## Economics

### Bachelor of Arts (BA)

The Department of Economics is home to over 1500 undergraduate students. Economics majors can enroll in a broad array of economics courses, ranging from economic history to advanced macroeconomics. Students are encouraged to study abroad, participate in research, and take advantage of the many opportunities Berkeley has to offer.

### Declaring the Major

As an impacted major in high demand, declaration of the Economics major is admission-based and students must meet specific criteria in order to be admitted. Students who want to apply to the economics major must have completed or be currently enrolled in all the major prerequisites. Students admitted to Berkeley as freshmen must apply by their fifth semester of post-high school coursework unless they have fewer than 80 total units. This total includes coursework in-progress but excludes high school enrichment units, e.g., Advanced Placement, International Baccalaureate, or other college units earned prior to high school graduation. Transfer students required to enroll in remaining prerequisites and apply to the major during their first semester at Berkeley. The 80 unit cap does not apply to transfer students.

For more information, please visit the department's prospective student website (https://www.econ.berkeley.edu/undergrad/prospective/). (https://www.econ.berkeley.edu/undergrad/prospective/)

### Honors Program

Students interested in graduating with honors in economics should consult with a faculty adviser no later than the second semester of their junior year. The department recommends a student for graduation with honors based on evidence of superior performance provided by a thesis written in the senior year and the student's course grade record overall and in the major. The minimum major grade point average (GPA) requirement is 3.5 in upper division economics courses and 3.3 GPA overall. The senior thesis may be an extension of a seminar paper prepared under the continued guidance of a faculty member through enrollment in ECON H195A/ECON H195B.

### Minor Program

There is no minor program in economics.

In addition to the University, campus, and college requirements listed on the College Requirements tab, students must fulfill the below requirements specific to their major program.

### General Guidelines

1. All courses taken to fulfill the major requirements below must be taken for graded credit, other than courses listed which are offered on a *Pass/No Pass* basis only. Other exceptions to this requirement are noted as applicable.
2. No more than two upper division courses may be used to simultaneously fulfill requirements for a student's major and an additional major program. No more than one upper division course may be used to simultaneously fulfill requirements for a student's major and minor programs, with the exception of minors offered outside of the College of Letters & Science.
3. A minimum grade point average (GPA) of 2.0 must be maintained in both upper and lower division courses used to fulfill the major requirements.

For information regarding residence requirements and unit requirements, please see the College Requirements tab.

### Prerequisites

For a comprehensive overview of the Economics admission process, please visit econ.berkeley.edu/undergrad/prospective (https://www.econ.berkeley.edu/undergrad/prospective/)

Select one calculus sequence from the following: ¹

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 1A &amp; MATH 1B</td>
<td>Calculus and Calculus</td>
<td>⁴</td>
</tr>
<tr>
<td>MATH 16A &amp; MATH 16B</td>
<td>Analytic Geometry and Calculus and Analytic Geometry and Calculus (or equivalent)</td>
<td>⁴</td>
</tr>
</tbody>
</table>

Select one statistics course from the following: ¹, ³

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT 20</td>
<td>Introduction to Probability and Statistics [⁴]</td>
</tr>
<tr>
<td>STAT 21</td>
<td>Introductory Probability and Statistics for Business [⁴]</td>
</tr>
<tr>
<td>STAT W21</td>
<td>Introductory Probability and Statistics for Business [⁴]</td>
</tr>
<tr>
<td>STAT 88</td>
<td>Course Not Available [³]</td>
</tr>
<tr>
<td>STAT C131A</td>
<td>Statistical Methods for Data Science [⁴]</td>
</tr>
<tr>
<td>STAT 135</td>
<td>Concepts of Statistics [⁴]</td>
</tr>
<tr>
<td>STAT C140</td>
<td>Probability for Data Science [⁴]</td>
</tr>
</tbody>
</table>

Select one of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 1</td>
<td>Introduction to Economics [⁴]</td>
</tr>
<tr>
<td>ECON 2</td>
<td>Introduction to Economics--Lecture Format [⁴] (or equivalent)</td>
</tr>
</tbody>
</table>

Select one of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 100A</td>
<td>Microeconomics [⁴]</td>
</tr>
<tr>
<td>ECON 100B</td>
<td>Macroeconomics [⁴]</td>
</tr>
<tr>
<td>ECON 101A</td>
<td>Microeconomics (Math Intensive) [⁴]</td>
</tr>
<tr>
<td>ECON 101B</td>
<td>Macroeconomics (Math Intensive) [⁴] ²</td>
</tr>
<tr>
<td>ECON 140</td>
<td>Econometrics [⁴]</td>
</tr>
<tr>
<td>ECON 141</td>
<td>Econometrics (Math Intensive) [⁴]</td>
</tr>
</tbody>
</table>

¹ At least one semester of the calculus/statistics requirement must be completed at UC Berkeley.
² Students may take UGBA 101B to fulfill the Intermediate Macroeconomic requirement.
³ Students who took STAT C8, STAT 134, or IND ENG 172 Fall 2019 and prior should consult Economics website (https://www.econ.berkeley.edu/undergrad/prospective/) for details.

### Upper Division Requirements

Select one course from the following, to complete the sequence begun as a prerequisite:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 100A</td>
<td>Microeconomics [⁴]</td>
</tr>
<tr>
<td>ECON 100B</td>
<td>Macroeconomics [⁴]</td>
</tr>
<tr>
<td>ECON 101A</td>
<td>Microeconomics (Math Intensive) [⁴]</td>
</tr>
</tbody>
</table>
ECON 101B  Macroeconomics (Math Intensive) [4] 2
Select one econometrics class from the following:
ECON 140  Econometrics [4]
ECON 141  Econometrics (Math Intensive) [4]
Select five additional upper division economics courses. 4

Approved list of Economics electives available at https://www.econ.berkeley.edu/undergrad/current/major-requirements

Undergraduate students must fulfill the following requirements in addition to those required by their major program.

For detailed lists of courses that fulfill college requirements, please review the College of Letters & Sciences (http://guide.berkeley.edu/undergraduate/colleges-schools/letters-science/) page in this Guide. For College advising appointments, please visit the L&S Advising (https://lsadvising.berkeley.edu/home/) Pages.

University of California Requirements

Entry Level Writing (http://writing.berkeley.edu/node/78/)
All students who will enter the University of California as freshmen must demonstrate their command of the English language by fulfilling the Entry Level Writing requirement. Fulfillment of this requirement is also a prerequisite to enrollment in all reading and composition courses at UC Berkeley.

American History and American Institutions (http://guide.berkeley.edu/undergraduate/colleges-schools/letters-science/american-history-institutions-requirement/)
The American History and Institutions requirements are based on the principle that a US resident graduated from an American university, should have an understanding of the history and governmental institutions of the United States.

Berkeley Campus Requirement
American Cultures (http://americancultures.berkeley.edu/students/courses/)
All undergraduate students at Cal need to take and pass this course in order to graduate. The requirement offers an exciting intellectual environment centered on the study of race, ethnicity and culture of the United States. AC courses offer students opportunities to be part of research-led, highly accomplished teaching environments, grappling with the complexity of American Culture.

College of Letters & Science Essential Skills Requirements
Quantitative Reasoning (http://guide.berkeley.edu/undergraduate/colleges-schools/letters-science/quantitative-reasoning-requirement/)
The Quantitative Reasoning requirement is designed to ensure that students graduate with basic understanding and competency in math, statistics, or computer science. The requirement may be satisfied by exam or by taking an approved course.

Foreign Language (http://guide.berkeley.edu/undergraduate/colleges-schools/letters-science/foreign-language-requirement/)
The Foreign Language requirement may be satisfied by demonstrating proficiency in reading comprehension, writing, and conversation in a foreign language equivalent to the second semester college level, either by passing an exam or by completing approved course work.

Reading and Composition (http://guide.berkeley.edu/undergraduate/colleges-schools/letters-science/reading-composition-requirement/)
In order to provide a solid foundation in reading, writing, and critical thinking the College requires two semesters of lower division work in composition in sequence. Students must complete parts A & B reading and composition courses by the end of their second semester and a second-level course by the end of their fourth semester.

College of Letters & Science 7 Course Breadth Requirements

Breadth Requirements (http://guide.berkeley.edu/undergraduate/colleges-schools/letters-science/#breadthrequirements)
The undergraduate breadth requirements provide Berkeley students with a rich and varied educational experience outside of their major program. As the foundation of a liberal arts education, breadth courses give students a view into the intellectual life of the University while introducing them to a multitude of perspectives and approaches to research and scholarship. Engaging students in new disciplines and with peers from other majors, the breadth experience strengthens interdisciplinary connections and context that prepares Berkeley graduates to understand and solve the complex issues of their day.

Unit Requirements
- 120 total units
- Of the 120 units, 36 must be upper division units
- Of the 36 upper division units, 6 must be taken in courses offered outside your major department

Residence Requirements
For units to be considered in "residence," you must be registered in courses on the Berkeley campus as a student in the College of Letters & Science. Most students automatically fulfill the residence requirement by attending classes here for four years. In general, there is no need to be concerned about this requirement, unless you go abroad for a semester or year or want to take courses at another institution or through UC Extension during your senior year. In these cases, you should make an appointment to meet an adviser to determine how you can meet the Senior Residence Requirement.

Note: Courses taken through UC Extension do not count toward residence.

Senior Residence Requirement
After you become a senior (with 90 semester units earned toward your BA degree), you must complete at least 24 of the remaining 30 units in residence in at least two semesters. To count as residence, a semester must consist of at least 6 passed units. Intercampus Visitor, EAP, and UC Berkeley-Washington Program (UCDC) units are excluded.

You may use a Berkeley Summer Session to satisfy one semester of the Senior Residence requirement, provided that you successfully complete
6 units of course work in the Summer Session and that you have been enrolled previously in the college.

**Modified Senior Residence Requirement**
Participants in the UC Education Abroad Program (EAP), Berkeley Summer Abroad, or the UC Berkeley Washington Program (UCDC) may meet a Modified Senior Residence requirement by completing 24 (excluding EAP) of their final 60 semester units in residence. At least 12 of these 24 units must be completed after you have completed 90 units.

**Upper Division Residence Requirement**
You must complete in residence a minimum of 18 units of upper division courses (excluding UCAP units), 12 of which must satisfy the requirements for your major.

For more detailed information regarding the courses listed below see the College Requirements and Major Requirements tabs.

**Total Units: 127**

1. This is a sample program plan. This plan assumes that the student has completed the Entry Level Writing, American History and Institutions, Quantitative Reasoning, and Foreign Language requirements prior to admission, and does not require MATH 32.

2. To declare the Economics major, students admitted as freshmen must complete all prerequisite courses and apply to the major no later than their fifth semester at Berkeley. A minimum prerequisite GPA of 3.0 is also required.

3. The economics major is impacted and cannot guarantee enrollment in specific courses.

4. Students are strongly advised to work with an academic advisor to determine a personal program plan. Your program plan will differ depending on previous credit received, your course schedule, and available offerings.

5. MATH 53 is a prerequisite to enroll in ECON 101A. ECON 101A, ECON 101B, and ECON 141 (the math intensive versions of ECON 100A, ECON 100B, and ECON 140) are recommended for students interested in research or pursuing a PhD in Economics, and require the MATH 1A-MATH 1B series as prerequisites. ECON 100A/ECON 101A and ECON 100B/ECON 101B can be taken out of order.

6. Other options for the statistics prerequisite are: STAT 20, STAT 21, STAT W21, STAT 88, STAT C131A, STAT 135, STAT C140. Students who took STAT C8, STAT 134, or IND ENG 172 Fall 2019 and prior should consult Economics website (https://www.econ.berkeley.edu/undergrad/prospective/) for details.

7. For students intending to complete the Economics Honors Program (https://www.econ.berkeley.edu/undergrad/current/departmental-honors/), one approved research course can be used to fulfill both the "Research Requirement" for the Honors Program and an upper division elective. Discuss your plans for this program with an Economics advisor. The Economics Honors Program is optional.

8. ECON H195B is the Honors Thesis Course for students intending to complete the Economics Honors Program (https://www.econ.berkeley.edu/undergrad/current/departmental-honors/).

**Accelerated Program Plans**
For students considering graduating in less than four years, it is important to acknowledge the reasons to undertake such a plan of study. While there are advantages to pursuing a three-year degree plan such as reducing financial burdens, they are not for everyone and do involve sacrifices; especially with respect to participating in co-curricular activities, depth of study, and summer internships, which typically lead to jobs upon graduation. All things considered, please see the tables for three and three and a half year degree options.
3.5 Year Plan (https://www.econ.berkeley.edu/sites/default/files/Final%20Edit-Website%203.5%20Year.pdf)

3 Year Plan (https://www.econ.berkeley.edu/sites/default/files/Final%20Edit-Website%203%20Year.pdf)

Mission
Economics is the study of how people make choices under conditions of scarcity and the results of those choices for society. Limited resources make tradeoffs necessary for consumers, businesses, and nations. Microeconomics studies how consumers make choices in using their time and spending their income and how businesses make choices in producing and selling goods and services. Macroeconomics studies the determination of national income and how it deviates from its potential (full employment) over the business cycle. The important outcomes for the national economy are income and how it is distributed, unemployment, inflation, economic growth, and how well financial markets and international trade are functioning. Economics is important in studying the impact of government policies, ranging from regulatory activities in individual markets to general measures for stabilizing and steering the economy at large. The effect of alternative economic policies on the welfare of the population is a core concern in economics. Undergraduates should have the following knowledge and skills when they graduate with an economics major from UC Berkeley. The Department of Economics wants their majors to have knowledge of economics principles with the skills to apply this knowledge in the following ways.

Learning Goals of the Major

Critical Thinking Skills
- Apply economic analysis to evaluate everyday problems.
- Apply economic analysis to evaluate specific policy proposals.
- Compare two or more arguments that have different conclusions to a specific issue or problem.
- Understand the role of assumptions in arguments.

Quantitative Reasoning Skills
- Understand how to use empirical evidence to evaluate an economic argument.
- Interpret statistical results.
- Conduct appropriate statistical analysis of data and explain the statistical problems involved.
- Obtain and/or collect relevant data using specific qualitative and/or quantitative research methods.

Problem-Solving Skills
- Solve problems that have clear solutions.
- Propose solutions for problems that do not have clear answers and indicate under what conditions they may be viable solutions.

Specialized Knowledge and Application of Skills
- In specific content areas (fields) of economics, develop deeper critical and quantitative thinking skills, and apply problem-solving skills to complex problems.

Communication Skills
- Communicate effectively in written, spoken, and graphical form about specific economic issues.
- Formulate a well-organized written argument that states assumptions and hypotheses, which are supported by evidence.
- Present an economic argument orally.

Lifelong Learning Skills
- Possess a working knowledge of information databases (e.g., Econ Lit, Nexis-Lexis).
- Know how to locate and use primary data sources (e.g., BLS Household Survey, UN Human Development Index).
- Understand and evaluate current economic events and new economic ideas.

Career Services Overview
The UC Berkeley Career Center (https://career.berkeley.edu/) prepares undergraduates, graduate students, and alumni to make informed decisions about their futures by providing comprehensive resources, programs, and counseling on career development, internships, employment, and graduate school. Whether it be through a resume critique, an alumni networking event, or an interviewing skills workshop, the Career Center is committed to helping all students achieve:

- Career Clarity: providing students the opportunity to identify their career direction;
- Career Competitiveness: providing students the opportunity to enhance their marketability via real-world experiences;
- Career Connections: providing students opportunities to engage with alumni and employers.

Career and Internship Resources
The UC Berkeley Career Center (https://career.berkeley.edu/) offers a wide variety of programs and resources to support students of all majors and class levels.

- Job Search Tools (https://career.berkeley.edu/Tools/Tools/): Resume and cover letter writing, job search strategies, networking tools, interviewing skills, and more.
- Career Counseling (https://career.berkeley.edu/Info/MakeAppt/): A wide variety of scheduled and drop-in appointment options based on major and topic.
- Internships (https://career.berkeley.edu/Internships/Internships/): Internship listings, search strategies, FAQs, and more.
- Career Exploration (https://career.berkeley.edu/Info/CareerExp/): Resources to explore career options, identify career goals, and develop effective career plans.
- Events and Workshops (https://career.berkeley.edu/Info/Events/): Over 70 events each semester including workshops, alumni networking events, career panels, conferences, and on-campus Career Chats.
- Career Fairs and Employer Information Sessions (https://career.berkeley.edu/Calisto/Infosession/): We offer 14 career fairs each year across a variety of career fields and partner with numerous employers for on-campus information sessions.
- Graduate and Professional School (https://career.berkeley.edu/Info/GradProf/): Counseling and resources to help students research and apply for graduate and professional school including medical school
Common Career Paths for Economics Majors

Career Destinations Survey
Every year the Career Center surveys graduating seniors about their post-graduation plans to better understand the career outcomes of our alumni including: career fields, job titles, specific employers, entry-level salaries, and graduate/professional school destinations. The data profiles by major provide an impressive overview of the diverse interests and achievements of recent graduates from UC Berkeley, including specific data for the Economics Department. Each survey year includes the August, December, and May graduating cohorts for that survey year. This data is designed to provide students, alumni, and employers with critical information about where Cal students go after graduation. As expected, college major does not restrict the employment or graduate school options that Cal students pursue. With careful planning, you can develop career-related skills and experiences that can prepare you for almost any job or graduate school field.

Sample Career Pathways
Economics majors go on to pursue a wide variety of career options including, but not limited to:

• Economics: Data collection, research analysis, forecasting, planning, consulting and policy advising roles in many industries including private sector consulting and research firms, retail, insurance, transportation, healthcare, federal, state and local government agencies, public utilities, or labor unions.

• Banking and finance: Financial analysis, commercial banking, mortgage and lending services, credit analysis, branch management, securities sales and research.

• Management: Business and industry including banks, retail stores, restaurants, hotels, healthcare, manufacturing, government and nonprofit organizations.

• Insurance: Claims, underwriting, risk management, sales, loss control, and actuarial science.

• Sales: Industrial sales, consumer product sales, financial services sales, advertising sales, ecommerce, high tech forms, and media.

• Education: Teaching, research and administrative roles in colleges, universities, and secondary schools.

Please visit our website for more information about our advising services: https://www.econ.berkeley.edu/undergrad/home/advising.

Economics

ECON 1 Introduction to Economics 4 Units
Terms offered: Summer 2022 First 6 Week Session, Spring 2022, Fall 2021
A survey of economics designed to give an overview of the field.
Introduction to Economics: Read More [+]

Rules & Requirements
Credit Restrictions: Students will receive no units for Economics 1 after passing Economics 2.

Hours & Format
Fall and/or spring: 15 weeks - 2 hours of lecture and 2 hours of discussion per week
Summer:
6 weeks - 6 hours of lecture and 6 hours of discussion per week
8 weeks - 4 hours of lecture and 4 hours of discussion per week

Additional Details
Subject/Course Level: Economics/Undergraduate
Grading/Final exam status: Letter grade. Final exam required, with common exam group.

Introduction to Economics: Read Less [-]

Student Services
The economics student services mission is to advise our students holistically by providing a high standard of service in a supportive and collaborative environment. Professional and peer advisers work as a team to provide accurate information in a timely manner. We partner with faculty to assist students in engaging with the campus and the global economic community. We value fairness, diversity, and the important roles our students, faculty, and staff in the Department of Economics play at the University of California, Berkeley.
ECON 2 Introduction to Economics--Lecture Format 4 Units
Terms offered: Spring 2022, Fall 2020, Spring 2020
The course provides a survey of economics principles and methods. It covers both microeconomics, the study of consumer choice, firm behavior, and market interaction, and macroeconomics, the study of economic growth, unemployment, and inflation. Special emphasis is placed on the application of economic tools to contemporary economic problems and policies. Economics 2 differs from Economics 1 in that it has an additional hour of lecture per week and can thus cover topics in greater depth. It is particularly appropriate for intended economics majors.

Introduction to Economics--Lecture Format: Read More [+]

Rules & Requirements

Credit Restrictions: Students will receive no credit for ECON 2 after completing ECON 1; 2 units after completing ECON 3 or ENVECON 1 or ECON 3/ENVECON 1.

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture and 1 hour of discussion per week

Additional Details

Subject/Course Level: Economics/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

Introduction to Economics--Lecture Format: Read Less [-]

ECON C3 Introduction to Environmental Economics and Policy 4 Units
Terms offered: Summer 2022 8 Week Session, Fall 2021, Summer 2021 8 Week Session, Fall 2020
Introduction to microeconomics with emphasis on resource, agricultural, and environmental issues.

Introduction to Environmental Economics and Policy: Read More [+]

Rules & Requirements

Prerequisites: Mathematics 32

Credit Restrictions: Students will receive no credit for ECON C3 after completing ECON 1.

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture and 1 hour of discussion per week

Summer: 8 weeks - 6 hours of lecture and 2 hours of discussion per week

Additional Details

Subject/Course Level: Economics/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

Also listed as: ENVECON C1

Introduction to Environmental Economics and Policy: Read Less [-]

ECON 24 Freshman Seminar 1 Unit
Terms offered: Fall 2011, Spring 2008, Fall 2004
The Freshman Seminar Program has been designed to provide new students with the opportunity to explore an intellectual topic with a faculty member in a small seminar setting. Freshman seminars are offered in all campus departments. Topics vary from department to department and semester to semester. Enrollment limited to 15 freshman.

Freshman Seminar: Read More [+]

Rules & Requirements

Repeat rules: Course may be repeated for credit when topic changes.

Hours & Format

Fall and/or spring: 15 weeks - 1 hour of seminar per week

Additional Details

Subject/Course Level: Economics/Undergraduate

Grading/Final exam status: The grading option will be decided by the instructor when the class is offered. Final Exam To be decided by the instructor when the class is offered.

Freshman Seminar: Read Less [-]

ECON 84 Sophomore Seminar 1 or 2 Units
Terms offered: Spring 2022, Spring 2021, Spring 2020
Sophomore seminars are small interactive courses offered by faculty members in departments all across the campus. Sophomore seminars offer opportunity for close, regular intellectual contact between faculty members and students in the crucial second year. The topics vary from department to department and semester to semester. Enrollment limited to 15 sophomores.

Sophomore Seminar: Read More [+]

Rules & Requirements

Prerequisites: At discretion of instructor

Repeat rules: Course may be repeated for credit when topic changes.

Hours & Format

Fall and/or spring:
5 weeks - 3-6 hours of seminar per week
10 weeks - 1.5-3 hours of seminar per week
15 weeks - 1-2 hours of seminar per week

Summer:
6 weeks - 2.5-5 hours of seminar per week
8 weeks - 1.5-3.5 hours of seminar per week

Additional Details

Subject/Course Level: Economics/Undergraduate

Grading/Final exam status: The grading option will be decided by the instructor when the class is offered. Final Exam To be decided by the instructor when the class is offered.

Sophomore Seminar: Read Less [-]
ECON 98 Directed Group Study 1 - 4 Units
Terms offered: Fall 2019, Fall 2016, Fall 2015
Written proposal must be approved by Department Chair. Seminars for the group study of selected topics, which will vary from year to year. Topics may be initiated by students.
Directed Group Study: Read More [+]

Rules & Requirements
Credit Restrictions: Enrollment is restricted; see the Introduction to Courses and Curricula section of this catalog.
Repeat rules: Course may be repeated for credit without restriction.

Hours & Format
Fall and/or spring: 15 weeks - 1-4 hours of directed group study per week

Additional Details
Subject/Course Level: Economics/Undergraduate
Grading/Final exam status: Offered for pass/not pass grade only. Final exam not required.
Directed Group Study: Read Less [-]

ECON 100A Microeconomics 4 Units
Terms offered: Summer 2022 8 Week Session, Spring 2022, Fall 2021
This course introduces students to the main tools and concepts of microeconomics. These tools and concepts will serve as a foundation for many upper level economics courses. Topics covered include consumer theory, producer theory, equilibrium in a competitive market, monopoly, general equilibrium, and asymmetric information. This course makes use of calculus. Topics covered are similar to those in 101A.
Microeconomics: Read More [+]

Rules & Requirements
Prerequisites: 1 or 2 or C3, or Environmental Economics and Policy 1, and Mathematics 1A or 16A, and Mathematics 1B or 16B, or equivalent
Credit Restrictions: Students will receive no credit for ECON 100A after completing ECON 101A or UGBA 101A. A deficient grade in UGBA 101A may be repeated by taking ECON 100A.

Hours & Format
Fall and/or spring: 15 weeks - 3-3 hours of lecture and 1-2 hours of discussion per week
Summer: 8 weeks - 6-6 hours of lecture and 1.5-4 hours of discussion per week

Additional Details
Subject/Course Level: Economics/Undergraduate
Grading/Final exam status: Letter grade. Final exam required, with common exam group.
Microeconomics: Read Less [-]

ECON 100B Macroeconomics 4 Units
Terms offered: Summer 2022 8 Week Session, Spring 2022, Fall 2021
This course introduces students to the main approaches economists use to describe how the economy works at the aggregate level. Topics covered include economic growth, business cycles, the determinants of aggregate employment, unemployment, and inflation, and the effects of monetary and fiscal policy. This course makes use of calculus. Topics covered are similar to those in 101B.

Rules & Requirements
Prerequisites: 1 or 2, and Mathematics 1A or 16A
Credit Restrictions: Students will receive no credit for 100B after taking 101B or Undergraduate Business Administration 101B. A deficient grade in Undergraduate Business Administration 101B may be repeated by taking 100B.

Hours & Format
Fall and/or spring: 15 weeks - 3-3 hours of lecture and 1-2 hours of discussion per week
Summer: 8 weeks - 6-6 hours of lecture and 1.5-4 hours of discussion per week

Additional Details
Subject/Course Level: Economics/Undergraduate
Grading/Final exam status: Letter grade. Final exam required, with common exam group.
Macroeconomics: Read Less [-]
ECON 101A Microeconomics (Math Intensive) 4 Units
Terms offered: Spring 2022, Fall 2021, Spring 2021
This course introduces students to the main tools and concepts of microeconomics. These tools and concepts will serve as a foundation for many upper level economics courses. Topics covered include consumer theory, producer theory, equilibrium in a competitive market, monopoly, general equilibrium, game theory, and asymmetric information. Topics covered are similar to those in 100A, but this course uses calculus more intensively and is intended for students with a strong mathematical background.
Microeconomics (Math Intensive): Read More [+]
Rules & Requirements
Prerequisites: 1 or 2, Mathematics 53 or equivalent or consent of instructor
Credit Restrictions: Students will receive no credit for ECON 101A after completing ECON 100A, or UGBA 101A.
Hours & Format
Fall and/or spring: 15 weeks - 3-3 hours of lecture and 1-2 hours of discussion per week
Additional Details
Subject/Course Level: Economics/Undergraduate
Grading/Final exam status: Letter grade. Final exam required.
Microeconomics (Math Intensive): Read Less [-]

ECON 101B Macroeconomics (Math Intensive) 4 Units
Terms offered: Spring 2022, Fall 2021, Spring 2021
This course introduces students to the main approaches economists use to describe how the economy works at the aggregate level. Topics covered include economic growth, business cycles, the determinants of aggregate employment, unemployment, and inflation, and the effects of monetary and fiscal policy. This course uses calculus intensively and is intended for students with a strong mathematical background. Topics covered are similar to those in 100B.
Macroeconomics (Math Intensive): Read More [+]
Rules & Requirements
Prerequisites: 1 or 2, and Mathematics 1A and 1B
Credit Restrictions: Students will not receive credit for 101B after taking 100B or Undergraduate Business Administration 101B. A deficient grade in Undergraduate Business Administration 101B may be repeated by taking 101B.
Hours & Format
Fall and/or spring: 15 weeks - 3-3 hours of lecture and 1-2 hours of discussion per week
Additional Details
Subject/Course Level: Economics/Undergraduate
Grading/Final exam status: Letter grade. Final exam required.
Macroeconomics (Math Intensive): Read Less [-]

ECON 102 Natural Resource Economics 4 Units
Terms offered: Fall 2021, Fall 2020, Fall 2019
Introduction to the economics of natural resources. Land and the concept of economic rent. Models of optimal depletion of nonrenewable resources and optimal use of renewable resources. Application to energy, forests, fisheries, water, and climate change. Resources, growth, and sustainability.
Natural Resource Economics: Read More [+]
Rules & Requirements
Prerequisites: 100, or Economics 100A or 100B
Hours & Format
Fall and/or spring: 15 weeks - 3 hours of lecture and 1 hour of discussion per week
Additional Details
Subject/Course Level: Economics/Undergraduate
Grading/Final exam status: Letter grade. Final exam required.
Instructor: Sunding

Grading/Final exam status: Letter grade. Final exam required.
Advanced Microeconomic Theory: Read Less [-]

ECON 105 History of Economic Thought
4 Units
Terms offered: Fall 2019, Summer 2019 First 6 Week Session, Fall 2018
A survey of the theories of major economists from Adam Smith to Keynes.
History of Economic Thought: Read More [+]

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of lecture per week
Summer:
6 weeks - 8 hours of lecture per week
8 weeks - 5.5 hours of lecture per week

Additional Details
Subject/Course Level: Economics/Undergraduate
Grading/Final exam status: Letter grade. Final exam required.
History of Economic Thought: Read Less [-]

ECON 106 Advanced Macroeconomics
4 Units
Terms offered: Spring 2021
This class will provide an introduction to the modern analysis of macroeconomic stabilization policies such as monetary policy and fiscal policy. Students will be introduced to modern techniques such as dynamic stochastic general equilibrium models with rational expectations as well as modern techniques for empirically assessing the effects of macroeconomic policies on the economy.
Advanced Macroeconomics: Read More [+]
Rules & Requirements
Prerequisites: Econ 100A (or Econ 101A) and Econ 100B (or Econ 101B) or consent of instructor
Credit Restrictions: Students will receive no credit for ECON 106 after completing ECON 106. A deficient grade in ECON 106 may be removed by taking ECON 106.

Hours & Format
Fall and/or spring: 15 weeks - 3-3 hours of lecture and 1-0 hours of discussion per week

Additional Details
Subject/Course Level: Economics/Undergraduate
Grading/Final exam status: Letter grade. Final exam required.
Advanced Macroeconomics: Read Less [-]
ECON C110 Game Theory in the Social Sciences 4 Units
Terms offered: Fall 2021, Fall 2020, Fall 2019
A non-technical introduction to game theory. Basic principle, and models of interaction among players, with a strong emphasis on applications to political science, economics, and other social sciences.

Rules & Requirements
Credit Restrictions: Students receive no credit for PS C135/PEIS C135/ ECON C110 after taking ECON 104. If PS C135/ECON C110/PS W135/ ECON N110 is taken and with a passing grade, students can’t take the other versions of the course for additional credit. If PS C135/ECON C110/ PS W135/ECON N110 is taken and not passed, students can take the other versions to replace grade.

Repeat rules: Course may be repeated for credit under special circumstances: PS C135/ECON C110, PS W135 and ECON N110 are similar in content. See Restriction Description.

Hours & Format
Fall and/or spring: 15 weeks - 3-3 hours of lecture and 0-1 hours of discussion per week
Summer: 8 weeks - 6 hours of lecture per week

Additional Details
Subject/Course Level: Economics/Undergraduate
Grading/Final exam status: Letter grade. Final exam required.

Also listed as: POL SCI C135

ECON N110 Game Theory in the Social Sciences 4 Units
Terms offered: Summer 2022 8 Week Session, Summer 2021 8 Week Session, Summer 2020 8 Week Session
A non-technical introduction to game theory. Basic principle, and models of interaction among players, with a strong emphasis on applications to political science, economics, and other social sciences.

Rules & Requirements
Credit Restrictions: Students will receive no credit for Economics N110 after completing Economics 104, Political Science C135/Political Economy of Industrial Societies/Economics C110.

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of lecture and 1 hour of discussion per week
Summer: 8 weeks - 6 hours of lecture per week

Additional Details
Subject/Course Level: Economics/Undergraduate
Grading/Final exam status: Letter grade. Final exam not required.
Formerly known as: 135

Game Theory in the Social Sciences: Read Less [-]
ECON 111 Applied Mechanism Design 4 Units
Terms offered: Fall 1974
The course will analyze the roles of individual incentives, target group objectives and outcomes and how they are impacted by group decision making systems. A group decision making system is a way of making group level decisions. We examine this through the lens of game theory and mechanism design and other complementary analytic approaches. For example, we would examine the impact of having alternative election systems. This course draws primarily from microeconomic theory as an anchoring framework to evaluate these systems and individual actions. As with much of behavioral economics where we deal with real complex structures, we borrow from psychology (for behavioral theory) and business and politics (for real world examples).
Applied Mechanism Design: Read More [+]

Rules & Requirements
Prerequisites: -Required: Math 1A/1B or equivalent, Econ 1 or equivalent, Stats 20, 21, W21, 88, 131A, or 135 or equivalent -Preferred: (not required but nice to have for background) Econ 100A /101A (Intermediate Micro), Econ 110(Game Theory), Econ 140/141 (Econometrics)

Hours & Format
Fall and/or spring: 15 weeks - 3-3 hours of lecture and 1-0 hours of discussion per week
Summer: 8 weeks - 6-6 hours of lecture and 2-0 hours of discussion per week

Additional Details
Subject/Course Level: Economics/Undergraduate
Grading/Final exam status: Letter grade. Alternate method of final assessment during regularly scheduled final exam group (e.g., presentation, final project, etc.).

ECON 113 U.S Economic History 4 Units
Terms offered: Spring 2018, Spring 2017, Spring 2015
A survey of the history of the U.S. economy. Emphasis is on economic events, factors, and explanations, with particular emphasis on economic growth, development, and the distribution of gains and losses associated with growth. A key skill developed during the course is the ability to read, understand, and critique econometric results in current economic history research.
U.S Economic History: Read More [+]

Rules & Requirements
Prerequisites: Econ 1 or 2 or C3, or EnvEcon C1; Econ 140 or 141 or EnvEcon/IAS C118
Credit Restrictions: Students will receive no credit for ECON 113 after completing ECON N113. A deficient grade in ECON 113 may be removed by taking ECON N113.

Hours & Format
Fall and/or spring: 15 weeks - 3-3 hours of lecture and 0-1 hours of discussion per week
Summer: 8 weeks - 6-6 hours of lecture and 0-2 hours of discussion per week

Additional Details
Subject/Course Level: Economics/Undergraduate
Grading/Final exam status: Letter grade. Final exam required.

ECON N113 U.S Economic History 4 Units
Terms offered: Summer 2010 8 Week Session, Summer 2009 10 Week Session, Summer 2009 8 Week Session
A survey of the history of the U.S. economy. Emphasis is on economic events, factors, and explanations, with particular emphasis on economic growth, development, and the distribution of gains and losses associated with growth. A key skill developed during the course is the ability to read, understand, and critique econometric results in current economic history research.

Grading/Final exam status: Letter grade. Final exam required.

ECON 119 Psychology and Economics 4 Units
Terms offered: Fall 2021, Summer 2021 First 6 Week Session, Fall 2020
This course presents psychological and experimental economics research demonstrating departures from perfect rationality, self-interest, and other classical assumptions of economics and explores ways that these departures can be mathematically modeled and incorporated into mainstream positive and normative economics. The course will focus on the behavioral evidence itself, especially on specific formal assumptions that capture the findings in a way that can be incorporated into economics. The implications of these new assumptions for theoretical and empirical economics will be explored.
Psychology and Economics: Read More [+]

**ECON 127 Antitrust Economics and Law 4 Units**
Terms offered: Spring 2022
We will study both antitrust law and antitrust economics. Antitrust law governs the accumulation and exercise of market power. It prohibits both monopolization and agreements in unreasonable restraint of trade such as price fixing. It also prohibits anticompetitive mergers and a variety of specific competition problems such as exclusive dealing or tying arrangements. Deciding what qualifies as "monopolization," what qualifies as an "unreasonable restraint of trade," what qualifies as "anticompetitive," and more generally how to interpret the prohibitions of antitrust law invariably involves economic analysis. Such economic analysis commonly goes by the name "antitrust economics".

**Rules & Requirements**
Prerequisites: Intermediate Microeconomics at the level of Economics 100A or 101A is required. Economics 121 is recommended

**Hours & Format**
Fall and/or spring: 15 weeks - 3 hours of lecture and 1 hour of discussion per week

**Additional Details**
Subject/Course Level: Economics/Undergraduate
Grading/Final exam status: Letter grade. Final exam required.

Antitrust Economics and Law: Read Less [-]
ECON 130 Using Economics for Public Policy 4 Units
Terms offered: Fall 2021
This course explores how economics can be used to understand and evaluate public policies. We will use both economic theory and empirical evidence to study the varying impacts and incentives created by public policies. An emphasis will be placed on the application of economic tools to policy questions. The course will provide an overview of key research in several policy areas, including inequality and opportunity, the social safety net, education, criminal justice, tax policy, climate change and the environment, health care, and structural barriers to racial equity. The course will also provide an introduction to empirical techniques common in economics and policy analysis, including regression, cost-benefit analysis, and causal inference. Using Economics for Public Policy: Read More [+]

ECON 133 Global Inequality and Growth 4 Units
Terms offered: Spring 2022, Spring 2021, Spring 2020
This course provides an introduction to the analysis of economic inequalities and the interplay between inequality and economic growth. It focuses on three sets of core questions: 1) How does inequality evolve over the path of development? 2) What are the theories that can explain the degree of economic inequalities and its dynamic? 3) How do policies affect inequalities, and what types of policies can foster equitable growth? The course addresses these issues from a global and historical perspective: it comprehensively deals with the United States today, but also with inequality in China, India, Latin America, and Europe, as far back as 1700.

ECON 139 Intermediate Financial Economics 4 Units
Terms offered: Spring 2021, Fall 2020, Spring 2020
This is a 4-unit advanced undergraduate course designed for undergraduates in Economics, Statistics, Mathematics, and Industrial Engineering/Operations Research who are interested in financial economics and finance. This course will stress the link between financial economics and equilibrium theory. Less attention will be devoted to purely financial topics such as the valuation of derivatives. This course is intended as the segue between a first course in financial economics (at the undergraduate level) and graduate-level courses in financial economics and finance. The idea is to introduce students to the full range of topics typically covered by a financial economics and/or discrete time asset pricing course at the doctoral level.
Intermediate Financial Economics: Read More [+]

Rules & Requirements
Prerequisites: Students need a basic understanding of the principles of finance as well as microeconomic theory. Working knowledge of multi-variable calculus, linear algebra, and probability and statistics will be assumed. Required courses: Economics 100A/101A, Economics 136, or equivalent. Recommended courses: Math 53, Math 54, Statistics 20, or equivalent

Hours & Format
Fall and/or spring: 15 weeks - 4-4 hours of lecture and 0-1 hours of discussion per week

Additional Details
Subject/Course Level: Economics/Undergraduate
Grading/Final exam status: Letter grade. Final exam required.
Instructors: Bianchi, Anderson
Intermediate Financial Economics: Read Less [-]
ECON 140 Econometrics 4 Units
Terms offered: Summer 2022 8 Week Session, Spring 2022, Fall 2021
This course provides an introduction to statistical and estimation analysis of economic data, also known as “Econometrics”. It covers topics such as the linear regression model and its estimator, Ordinary Least Squares, as well as extensions such as Instrumental Variables models, panel data models, and time series models. Topics covered in this course are similar to those in 141.

Prerequisites: Econ 1 or 2 or equivalent, Stats 20, 21, W21, 88, 131A, or 135 or equivalent
Credit Restrictions: Students will not receive credit for 140 after taking 141.
Hours & Format
Fall and/or spring: 15 weeks - 3 hours of lecture and 1.5 hours of discussion per week
Summer: 8 weeks - 6 hours of lecture and 3 hours of discussion per week
Additional Details
Subject/Course Level: Economics/Undergraduate
Grading/Final exam status: Letter grade. Final exam required, with common exam group.

ECON 141 Econometrics (Math Intensive) 4 Units
Terms offered: Spring 2022, Fall 2021, Spring 2021
This course provides an introduction to statistical and estimation analysis of economic data, also known as “Econometrics”. It covers topics such as the linear regression model and its estimator, Ordinary Least Squares, as well as extensions such as Instrumental Variables models, panel data models, and time series models. While topics covered in this course are similar to those in 140, the treatment in this course is more theoretical and more mathematical.

Prerequisites: Econ 1 or 2 or equivalent, Stats 20, 21, W21, 88, 131A, or 135 or equivalent, Math 53 and 54 or equivalent
Credit Restrictions: Students will not receive credit for 141 after taking 140.
Hours & Format
Fall and/or spring: 15 weeks - 3 hours of lecture and 1.5 hours of discussion per week
Summer: 8 weeks - 4 hours of lecture and 3 hours of discussion per week
Additional Details
Subject/Course Level: Economics/Undergraduate
Grading/Final exam status: Letter grade. Final exam required.
**ECON C142 Applied Econometrics and Public Policy 4 Units**

Terms offered: Spring 2022, Spring 2021, Fall 2020, Spring 2020

This course focuses on the sensible application of econometric methods to empirical problems in economics and public policy analysis. It provides background on issues that arise when analyzing non-experimental social science data and a guide for tools that are useful for empirical research.

By the end of the course, students will have an understanding of the types of research designs that can lead to convincing analysis and be comfortable working with large scale data sets.

Applied Econometrics and Public Policy: Read More [+]

**Rules & Requirements**

**Prerequisites:** 140 or 141 or consent of instructor

**Credit Restrictions:** Students who completed Econ C142 receive no credit for Econ N142.

**Hours & Format**

Fall and/or spring: 15 weeks - 3-3 hours of lecture and 1-0 hours of discussion per week

Summer: 8 weeks - 6-6 hours of lecture and 2-0 hours of discussion per week

**Additional Details**

Subject/Course Level: Economics/Undergraduate

Grading/Final exam status: Letter grade. Alternate method of final assessment during regularly scheduled final exam group (e.g., presentation, final project, etc.).

Also listed as: POL SCI C131A/PUB POL C142

Applied Econometrics and Public Policy: Read Less [-]

---

**ECON 143 Econometrics: Advanced Methods and Applications 4 Units**

Terms offered: Spring 2022

This course introduces selected advanced data analysis and inference methods appropriate for economic data. Methods are taught in tandem with real world applications as encountered in policy analysis, industry and consulting work. Equal weight is given to theoretical development, computation and application. Exact topics and applications may vary across offerings. ECON C142 and 143 may be taken independently or together in any order.

Econometrics: Advanced Methods and Applications: Read More [+]

**Rules & Requirements**

**Prerequisites:** (i) A first course in econometrics, intermediate statistics or intermediate data science (Ec 140, Ec 141, ENVECON C118, DATA C100 or STAT 135); (ii) Linear algebra (Math 54, Stat 89A or EECS 16A). (iii) Exposure to economic theory at an intermediate level (e.g., Ec 100A, 101A etc.) is preferred, but not required. Prior exposure to scientific computing is also helpful, but not required.

**Hours & Format**

Fall and/or spring: 15 weeks - 3-3 hours of lecture and 1-1 hours of discussion per week

**Additional Details**

Subject/Course Level: Economics/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

Econometrics: Advanced Methods and Applications: Read Less [-]
**ECON 144 Financial Econometrics 4 Units**  
Terms offered: Prior to 2007  
Since much of financial econometrics is based on time-series data, we will spend the first three weeks introducing/reviewing basic time-series analysis. The course will then start out by discussing the short-run time-series behaviour of stock prices, and present the evidence on short- and long-run predictability of stock returns. We will continue by discussing cross-sectional models and static equilibrium theory, including (but not limited to) the Capital Asset Pricing Model (CAPM) and Arbitrage Pricing Theory (APT). The course will then consider intertemporal equilibrium models, including (but not limited to) Arrow-Debreu pricing theory and the consumption-based CAPM. Finally, the course will look at fixed-income securities and derivative.

Financial Econometrics: Read More [+]

**Rules & Requirements**

**Prerequisites:** Students need a basic understanding of the principles of finance, as well as introductory econometrics. Working knowledge of multi-variable calculus, linear algebra, and probability and statistics will be assumed. Required courses: Economics 136, Economics 140/141, or equivalent. Recommended courses: Economics 139, or equivalent.

**Hours & Format**

**Fall and/or spring:** 15 weeks - 3-3 hours of lecture and 1-0 hours of discussion per week

**Summer:** 8 weeks - 6-6 hours of lecture and 2-0 hours of discussion per week

**Additional Details**

**Subject/Course Level:** Economics/Undergraduate

**Grading/Final exam status:** Letter grade. Final exam required.

Financial Econometrics: Read Less [-]

---

**ECON 152 Wage Theory and Policy 4 Units**  
Terms offered: Fall 2021, Spring 2020, Spring 2019  
This course focuses on theoretical and empirical analysis of wage and employment determination in the labor market. In addition, the role of public policy in affecting wage and employment outcomes in the U.S. labor market is examined. Topics include labor supply, labor demand, minimum wages, the economics of education and training, discrimination and the impact of antidiscrimination programs, changes in wage inequality over time, immigration, unions, unemployment, and poverty.

Wage Theory and Policy: Read More [+]

**Rules & Requirements**

**Prerequisites:** 100A or 101A

**Hours & Format**

**Fall and/or spring:** 15 weeks - 3 hours of lecture and 0-1 hours of discussion per week

**Summer:** 8 weeks - 6 hours of lecture and 0-2 hours of discussion per week

**Additional Details**

**Subject/Course Level:** Economics/Undergraduate

**Grading/Final exam status:** Letter grade. Final exam required.

**Subject/Course Level:** Economics/Undergraduate

**Grading/Final exam status:** Letter grade. Final exam required.

**ECON 162 The Chinese Economy 3 Units**
Terms offered: Fall 2021, Fall 2020, Fall 2019
The Chinese economy, its institutions, reform and transition to the market, and development.

**The Chinese Economy: Read More [+]**

**Rules & Requirements**

**Prerequisites:** 100A-100B or 101A-101B

**Hours & Format**

- Fall and/or spring: 15 weeks - 3 hours of lecture per week
- Summer: 8 weeks - 5.5 hours of lecture per week

**Additional Details**

**Subject/Course Level:** Economics/Undergraduate

**Grading/Final exam status:** Letter grade. Final exam required.

**ECON C171 Development Economics 4 Units**
Terms offered: Summer 2022 8 Week Session, Spring 2022, Fall 2021, Spring 2021
This course covers theory and empirical evidence on the determinants of economic development and the global fight against poverty. The course aims to introduce students to modern empirical research methods that are being used to inform policy making in developing countries. Students also learn how to implement these tools themselves using real-world data sets and widely used statistical software for impact evaluation.

**Development Economics: Read More [+]**

**Rules & Requirements**

**Prerequisites:** EnvEcon 100 or Econ 100A or 101A; Econ 140 or 141 or EnvEcon/IAS C118

ECON 174 Global Poverty and Impact Evaluation 4 Units
Terms offered: Fall 2021, Spring 2021, Fall 2020
There are a countless number of potential policies and programs to address the causes and consequences of poverty. However, how should one determine which of these is actually effective in improving the lives of the poor? This course explores a variety of empirical tools to rigorously measure the impact of development programs. Through weekly case studies of field research, students will learn impact evaluation theory and methods, and apply them to concrete examples from the development literature.
Rules & Requirements
Prerequisites: Econ 100A or 101A or 100B or 101B; and Econ 140 or 141 or EnvEcon/IAS C118
Hours & Format
Fall and/or spring: 15 weeks - 3 hours of lecture and 1 hour of discussion per week

Global Poverty and Impact Evaluation: Read Less [-]
ECON C175 Economic Demography 4 Units
Terms offered: Spring 2022, Spring 2021, Spring 2020
A general introduction to economic demography, addressing the following kinds of questions: What are the economic consequences of immigration to the U.S.? Will industrial nations be able to afford the health and pension costs of the aging populations? How has the size of the baby boom affected its economic well being? Why has fertility been high in Third World countries? In industrial countries, why is marriage postponed, divorce high, fertility so low, and extramarital fertility rising? What are the economic and environmental consequences of rapid population growth?

Rules & Requirements
Prerequisites: Economics 1 or 2

Hours & Format
Fall and/or spring: 15 weeks - 3-3 hours of lecture and 0-1 hours of discussion per week
Summer:
6 weeks - 7.5-7.5 hours of lecture and 0-2.5 hours of discussion per week
8 weeks - 6-6 hours of lecture and 0-2 hours of discussion per week

**International Trade:** Read Less [-]

**ECON 182 International Monetary Economics 4 Units**
Terms offered: Fall 2021, Spring 2021, Fall 2020
The balance of payments, the determination of the trade balance and income under fixed and floating exchange rates, money and prices in open economies, the internationalization of financial markets and its implications, international macroeconomic interdependence, capital flows, and the determination of the exchange rate.

**Rules & Requirements**

**Prerequisites:** 100A-100B or 101A-101B

**Hours & Format**

**Fall and/or spring:** 15 weeks - 3 hours of lecture and 0-1 hours of discussion per week

**Summer:** 8 weeks - 7.5 hours of lecture per week

**International Monetary Economics:** Read Less [-]

**ECON 183 International Economic Seminar 4 Units**
Terms offered: Spring 2022, Spring 2021, Spring 2020
This small seminar course is designed to introduce students to a set of current policy controversies in international economics and provide an opportunity for them to apply to these policy debates the analytical tools encountered in previous courses (such as Economics 100B or 101B). Students will make a class presentation, write several short papers, as well as submitting a final paper.

**Rules & Requirements**

**Prerequisites:** Economics 100B or 101B or consent of instructor

**Hours & Format**

**Fall and/or spring:** 15 weeks - 3 hours of seminar per week

**International Economic Seminar:** Read Less [-]
ECON C184 International Environmental Economics 4 Units

Terms offered: Fall 2021, Fall 2020

This course studies the following question: How should policymakers and scholars design and analyze environmental policy in a globalized world where much economic activity and pollution crosses political borders? The course addresses issues including climate change, air and water pollution, deforestation, species extinction, and others. The course also analyzes a variety of ways that countries and regions interact, including trade, foreign direct investment, outsourcing, international agreements and treaties, and others. The course also teaches a range of tools used to analyze these issues, including life-cycle (also called environmental footprint) analysis, simple econometrics, environmental market design, non-market valuation, and the data.

International Environmental Economics: Read More [+]

Objectives & Outcomes

Course Objectives:
1. Develop a strong grasp of the main debates and ideas involving international environmental economics
2. Learn to interpret, apply, and critically assess methods used to study international environmental economic issues
3. Build skills in reading basic economic writing involving these issues, including an understanding of their evidence and conclusions, and ability to critically evaluate the basis for these conclusions

Student Learning Outcomes:
1. A strong grasp of the main scholarly debates and ideas involving international environmental economics
2. The ability to interpret and critically assess methods used to study international environmental economic issues, including: life-cycle analysis and input-output tables; simple econometric estimates; the design of environmental policy; non-market valuation; and the use of remote sensing (satellite) data
   The ability to read basic empirical environmental economics papers, understand their evidence and conclusions, and critically evaluate the basis for these conclusions

Rules & Requirements

Prerequisites: ENVECON 100, ECON 101a, ECON 100a or or equivalent

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture and 1 hour of discussion per week

Additional Details

Subject/Course Level: Economics/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

ECON 191 Topics in Economic Research 4 Units

Terms offered: Spring 2022, Fall 2021, Spring 2021

This course discusses recent research and policy developments. The core objective is to expose students to different aspects of research in economics. A sequence of five different frontier research topics are studied in depth each semester. Each topic lasts three weeks, during which students will familiarize themselves with cutting-edge economic research and methodology. Students will then develop their own research ideas and write two medium-size research papers.

Topics in Economic Research: Read More [+]
