New Media

The Undergraduate Certificate in New Media program emphasizes the critical understanding and practice of new media through interdisciplinary perspectives. The certificate introduces students to the changing new media landscape that is transforming the way we think in the fields of art, technology, the humanities, and social sciences. Our students learn to innovate as they question the impact of new media on the human experience. The certificate program will serve as a pilot and a portal for undergraduate engagement in new media. The certificate is not an official program offered by Undergraduate Education and will not be noted on a student's transcript.

Core Class

Students should take a project-based undergraduate seminar in NWMEGA with learning goals that will include new media theory, new media tools, prototyping, evaluation methods, and collaboration methods. Any NWMEGA undergraduate course will count towards the core class. Students can also petition the academic committee to have a course that substantially deals with new media that they have taken in another department count towards fulfilling this requirement.

Currently, the BCNM offers the following undergraduate classes:

- **NWMEGA R1B** New Media Reading and Composition 4
- **NWMEGA 39A** Freshman Seminar in New Media 1-4
- **NWMEGA 90** Introduction to New Media 1-4
- **NWMEGA 150AC** New Media and American Cultures 4
- **NWMEGA C166** Critical Practices: People, Places, Participation 4
- **NWMEGA 190** Special Topics in New Media 1-4
- **NWMEGA 198** Directed Group Study 1-3

New Media Engagement

Help organize and manage a BCNM conference, lecture, hackathon, or workshop. Students will have the opportunity to interact extensively with new media faculty and will be immersed in the subject. By petition, students can also have their own new media activities and events on campus count towards this requirement. These applications will be considered by the executive committee.

Choose Option 1 or 2

Option 1: Enroll in a New Media Graduate-Level Course

Students will be challenged to think critically about new media in the graduate-level courses the BCNM offers. They will produce either a design project or a substantial paper depending on the class, showing their thorough appreciation for transformations in new media. Since these courses are intended for graduates, students will need to seek instructor approval to enroll in the class. Currently, the BCNM offers the following graduate courses:

- **NWMEGA 200** History and Theory of New Media 4
- **NWMEGA 201** Questioning New Media 3
- **NWMEGA 202** New Media Methods 3
- **NWMEGA C203** Critical Making 4
- **NWMEGA 204** Critical Practices: People, Places, Participation 4
- **NWMEGA C262** Theory and Practice of Tangible User Interfaces 4

### NWMEGA R1B New Media Reading and Composition 4 Units

Terms offered: Summer 2020 8 Week Session, Summer 2019 8 Week Session, Summer 2018 Second 6 Week Session

How do media shape our perception of our environment? What is at stake when we adopt or create new media? This seminar provides continued training in expository and argumentative writing, with an emphasis on new media. Satisfies the second half of the Reading and Composition requirement.

**Hours & Format**

**Fall and/or spring:** 15 weeks - 4 hours of seminar per week

**Summer:**

- 6 weeks - 10 hours of seminar per week
- 8 weeks - 8 hours of seminar per week
- 10 weeks - 6 hours of seminar per week

**Additional Details**

Subject/Course Level: New Media/Undergraduate

Grading/Final exam status: Letter grade. Alternative to final exam.

New Media Reading and Composition: Read More [+]

Option 2: Produce a final project during an independent study on a new media topic

Students may enroll in an independent study with a BCNM faculty member to produce an extended paper or final project on a new media topic of their choice. Topics must be pre-approved by the BCNM Director. The paper should exhibit the student’s thorough command of new media concepts.

**NWMEDIA 104 Critical Practices: People, Places, Participation 4 Units**

Terms offered: Prior to 2007
Critical Practices is a hands-on studio design course where students work at the intersection of technological innovation and socially engaged art. Students will integrate a suite of digital fabrication tools with social design methods to create work that engages in cultural critique. Working with innovative technologies and radical, new art practices, this course will explore: hybrid art forms, critical design for community engagement, interventions in public spaces, tactical media, and disobedient objects. These new making strategies will reframe our notions of people, places and participation.

Critical Practices: People, Places, Participation: Read More [+]

**Hours & Format**

Fall and/or spring: 15 weeks - 4 hours of studio per week

Summer:
6 weeks - 10 hours of studio per week

NWMEDIA 151AC Transforming Tech: Issues and Interventions in STEM and Silicon Valley
4 Units
Terms offered: Fall 2020
In this course, we will study major tech industry controversies and heavily criticized tech products, policies, and effects, including technologies used at the U.S.-Mexico border, social media platforms’ spread of disinformation and fake news, racial bias in algorithms, and internet trolling and harassment. We will also examine tech companies’ long-running tendency to exclude women and non-Asian minorities, and how tech workers have occasionally come under fire for the industry’s harms. Students will be required to brainstorm and design their own interventions into the workings of the tech sector to make it more inclusive, equitable, and diverse.

NWMEDIA 202 New Media Methods 3 Units
Terms offered: Fall 2014
In this methods course we will study key languages of new media innovation, ranging from flow charts to scripting languages and circuit diagrams. Our study method involves the creation and application of sensing devices in an urban context, and engages students in establishing chains of references which connect ground truth to data, data to information, information to people, people to actions, and actions to policies. Taking into account technical, political, cultural and literacy questions we seek to connect our data production work with information needs of underserved communities in the Bay Area region.

NWMEDIA C203 Critical Making 4 Units
Terms offered: Spring 2021, Spring 2020, Spring 2019, Spring 2018
Critical Making will operationalize and critique the practice of “making” through both foundational literature and hands on studio culture. As hybrid practitioners, students will develop fluency in readily collaging and incorporating a variety of physical materials and protocols into their practice. Students will envision and create future computational experiences that critically explore social and culturally relevant technological themes. No previous technical knowledge is required to take this course. Class projects involve basic programming, electronic circuitry, and digital fabrication design. Tutorials and instruction will be provided, but students will be expected to develop basic skills in these areas to complete course projects.
Critical Making: Read More [+]
Hours & Format

NWMEDIA C262 Theory and Practice of Tangible User Interfaces 4 Units
Terms offered: Fall 2019, Fall 2018, Fall 2017
This course explores the theory and practice of Tangible User Interfaces, a new approach to Human Computer Interaction that focuses on the physical interaction with computational media. The topics covered in the course include theoretical framework, design examples, enabling technologies, and evaluation of Tangible User Interfaces. Students will design and develop experimental Tangible User Interfaces using physical computing prototyping tools and write a final project report.

NW MEDIA C263 Technologies for Creativity and Learning 3 Units
Terms offered: Fall 2020, Spring 2015, Spring 2014
How does the design of new educational technology change the way people learn and think? How do we design systems that reflect our understanding of how we learn? This course explores issues on designing and evaluating technologies that support creativity and learning. The class will cover theories of creativity and learning, implications for design, as well as a survey of new educational technologies such as works in computer supported collaborative learning, digital manipulatives, and immersive learning environments.

Rules & Requirements
Credit Restrictions: Students will receive no credit for INFO C263 after completing NW MEDIA 290, or INFO 290.

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of seminar per week

Additional Details
