Anthropology

Bachelor of Arts (BA)
The Anthropology major is designed to serve two purposes: to provide a general education in anthropology for students who are pursuing a liberal arts education and to provide preparation for graduate work for students who wish to become professional anthropologists. For both groups of students, anthropology provides communication skills, analytic approaches to human lifeways, and understanding of diversity. Students should select a combination of courses to form a unified plan of study that meets their intellectual interests and fulfills the requirements below.

Declaring the Major
Before you are eligible to declare the major, you must have completed or be in the progress of completing two of the three prerequisite courses and enrolled in the third, with a grade point average (GPA) of 2.0 or higher in all courses intended for the major. For more details regarding the prerequisites, please see the Major Requirements tab on this page.

To declare the major, you will need to complete these three steps:

1. Reach out to the Anthropology Academic Undergraduate Advisor in 215 Kroeber Hall, during office hours or by email at: anthropology@berkeley.edu and address it to the Undergrad Advisor.
2. Bring or attach to your email, photocopies of transcripts, (unofficial will suffice), showing courses satisfying the major prerequisites that you took anywhere other than Berkeley along with the grades you earned.
3. To prepare, review the description of the program, and the requirements for the major to be prepared to identify how you might fulfill them. And please acquaint yourself with the faculty pages.

Declare the major as soon as you are eligible. You should declare the major no later than the end of your first semester of junior year. If you are a transfer student, this means you should declare the major during your first semester at UC Berkeley.

Honors Program
The honors thesis in Anthropology is the result of an independently-pursued course of research undertaken by qualified students under the mentorship of a faculty thesis advisor. An overall GPA of 3.5 and a GPA of 3.65 in the major in courses completed at UC Berkeley is required to qualify for the program. The program requires the sponsorship of an anthropology professor as an adviser. This advisor should be identified by the end of the junior year. A second reader must also be identified, in consultation with the thesis advisor. If students want to apply for research funding for summer between junior and senior years, they will benefit by having secured an advisor by January of the junior year. The year-long senior thesis course normally begins in the fall of senior year, but can begin in spring of senior year if justified. The honors courses, ANTHRO H195A and ANTHRO H195B, count as two of the five elective requirements for the major and are four unit courses each.

Minor Program
The Department of Anthropology offers an undergraduate minor in anthropology. In order to declare the minor, you will need to complete these three steps:

1. Consult the Undergraduate Advisor in 215 Kroeber about your intentions and interests. The advisor will assist you in identifying courses that fulfill the minor requirements. Send email to anthropology@berkeley.edu and request the Undergrad Advisor.
2. Bring or attach to your email the photocopies of any transcripts showing any lower division Intro to Anthropology, Anthro 1, 2, or 3 courses, that satisfy lower division minor requirements taken anywhere other than Berkeley, with the grades you earned. Two of the three courses and five Anthro Upper Division courses satisfy the Anthropology Minor.
3. Submit the L&S “Completion of the L&S Minor” form by the end of the semester prior to graduation. See L&S Advising website for details.

In addition to the University, campus, and college requirements, listed on the College Requirements tab, students must fulfill the below requirements specific to their major program.

General Guidelines
1. All courses taken to fulfill the major requirements below must be taken for graded credit, other than courses listed which are offered on a Pass/No Pass basis only. Other exceptions to this requirement are noted as applicable.
2. No more than one upper division course may be used to simultaneously fulfill requirements for a student’s major and minor programs, with the exception of minors offered outside of the College of Letters & Science.
3. A minimum grade point average (GPA) of 2.0 must be maintained in both upper and lower division courses used to fulfill the major requirements.

For information regarding residence requirements and unit requirements, please see the College Requirements tab.

Lower Division Prerequisites
There are three prerequisites, which may be taken in any order. Majors must take Anthro 1: Introduction to Biological Anthropology; Anthro 2: Introduction to Archaeology, or Anthro 2AC: Introduction to Archaeology (American Cultures); and Anthro 3: Introduction to Social and Cultural Anthropology, or Anthro 3AC: Introduction to Social and Cultural Anthropology (American Cultures). Students should take the prerequisite course before attempting the corresponding upper division courses in Biological, Archaeology, or Sociocultural Anthropology. Students should take prerequisite courses before attempting the corresponding upper division courses

Upper Division Major Requirements
The nine required upper division courses must include at least one area course and one method course. Nine upper division Anthropology courses are required for the major. This includes a core of four classes, including Anthro 114: History of Anthropological Thought, and one upper division archaeology, one upper division biological anthropology, and one upper division sociocultural anthropology course. In addition to the core, five elective courses in Anthropology complete the nine courses. These
courses must include at least one area course and one method course. For a list of courses that fulfill each requirement (upper division biological anthropology, upper division archaeology, upper division sociocultural anthropology, area and method), please see below. For a list of courses that fulfill the area and method requirements, please see below.

Students who have a strong interest in an area of study outside their major often decide to complete a minor program. These programs have set requirements and are noted officially on the transcript in the memoranda section, but are not noted on diplomas.

### General Guidelines

1. All minors must be declared no later than one semester before a student's Expected Graduation Term (EGT). If the semester before EGT is fall or spring, the deadline is the last day of RRR week. If the semester before EGT is summer, the deadline is the final Friday of Summer Sessions. To declare a minor, contact the department advisor for information on requirements, and the declaration process.

2. All courses taken to fulfill the minor requirements below must be taken for graded credit.

3. A minimum of three of the upper division courses taken to fulfill the minor requirements must be completed at UC Berkeley.

4. A minimum grade point average (GPA) of 2.0 is required for courses used to fulfill the minor requirements.

5. Courses used to fulfill the minor requirements may be applied toward the Seven-Course Breadth requirement, for Letters & Science students.

6. No more than one upper division course may be used to simultaneously fulfill requirements for a student's major and minor programs.

7. All minor requirements must be completed prior to the last day of finals during the semester in which you plan to graduate. If you cannot finish all courses required for the minor by that time, please see a College of Letters & Science adviser.

8. All minor requirements must be completed within the unit ceiling. (For further information regarding the unit ceiling, please see the College Requirements tab.)

Anthropology

or ANTHRO 1 Introduction to Social/Cultural Anthropology (American Cultures)

Upper Division 20
Select any five anthropology courses

Undergraduate students must fulfill the following requirements in addition to those required by their major program.

For detailed lists of courses that fulfill college requirements, please review the College of Letters & Sciences (http://guide.berkeley.edu/undergraduate/colleges-schools/letters-science/) page in this Guide. For College advising appointments, please visit the L&S Advising (https://lsadvising.berkeley.edu/home/) Pages.

University of California Requirements

Entry Level Writing (http://writing.berkeley.edu/node/78/)
All students who will enter the University of California as freshmen must demonstrate their command of the English language by fulfilling the Entry Level Writing requirement. Fulfillment of this requirement is also a prerequisite to enrollment in all reading and composition courses at UC Berkeley.

American History and American Institutions (http://guide.berkeley.edu/undergraduate/colleges-schools/letters-science/american-history-institutions-requirement/)
The American History and Institutions requirements are based on the principle that a US resident graduated from an American university, should have an understanding of the history and governmental institutions of the United States.

Berkeley Campus Requirement

American Cultures (http://americancultures.berkeley.edu/students/courses/)
All undergraduate students at Cal need to take and pass this course in order to graduate. The requirement offers an exciting intellectual environment centered on the study of race, ethnicity and culture of the United States. AC courses offer students opportunities to be part of research-led, highly accomplished teaching environments, grappling with the complexity of American Culture.

College of Letters & Science Essential Skills Requirements

Quantitative Reasoning (http://guide.berkeley.edu/undergraduate/colleges-schools/letters-science/quantitative-reasoning-requirement/)
The Quantitative Reasoning requirement is designed to ensure that students graduate with basic understanding and competency in math, statistics, or computer science. The requirement may be satisfied by exam or by taking an approved course.

Foreign Language (http://guide.berkeley.edu/undergraduate/colleges-schools/letters-science/foreign-language-requirement/)
The Foreign Language requirement may be satisfied by demonstrating proficiency in reading comprehension, writing, and conversation in a foreign language equivalent to the second semester college level, either by passing an exam or by completing approved course work.

Reading and Composition (http://guide.berkeley.edu/undergraduate/colleges-schools/letters-science/reading-composition-requirement/)
In order to provide a solid foundation in reading, writing, and critical thinking the College requires two semesters of lower division work in composition in sequence. Students must complete parts A & B reading and composition courses in sequential order by the end of their fourth semester.

College of Letters & Science 7 Course Breadth Requirements

Breadth Requirements (http://guide.berkeley.edu/undergraduate/colleges-schools/letters-science/#breadthrequirementstext)
The undergraduate breadth requirements provide Berkeley students with a rich and varied educational experience outside of their major program. As the foundation of a liberal arts education, breadth courses give students a view into the intellectual life of the University while introducing them to a multitude of perspectives and approaches to research and scholarship. Engaging students in new disciplines and with peers from other majors, the breadth experience strengthens interdisciplinary connections and context that prepares Berkeley graduates to understand and solve the complex issues of their day.

Unit Requirements

• 120 total units
• Of the 120 units, 36 must be upper division units
• Of the 36 upper division units, 6 must be taken in courses offered outside your major department

Residence Requirements

For units to be considered in "residence," you must be registered in courses on the Berkeley campus as a student in the College of Letters & Science. Most students automatically fulfill the residence requirement by attending classes here for four years. In general, there is no need to be concerned about this requirement, unless you go abroad for a semester or year or want to take courses at another institution or through UC Extension during your senior year. In these cases, you should make an appointment to meet an adviser to determine how you can meet the Senior Residence Requirement.

Note: Courses taken through UC Extension do not count toward residence.

Senior Residence Requirement

After you become a senior (with 90 semester units earned toward your BA degree), you must complete at least 24 of the remaining 30 units in residence in at least two semesters. To count as residence, a semester must consist of at least 6 passed units. Intercampus Visitor, EAP, and UC Berkeley-Washington Program (UCDC) units are excluded.

You may use a Berkeley Summer Session to satisfy one semester of the Senior Residence requirement, provided that you successfully complete 6 units of course work in the Summer Session and that you have been enrolled previously in the college.

Modified Senior Residence Requirement

Participants in the UC Education Abroad Program (EAP), Berkeley Summer Abroad, or the UC Berkeley Washington Program (UCDC) may meet a Modified Senior Residence requirement by completing 24
Anthropology

(excluding EAP) of their final 60 semester units in residence. At least 12 of these 24 units must be completed after you have completed 90 units.

Upper Division Residence Requirement
You must complete in residence a minimum of 18 units of upper division courses (excluding UCEAP units), 12 of which must satisfy the requirements for your major.

Learning Goals for the Major

1. Learning About Anthropology
   • Understand core concepts in contemporary biological anthropology.
   • Understand core concepts in contemporary anthropological archaeology.
   • Understand core concepts in contemporary sociocultural anthropology, including medical anthropology.
   • Develop understanding of the history of anthropological thought.
   • Gain experience in fieldwork and the application of theory and methodology.
   • Develop understanding of the anthropological analysis of visual media and language.

2. Critical Thinking, Communication, and Analytical Goals
   • Encourage critical abilities in the analysis of evolutionary, historical, and contemporary situations.
   • Develop the ability to analyze comprehensively and critically scholarly articles and monographs.
   • Develop facility in conveying anthropological concepts and debates to public audiences.
   • Formulate well-organized written and oral arguments supported by evidence.

3. Learning About the World
   • Understand the structure and transformation of society and culture past and present.
   • Analyze regional and cultural diversity in the organization of human societies and the impact of cultural contacts and globalization.
   • Integrate biological and cultural perspectives on human behavior, social organization, and the environment.
   • Utilize anthropological concepts and methods to understand the history and forms of diversity in US society.

ANTHRO C12AC Fire: Past, Present and Future Interactions with the People and Ecosystems of California 4 Units
Terms offered: Fall 2022, Fall 2021, Fall 2020
The course presents a diachronic perspective on human-fire interactions with local ecosystems in California that spans over 10,000 years. The course will provide an historical perspective on human-fire interactions at the landscape scale using a diverse range of data sources drawn from the fields of fire ecology, biology, history, anthropology, and archaeology. An important component includes examining how diverse cultures and ethnicity influenced how people perceived and used fire at the landscape scale in ancient, historical and modern times. The implications of these diverse fire practices and policies will be analyzed and the consequences they have had for transforming habitats and propagating catastrophic fires will be explored.

Humans have always been affected by changes in their landscape and, in turn, had an influence on their physical surroundings. The contexts that archaeological material and features are found within yield invaluable clues as to how sites form, what types of activities people performed in them, and what kinds of natural and cultural processes altered the archaeological record from deposition to excavation. This course introduces the methods of studying archaeological remains from an environmental context in order to reconstruct the relationships between people and the environment, drawing on case studies from different areas of the world.

ANTHRO 127C Bioarchaeology Research: Data Collection and Analysis 5 Units
Terms offered: Spring 2022, Spring 2021, Spring 2020
Bioarchaeology is the study of archaeological human skeletal remains together with contextual information (archival, historical, material culture) to provide insight on the life of people and communities in the past. In this course you will delve into the formative contemporary literature and get to work with actual archaeological skeletal remains in order to learn bioarchaeological methods, develop your own research questions, and conduct and complete a hands-on research project. You will work with skeletal remains from the stage of identification, inventory, illustration/photography, to the collection of data such as sex, age, stature, and health/growth, pathology, and statistical analysis.

**ANTHRO 129D Human Palaeoecology: How Humans Changed the Earth 4 Units**

Terms offered: Not yet offered

Since the end of the Pleistocene and especially with the development of agriculturally based societies humans have had cumulative and often irreversible impacts on natural landscapes and biotic resources worldwide. Thus "global change" and the biodiversity crisis are not exclusively developments of the industrial and post-industrial world. This course uses a multidisciplinary approach, drawing upon methods and data from archaeology, palynology, geomorphology, paleontology, and historical ecology to unravel the broad trends of human ecodynamics over the past 50,000 years.

ANTHRO 149 Psychological Anthropology 4 Units
Terms offered: Spring 2022, Spring 2021, Fall 2017
In the contemporary world, different systems of knowledge, philosophies, and techniques of the self, understandings of normality and pathology, illness and healing, are increasingly engaged in a dialogue with each other in the lives, on the bodies, and in the imagination of people. The terms of this dialogue are often unequal and painful, yet they are also productive of new subjectivities and new voices. It is the task of a renewed psychological anthropology to study and reflect on these processes. Topics to be covered in this class include new forms of the subject and ethics at the intersection of psychical/psychiatric, political, and religious processes and discourses; ethno-psychiatry, psychoanalysis, the psychology of colonization and racism; anthropological approaches to possession and altered states, emotion, culture, and the imagination, madness and mental illness. The specific stress will be on the stakes of anthropology of the psyche today, for an understanding of power and subjugation, delusion and the imagination, violence, and the possibility of new forms of life.

ANTHRO 150 Utopia: Art and Power in Modern Times 4 Units
Terms offered: Fall 2022, Fall 2021, Fall 2020
Modern times have been dominated by utopian visions of how to achieve a happy future society. Artists in competing social systems played a central role in the development of these visions. But artistic experiments were filled with paradoxes, contributing to the creation not only of the most liberating and progressive ideals and values but also to the most oppressive regimes and ideologies. The course questions: what is art, what can it achieve and destroy, what is beauty, artistic freedom, and the relationship between esthetics, ethics, and power?

ANTHRO 149 Psychological Anthropology 4 Units
Terms offered: Spring 2022, Spring 2021, Fall 2017
In the contemporary world, different systems of knowledge, philosophies, and techniques of the self, understandings of normality and pathology, illness and healing, are increasingly engaged in a dialogue with each other in the lives, on the bodies, and in the imagination of people. The terms of this dialogue are often unequal and painful, yet they are also productive of new subjectivities and new voices. It is the task of a renewed psychological anthropology to study and reflect on these processes. Topics to be covered in this class include new forms of the subject and ethics at the intersection of psychical/psychiatric, political, and religious processes and discourses; ethno-psychiatry, psychoanalysis, the psychology of colonization and racism; anthropological approaches to possession and altered states, emotion, culture, and the imagination, madness and mental illness. ANTHRO 151 Disability and Culture 4 Units
Terms offered: Fall 2005, Fall 2002, Spring 2001
Disability is a cultural construct. This does not mean that physical and mental impairments are not real, but that our conceptions of the body and its possibilities and impossibilities are constantly mediated through social norms and mores. The built environments and social institutions we navigate are based around these concepts of the "normal." Using ethnographic examples drawn from various countries around the world, and various disability categories, we examine the contingency of the categories of disability and normality from social, legal, and personal perspectives.

ANTHRO 186 Power and Politics in Southeast Asia 4 Units
This course highlights Southeast Asia as an important region for the study of politics and power from an anthropological perspective. It sheds light on how notions of “power” stemming from the unique political histories of Southeast Asia might help us rethink its role in governmentality, knowledge-producing practices, and in creating the conditions for political legitimacy. We will examine how various forces shaped what power came to be in time and place. We will examine how this legacy continues in terms of patron-client networks, the meaning of political legitimacy, and ways of seeing sex and gender.
