Electrical Engineering and Computer Sciences and Business Administration

M.E.T. at a Glance: One program, two Bachelor of Science (BS) degrees

The Electrical Engineering and Computer Sciences and Business Administration simultaneous degree is part of the Management, Entrepreneurship, & Technology Program. The M.E.T. Program aims to educate leaders with a seamless understanding of technology innovation, from idea to real-world impact.

M.E.T. students earn two Bachelor of Science degrees in one program that combines the best of the top-ranked College of Engineering and Haas School of Business. The integrated curriculum is completed in four years. Internships, career coaching, and other enrichment activities provide ample opportunity for hands-on experience with innovation and entrepreneurship. Each M.E.T. cohort is small, allowing for close mentoring and a tight-knit community.

Admission to the M.E.T. Program

The M.E.T. Program seeks inquisitive, self-motivated students with a passion for finding and solving big problems. It is highly competitive and is only open to freshmen during the UC application period.

For further information, please see the M.E.T. website (http://met.berkeley.edu).

Accreditation

All UC Berkeley programs are accredited through the Accrediting Commission for Schools, Western Association of Schools and Colleges (ACS WASC). Additionally, the EECS undergraduate degree program in the College of Engineering is accredited by ABET through September 30, 2019. The Undergraduate Business Degree Program is accredited by The Association to Advance Collegiate Schools of Business (AACSB).

In addition to the University, campus, and M.E.T. Program requirements, listed on the College Requirements tab, students must fulfill the below requirements.

General Guidelines

1. A minimum of 38 upper division business units are required, and a minimum of 12 upper division non-business units are required. (Upper division EECS classes will fulfill the 12 upper division non-business units.)
2. A minimum of 40 technical engineering units are required.¹
3. Students must complete the College Requirements (p. 3) and the Major Requirements.
4. Students must complete the degree program in eight semesters. (Summer Session is not required for degree completion in eight semesters.)
5. All Haas business courses must be taken for a letter grade, with the exception of UGBA 194 (http://guide.berkeley.edu/search/?P=UGBA %20194), UGBA 198 (http://guide.berkeley.edu/search/?P=UGBA %20198) and UGBA 199 (http://guide.berkeley.edu/search/?P=UGBA %20199) (only offered Pass/No Pass).
6. All technical courses that can be used to fulfill a requirement must be taken for a letter grade.
7. Students who receive a grade of D+ or lower in a core UGBA course must repeat the course until they achieve a grade of C- or better.
8. Students in this program must adhere to all policies and procedures of the College of Engineering and the Haas School of Business.

For information regarding University and campus requirements, Reading and Composition, breadth, class schedule, minimum academic progress, and unit requirements, please see the College Requirements (p. 3).

¹Technical engineering courses cannot include:

- Any course taken on a Pass/No Pass basis
- Courses numbered 24, 39, or 84
- Any of the following courses: BIO ENG 100, COMPSCI 70, COMPSCI C79, COMPSCI 195, COMPSCI H195, DES INV courses (except DES INV 15, DES INV 22, DES INV 23, DES INV 90E, DES INV 190E), ENGIN 125, ENGIN 157AC, ENGIN 180, IND ENG 95, IND ENG 172, IND ENG 185, IND ENG 186, IND ENG 190 series, IND ENG 191, IND ENG 192, IND ENG 195, MEC ENG 191AC, MEC ENG 190K, and MEC ENG 191K.

Select one course from the following: 3-5

| ASTRON 7A | Introduction to Astrophysics [4] |
| ASTRON 7B | Introduction to Astrophysics [4] |
| BIOLOGY 1A & 1AL | General Biology Lecture and General Biology Laboratory |
| BIOLOGY 1B | General Biology Lecture and Laboratory [4] |
| CHEM 1A & 1AL | General Chemistry and General Chemistry Laboratory |
| CHEM 1B | General Chemistry [4] |
| CHEM 3A & 3AL | Chemical Structure and Reactivity and Organic Chemistry Laboratory |
Upper Division Requirements

Upper Division Electrical Engineering and Computer Sciences Requirements

Select a minimum of 20 units of upper division EECS courses.

At least one of the courses must be a design elective. Select from the following design courses:

- CHEM 3B & 3BL: Chemical Structure and Reactivity and Organic Chemistry Laboratory
- CHEM 4A: General Chemistry and Quantitative Analysis
- CHEM 4B: General Chemistry and Quantitative Analysis
- MCELLBI 32: Introduction to Human Physiology and Introduction to Human Physiology Laboratory
- PHYSICS 5C: Introductory Thermodynamics and Quantum Mechanics and Introduction to Experimental Physics II
- PHYSICS 7C: Physics for Scientists and Engineers

Any upper division letter graded course of 3 units or more in astronomy, chemistry, earth and planetary science, integrative biology, molecular & cell biology, physics, or plant & microbial biology

Mathematics

- MATH 1A: Calculus
- MATH 1B: Calculus
- MATH 53: Multivariable Calculus
- COMPSCI 70: Discrete Mathematics and Probability Theory

Technical Electives (Lower or Upper Division)

EECS Lower Division Core

- EL ENG 16A: Designing Information Devices and Systems I
- EL ENG 16B: Designing Information Devices and Systems II
- COMPSCI 61A: The Structure and Interpretation of Computer Programs

EECS Upper Division Core

- COMPSCI 61B: Data Structures
- or COMPSCI 61B: Data Structures and Programming Methodology
- COMPSCI 61C: Great Ideas of Computer Architecture (Machine Structures)
- or COMPSCI 61C: Machine Structures (Lab-Centric)

Total Lower Division Units: 58-60

1. CHEM 4A and CHEM 4B are intended for students majoring in chemistry or a closely-related field.

2. Students must complete 4 units of Technical Elective(s) chosen from any lower or upper division course in the following departments: Astronomy, Chemistry, Data Science, Earth and Planetary Science, Integrative Biology, Mathematics, Molecular Cell Biology, Physics, Plant & Microbial Biology, Statistics, or any Engineering department (including EECS). The 4 units of Technical Elective(s) must be in addition to the Natural Science Elective and the 20 units of required EECS Upper Division technical Electives. If the 4 units of Technical Elective(s) are from an Engineering department, the units can count toward the required 40 units of Engineering coursework. Technical Electives and the 40 units of engineering courses cannot include: any course taken on a Pass/No Pass basis; courses numbered 24, 39, or 84; BIOE 100, COMPSCI 70, C79, 195, COMPSCI H195, DES INV courses (except DES INV 15, 22, 23, 90E, 190E), ENGIN 125, 157AC, 180; IND ENG 95, 172, 185, 186, 190 series, IND ENG 191, 192, 195; MEC ENG 191AC, 190K, and 191K.

Upper Division Business Administration Requirements

Select a minimum of 4-6 units of upper division UGBA elective courses in order to complete a minimum of 38 units of upper division Business Administration courses.

- UGBA 100: Business Communication
- UGBA 101A: Microeconomic Analysis for Business Decisions
- UGBA 101B: Macroeconomic Analysis for Business Decisions
- UGBA 102A: Introduction to Financial Accounting
- UGBA 102B: Managerial Accounting
- UGBA 103: Introduction to Finance
- UGBA 104: Introduction to Business Analytics
- UGBA 105: Leading People
- UGBA 106: Marketing
- UGBA 107: The Social, Political, and Ethical Environment of Business

M.E.T. Special Topics

Two courses are required. 1

Upper Division Business Administration Elective Courses

Select a minimum of 4-6 units of upper division UGBA elective courses in order to complete a minimum of 38 units of upper division Business Administration courses.

- UGBA 113: Managerial Economics
- UGBA 115: Competitive Strategy
- UGBA 117: Special Topics in Economic Analysis and Policy
- UGBA 118: International Trade
- UGBA 119: Leading Strategy Implementation
- UGBA 120AB: Intermediate Financial Accounting
- UGBA 120B: Advanced Financial Accounting
- UGBA 121: Federal Income Tax Accounting
UGBA 122 Financial Information Analysis [4]  
UGBA W125 Professional Judgment in Accounting [3]  
UGBA 126 Auditing [4]  
UGBA 127 Special Topics in Accounting [1-4]  
UGBA 128 Strategic Cost Management [3]  
UGBA 129 Financial Reporting for Complex Transactions [3]  
UGBA 131 Corporate Finance and Financial Statement Analysis [3]  
UGBA 132 Financial Institutions and Markets [3]  
UGBA 133 Investments [3]  
UGBA 136F Behavioral Finance [3]  
UGBA 137 Special Topics in Finance [1-4]  
UGBA 141 Production and Operations Management [3]  
UGBA 143 Game Theory and Business Decisions [3]  
UGBA 147 Special Topics in Operations and Information Technology Management [1-4]  
UGBA 151 Management of Human Resources [3]  
UGBA 152 Negotiation and Conflict Resolution [3]  
UGBA 154 Power and Politics in Organizations [2,3]  
UGBA 155 Leadership [3]  
UGBA 156AC Diversity in the Workplace [3]  
UGBA 157 Special Topics in the Management of Organizations [1-4]  
UGBA 160 Consumer Behavior [3]  
UGBA 161 Market Research: Tools and Techniques for Data Collection and Analysis [3]  
UGBA 162 Brand Management and Strategy [3]  
UGBA 162A Product Branding and Branded Entertainment [2]  
UGBA 165 Advertising Strategy [3]  
UGBA 167 Special Topics in Marketing [1-4]  
UGBA 168B International Marketing [3]  
UGBA 169 Pricing [3]  
UGBA 170 Ethical Leadership in Business [2]  
UGBA 175 Legal Aspects of Management [3]  
UGBA 176 Innovations in Communications and Public Relations [2]  
UGBA 177 Special Topics in Business and Public Policy [1-4]  
UGBA 178 Introduction to International Business [3]  
UGBA 179 International Consulting for Small and Medium-Sized Enterprises [3]  
UGBA 180 Introduction to Real Estate and Urban Land Economics [3]  
UGBA 183 Introduction to Real Estate Finance [3]  
UGBA 184 Urban and Real Estate Economics [3]  
UGBA 187 Special Topics in Real Estate Economics and Finance [1-4]  
UGBA 190S Strategy for the Information Technology Firm [3]  
UGBA 190T Special Topics in Innovation and Design [1-4]  
UGBA 190V Corporate Strategy in Telecommunications and Media [2]  
UGBA 191C Communication for Leaders [2]  
UGBA 191I Improvisational Leadership [3]  
UGBA 191P Leadership and Personal Development [3]  
UGBA 192A Leading Nonprofit and Social Enterprises [3]  
UGBA 192B Strategic Philanthropy [2]  
UGBA 192N Topics in Social Sector Leadership [1-5]  
UGBA 192P Sustainable Business Consulting Projects [3]  
UGBA 192T Topics in Corporate Social Responsibility [1-4]  
UGBA 193C Curricular Practical Training for International Students [0.0]  
UGBA 193I Business Abroad [1-4]  
UGBA 194 Undergraduate Colloquium on Business Topics [1]  
UGBA 195A Entrepreneurship [3]  
UGBA 195P Entrepreneurship: How to Successfully start a New Business [3]  
UGBA 195S Entrepreneurship To Address Global Poverty [3]  
UGBA 195T Topics in Entrepreneurship [1-3]  
UGBA 196 Special Topics in Business Administration [1-4]  
UGBA 198 Directed Study [1-4]  
UGBA 199 Supervised Independent Study and Research [1-4]  

Total Upper Division Units: 57-61

1. M.E.T. Special Topics courses will count as upper division business units.

University of California Requirements

Entry Level Writing (http://guide.berkeley.edu/undergraduate/colleges-schools/haas-business/entry-level-writing-requirement)

All students who enter the University of California as freshmen must demonstrate their command of the English language by fulfilling the Entry Level Writing Requirement. Fulfillment of this requirement is also a prerequisite to enrollment in all reading and composition courses at UC Berkeley.

American History and American Institutions (http://guide.berkeley.edu/undergraduate/colleges-schools/haas-business/american-history-institutions-requirement)

The American History and Institutions requirements are based on the principle that a US resident who graduates from an American university should have an understanding of the history and governmental institutions of the United States.

Campus Requirement

American Cultures (http://guide.berkeley.edu/undergraduate/colleges-schools/haas-business/american-cultures-requirement)

American Cultures (AC) is the one requirement that all undergraduate students at UC Berkeley need to take and pass in order to graduate. The requirement offers an exciting intellectual environment centered on the study of race, ethnicity, and culture of the United States. AC courses offer students opportunities to be part of research-led, highly accomplished teaching environments, grappling with the complexity of American culture.

M.E.T. Program Requirements

Reading and Composition
Two Reading and Composition (R&C) courses must be taken for a letter grade (C- or better required), and must be completed by no later than the end of the sophomore year (4th semester of enrollment). The first half of R&C, the “A” course, must be completed by the end of the freshman year; the second half of R&C, the “B” course, by no later than the end of the sophomore year or a student's registration will be blocked. View a detailed list of courses that fulfill Reading and Composition requirements.

Breadth Requirement

The undergraduate breadth requirement provides Berkeley students with a rich and varied educational experience outside of their major program. As the foundation of a liberal arts education, breadth courses give students a view into the intellectual life of the University while introducing them to a multitude of perspectives and approaches to research and scholarship. Engaging students in new disciplines and with peers from other majors, the breadth experience strengthens interdisciplinary connections and context that prepare Berkeley graduates to understand and solve the complex issues of their day.

Students in the M.E.T. Program must successfully complete six breadth courses, one in each of the following categories:

- Arts and Literature
- Historical Studies
- International Studies
- Philosophy and Values (will be satisfied with UGBA 107)
- Physical Science (will be satisfied with Physics 7B)
- Social and Behavioral Sciences (will be satisfied with Econ 1)

- With the exception of UGBA 107, UGBA courses cannot be used to fulfill breadth requirements.
- With the exception of Econ 1, microeconomics and macroeconomics at any level (Econ 2, Econ 3, Econ 100A/B, Econ 101A/B, IAS 106/107) cannot be used to fulfill breadth requirements.
- Courses offered by any Engineering department, with the exception of BIO ENG 100, COMPSCI C79, ENGIN 125, 157AC, MEC ENG 191K and 191AC, cannot be used to fulfill breadth requirements.
- No more than two courses from any one department may be used to satisfy the breadth requirement (L&S Discovery courses (http://lsvdiscovery.berkeley.edu) are exempt).
- Advanced Placement or International Baccalaureate exams cannot be used to fulfill the breadth requirement. Some A-Level exams are accepted, but a maximum of two A-Level exams may be used to fulfill breadth requirements.
- Two of the breadth courses must be upper-division (courses numbered 100-196).
- Courses numbered 97, 98, 99, or above 196 may not be used to complete any breadth requirement.
- Breadth courses must be a minimum of 3 semester units.
- Reading & Composition courses cannot be used to fulfill breadth requirements.

Class Schedule Requirements

- Minimum units per semester: 13
accomplished teaching environments, grappling with the complexity of American Culture.

**Total Units: 137-143**

---

1. Math 1A may be fulfilled with a score of 3, 4 or 5 on the AP Calculus AB or BC exam, a score of 5, 6 or 7 on the IB Higher Level Math exam, or a grade of A, B or C on the A-Level Math H1, H2, H3, Pure Math or Further Math exam.

2. Students must complete one course from the following list: ASTRON 7A, ASTRON 7B, BIOLOGY 1A and BIOLOGY 1AL (must take both), BIOLOGY 1B, CHEM 1A and CHEM 1AL (must take both), CHEM 1B, CHEM 3A and CHEM 3AL (must take both), CHEM 3B and CHEM 3BL (must take both), CHEM 4A, CHEM 4B, MCELLBI 32 and MCELLBI 32L (must take both), PHYSICS 7C, or an upper-division course of 3 units or more in astronomy, biology, chemistry, earth and planetary science (other than EPS 170AC), integrative biology, molecular cell biology, physics, or plant & microbial biology. This requirement is listed in the freshman year curriculum, but many of the options would not be appropriate for a first year student. Complete this requirement in the semester when it is most appropriate to do so (i.e., take PHYSICS 7C after completing PHYSICS 7B). Your M.E.T. adviser can help guide your selection on this requirement.

3. ECON 1 and UGBA 107 will be accepted for the Social and Behavioral Sciences and Philposophy and Values breadth requirements, respectively, as exceptions for students in the M.E.T. Program. The Biological Science breadth requirement is waived for students in the M.E.T. Program. In order to satisfy the College of Engineering Humanities and Social Sciences requirement, two of the breadth courses must be upper division. Some American Cultures courses will also fulfill the Arts & Literature or Historical Studies breadth requirement; use Requirements filters to search the Class Schedule (http://classes.berkeley.edu) for courses that apply. See College Requirements for further restrictions on breadth courses.

4. Econ 1 may be fulfilled with scores of 4 or 5 on both the AP Microeconomics exam and AP Macroeconomics exam. However, the Social and Behavioral Sciences Breadth requirement cannot be fulfilled with AP exam scores.

5. M.E.T. Special Topics courses will count as upper division business units.

6. Math 1B may be fulfilled with a score of 4 or 5 on the AP Calculus BC exam, a score of 5, 6 or 7 on the IB Higher Level Math exam, or a grade of A, B or C on the A-Level Math H2, H3, Pure Math or Further Math exam.

7. Reading & Composition part A may be fulfilled with a score of 4 or 5 on the AP English Language and Composition exam or the AP English Literature and Composition exam, or a score of 5, 6 or 7 on the IB Higher Level English A: Literature (formerly English A1) or Higher Level English A: Language and Literature exam.

8. Physics 7A may be fulfilled with a score of 5 on the AP Physics C Mechanics exam. Students may choose to take the Physics 7 series or the Physics 5 series. Students who fulfill Physics 7A with an AP exam score, transfer work, or at Berkeley may complete the physics requirement by taking either Physics 7B, or Physics 5B and 5BL. Students who take Physics 5A must take Physics 5B and 5BL to complete the physics requirement. Completion of Physics 5A and Physics 7B will not fulfill the physics requirement.
Learning Goals

ECE
1. An ability to apply knowledge of mathematics, science, and engineering.
2. An ability to configure, analyze test conditions, and evaluate outcomes of experimental systems.
3. An ability to design systems, components, or processes that conform to given specifications and cost constraints.
4. An ability to work cooperatively, respectfully, creatively, and responsibly as a member of a team.
5. An ability to identify, formulate, and solve engineering problems.
6. An understanding of the norms of expected behavior in engineering practice and their underlying ethical foundations.
7. An ability to communicate effectively by oral, written, and graphical means.
8. An awareness of global and societal concerns and their importance in developing engineering solutions.
9. An ability to independently acquire and apply required information, and an appreciation of the associated process of life-long learning.
10. A knowledge of contemporary issues.
11. An in-depth ability to use a combination of software, instrumentation, and experimental techniques practiced in circuits, physical electronics, communication, networks and systems, hardware, programming, and computer science theory.

CSE
1. An ability to apply knowledge of computing and mathematics appropriate to the program’s student outcomes and to the discipline.
2. An ability to analyze a problem, and identify and define the computing requirements appropriate to its solution.
3. An ability to design, implement, and evaluate a computer-based system, component, or program to meet desired needs.
4. An ability to function effectively on teams to accomplish a common goal.
5. An understanding of professional, ethical, legal, security and social issues and responsibilities.
6. An ability to communicate effectively with a range of audiences.
7. An ability to analyze the local and global impact of computing on individuals, organizations, and society.
8. Recognition of the need for and an ability to engage in continuing professional development.
9. An ability to use current techniques, skills, and tools necessary for computing practice.

Business Administration

Mission
Guided by the missions of the undergraduate program, and the University’s mission of teaching, research, and service, the mission of the Haas School of Business is to develop leaders who redefine how we do business.

The Haas School of Business Undergraduate Program has developed student learning goals for the Business major that provide faculty and students with a shared understanding of the purpose of the major as well as what graduating seniors are expected to know or to be able to do at the end of their course of study as it relates to the school’s mission.
The learning goals are assessed to determine whether students are achieving the outcomes. The assessment results are used to inform curricular design and other program offerings. All steps require input and participation from the business school community, particularly the faculty. The resulting learning goals, which have their origin in the core curriculum, were shaped over several months by faculty and administration and are listed below.

**Learning Goals**

1. Students will be skilled in critical thinking and decision making, as supported by the appropriate use of analytical and quantitative techniques.
2. Students will apply functional area concepts and theories appropriately.
3. Students will be effective communicators who can prepare and deliver oral and written presentations using appropriate technologies.
4. Students will be sensitive to the ethical requirements of business activities.
5. Students will tackle strategic and organizational challenges with innovative solutions.

For a visual representation of the relationship between the core curriculum and the expected outcomes, please see the Haas School of Business website (http://www.haas.berkeley.edu/Undergrad/learninggoals.html).
