Engineering Physics

Bachelor of Science (BS)

The engineering physics major offered through the Engineering Science Program interweaves classical and modern physics, chemistry, and mathematics with their engineering applications. Chief among the attractions of the major is its flexibility in that students have the ability to take diverse engineering, math, and science classes based on individual research goals. The solid base in physics and mathematics is augmented with a selection of engineering course options that prepare students to tackle complex problems faced by society.

Admission to the Major

Prospective undergraduates in the College of Engineering must apply to one specific major/degree program. For further information, please see the College of Engineering's website (http://coe.berkeley.edu/students/prospective-students/admissions.html).

Admission to engineering via a Change of College application for current UC Berkeley students is very competitive as there few open spaces in engineering for students admitted to other colleges at UC Berkeley. For further information regarding a Change of College to Engineering, please see the College's website (http://coe.berkeley.edu/students/current-undergraduates/change-of-college).

Minor Program

There is no minor program in engineering physics.

Other Majors offered by the Engineering Science Program

Energy Engineering (http://guide.berkeley.edu/undergraduate/degree-programs/energy-engineering) (Major and Minor)

Engineering Mathematics and Statistics (http://guide.berkeley.edu/undergraduate/degree-programs/engineering-math-statistics) (Major)

Environmental Engineering Science (http://guide.berkeley.edu/undergraduate/degree-programs/environmental-engineering-science) (Major)

In addition to the University, campus, and college requirements, students must fulfill the requirements listed below specific to their major program.

General Guidelines

1. All technical courses taken in satisfaction of major requirements must be taken for a letter grade.
2. No more than one upper division course may be used to simultaneously fulfill requirements for a student's major and minor programs.
3. A minimum overall grade point average (GPA) of 2.0 is required for all work undertaken at UC Berkeley.
4. A minimum GPA of 2.0 is required for all technical courses taken in satisfaction of major requirements.

For information regarding residence requirements and unit requirements, please see the College Requirements tab.

For a detailed plan of study by year and semester, please see the Plan of Study tab.

Lower division technical electives, select three from the following: 11-14

- ASTRON 7A Introduction to Astrophysics [4]
- ASTRON 7B Introduction to Astrophysics [4]
- BIOLOGY 1A General Biology Lecture & 1AL General Biology Laboratory
- BIOLOGY 1B General Biology Lecture and Laboratory [4]
- CHEM 1B General Chemistry [4]
- CHEM 3A Chemical Structure and Reactivity & 3AL and Organic Chemistry Laboratory
- CHEM 4B General Chemistry and Quantitative Analysis [4]
- MAT SCI 45 Properties of Materials [3] (MAT SCI 45L recommended)
- EL ENG 16A Designing Information Devices and Systems I [4]
- ENGIN 92 Perspectives in Engineering (Optional) 1

Upper Division Requirements

Due to the interdisciplinary nature of this major, electives must be selected and approved in consultation with a faculty adviser.

- MEC ENG 104 Engineering Mechanics II 3-4
- or PHYSICS 105 Analytic Mechanics
- MEC ENG 185 Introduction to Continuum Mechanics 3
- or MEC ENG 106 Fluid Mechanics
- PHYSICS 137A Quantum Mechanics 4
Students in the College of Engineering must complete no fewer than 120 semester units with the following provisions:

1. Completion of the requirements of one engineering major program (http://engineering.berkeley.edu/academics/undergraduate-programs) study.
2. A minimum overall grade point average of 2.00 (C average) and a minimum 2.00 grade point average in upper division technical coursework required of the major.
3. The final 30 units and two semesters must be completed in residence in the College of Engineering on the Berkeley campus.
4. All technical courses (math, science and engineering) that can fulfill requirements for the student’s major must be taken on a letter graded basis (unless they are only offered P/NP).
5. Entering freshmen are allowed a maximum of eight semesters to complete their degree requirements. Entering junior transfers are allowed a maximum of four semesters to complete their degree requirements. (Note: junior transfers admitted missing three or more courses from the lower division curriculum are allowed five semesters.) Summer terms are optional and do not count toward the maximum. Students are responsible for planning and satisfactorily completing all graduation requirements within the maximum allowable semesters.
6. Adhere to all college policies and procedures (http://engineering.berkeley.edu/academics/undergraduate-guide) as they complete degree requirements.
7. Complete the lower division program before enrolling in upper division engineering courses.

Humanities and Social Sciences (H/SS) Requirement

To promote a rich and varied educational experience outside of the technical requirements for each major, the College of Engineering has a six-course Humanities and Social Sciences breadth requirement (http://engineering.berkeley.edu/student-services/degree-requirements/humanities-and-social-sciences), which must be completed to graduate. This requirement, built into all the engineering programs of study, includes two reading and composition courses (R&C), and four additional courses within which a number of specific conditions must be satisfied. Follow these guidelines to fulfill this requirement:

1. Complete a minimum of six courses from the approved Humanities/ Social Sciences (H/SS) lists (http://engineering.berkeley.edu/hssreq).
2. Courses must be a minimum of 3 semester units (or 4 quarter units).
3. Two of the six courses must fulfill the college's Reading and Composition (R&C) requirement. These courses must be taken for a letter grade (C- or better required) and must be completed by no later than the end of the sophomore year (fourth semester of enrollment). The first half of R&C, the “A” course, must be completed by the end of the freshman year; the second half of R&C, the “B” course, must be completed by no later than the end of the sophomore year. Use the Class Schedule (http://classes.berkeley.edu) to view R&C courses offered in a given semester. View the list of exams (http://engineering.berkeley.edu/academics/undergraduate-guide/exams) that can be applied toward the first half of the R&C requirement. Note: Only the first half of R&C can be fulfilled with an AP or IB exam score. Test scores do not fulfill the second half of the R&C requirement for College of Engineering students.
4. The four additional courses must be chosen within College of Engineering guidelines from the H/SS lists (see below). These courses may be taken on a Pass/Not Passed basis (P/NP).
5. Two of the six courses must be upper division (courses numbered 100-196).
6. One of the six courses must satisfy the campus American Cultures requirement. For detailed lists of courses that fulfill American Cultures requirements, visit the American Cultures (http://guide.berkeley.edu/undergraduate/colleges-schools/engineering/american-cultures-requirement) site.
7. A maximum of two exams (Advanced Placement, International Baccalaureate, or A-Level) may be used toward completion of the H/SS requirement. View the list of exams (http://

Technical Electives

Students planning to pursue graduate school in physics are advised to complete PHYSICS 111B (for 3 units) to satisfy the laboratory requirement. Note: Students will need to obtain consent of the PHYSICS 111B instructor if they have not completed the prerequisites of PHYSICS 111A and PHYSICS 137A.

Technical electives must include:

- 15 units of upper division courses in engineering. Upper division engineering units cannot include: any course taken on a Pass/No Pass basis and any of the following courses: BIO ENG 100, COMPSCI 195, COMPSCI H195, DES INV courses (except DES INV 190E), ENGIN 125, ENGIN 157AC, ENGIN 180, IND ENG 172, IND ENG 185, IND ENG 186, the IND ENG 190 series, IND ENG 191, IND ENG 192, IND ENG 195, MEC ENG 191AC, MEC ENG 191BC, MEC ENG 191, and MEC ENG 191K. ENGIN 185 and ENGIN 187 cannot be used to fulfill engineering electives.
- A minimum of 14 units of upper-division physics.
- The 15 units of upper division engineering and 14 units of upper-division physics DO include all required upper division engineering and physics units completed. If in selecting options to meet upper division requirements the totals do not come to 15 units of ENGIN and 14 units of PHYSICS, additional units (chosen in consultation with a faculty adviser) must be added.
- At least 40 units of approved upper division technical subjects (mathematics, statistics, science, and engineering). These 40 units DO include all required upper division technical course work taken for the major.

PHYSICS 137B Quantum Mechanics 4
Take one of the following math series: 8

MATH 104 Introduction to Analysis 2
& MATH 185 Introduction to Complex Analysis

MATH 121A Mathematical Tools for the Physical Sciences 2
& MATH 121B Mathematical Tools for the Physical Sciences

Take one of the following series: 7-8

PHYSICS 110A Electromagnetism and Optics
& PHYSICS 110B Electromagnetism and Optics

EL ENG 117 Electromagnetic Fields and Waves
& EL ENG 118 and Introduction to Optical Engineering

MAT SCI 111 Properties of Electronic Materials 4
or PHYSICS 141A Solid State Physics

ENGIN 40 Engineering Thermodynamics 4
or PHYSICS 112 Introduction to Statistical and Thermal Physics

PHYSICS 111A Instrumentation Laboratory 1 3-4
or EL ENG 143 Microfabrication Technology
or NUC ENG 104 Radiation Detection and Nuclear Instrumentation Laboratory

1 Students planning to pursue graduate school in physics are advised to complete PHYSICS 111B (for 3 units) to satisfy the laboratory requirement. Note: Students will need to obtain consent of the PHYSICS 111B instructor if they have not completed the prerequisites of PHYSICS 111A and PHYSICS 137A.

2 Technical electives must include:

- 15 units of upper division courses in engineering. Upper division engineering units cannot include: any course taken on a Pass/No Pass basis and any of the following courses: BIO ENG 100, COMPSCI 195, COMPSCI H195, DES INV courses (except DES INV 190E), ENGIN 125, ENGIN 157AC, ENGIN 180, IND ENG 172, IND ENG 185, IND ENG 186, the IND ENG 190 series, IND ENG 191, IND ENG 192, IND ENG 195, MEC ENG 191AC, MEC ENG 191BC, MEC ENG 191, and MEC ENG 191K. ENGIN 185 and ENGIN 187 cannot be used to fulfill engineering electives.
- A minimum of 14 units of upper-division physics.
- The 15 units of upper division engineering and 14 units of upper-division physics DO include all required upper division engineering and physics units completed. If in selecting options to meet upper division requirements the totals do not come to 15 units of ENGIN and 14 units of PHYSICS, additional units (chosen in consultation with a faculty adviser) must be added.
- At least 40 units of approved upper division technical subjects (mathematics, statistics, science, and engineering). These 40 units DO include all required upper division technical course work taken for the major.
Minimum Academic (Grade) Requirements

8. Courses may fulfill multiple categories. For example, CY PLAN 118AC (http://guide.berkeley.edu/search/?P=CY%20PLAN%20AC) satisfies both the American Cultures requirement and one upper division H/SS requirement.

9. No courses offered by any engineering department other than BIO ENG 100 (http://guide.berkeley.edu/search/?P=BIO%20ENG%20100), COMPSCI C79 (http://guide.berkeley.edu/search/?P=COMPSCI%2C79), ENGIN 125 (http://guide.berkeley.edu/search/?P=ENGIN%20125), ENGIN 157AC (http://guide.berkeley.edu/search/?P=ENGIN%20157AC), and MEC ENG 191K (http://guide.berkeley.edu/search/?P=MEC%20ENG%20191K) may be used to complete H/SS requirements.

10. Foreign language courses may be used to complete H/SS requirements. View the list of language options (http://guide.berkeley.edu/undergraduate/colleges-schools/engineering/approved-foreign-language-courses).

11. Courses numbered 97, 98, 99, or above 196 may not be used to complete any H/SS requirement.

12. The College of Engineering uses modified versions of five of the College of Letters and Science (L&S) breadth requirements lists to provide options to our students for completing the H/SS requirement. The five areas are:
   - Arts and Literature
   - Historical Studies
   - International Studies
   - Philosophy and Values
   - Social and Behavioral Sciences

   Within the guidelines above, choose courses from any of the Breadth areas listed above. (Please note that you cannot use courses on the Biological Science or Physical Science Breadth list to complete the H/SS requirement.) To find course options, go to the Class Schedule (http://classes.berkeley.edu), (http://classes.berkeley.edu/search/class) select the term of interest, and use the Breadth Requirements (https://ls.berkeley.edu/sites/default/files/breadth_search_annotation_in_guide.png) filter.

Class Schedule Requirements

• Minimum units per semester: 12.0
• Maximum units per semester: 20.5
• Minimum technical courses: College of Engineering undergraduates must enroll each semester in no fewer than two technical courses (of a minimum of 3 units each) required of the major program of study in which the student is officially declared. (Note: For most majors, normal progress will require enrolling in 3-4 technical courses each semester).
• All technical courses (math, science, engineering) that satisfy requirements for the major must be taken on a letter-graded basis (unless only offered as P/NP).

Minimum Academic (Grade) Requirements

• A minimum overall and semester grade point average of 2.00 (C average) is required of engineering undergraduates. Students will be subject to dismissal from the University if during any fall or spring semester their overall UC GPA falls below a 2.00, or their semester GPA is less than 2.00.

• Students must achieve a minimum grade point average of 2.00 (C average) in upper division technical courses required for the major curriculum each semester.
• A minimum overall grade point average of 2.00, and a minimum 2.00 grade point average in upper division technical course work required for the major is needed to earn a Bachelor of Science in Engineering.

Unit Requirements

To earn a Bachelor of Science in Engineering, students must complete at least 120 semester units of courses subject to certain guidelines:

• Completion of the requirements of one engineering major program (https://engineering.berkeley.edu/academics/undergraduate-guide/degree-requirements/major-programs) of study.
• A maximum of 16 units of special studies coursework (courses numbered 97, 98, 99, 197, 198, or 199) is allowed towards the 120 units.
• A maximum of 4 units of physical education from any school attended will count towards the 120 units.
• Students may receive unit credit for courses graded P (including P/ NP units taken through EAP) up to a limit of one-third of the total units taken and passed on the Berkeley campus at the time of graduation.

Normal Progress

Students in the College of Engineering must enroll in a full-time program and make normal progress each semester toward the bachelor's degree. The continued enrollment of students who fail to achieve minimum academic progress shall be subject to the approval of the dean. (Note: Students with official accommodations established by the Disabled Students' Program, with health or family issues, or with other reasons deemed appropriate by the dean may petition for an exception to normal progress rules.)

University of California Requirements

Entry Level Writing (http://guide.berkeley.edu/undergraduate/colleges-schools/natural-resources/entry-level-writing-requirement)

All students who will enter the University of California as freshmen must demonstrate their command of the English language by fulfilling the Entry Level Writing Requirement. Satisfaction of this requirement is also a prerequisite to enrollment in all reading and composition courses at UC Berkeley.

American History and American Institutions (http://guide.berkeley.edu/undergraduate/colleges-schools/natural-resources/american-history-institutions-requirement)

The American History and Institutions requirements are based on the principle that a U.S. resident graduated from an American university should have an understanding of the history and governmental institutions of the United States.

Campus Requirement

American Cultures (http://guide.berkeley.edu/undergraduate/colleges-schools/natural-resources/american-cultures-requirement)

American Cultures (AC) is the one requirement that all undergraduate students at UC Berkeley need to take and pass in order to graduate. The requirement offers an exciting intellectual environment centered on the study of race, ethnicity, and culture in the United States. AC courses offer students opportunities to be part of research-led, highly
accomplished teaching environments, grappling with the complexity of American Culture.

For more detailed information regarding the courses listed below (e.g., elective information, GPA requirements, etc.), please see the College Requirements and Major Requirements tabs.

</table>

1. CHEM 4A is intended for students majoring in Chemistry or a closely-related field.
2. The Humanities/Social Science (H/SS) requirement includes two approved reading and composition courses and four additional approved courses, with which a number of specific conditions must be satisfied. Reading and Composition “A” and “B” must be completed by no later than the end of the sophomore year. The remaining courses may be taken at any time during the program. See Humanities and Social Science Requirements for complete details and a list of approved courses.
3. Technical electives must include:
   - Three courses from the following lower division technical electives: ASTRON 7A, ASTRON 7B, BIOLOGY 1A plus BIOLOGY 1AL, BIOLOGY 1B, CHEM 1B, CHEM 3A plus CHEM 3AL, CHEM 4B, EL ENG 16A, EL ENG 16B, MAT SCI 45 (MAT SCI 45L recommended), MEC ENG C85/CIV ENG C30.
   - 15 units of upper division courses in engineering. Upper division engineering units cannot include: any course taken on a Pass/No Pass basis and any of the following courses: BIO ENG 100, COMPSCI 195, COMPSCI H195, DES INV courses (except DES INV 190E), ENGIN 125, ENGIN 157AC, ENGIN 180, IND ENG 172, IND ENG 185, IND ENG 186, the IND ENG 190 series, IND ENG 191, IND ENG 192, IND ENG 195, MEC ENG 191AC, MEC ENG 190K, and MEC ENG 191K. ENGIN 185 and ENGIN 187 cannot be used to fulfill engineering electives.
   - A minimum of 14 units of upper-division physics.
   - The 15 units of upper division engineering and 14 units of upper-division physics must include all required upper division engineering and physics units completed. If in selecting options to meet upper division requirements the totals do not come to 15 units of ENGIN and 14 units of PHYSICS, additional units (chosen in consultation with a faculty adviser) must be added.
   - At least 40 units of approved upper division technical subjects (mathematics, statistics, science, and engineering). These 40 units DO include all required upper division technical course work taken for the major.
4. Math Series: Select one sequence from the following: MATH 104 and MATH 185; or MATH 121A and MATH 121B.
5. NUC ENG 104 offered in spring only, prerequisite is NUC ENG 101. Students planning to pursue graduate school in physics are advised to complete PHYSICS 111B (for 3 units) to satisfy the laboratory requirement. Note: Students will need to obtain consent of the PHYSICS 111B instructor if they have not completed the prerequisites of PHYSICS 111A and PHYSICS 137A.
6. Electromagnetic & Optics Series: Select one sequence from the following: PHYSICS 110A and PHYSICS 110B; or EL ENG 117 and EL ENG 118.
