Art Practice

Overview

UC Berkeley’s Department of Art Practice provides professional art training within the context of a world-renowned public research university. The department offers innovative, interdisciplinary courses leading to BA and MFA degrees. As practicing visual artists, the faculty of the Department of Art Practice hold as a principal goal the representation and analysis of human experiences through creative research in visual art. In making art, faculty members seek to expand the boundaries of cultures and the limits of perceptions through rigorous experimentation with art forms, media, and content. Considering human experiences from an experiential standpoint, experimentation leads to questioning beliefs, rituals, and philosophies as well as social, economic, and institutional structures. In teaching, the mission is to help students pose profound questions by developing their creative voices, mastering their practices, relating to their audiences, and connecting to histories of art and cultures.

Four goals underlie the teaching in the Department of Art:

1. To advance the body of knowledge of human experience through aesthetic investigation.
2. To help students learn to think visually.
3. To help students understand the strategies that artists have devised to deal with aesthetic problems in both traditional and nontraditional methods of art making.
4. To help students develop a creative intelligence through practicing a visual arts discipline.

Facilities and Resources

The Department of Art Practice facilities include six studio spaces: Printmaking Studio (http://art.berkeley.edu/facilities-and-resources/printmaking-labs), Painting and Drawing Studio (http://art.berkeley.edu/facilities-and-resources/drawingpainting-studios), Wood and Metal Sculpture Studio (http://art.berkeley.edu/facilities-and-resources/sculpture-labs-wood-metal), Digital Media Labs (http://art.berkeley.edu/facilities-and-resources/digital-media-labs) (for photography, video, audio, and animation productions) in Kroeber Hall, the Ceramics Studio (http://art.berkeley.edu/facilities-and-resources/ceramics-labs), and Project Lab in Wurster Hall.

Located in 116 Kroeber Hall, the Worth Ryder Art Gallery (WRAG) (http://art.berkeley.edu/facilities-and-resources/worth-ryder-art-gallery) has served as the Department’s cultural and artistic hub for graduate and undergraduate students, faculty, and the Bay Area arts community for over 40 years. The gallery serves primarily as an exhibition platform for emerging contemporary art practices and methodologies.

The Garron Reading Room, located in 346 Kroeber Hall, houses a collection of books, periodicals, and digital media.

ART 8A Introduction to Visual Thinking 4 Units
Terms offered: Spring 2019, Fall 2018, Spring 2018
The ‘designed world’ is implicated in everyday experience. In an increasingly technological and communications based culture—from print to the Web, advertisements to movies, the built environment to modes of pedagogy—we encounter the visual/sensory as a ‘designed world’ in every area of our lives. Art 8 A: Intro to Visual Thinking asks students to rigorously and critically interrogate the ‘designed world.’ To do this students will look at a range of art, media, and invention across many locations and periods of history.

ART N160 Foundations of Digital Photography 4 Units
Terms offered: Summer 2013 10 Week Session, Summer 2013 First 6 Week Session, Summer 2013 Second 6 Week Session
While digital photography has simplified the process of taking and sharing pictures, the challenges of image composition, visual storytelling, and image sequencing remain at the center serious photography. In this course, students who have a working knowledge of photography and who have access to a digital camera learn to compose and sequence images beyond the stereotypes of popular photography. The course covers essential topics such as lighting, timing, composition, image sequencing, history of photography, potential and limitations of mechanical reproduction, photography and fine art, alternative tradition and digital image processes. All student work will be shared and reviewed online; classes are 33% lecture, 33% studio work, and 33% group critique.

ART 172 CGI Animation Studies 4 Units
Terms offered: Summer 2011 First 6 Week Session, Spring 2011, Summer 2010 First 6 Week Session
Motion is a ubiquitous element of human experience, yet attempts to explain it remain incomplete. The representation of motion with technical means is in continuous development, starting perhaps with sculptural representations of celestial movements in antiquity and leading to dynamic computer graphics simulations of molecular processes today. In this production-intensive studio course, we will study computer graphics for motion simulations, or animations. We will also probe these tools for their use in creative expression and analyze their impact on our own perception of motion. Software used: Maya. Each week will include relevant readings, class discussions, guest speakers, demonstration of examples, and studio time for training and working on student assignments.
