Art Practice

Bachelor of Arts
The UC Berkeley Department of Art Practice offers an undergraduate program in studio art which provides a firm grounding in basic techniques and principles while encouraging guided experimentation. Our curriculum is designed to develop critical understandings across a broad range of media and disciplines. We provide technical and conceptual training in most traditional and new media: painting, drawing, printmaking, sculpture (wood, metal, ceramic, and mixed media), photography, installation, performance art, video, animation, sound, and in the emerging fields of programming, interactivity, game design, and AR/VR. Art Majors are expected to round out the required studio courses with Art History and Theory classes.

Art Practice seeks to graduate students with potential for significant artistic and cultural impact. Successful Art Practice graduates understand the professional art world and are articulate about their work. They are deeply engaged with their art forms, rigorously committed to their craft, and highly capable of invigorating conceptual, technical, and critical creative research. Students graduating with a major in art pursue careers as professional artists and teachers, or in arts-related activities with museums, galleries, arts management, publishing, and artists’ organizations.

Course of Study Overview
While the undergraduate major is made up largely of studio courses, it also requires at least three courses in art history. Our students are required to be broadly familiar with the aesthetic strategies that artists have devised to understand and invent their worlds, not just in the 20th and 21st centuries, but throughout the millennia of human culture. Field trips to area museums, galleries, and artists’ studios provide an important onsite learning tool, one which emphasizes the pedagogical primacy of direct contact with works of art.

Small studio classes with frequent critiques are designed to foster a supportive community, productive debate, and collaborative thinking. Students are encouraged to be both open-minded and tough-minded, to look closely, think critically, and challenge assumptions. Most upper division studio courses involve an exhibition requirement when students are asked to consider questions of audience, context, site, and timing. Several gallery spaces, among them the Worth Ryder Art Gallery, offer exhibition venues. The department also maintains web space for online exhibitions and video streaming.

Declaring the Major
In order to declare the major, you must:

1. Have an overall GPA of 3.3.
2. Complete the R&C requirements.
3. Complete two required studio classes: ART 8 and ART 12 and 1 lower division History of Art course (any).
4. Submit a portfolio of 12 images (include work from all UC Berkeley studio classes).
5. Submit one letter of recommendation from an art faculty, art lecturer, or art GSI.

Honors Program
Students with an overall grade point average (GPA) of 3.3 or higher who are in their senior year may, with the permission of a regular faculty member, enroll in the honors program. This is an independent study course, taken for a minimum of one semester and a maximum of two semesters and comprising a minimum of 4 units and a maximum of 8 units. A final grade is given at the completion of the program. Honors courses count toward the art major as they are taken for a letter grade.

Minor Program
For information regarding declaring the minor, please contact the department.

In addition to the University, campus, and college requirements, listed on the College Requirements tab, students must fulfill the below requirements specific to their major program:

General Guidelines
1. All courses taken to fulfill the major requirements below must be taken for a letter grade. An exception is made for courses that are offered on a Pass/No Pass basis only. Other exceptions to this requirement are noted as applicable.
2. No more than one upper division course may be used to simultaneously fulfill requirements for a student’s major and minor programs, with the exception of minors offered outside of the College of Letters & Science.
3. A minimum grade point average (GPA) of 3.3 must be maintained in both upper and lower division courses used to fulfill the major requirements.

For information regarding residence requirements and unit requirements, please see the College Requirements tab.

**General Guidelines**

1. All courses taken to fulfill the minor requirements below must be taken for graded credit.
2. A minimum of three of the upper division courses taken to fulfill the minor requirements must be completed at UC Berkeley.
3. A minimum grade point average (GPA) of 3.0 is required for courses used to fulfill the minor requirements.
4. Courses used to fulfill the minor requirements may be applied toward the Seven-Course Breadth requirement, for Letters & Science students.
5. No more than one upper division course may be used to simultaneously fulfill requirements for a student's major and minor programs.
6. All minor requirements must be completed prior to the last day of finals during the semester in which you plan to graduate. If you cannot finish all courses required for the minor by that time, please see a College of Letters & Science adviser.
7. All minor requirements must be completed within the unit ceiling. (For further information regarding the unit ceiling, please see the College Requirements tab.)

Undergraduate students must fulfill the following requirements in addition to those required by their major program.

For detailed lists of courses that fulfill college requirements, please review the College of Letters & Sciences (http://guide.berkeley.edu/undergraduate/colleges-schools/letters-science) page in this Guide. For College advising appointments, please visit the L&S Advising (https://ls.berkeley.edu/advising/about-undergraduate-advising-services) Pages.

University of California Requirements

Entry Level Writing (http://writing.berkeley.edu/node/78)
All students who will enter the University of California as freshmen must demonstrate their command of the English language by fulfilling the Entry Level Writing requirement. Fulfillment of this requirement is also a prerequisite to enrollment in all reading and composition courses at UC Berkeley.

American History and American Institutions (http://guide.berkeley.edu/undergraduate/colleges-schools/letters-science/american-history-institutions-requirement)
The American History and Institutions requirements are based on the principle that a US resident graduated from an American university, should have an understanding of the history and governmental institutions of the United States.

Berkeley Campus Requirement

American Cultures (http://americancultures.berkeley.edu/students/courses)
All undergraduate students at Cal need to take and pass this course in order to graduate. The requirement offers an exciting intellectual environment centered on the study of race, ethnicity and culture of the United States. AC courses offer students opportunities to be part of research-led, highly accomplished teaching environments, grappling with the complexity of American Culture.

College of Letters & Science Essential Skills Requirements

Quantitative Reasoning (http://guide.berkeley.edu/undergraduate/colleges-schools/letters-science/quantitative-reasoning-requirement)
The Quantitative Reasoning requirement is designed to ensure that students graduate with basic understanding and competency in math, statistics, or computer science. The requirement may be satisfied by exam or by taking an approved course.

Foreign Language (http://guide.berkeley.edu/undergraduate/colleges-schools/letters-science/foreign-language-requirement)
The Foreign Language requirement may be satisfied by demonstrating proficiency in reading comprehension, writing, and conversation in a foreign language equivalent to the second semester college level, either by passing an exam or by completing approved course work.

Reading and Composition (http://guide.berkeley.edu/undergraduate/colleges-schools/letters-science/reading-composition-requirement)
In order to provide a solid foundation in reading, writing, and critical thinking the College requires two semesters of lower division work in composition in sequence. Students must complete parts A & B reading and composition courses by the end of their second semester and a second-level course by the end of their fourth semester.

College of Letters & Science 7 Course Breadth Requirements

Breadth Requirements (http://guide.berkeley.edu/undergraduate/colleges-schools/letters-science/#breadthrequirementstext)
The undergraduate breadth requirements provide Berkeley students with a rich and varied educational experience outside of their major program. As the foundation of a liberal arts education, breadth courses give students a view into the intellectual life of the University while introducing them to a multitude of perspectives and approaches to research and scholarship. Engaging students in new disciplines and with peers from other majors, the breadth experience strengthens interdisciplinary connections and context that prepares Berkeley graduates to understand and solve the complex issues of their day.

Unit Requirements

• 120 total units
• Of the 120 units, 36 must be upper division units
• Of the 36 upper division units, 6 must be taken in courses offered outside your major department

Residence Requirements

For units to be considered in "residence," you must be registered in courses on the Berkeley campus as a student in the College of Letters & Science. Most students automatically fulfill the residence requirement by attending classes here for four years. In general, there is no need to be concerned about this requirement, unless you go abroad for a semester or year or want to take courses at another institution or through UC Extension during your senior year. In these cases, you should make an appointment to meet an adviser to determine how you can meet the Senior Residence Requirement.

Note: Courses taken through UC Extension do not count toward residence.

Senior Residence Requirement

After you become a senior (with 90 semester units earned toward your BA degree), you must complete at least 24 of the remaining 30 units in residence in at least two semesters. To count as residence, a semester must consist of at least 6 passed units. Inter campus Visitor, EAP, and UC Berkeley-Washington Program (UCDC) units are excluded.
You may use a Berkeley Summer Session to satisfy one semester of the Senior Residence requirement, provided that you successfully complete 6 units of course work in the Summer Session and that you have been enrolled previously in the college.

**Modified Senior Residence Requirement**
Participants in the UC Education Abroad Program (EAP), Berkeley Summer Abroad, or the UC Berkeley Washington Program (UCDC) may meet a Modified Senior Residence requirement by completing 24 (excluding EAP) of their final 60 semester units in residence. At least 12 of these 24 units must be completed after you have completed 90 units.

**Upper Division Residence Requirement**
You must complete in residence a minimum of 18 units of upper division courses (excluding UCEAP units), 12 of which must satisfy the requirements for your major.

**ART 8 Introduction to Visual Thinking 4 Units**
Terms offered: Summer 2019 First 6 Week Session, Summer 2019 Second 6 Week Session, Fall 2018
A first course in the language, processes, and media of visual art. Course work will be organized around weekly lectures and studio problems that will introduce students to the nature of art making and visual thinking.

**Hours & Format**
Fall and/or spring: 15 weeks - 1 hour of lecture and 6 hours of studio per week
Summer: 6 weeks - 2.5 hours of lecture and 15 hours of studio per week

**ART 8A Introduction to Visual Thinking 4 Units**
The ‘designed world’ is implicated in everyday experience. In an increasingly technological and communications based culture—from print to the Web, advertisements to movies, the built environment to modes of pedagogy—we encounter the visual/sensory as a ‘designed world’ in every area of our lives. Art 8 A: Intro to Visual Thinking asks students to rigorously and critically interrogate the ‘designed world.’ To do this students will look at a range of art, media, and invention across many locations and periods of history.

**Hours & Format**
Fall and/or spring: 15 weeks - 6 hours of studio and 3 hours of lecture per week
Summer: 6 weeks - 15 hours of studio and 2.5 hours of lecture per week

**ART 12 Drawing: Foundations 4 Units**
Students will explore a wide range of approaches to mark making, composition and materials for building a drawing practice. Students will engage with drawing from life as well as conceptual and abstract compositions. This course will feature lectures, field trips, visiting artists and demonstrations in order to expose students to a variety of applications, methods and techniques within the field of drawing. This course is a recommended prerequisite for upper division Drawing classes.

**Hours & Format**
Fall and/or spring: 15 weeks - 6 hours of studio per week
Summer: 6 weeks - 16 hours of studio per week

Terms offered: Fall 2018, Spring 2018, Spring 2017  
This course is the study of the interaction between physical form and space. We will focus on building a strong conceptual foundation while developing the practical studio skills needed to translate your ideas into three dimensions. Shop practices will include hand, machine, and computer-aided fabrications. Field trips and illustrated talks will help acquaint students with the ideas sculptors have explored through history and in contemporary sculptural practices. ART 15 Ceramics: Foundations 4 Units  
Terms offered: Summer 2019 Second 6 Week Session, Spring 2019, Fall 2018  
This course will prepare students to use ceramics to explore and understand three-dimensional space. We will develop a practical understanding of how clay and glaze behave, while building a conceptual framework through which to apply this knowledge. Studio practice includes hand building, modeling, carving, and glazing as possibilities for turning ideas into three dimensional propositions. Assignments, critiques and class discussions will help acquaint students with the ideas artists have explored through history and in contemporary sculptural practices. This course is a recommended prerequisite for upper division Ceramics classes.

Terms offered: Fall 2016, Fall 2015, Fall 2014  
The process and techniques of traditional Relief and Intaglio are explored in this fine art printmaking course. Lectures and demonstrations introduce students to two of the historically oldest and most continuous of print processes. Unique drawing skills are demonstrated for students to render images onto linoleum and metal plates to produce small editions of relief and intaglio prints. This course is a recommended prerequisite for upper division printmaking classes. Additional fees required.

ART 21 Digital Photography: Foundations 4 Units
Terms offered: Summer 2019 First 6 Week Session, Summer 2019 Second 6 Week Session, Fall 2018
This course introduces students to technical skills including manual functions of digital cameras, image creation and capture, file management and workflow, image adjustment and digital printing. Assignments will use primary Adobe software tools to test creative possibilities of both the camera and the computer. The course will introduce students to photography history and theory, and a range of contemporary practices. Group critiques and individual tutorials will help develop ideas and technical skills. By the end of the course, students should feel comfortable shooting digitally, editing and producing final images for print or the web. This course is a recommended prerequisite for upper division Photography classes.

ART 23AC DIGITAL MEDIA: FOUNDATIONS 4 Units
Terms offered: Fall 2018, Fall 2014, Fall 2012
Data and logic form core interfaces for information technology. New media art requires understanding their key dynamics. Students gain experience with data generation, visualization, and their impact on real persons, environments and situations. Can we measure, count and weigh everything? Is data fair? What is the role of privacy? How do digital conditions affect human conditions? From memes to machine learning, students participate in emerging data cultures including sampling, visualization, animation, video, interactive design, and music. Assignments follow readings on media and design theory, abstraction, interactivity, archives, performance, identity, privacy, automation, aggregation, networking, diffusion, diffraction and subversion.

Terms offered: Fall 2017, Spring 2016, Spring 2015
Can we measure everything? What is the role of privacy? Can we count beauty? Is data always fair? This course explores participation as the foundation of online citizenship. Participation is based on data literacy and community awareness. Through online assignments, peer reviews and video chats, students form communities of explorers and innovators who challenge data culture through creative interventions including surveys, visualization, animation, video, interaction design, music and other forms of digital expression. Assignments are based on readings about media theory, abstraction, interactivity, design theory, archives, performance, identity, privacy, automation, aggregation, networking, diffusion, diffraction and subversion.

ART 26 Moving Image: Foundations 4 Units
Terms offered: Summer 2019 First 6 Week Session, Fall 2018, Summer 2018 First 6 Week Session
A practical and critical introduction to moving image media, focusing primarily on independent and experimental film and video art. Students learn video production and post-production and are introduced to key moments and concepts in moving image history and criticism. Course instruction includes basic camera operations, sound recording, and lighting, as well as basic editing, compression, and dissemination formats. Solo and group assignments are completed, and group critiques of class projects train students to recognize and discuss the formal, technical, critical and historical dimensions of their works. Weekly readings in philosophy, critical theory, artist statements and literature are assigned.

ART 100 Collaborative Innovation 4 Units
Terms offered: Spring 2019, Fall 2017, Spring 2017
In this hands-on, project-based class, students will experience group creativity and team-based design by using techniques from across the disciplines of business, theatre, design, and art practice. They will leverage problem framing and solving techniques derived from critical thinking, systems thinking, and creative problem solving (popularly known today as design thinking). The course is grounded in a brief weekly lecture that sets out the theoretical, historical, and cultural contexts for particular innovation practices, but the majority of the class involves hands-on studio-based learning guided by an interdisciplinary team of teachers leading small group collaborative projects.

ART 119 Global Perspectives in Contemporary Art 4 Units
Terms offered: Summer 2019 First 6 Week Session, Summer 2019 Second 6 Week Session, Spring 2019
This course is designed to explore a range of contemporary art movements around the globe, through a closer look at their central ideas, artists, and artworks, as well as the preconditions and broader social context in which the work is being produced. Topics covered will range from the emergence of localized avant-garde movements in Europe, Asia, Africa, and Latin America to the implicit globalism of the international biennial circuit.

ART 120 Approaches to Printmaking: Intaglio 4 Units
Terms offered: Fall 2018, Spring 2018, Spring 2016
An opportunity to discover what an artist can do with an etching press and a familiarity with such processes as etching, drypoint, aquatint, color, and monotype printing. The difference in the ways that these mediums enhance and condition your ideas will be made clear through individual and group critiques. Lectures and demonstrations introduce students to techniques and varied applications.

ART 122 Approaches to Printmaking: Lithography 4 Units
Terms offered: Fall 2013, Fall 2012, Fall 2010
In the course of making lithographs, you will be encouraged to find an aesthetic direction of your own. Your instructor will also help you develop skill in using both stone and metal plates. Lectures and demonstrations introduce students to techniques and varied applications.

ART 123 The Language of Printmaking-Screenprinting 4 Units
Terms offered: Spring 2019, Spring 2018, Spring 2017
The process of screenprinting images onto paper and other surfaces will be explored in a variety of image producing techniques. Hand drawn, photographic, and digitally manipulated images are combined to produce multiple works of limited edition fine art prints. Image content and development is examined through drawings, studies, slide lectures, group critiques, and direct assistance. Each student is required to attend all class periods and participate in group discussions and critique. It is the responsibility of the student to maintain a portfolio of all works executed during the semester and to turn in all assignments on time. The grade is determined by attendance, completion of projects and participation in critiques. Personal improvement will also be taken into account.
ART 124 Advanced Projects in Printmaking 4 Units

Terms offered: Summer 2011 First 6 Week Session, Spring 2011, Summer 2010 First 6 Week Session
Motion is a ubiquitous element of human experience, yet attempts to explain it remain incomplete. The representation of motion with technical means is in continuous development, starting perhaps with sculptural representations of celestial movements in antiquity and leading to dynamic computer graphics simulations of molecular processes today. In this production-intensive studio course, we will study computer graphics for motion simulations, or animations. We will also probe these tools for their use in creative expression and analyze their impact on our own perception of motion. Software used: Maya. Each week will include relevant readings, class discussions, guest speakers, demonstration of examples, and studio time for training and working on student assignments.

**ART 178 Game Design Methods 4 Units**  
Terms offered: Fall 2018, Fall 2017, Spring 2016  
This course offers an introduction to game design and game studies.  
Game studies has five core elements: the study of games as transmitters of culture, the study of play and interactivity, the study of games as symbolic systems; the study of games as artifacts; and methods for creating games. We will study these core elements through play, play tests, play analysis, and comparative studies. Our reading list includes classic game studies theory and texts which support game design methods. After weekly writing and design exercises, our coursework will culminate in the design and evaluation of an original code-based game with a tangible interface.

ART 184 Junior Seminar: Meaning and Making 4 Units  
Terms offered: Spring 2019, Fall 2016, Spring 2016  
This immersive studio/seminar class focuses on contemporary models of art making, exposing students to current issues in the art world, and fostering interdisciplinary models of thinking and making. Through field trips to museums, galleries, and alternative art spaces, as well as studio visits with local contemporary artists, students will be able to situate their own projects within the larger sphere of contemporary art. Language and writing skills around artist statements, critical readings, and the critique process will be emphasized to understand how research methods give meaning in a studio practice. Presentation of a final studio project asks students to examine their place within a contemporary art dialogue.
