]

Rules & Requirements
Prerequisites: 200A and consent of instructor

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of lecture per week

Instructor: Saxe

Culture and Cognitive Development: Read Less [-]
EDUC 200D Psychosocial Development: Identity, Culture, and Education 3 Units
Terms offered: Fall 2019, Fall 2017, Fall 2016
This course is a doctoral seminar in developmental psychology, with a broad focus on psychosocial development and its impact on children in educational contexts. The course begins with a discussion of Erikson’s psychosocial theory and the sociocultural perspectives of Vygotsky and other theorists. We then review some of the major psychosocial variables related to educational achievement, including competence, motivation, self-concept, self-efficacy, self-regulation, and volition. We touch briefly on moral development and values as psychosocial factors affecting correlates. We examine (a) how social and personal identity factors are used to explain underachievement (e.g., cultural ecological theory and stereotype threat), (b) the role of identity in different cultural groups, (c) the impact of these factors on teacher and student behavior, and (d) the role that identity plays in helping students develop a sense of future.

Prerequisites: One course in statistics

Rules & Requirements

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of lecture per week

Additional Details

Subject/Course Level: Education/Graduate
Grading: Letter grade.

Psychosocial Development: Identity, Culture, and Education: Read Less [-]

EDUC 200H Cognitive Development: Neo Vygotskian Approaches 3 Units
Terms offered: Prior to 2007
This seminar explores interpretations, extensions, and reformulations of Vygotsky’s writings on cognitive development. The seminar will consider Vygotsky’s books, Thought and Language and Mind in Society, and also read scholars who build on Vygotsky’s seminal ideas--these including his students, like Luria and Leontiev, as well as contemporary writers. A focus throughout the seminar will be on activity-oriented treatments of cognition that incorporate social and historical processes.

Prerequisites: EDUC 200A or consent of instructor

Rules & Requirements

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of seminar per week

Additional Details

Subject/Course Level: Education/Graduate
Grading: Letter grade.
Instructor: Saxe

Cognitive Development: Neo Vygotskian Approaches: Read Less [-]

EDUC 200G Socialization Processes within the Family 3 Units
Terms offered: Prior to 2007
This course provides an overview of theoretical perspectives on family socialization. We review the empirical literature on child-rearing practices and their relationship to children’s socioemotional development. We also examine family beliefs and routines in the context of culture and social class. Students in the course write a literature review on a family socialization topic of their choice.

Prerequisites: Graduate Student Standing

EDUC 202A Development of Elementary Numerical Understandings 3 Units
Terms offered: Spring 2017
The seminar examines seminal and contemporary conceptual and empirical literature on the development of elementary mathematical understandings. Key themes will include: (a) children's developing mathematical understandings; (b) children's developing use of varied representational forms in problem solving (number lines, area models, discrete models); (c) children's and adults' participation in varied in-and out-of-school collective practices that support mathematical thinking.

EDUC 204C Research Seminars: Inquiry in Educational Psychology 3 Units
Terms offered: Spring 2020, Fall 2019, Spring 2019
The doctoral program in Educational Psychology requires that students complete extensive projects of documentary and empirical research. As they engage in these projects, students will enroll (ordinarily during alternate years) in appropriate sections of this seminar. At each meeting, participants will present their own projects, and analyze those presented by others.

EDUC 205 Instruction and Development 3 Units
Terms offered: Spring 2016, Spring 2015, Spring 2014
Examination of cognitive developmental approaches and their implication to instruction. Review of different learning theories that frame current issues of instructional design, teaching, and motivation, in relationship to educational equity and teacher learning/development.

EDUC 207B Assessment of Cognitive Functioning 4 Units
Terms offered: Fall 2019, Fall 2018, Fall 2017
Theories of intelligence as applied to the assessment of intelligence, measurement concepts applied to intelligence tests, development, administration and interpretation of the WISC-R, Stanford-Binet, and other issues pertaining to intelligence testing. Current controversial issues in testing, including issues pertaining to test bias and legal aspects of testing.

EDUC 207C Assessment of Developmental, Learning, and Socio-emotional-behavioral Disorders in Children 4 Units
Terms offered: Spring 2020, Spring 2019, Spring 2018
Reviews current criteria for eligibility for programs for the handicapped and evaluates available procedures for making diagnostic decisions. Special topics may include diagnosis of learning disabilities, mental retardation, neurological handicaps, emotional and behavioral disorders.
EDUC 207D Assessment and Education of Exceptional Pupils in Regular Classes 2 Units
Terms offered: Fall 2019, Fall 2018, Fall 2017
Methods for assessment of handicapped children and implication for their education in regular classes. Such topics as nondiscriminating testing, least restrictive environments, alternative programs, parent communication, interpersonal relationships, characteristics, behavior of exceptional pupils are covered in studies of individual exceptional children in regular classes.
Assessment and Education of Exceptional Pupils in Regular Classes: Read More [+]

EDUC 212 Adolescent Development and the Teaching of Secondary English 3 Units
This graduate seminar relates the goals of secondary English teaching to three major themes in the study of adolescent development: rationality, morality, and identity. These themes are then explored with reference to urban youth, along with other themes emerging from research in urban settings. The theme of identity is pursued further through a consideration of adolescents’ “self-theories” and their motivational consequences. Students write papers on related topics for a class anthology.

**EDUC 221A Towards Ambitious Instruction in Mathematics: Research Into Practice 3 Units**  
Terms offered: Fall 2012, Fall 2011, Fall 2010
In this course, students learn to turn mathematics education research into practice through the vehicle of lesson design. Students work in collaborative teams consisting of one beginning mathematics teacher in a teaching credential program and one or more doctoral student researchers. Together each team is responsible for designing, justifying, implementing, researching, and re-designing a lesson that seeks to embody one key aspect of the teacher's vision of effective mathematics instruction.

Special Problems in Mathematics, Science and Technology Education: Read Less [-]
EDUC 224A Mathematical Thinking and Problem Solving 3 Units
Terms offered: Fall 2019, Fall 2017, Fall 2015
This course explores contemporary research on mathematical cognition, with a particular emphasis on "higher order thinking skills" and mathematical problem solving. We discuss various frameworks for characterizing mathematical behavior and various methodologies for examining it. As an "action oriented" course in the EMST curriculum sequence, this course includes a major course project. In their project, students engage in research incorporating the main ideas studied in the course.

EDUC 224B Paradigmatic Didactical Mathematical Problematic Situations 3 Units
Terms offered: Fall 2018, Fall 2016, Fall 2014
Paradigmatic Didactical Mathematical Problematic Situations are contexts for collaborative inquiry into the practice, epistemology, and pedagogy of mathematics. Building on the Learning Sciences literature, the course creates opportunities for students to engage in interesting mathematical problems from secondary-school content. Final projects include design, implementation, and analysis of a lesson. Meets the "Discipline" programmatic requirement of graduate students in EMST and MACSME.

EDUC 224C Gender, Mathematics and Science 3 Units
Terms offered: Spring 2017, Spring 2013, Spring 2009
The course explores commonly asked questions concerning gender, mathematics, and science. We will discuss whether these are appropriate questions and examine evidence related to the questions. This course will also consider whether policies and practices concerning gender, mathematics, and science should be changed and, if so, identify some of the steps that could be taken to improve the current situation.

EDUC 224D Survey of Current Research and Issues in Mathematics Education 3 Units
Terms offered: Fall 2013, Spring 2013, Spring 2012
This course builds foundational knowledge of important contemporary issues and research in mathematics education. The seminar is designed around readings, discussion, and course activities aimed at developing a comprehensive grounding in the literature on current research and innovations in mathematics education as well as historical debates surrounding student achievement, curriculum, teaching practice, and teacher preparation.
EDUC 226 Constructive Epistemology 3 Units
Terms offered: Fall 2012, Fall 2010, Fall 2008
Many approaches to education take the knowledge to be taught as fixed, and the manipulable objects to be things like methods. By focusing on knowledge per se: what is it; how is it organized and encoded in humans, we are led to questions about what should be taught, based on principles of learnability, etc., rather than just “effective methods.” This tactic is valuable in view of the radical changes information technology may have on what we need to teach and what general areas are teachable.
Constructive Epistemology: Read More [+]

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of lecture per week

EDUC 228A Qualitative Methodology 3 Units
Terms offered: Spring 2016, Spring 2015, Spring 2014
The course will be organized by principal activities: group readings, book reports, expert and novice methodology presentations, in-class research and analysis, and student research. For each activity, we will look at the full breadth of methodology, from “how-to” methods and specific areas of concern to general questions including: what constitutes objective data, what are strengths and weaknesses of methods in regard to various issues, and what are the relations between theory and data?

EDUC 229D Discourse and Learning in Math and Science Classrooms 3 Units
Terms offered: Spring 2016, Fall 2015, Spring 2015
This seminar is an introduction to research on how language and other forms of communication influence what and how people learn. Students are introduced to influential theories of discourse from sociolinguistics, psycholinguistics, and the philosophy of language and learn about how they have been used to understand learning, especially in math and science classrooms. Students take turns helping lead discussion and complete a project relevant to the topic and their own research interests.

EDUC 229F Conceptual Change 3 Units
Terms offered: Fall 2014, Fall 2013, Fall 2011
"Conceptual change" concerns broad and deep changes in a person’s knowledge about a domain. This opposes it, for example, to the learning of facts and skill acquisition. The course emphasizes recent cognitive science-oriented approaches to: defining "broad and deep" learning; understanding its properties. It draws on diverse other approaches including developmental psychology; analogies to the history of science; "misconceptions;" computational and epistemological approaches.

EDUC 231C Teaching, Learning and Equity III
3 Units
Terms offered: Spring 2020, Spring 2019
This course promotes understanding of equitable approaches to teaching and learning in the context of public education in California as well as our nation. It explores policy and practice that promote or restrict students’ access to an equitable education. It also focuses on conceptual frameworks and pedagogical/curricular strategies that support the creation of inclusive educational spaces. A main goal of this course is to support educators develop a knowledge base about key policies that have shaped (and continue to shape) the outcomes of students in K-12. The course also provides opportunities for the examination and recognition of our own values and dispositions and how they might influence teaching and learning.

EDUC 241B Language Socialization 3 Units
Terms offered: Fall 2014, Fall 2013, Fall 2012
Throughout the lifespan we are socialized through language to become competent participants and members of various groups and communities, including schooling institutions. For the past 20 years, this theory and method for analyzing human development has made important contribution to our understanding of how we learn to become competent members of community, how we learn through language, and how we are socialized into language. This course will provide opportunities to overview the theoretical cornerstones of language socialization as a field of study, as well as review current studies and chart future research trajectories. Course participants are expected to collect and analyze audio/video data from any educational and other learning context where language socialization might be taking place. Language Socialization: Read More [+]

Language Socialization: Read Less [-]
EDUC 241C Narrative across Learning Contexts 3 Units
Terms offered: Fall 2016, Fall 2012, Fall 2011
The study of narrative has solidified into an important body of literature that is of particular relevance to educators. Across learning contexts, narrative is a ubiquitous literacy tool, and as such, it underlies many learning activities. We tell narratives for their potency to explain, rationalize, and delineate past, present, and possible experience. This narrative act is a collaborative undertaking, co-told and designed with the audience's input, addressing an audience's present and future concerns. Narrative can thus potentially create shared understandings and community among those participating in narrative activity, yet narratives can become sites for rejection and contestation. Narrative is also a socializing tool. The course will also address methodological approaches to the study of narrative that are relevant to the field of education. Students enrolled in this course are expected to collect narrative samples from naturally occurring interactions (video and audio-taped conversation, classroom interaction), written narrative texts, or other.

EDUC 241D Perspectives on Classroom Discourse 3 Units
Terms offered: Fall 2015, Spring 2012
This course is designed to provide opportunities for students to observe and analyze classroom talk and interaction, and the language of classroom material and ideological artifacts. In this course we will survey the classic literature on classroom discourse and we explore new orientations to the study of classroom talk. We will draw from literature from interrelated disciplinary perspectives that include linguistics, language socialization, linguistic anthropology, conversation analysis, ethnomethodology, and the ethnography of speaking.

EDUC 241E Design, Practice, and Policy in Educational Settings for English Language Learners 3 Units
Terms offered: Summer 2015 10 Week Session, Summer 2013 10 Week Session, Summer 2013 8 Week Session
We will examine the instructional design, practice, and policies that shape educational contexts for English Language Learners (ELLs) in urban schools. The topics address the relationship between language policy, immigration, language development, and the intersections of race and ethnicity. The course will also survey key research on language use, bilingualism, and second language acquisition and how the findings of this research are reflected on educational practices and policies.

EDUC 243 Advanced Qualitative Methods 3 Units
Terms offered: Fall 2019, Fall 2018, Fall 2017
The goal of this class is to provide students with ongoing opportunities to expand their qualitative methodological toolkit, with particular emphasis on the following topics: developing a conceptual framework, study design, data collection, data analysis and representation, and writing social sciences research. These topics will be examined in the context of the design, development, and write-up of students' own research.
EDUC 244B Methods for Teaching English in the Secondary Schools 4 Units
Terms offered: Fall 2019, Fall 2018, Fall 2017
This methods course introduces the teaching of secondary English. It focuses on theories for grounding classroom decisions and connects theory and practice. The course models effective approaches to teaching English and introduces issues in constructing a secondary English curriculum. Students gain a foundation for developing plans for lessons and units of instruction as well as a sense of how to build academic communities of diverse learners, including non-native speakers of English.

EDUC 244C Methods for Teaching English in the Secondary Schools 3 Units
Terms offered: Spring 2020, Spring 2019, Spring 2018
The second semester of the methods course is designed to continue introducing the teaching of English, with a focus on strategies grounded in an understanding of theories of teaching and learning. Besides considering the English curriculum in general, the course focuses special attention on several topics, such as second language learners and the uses of technology in the English classroom. It also explores the uses of portfolios for tracking student learning and for assessing teachers’ growth. By the end of the term, students will have a repertoire of theoretically grounded strategies to use to meet the learning needs of diverse student populations.

EDUC 245A Approaches in Teaching English as a Second Language 3 Units
Terms offered: Summer 2011 10 Week Session, Summer 2009 10 Week Session, Spring 2009
This course is primarily concerned with methods of teaching English as a second language (ESL) to K-12 students and adults. Traditional methods emphasizing the development of structural knowledge, and new methods focused on the development of communications skills, will be examined. Topics include teaching English through content instruction, “structured English immersion,” syllabus and curriculum design, second language reading, and language testing for placement and evaluation.

EDUC 246A Teaching Linguistic and Cultural Minority Students 1 - 3 Units
Terms offered: Spring 2019, Spring 2018, Spring 2017
The objective of this course is to prepare teachers to work with linguistic minority students. We will consider ways in which different groups socialize children for learning and ways in which learning patterns acquired in the home can conflict with the culture of school. Student teachers will consider instructional approaches for working with linguistically and culturally diverse students in their classrooms.

EDUC 247A Approaches in Teaching English as a Second Language 3 Units
Terms offered: Summer 2011 10 Week Session, Summer 2009 10 Week Session, Spring 2009
This course is primarily concerned with methods of teaching English as a second language (ESL) to K-12 students and adults. Traditional methods emphasizing the development of structural knowledge, and new methods focused on the development of communications skills, will be examined. Topics include teaching English through content instruction, “structured English immersion,” syllabus and curriculum design, second language reading, and language testing for placement and evaluation.

EDUC 248A Teaching Linguistic and Cultural Minority Students 1 - 3 Units
Terms offered: Spring 2019, Spring 2018, Spring 2017
The objective of this course is to prepare teachers to work with linguistic minority students. We will consider ways in which different groups socialize children for learning and ways in which learning patterns acquired in the home can conflict with the culture of school. Student teachers will consider instructional approaches for working with linguistically and culturally diverse students in their classrooms.

EDUC 249A Approaches in Teaching English as a Second Language 3 Units
Terms offered: Summer 2011 10 Week Session, Summer 2009 10 Week Session, Spring 2009
This course is primarily concerned with methods of teaching English as a second language (ESL) to K-12 students and adults. Traditional methods emphasizing the development of structural knowledge, and new methods focused on the development of communications skills, will be examined. Topics include teaching English through content instruction, “structured English immersion,” syllabus and curriculum design, second language reading, and language testing for placement and evaluation.

EDUC 248 Learning & Identity in a Racially-Structured Society 3 Units
Terms offered: Spring 2019
The central question for this course is “what does it mean to learn in a racially-structured society?” Existing frameworks are often constrained by their theoretical and methodological approaches, often emphasizing the lens of structure, participation, or the individual. This course will explore an emerging body of scholarship in the Learning Sciences that has taken a uniquely interdisciplinary approach to questions of learning, identity, power, politics, and ethics.

EDUC 249B Evaluation and Assessment in Reading and Literacy Instruction 3 Units
Terms offered: Summer 2001 10 Week Session, Summer 2000 10 Week Session, Summer 1999 10 Week Session
Explores both formal (e.g., standardized measures) and informal (e.g., reading inventories, portfolios) measures of assessing reading and writing ability. The course is designed to familiarize students with the most widely used reading measures, to develop competency in administering and interpreting these measures, and to develop an understanding of current issues in the assessment of reading comprehension. Students will explore the issues of cultural bias in testing, the organization and display of student knowledge in different formats, and expectations for the achievement of cultural and linguistic minority students.

EDUC 250B Second Language Acquisition: Concepts and Theories 3 Units
Terms offered: Fall 2011, Fall 2010, Spring 2009
Psycholinguistic theory and research on the acquisition of second languages by learners at secondary and post-secondary institutions. How do adults learn languages other than their own in instructional settings? What skills can they transfer from their native languages, and literacy in L1 transfer to the way the L2 is used in its spoken and written forms? Exploration of various hypotheses and theories that consider language learning from a linguistic, cognitive and discourse perspective. Topics include: interlanguage hypothesis, input, transfer and variation in second language acquisition, interlanguage strategies, affective and cultural variable, schema theory, speech act and discourse theory, and cross-cultural pragmatics.

EDUC 250E Multilingualism 3 Units
Terms offered: Spring 2015, Fall 2013
Many people today grow up, live and work in different languages and cultures. How do they experience the superdiversity of today's world? This course gives a multidisciplinary overview of individual and societal multilingualism with particular focus on: language standardization, linguistic diversity and hybridity, language rights and ideologies, the challenges presented by heteroglossia, multimodality, multiliteracy and the multilingual identity of the multilingual individual.

EDUC 251 The History of College Sports in the United States 3 Units
Terms offered: Prior to 2007
Elite intercollegiate competition is unique to the United States. How and why did it evolve in isolation from the rest of the world? The expansion and democratization of public universities, the Industrial revolution, and student organizations contributed to this emerging phenomenon, and the course continues with an exploration of the social, cultural, political, and economic forces that have shaped what today we call college sports.

EDUC 252A Reading Research: Sociocognitive Perspective 3 Units
Terms offered: Fall 2012, Fall 2010, Fall 2009
An examination of selected topics on reading research including historical aspects of reading research, word recognition, reading comprehension, the relationship between decoding and comprehension, attitudes toward reading, and models of the reading process.

EDUC 252B The Ethnography of Literacy 3 Units
Terms offered: Fall 2019, Fall 2018, Fall 2017
This course approaches literacy as a socio-cultural activity and considers recent ethnographic work on reading practices in different educational settings, communities, and historical epochs. By considering how reading is differently conceived and realized in a wide range of contexts, this course will shed light on reading as a historically contingent, ideologically shaped, and socio-culturally organized practice. More specifically, this course has a twofold aim: 1) to introduce students to recent ethnographic research on reading practices; 2) to familiarize them with ethnographic methodology. To this scope, in addition to reading exemplary studies of reading practices, students will also conduct a small-scale ethnographic research project.
EDUC 253A Research in Writing 3 Units  
Terms offered: Fall 2010, Spring 2008, Spring 2006  
Critical examination of major theories and approaches to research in writing. Preparation for designing and conducting research projects on the written language.  
Research in Writing: Read More [+]

EDUC 257 Theoretical Foundations for the Cultural Study of Sport in Education 3 Units  
Terms offered: Fall 2019, Fall 2018, Fall 2017  
The cultural study of sport examines the ways in which institutionalized physical activity embodies and reflects social meanings and identities. The social practice of sport provides a space in which dominant discourses of race, gender, and social class are reproduced and resisted. As these physical activities become institutionalized, commercialized, and embedded within educational institutions themselves, individuals must navigate a nuanced and often conflicted terrain in their respective participation and performance. This course, then, examines the role of sport in society broadly and the relationship of sport and education more specifically. The curriculum reviews the writing and research on sport and education from a sociological, psychological, and philosophical perspective, with a particular focus on the constructed divide of mind and body, as manifested in the institutional conflicts between school and sport.

EDUC 260E Good Schools for All Children 3 Units
Terms offered: Spring 2010
The course brings together three bodies of knowledge, developed by people who often work quite separately in the academy: philosophical discourses on the aims of education; research on effective schools and instruction; socio-cultural critiques of schooling inequities. Our quest in this course is to derive from these bodies of theory a conceptualization of the good school around the aims of performance, understanding, and justice.

EDUC C260F Machine Learning in Education 3 Units
Terms offered: Spring 2020, Fall 2018, Fall 2017
This course covers computational approaches to the task of modeling learning and improving outcomes in Intelligent Tutoring Systems (ITS) and Massive Open Online Courses (MOOCs). We will cover theories and methodologies underpinning current approaches to knowledge discovery and data mining in education and survey the latest developments in the broad field of human learning research. The course is project based; teams will be introduced to online learning platforms and their datasets with the objective of pairing data analysis with theory or implementation. Literature review will add context and grounding to projects.

EDUC 261A Organization Theory in Education and Other Social Services 3 Units
Terms offered: Spring 2019, Spring 2018, Spring 2017
Concepts of power, authority, legitimacy, professions, controls, incentives, etc., as they apply to education or other social services.

EDUC 262A Urban School Leadership and Management 1 3 Units
Terms offered: Summer 2006 10 Week Session, Summer 2005 10 Week Session, Summer 2004 10 Week Session
The purpose of this course is to ground aspiring urban leaders in the essential ideas and values that guide their work in schools and their studies in the Principal Leadership Institute. It provides opportunities for future school leaders to deepen their notions of what socially just schools look like, and why; to analyze the challenges to creating socially just schools in urban centers; and to imagine the possible actions that leaders can take to promote such schools.

EDUC 262F Organizational Policy and Teachers’ Work 3 Units
Terms offered: Fall 2017, Fall 2016, Fall 2015
Students will examine the ways in which state, district, and workplace policy bears upon various aspects of teachers’ work. Special emphasis is given to the way in which policy choices--at whatever level--shape the experience of teaching and the organization of schooling. Among the policy areas considered are those governing membership in the teaching occupation, teaching assignments, classroom autonomy regarding curriculum and instruction, performance evaluation, and opportunities for professional development. This course is a requirement for students in educational administration and those students completing the Professional Administration Services Credential. It is open to all other interested students.

Organizational Policy and Teachers’ Work: Read Less [-]
EDUC 262G Research on the Education of Teachers 3 Units
Terms offered: Spring 2016, Spring 2015, Spring 2013
The course focuses on research on the education of prospective and practicing teachers, and on the institutional, organizational and policy contexts in which that research has been pursued. It is designed for students who are interested in doing research in this field or in becoming teacher educators, and is built on several organizing questions. What is the work (and workplace) for which teachers are being prepared? What is the occupational conception of teaching that underpins practice, policy, and research? What is the significance of teacher education’s fluctuating fortunes and shifting institutional forms? What is the field’s capacity for research on teacher education? By comparison with research on teaching and learning, research on the education of teachers has been under-developed both conceptually and methodologically. Throughout the course, we will be judging the accomplishments and limitations of this field of practice and study, and locating opportunities for future research and development.

EDUC 262H Urban School Leadership and Management 2 2 Units
Terms offered: Spring 2007
The purpose of this course is to build on the essential ideas and values discussed in EDUC 262A: Urban School Leadership and Management I by focusing on effective teaching. This instructional vision guides the work of leaders in schools. It provides opportunities for future school leaders to deepen their notions of what socially just schools look like, and why; to analyze the challenges to creating socially just schools in urban centers; and to imagine the possible actions that leaders can take to promote such schools. The course will be framed by one major question. Goals have been listed under each question.

EDUC 270B BEAR Center Seminar 2 or 3 Units
Terms offered: Spring 2020, Fall 2019, Spring 2019
This seminar constitutes one of the ways in which the Berkeley Evaluation and Assessment Research (BEAR) Center fulfills its role of supporting student research. The topic of the seminar will change from semester to semester, following themes chosen by the instructor and the participants. The seminar is an opportunity for students and faculty to present their recent and ongoing work for in-depth review and commentary. In addition, visitors to the campus with expertise relevant to the topic(s) under examination will be invited to present at the seminar and join in the discussion. Students taking this course for two units will make a presentation of a current research interest to the seminar. Students taking this course for three units will also be required to attend a one-hour discussion following each presentation and will write a critique of one other student's presentation.

EDUC 271G Research Methods in Educational Leadership: Qualitative Methods
3 Units
Terms offered: Fall 2015, Fall 2013, Fall 2011
This course introduces future educational leaders to the world of qualitative research so that they will be able to read qualitative studies intelligently, and learn to design and conduct qualitatively oriented studies themselves. Beginning with an overview of the epistemological assumptions behind different kinds of research, the course will explore various types of qualitative research approaches and the kinds of topics and queries they support. Students will read and critique examples of published research of various kinds, partially chosen for the interests and inputs of course participants. Next, students will investigate topic development, the various methods of collecting and analyzing qualitative data, and writing the report. The class is designed so that students simultaneously read about and discuss qualitative research, and conduct research themselves.

Rules & Requirements
Prerequisites: Good standing in the LEEP Program

EDUC 273B Research Group on Policy Implementation 3 Units
Terms offered: Spring 2016, Fall 2015, Spring 2015
This year-long research and writing group is intended for graduate students who plan to specialize in studying educational policy implementation. In the course, we will investigate what happens from the time a policy is enacted until the policy is actually implemented in classrooms, schools, and districts. The centerpiece of the research group is reviewing and providing feedback to members on their works-in-progress related to policy implementation. The goal is to strengthen participants' preparation for research in this area through a combination of consultation and feedback on specific problems related to conceptualizing and enacting high quality research, including but not limited to the formulation of research questions, theory development, research design, data collection, analysis, writing, and publication. We will supplement this activity by reading research together to help build a shared understanding of the different theoretical perspectives that can potentially inform the study of policy implementation, including institutional theory, social movements analysis, conflict perspectives, and organizational learning theory.

Rules & Requirements
Prerequisites: Consent of instructor
Repeat rules: Course may be repeated for credit without restriction.

EDUC 275G Hierarchical and Longitudinal Modeling 3 Units
Terms offered: Fall 2018, Fall 2017, Fall 2016
The course introduces hierarchical linear and generalized linear models for longitudinal or clustered data. Such models are important in education research where longitudinal development such as learning is of interest and where students are clustered in classes or schools. Other examples of clustering are people nested in neighborhoods, hospitals, or firms. Students will practice formulating and estimating hierarchical models using either educational data sets provided or their own data sets.
Hierarchical and Longitudinal Modeling: Read More [+]
Rules & Requirements
Prerequisites: Linear and logistic regression, 275B or equivalent

Hours & Format
Fall and/or spring: 15 weeks - 2 hours of lecture and 2 hours of laboratory per week

Additional Details
Subject/Course Level: Education/Graduate
Grading: Letter grade.

Instructor: Rabe-Hesketh
Hierarchical and Longitudinal Modeling: Read Less [-]

EDUC 275H Research Group in Multilevel Modeling 1 or 2 Units
Terms offered: Spring 2020, Spring 2019, Fall 2018
Multilevel models are useful when the units of observation are grouped in clusters such as students in schools, patients in hospitals, or prisoners in prisons. The research group is for students who wish to analyze such data or who have an interest in the methodology. In each meeting, we will either discuss students' ongoing research projects, or a methodological topic of interest. Readings (papers, chapters, drafts of student projects) will be distributed a week in advance.
Research Group in Multilevel Modeling: Read More [+]
Rules & Requirements
Prerequisites: Linear and logistic regression, equivalent to 275B
Repeat rules: Course may be repeated for credit without restriction.

Hours & Format
Fall and/or spring: 8 weeks - 2 hours of lecture per week

EDUC 276A Introduction to Program Evaluation 3 Units
Terms offered: Fall 2019, Fall 2018, Fall 2017
This course provides an introduction to the field of program evaluation ("programs" might be curriculum innovations, school reorganizations, teacher training reforms, instructional methods innovations, funding programs, or programs in the health or welfare areas). It will give an overview of issues of concern to practicing evaluators, researchers, program managers, and academics interested in field-based research. Those taking the course will be introduced to the history of the field, the basic concepts and intellectual disputes, the major methodological issues, and to some common "models" of how an evaluation ought to be conducted. Based on the understandings of the topics and issues discussed in this course, participants will be asked to conceptualize and design an evaluation in their area of personal and/or professional interests. The purpose of this exercise is for participants to develop skills for framing evaluation questions, designing, and describing an evaluation plan.

EDUC 276C Practicum in Evaluation 2 - 4 Units
Terms offered: Spring 2015, Fall 2013, Spring 2013
For students involved in an evaluation or assessment project as graduate student researchers or part of a practicum or apprenticeship experience. The purpose of this course is to integrate practical experiences with evaluation theory and research literatures relevant to specific evaluation questions or methods. Also provides additional instructional support to students using project data in courses, position papers, dissertations. Readings relate to evaluation topics (e.g., evaluation of professional development programs, use of student data to evaluate teaching) and discussions focus on design, methodology, and research questions of specific projects being conducted by the students.
Practicum in Evaluation: Read More [+]

Rules & Requirements
Prerequisites: 293A, 293L
Repeat rules: Course may be repeated for credit without restriction.

EDUC 276E Research Design and Methods for Program and Policy Evaluation 3 Units

Terms offered: Spring 2011, Spring 2009, Spring 2005
This course, designed to graduate students with some prior training to quantitative research methods, will introduce students to a toolkit of methods to enable them to address issues related to "what works" in program and policy evaluation. In addition, the course intends to help students understand the assumptions implicit in each of these approaches. Topics include (1) validity, threats to validity, and causal inference framework; (2) randomized experiments and quasi-experiment designs (regression discontinuity and propensity score matching); (3) multilevel modeling technique used in multi-site evaluation and longitudinal intervention studies; (4) mixed-methods approach; (5) meta-analysis for synthesizing evaluation/empirical studies; and (6) power and sample size in designing new evaluation studies.

Rules & Requirements
Prerequisites: 276A or consent of instructor

EDUC 277A Systemic Educational Reform I 3 Units

Terms offered: Summer 2013 10 Week Session, Summer 2013 8 Week Session, Summer 2011 8 Week Session
At the conclusion of this course you should be able to understand the history of and core concepts associated with accountability and systemic reform, especially those associated with No Child Left Behind and California accountability policy; analyze the strengths and weaknesses of various accountability schemes, particularly in terms of their likely effect on student academic achievement, teacher effectiveness, and organizational flexibility and responsiveness; forge closer connections among your personal experiences as a successful professional educator, your practice-derived theories of education reform, and your readings, presentations, and other activities related to this course to create your own formal, evidence-based theory of systemic educational change; think strategically and systemically about how districts can support schools in increasing student learning and achievement; develop an understanding of initial processes that are essential for undertaking systemic reform at the district level; and frame questions for further inquiry on key topics in the course based on a review of existing literature.

Systemic Educational Reform I: Read More [+]

EDUC 278A Excellence and Equity in Education I: Inequality and Equity 3 Units
Terms offered: Summer 2011 8 Week Session, Summer 2009 10 Week Session, Summer 2006 10 Week Session
The issues of inequality, of various kinds, and of equity, again with many different conceptions, have been central to debates over American schooling, particularly in urban areas. This course provides a conceptual framework to begin understanding the different dimensions of inequality and equity. As part of the theme in the Joint Doctoral Program of “Achieving Excellence and Equity in Practice,” it will be followed by additional courses that examine certain topics in greater depth.

EDUC 278B Excellence and Equity 2: The Dynamics of Improving Schools and Districts 3 Units
Terms offered: Fall 2014, Spring 2014, Spring 2013
The design of this course starts from the assumption that the question of "what works" in schools is not easily answered. Much of it depends on what sorts of outcomes educators value and hinges on specific conditions schools and districts face. The course aims at developing and refining judgment by looking in-depth at improvement strategies, interventions, or levers for change employed by urban school districts. Given that the theme of the course is school improvement and, given LEEP students' administrative and leadership expertise, the course is envisioned as an opportunity for deep reflection and exchange among knowledgeable actors.

EDUC 278C Milestone 2: Mapping the Professional Knowledge Base 3 Units
Terms offered: Fall 2015, Spring 2015, Fall 2014
This second milestone course continues students’ development of their knowledge base in relation to their established problem of practice. The purpose of the course is to ensure that this process is focused and fruitful, as students take the first steps in applying their new knowledge to a design development study. At the end of the course, students’ first milestone paper should be ready for approval.
Milestone 2: Mapping the Professional Knowledge Base: Read More [+]
Rules & Requirements

EDUC 279A Resource Management 1 3 Units
Terms offered: Fall 2011, Fall 2009, Fall 2006
This course examines management tools and financial methods of effective leadership of school districts in California. The course will present strategies from both business and educational perspectives and will challenge conventional financial management practices in California school systems. Specific areas of emphasis will be on maximizing the effective use of educational resources (e.g., financial analyses, budget techniques, cost analyses, management information systems), understanding the constraints that influence public school expenditures (e.g., state and federal legislation), and accomplishing the educational objectives of the school system through financial application (cost analysis and project management techniques). The underlying assumption of the course is that informed financial leadership can improve the opportunity to achieve educational achievement and equity in public school organizations.

EDUC 280C Research Apprenticeship and Qualitative Methodology Seminar I 3 Units
Terms offered: Fall 2017, Fall 2016, Fall 2015
The emphasis in this course is on the practice of research. Each student, ordinarily in the second year of graduate study, develops a research project with a faculty mentor and carries it out under direction. At the same time, students work together in this seminar. Short written assignments during the first eight weeks result in a research proposal to be carried out by the end of the semester. Students spend about 50 hours on the field research.

EDUC 283B Historical Perspectives on American Education 3 Units
Terms offered: Spring 2020, Spring 2017, Spring 2016
Public schooling today reflects a long evolution, producing an institution that embodies social inequalities as well as democratic aspirations. Politicians, teachers, school reformers, and others interested in education invoke elements of this history to justify their efforts. This course examines the relationship of the changing goals, organization, and practices of American schools to broader social, economic, political, and intellectual developments.

EDUC 285 Globalization and International Education 3 Units
Terms offered: Spring 2015, Fall 2012, Spring 2009
What is globalization? What are the implications of living in a "global world" for educational systems? In this course, we explore these questions by first examining various theoretical perspectives on globalization. We will then discuss several major developments associated with globalization that are affecting different levels of education (from primary to university) including the rise in accountability and testing, skills for the "knowledge" economy, and immigration. We will consider the role of international organizations such as the World Bank and the United Nations in shaping international policy and programs. We will also examine the role that the state, local communities, and non-governmental agencies play in providing and improving the quality of education. In the final part of the course, we examine topics including language policy, technology, and strategies to combat educational inequality. To explore these topics, we will read and discuss case studies from Asia, Africa, Latin America, and the United States to provide concrete examples of how global forces are changing the context and content of education internationally.

Topics to vary from semester to semester and section to section.
Rules & Requirements
Prerequisites: Consent of instructor
Repeat rules: Course may be repeated for credit without restriction.

EDUC 291 Purposes and Values in Urban Educational Leadership 3 Units
Terms offered: Summer 2003 10 Week Session
This course examines the relationships among multiple and often competing purposes of public education, dilemmas rooted in a history of persistent race- and class-linked inequities in American schools, and the possibilities and challenges of educational leadership. It highlights the pursuit of educational quality and equity in urban school systems as the organizing problem for educational leadership. Students will use research to analyze leadership practices to strengthen urban education.
Rules & Requirements
Prerequisites: Admission to the Joint Doctoral Program in Urban Educational Leadership
Hours & Format
Summer: 8 weeks - 6 hours of lecture per week

EDUC 291A The Educational System of the United States 3 Units
Terms offered: Fall 2012, Fall 2011, Fall 2009
Historical development and contemporary status of principal features of American schooling and major issues of policy and practice. The course will focus primarily upon public elementary and secondary schools. The course will stress relationships between education and other sectors of society.
Rules & Requirements
Prerequisites: Graduate standing
Hours & Format
Fall and/or spring: 15 weeks - 3 hours of lecture and 1 hour of discussion per week
EDUC 293A Data Analysis in Education Research 4 Units
Terms offered: Fall 2019, Fall 2018, Fall 2017
Introduces students to quantitative statistical methods for educational research. Emphasizes parameter estimation and hypothesis testing, in particular of group differences based on means, medians, proportions and correlation coefficients. Section 1 takes a conceptual and heuristic approach and includes a module on distribution free statistics. Section 2 takes an algebraic approach and includes a module on multiple regression. High school algebra is strongly recommended for section 2.

Rules & Requirements
Prerequisites: Consent of instructor

Hours & Format
Fall and/or spring: 15 weeks - 4 hours of lecture per week
Summer: 6 weeks - 10 hours of lecture per week

Additional Details
Subject/Course Level: Education/Graduate
Grading: Letter grade.

EDUC 293L Educational Data Analysis Laboratory 1 Unit
Terms offered: Fall 2019, Fall 2018, Fall 2017
Exercises and computer programs are presented and discussed.

Rules & Requirements
Prerequisites: Must be taken concurrently with 293A

Hours & Format
Fall and/or spring: 15 weeks - 2 hours of laboratory per week

Additional Details
Subject/Course Level: Education/Graduate
Grading: Letter grade.

EDUC 293V Video-Analysis Seminar 1 - 3 Units
Terms offered: Spring 2018, Fall 2014, Spring 2013
This ongoing seminar is for anyone devoting a significant portion of a given semester to analyzing videotaped records as part of their research. Video-based data are now ubiquitous in educational research and this group is designed to help us all become more savvy at analyzing them. Strands of the seminar, each worth 1 unit of credit, are devoted to participating in video-analysis sessions, reading about video-analysis methods, and completing a paper on your own video-analysis project.

Rules & Requirements
Prerequisites: Graduate standing or consent of instructor
Repeat rules: Course may be repeated for credit without restriction.

Hours & Format
Fall and/or spring: 15 weeks - 1-3 hours of seminar per week

Additional Details
Subject/Course Level: Education/Graduate
Grading: Letter grade.
Instructor: Engle

EDUC 294A Thesis Seminar: Policy, Organization, Measurement, and Evaluation (POME) 1 - 4 Units
Terms offered: Fall 2017, Fall 2016, Fall 2015
Recommended for M.A. students working on seminar papers or theses, and doctoral students preparing dissertation proposals. Topic varies with instructor.

Rules & Requirements
Repeat rules: Course may be repeated for credit without restriction.

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of seminar and 4 hours of independent study per week

EDUC 460C Research Practicum in Administration 1 - 3 Units
Terms offered: Spring 2019, Summer 2018 8 Week Session, Spring 2018
During the fall semester, students complete 294A in which the preliminary Leadership Action Research Project is designed - a summative assessment for the Principal Leadership Institute and the MA program at Berkeley. Through the LARP process, students engage in a cycle of inquiry about a problem or concern that matters to their overall leadership agenda and creates more equitable spaces in urban schools. In this course, students solidify the design of their LARP, take leadership action to implement their action plan, reflect on the action plan, revise the action plan - and make changes as appropriate - thus, engaging actively in the cycle of inquiry.

EDUC 470B Residency: Excellence and Equity and Systemic Reform 3 Units
Terms offered: Summer 2011 10 Week Session, Summer 2009 10 Week Session, Spring 2009
Students will meet weekly for one hour with a residency adviser at one of the following campuses: San Francisco State University; California State University, East Bay; or San Jose State University. The residency will require six hours weekly at a school district site to conduct research on curriculum, instruction, assessment, and professional development topics selected by students in conjunction with their faculty counselors and residency advisers in collaboration with the district consultant. An additional two hours weekly will be dedicated to preparation of case study materials from the residency assignment. Students will be expected to present the results of their residency research to the faculty and students of the Joint Doctoral Program.
Rules & Requirements
Prerequisites: 470A, Good standing in LEEP
Repeat rules: Course may be repeated for credit without restriction.
Hours & Format
Fall and/or spring: 15 weeks - 2 hours of lecture and 3 hours of fieldwork per week
Summer: 8 weeks - 4 hours of lecture and 6 hours of fieldwork per week
Additional Details
Subject/Course Level: Education/Other professional
Grading: Letter grade.
Instructor: Mintrop

EDUC 470C Residency: Decision Making and Resource Management 3 Units
Terms offered: Summer 2012 10 Week Session, Summer 2012 8 Week Session, Summer 2010 10 Week Session
Residencies are a central part of the LEEP curriculum. The goals of the residencies are to give students a first-hand experience of the workings of district or system level administration and encourage them to conduct systematic inquiries in this setting; help them make the transition from school-based actors to district-based actors with an appreciation for systemic and political aspects of that role; anchor theoretical knowledge acquired in campus-based seminars in the practice of management and leadership; and prepare for their dissertation projects.
