Business Administration, Master (MBA)

Courses

MBA 200A Data Analytics 2 Units
Terms offered: Prior to 2007
This course will introduce students to advanced methods for data driven decision making in business including forecasting and evaluating alternative possible strategies. Topics include designing randomized controlled trials in the field, evaluating natural experiments (e.g. differences-in-differences, instrumental variables and regression discontinuity) and machine learning tools for forecasting (e.g. linear regularization, tree models and random forest). The course work will include problem sets evaluating experimental and non-experimental data, writing code and making business decisions using the results.

MBA 200C Leadership Communication 1 Unit
Terms offered: Fall 2015, Fall 2013, Fall 2010
Leadership Communication is a workshop in the fundamentals of public speaking in today's business environment. Through prepared and impromptu speeches aimed at moving others to action, peer coaching, and lectures, students will sharpen their authentic and persuasive communication skills, develop critical listening skills, improve abilities to give, receive, and apply feedback, and gain confidence as public speakers.

MBA 200D Data-Driven Presentations: Making the Business Case 1 Unit
Terms offered: Prior to 2007
This course is a hands-on experience in making the business case. Structuring and delivering persuasive communications requires effective use of both narrative and data. Students explore this process through rigorous content and visual design, weekly presentations, integration of core course work such as leadership communications, and substantive peer review and feedback on presentation impact. The bottom line: did you change minds today?

MBA 200P Fundamentals of Design Thinking
Terms offered: Fall 2015, Fall 2013
The course will introduce the Design Thinking mindset to MBA students and support it with tools, processes and strategies to solve business problems with a non-traditional problem-solving approach. Design thinking uses quantitative information to inform qualitative decision making. Rooted in the formal disciplines of design, the course works with core principles of creativity, discovery, curiosity, deferred judgment, process discipline and positive human collaboration. Students will gain experience using the design thinking process through hands-on learning, reading and team-based collaborative projects.

Rules & Requirements

Prerequisites: Empirical methods/econometrics (at the level of MBA 200S "Data & Decisions")

Hours & Format

Fall and/or spring: 7 weeks - 2 hours of lecture per week
Additional Details

Subject/Course Level: Masters in Business Administration/Graduate
Grading: Letter grade.

MBA 200P Fundamentals of Design Thinking
Terms offered: Fall 2015, Fall 2013
The course will introduce the Design Thinking mindset to MBA students and support it with tools, processes and strategies to solve business problems with a non-traditional problem-solving approach. Design thinking uses quantitative information to inform qualitative decision making. Rooted in the formal disciplines of design, the course works with core principles of creativity, discovery, curiosity, deferred judgment, process discipline and positive human collaboration. MBA 201A Economics for Business Decision Making 2 Units
Terms offered: Fall 2015, Fall 2013, Fall 2010
Business success depends on the successful positioning of the firm and the management of its resources. The goal of this course is to think systematically about achieving competitive advantage through the management of the firm's resources. We will analyze management decisions concerning real options, cost determination, pricing, and market entry and exit. We will use readings and cases along with class discussion to develop practical insights into managing for competitive advantage.

MBA 203 Introduction to Finance 2 Units
Terms offered: Fall 2015, Fall 2013, Fall 2010
This is an introductory MBA course in investments. Students learn how to value assets given forecasts of future cash flows and about the risk characteristics of different asset classes. The first part of the course focuses on the time value of money. The second part of the course deals with measuring and pricing risk. Finally, the course touches on derivative-basics and capital market efficiency. An effort will be made to tie the theoretical underpinnings of finance to real-world examples.

MBA 205D Business Communication in Diverse Work Environments 1 Unit
Terms offered: Prior to 2007
This course focuses on essential communication skills in the contemporary knowledge economy, where leaders must create sustainable settings for productive interaction among people with very different backgrounds and experiences. To harness this diversity, leaders must be adept at having difficult conversations, managing conflict, debating effectively, providing and receiving feedback, mitigating problems associated with stereotypes and biases, and identifying and addressing structural sources of inequity. Students will develop their critical thinking on topics such as identity, relationships across differences, and equality of opportunity and improve their ability to create, work within, and lead diverse teams and global organizations.

MBA 214 Big Data, Better Decisions 3 Units
Terms offered: Prior to 2007
Introduction to advanced methods for data driven decision making in business. This course covers methods designed to provide evidence for two types of fundamental business issues: (i) forecasting and (ii) evaluating alternative possible strategies. The course aims to train business leaders to understand the value of data-based decision making, evaluate analytics tools and products, and conduct richer analysis of randomized and naturally occurring experiments. Topics include designing randomized controlled trials in the field, evaluating natural experiments, and machine learning tools for forecasting. The goal of the course is not to train you as a Data Scientist but to be able to read and evaluate empirical/analytic approaches and products.
Big Data, Better Decisions: Read More [+] 
Rules & Requirements
Prerequisites: Evening/Weekend Masters in Business Administration 200S

MBA 236G Designing Financial Models that Work 1 or 2 Units  
Terms offered: Spring 2017, Fall 2015, Fall 2014  
Spreadsheet financial models are often too big, complicated, and buggy to help people. In this course, students learn to design financial models that work because they're small (fit on a screen or two), straightforward (involve only basic math), clear (a non-MBA can follow them readily), and fast to build. These simple yet powerful representations of the cash flows for a new product/deal/venture help people share their vision, recognize tradeoffs, brainstorm possibilities, and make decisions.  
Designing Financial Models that Work: Read More [+]

Rules & Requirements

Prerequisites: 203 or consent of instructor

Designing Financial Models that Work: Read Less [-]
MBA 236H Financial Statement Modeling for Finance Careers 1 or 2 Units
Terms offered: Spring 2015
Financial statement modeling refers to taking historical financial statements for a specific company, projecting those statements two to five years into the future, and using the resulting projections for valuation and insight into the potential for transactions such as a strategic merger, an initial public offering, a leveraged recapitalization, or a leveraged buyout. This course teaches this skill set in a way that is simultaneously high level and hands-on.
Financial Statement Modeling for Finance Careers: Read More [+]

Rules & Requirements

Hours & Format
Fall and/or spring: 14 weeks - 1-2 hours of lecture per week
Summer:
6 weeks - 2.5-5 hours of lecture per week
8 weeks - 2-3.5 hours of lecture per week
10 weeks - 1.5-3 hours of lecture per week

Additional Details
Subject/Course Level: Masters in Business Administration/Graduate
Grading: Letter grade.

MBA 236I Fixed Income 2 Units
Terms offered: Prior to 2007
This course first surveys the basics of fixed income: terminology, security types, debt and money markets. Attention then moves to the valuation of cash flows, term structure of interest rates and modeling of credit risk. Building on that foundation, the course then examines the key role that fixed income plays in the global financial system, other asset classes and derivatives. The course is firmly grounded in a quantitative and analytical approach, with each topic placed in the relevant real world context -- for example, the role that high yield securities play in an LBO, and negotiation of bond covenants. The course is at the more quantitative end of the MBA curriculum, with a large focus on bond math, including duration and convexity.

Fall and/or spring: 15 weeks - 2 hours of lecture per week

Additional Details
Subject/Course Level: Masters in Business Administration/Graduate
Grading: Letter grade.

MBA 236J Hedge Fund Strategies 3 Units
Terms offered: Prior to 2007
This course combines broad exposure to the many types of hedge funds and their strategies, together with hands-on development of unique investment strategies within student teams. Course content delivered via speakers representing different sectors of the hedge fund industry, lectures, readings and individual and team projects. Students also learn about investing in hedge funds, including evaluation of fund performance. Concurrently, student teams develop their own investment strategies by exploring unique expertise and insights that are resident within the teams, forming original theses on changes and catalysts, incorporating lessons from hedge fund speakers, and crafting investment strategies designed to capitalize on the teams’ insights.

Fall and/or spring: 15 weeks - 3 hours of lecture per week

Additional Details
Subject/Course Level: Masters in Business Administration/Graduate
Grading: Letter grade.

MBA 236K Haas Investment Fund 1 Unit
Terms offered: Prior to 2007
Students who elect to continue on to this course from the Hedge Fund Strategies course have the opportunity to proceed from strategy development into implementation phase, investing capital from a dedicated fund. Judges for the final pitch in Hedge Fund Strategies allocate capital from the fund based on perceived promise of market-beating returns, taken together with perceived risk. The teams refine their strategies based on feedback from the judges' feedback and instructors' guidance, building out their portfolios and managing their strategies over several months. Teams access trading accounts and are responsible for their portfolios.

Fall and/or spring: 15 weeks - 1 hour of lecture per week

Additional Details
Subject/Course Level: Masters in Business Administration/Graduate
Grading: Letter grade.
MBA 236L Private Equity, Leveraged Buyouts 1 or 2 Units
Terms offered: Prior to 2007
This course focuses primarily on leveraged buyouts (LBOs), as the largest category of PE transactions. The study includes the sourcing of potential acquisitions, analysis of operations and potential improvements, corporate valuation, optimal capital structures, modeling of expected cash flows and debt repayment, negotiation of purchase price and financing terms, incentivizing management teams, and eventual monetizing investments through M&A or IPOs. These subjects are studied through lectures, interactive discussion, case studies, individual assignments and especially group projects. The 2-unit section covers a broader spectrum of types of PE transactions and includes guest speakers from the PE industry, and a more expansive final project.

MBA 236M Turnarounds 2 Units
Terms offered: Prior to 2007
This course introduces the world of operational and strategic turnarounds of troubled and underperforming businesses. It focuses on the leadership practices that work in fixing flawed enterprises, from underperforming businesses to those on the brink of a death spiral. Most time in the course is spent learning how to more effectively lead companies that are underperforming or in trouble. The course is taught by cases, with the view that the best way to learn leadership is by taking the perspective of business leaders facing crises that demand new direction. Since a rescue plan only works if it is embraced, students take various roles in the cases, including bosses, subordinates, boards and lenders.
Turnarounds: Read More [+]

MBA 243 Decisions, Games, and Strategies 3 Units
Terms offered: Spring 2010, Spring 2007, Spring 2006
The course considers two techniques for guiding a managerial decision maker who has to make a choice now but will only know later whether the choice was good. Decision analysis helps if the outcome of the choice depends on "nature"; game models help if the outcome depends on human opponents (e.g., competitors). Foundations of the two techniques, and a variety of applications, are studied.

MBA 251A People Analytics 2 Units
Terms offered: Prior to 2007
Students will gain command of the core statistical concepts needed to measure and understand measurements of people in organizations. Students learn how to interpret statistics to make critical recommendations to (or as) senior leaders, and how to tell a compelling story using People Analytics data. This involves learning the fundamental tools of analytics (descriptive statistics, correlations, etc.), building and testing HR chatbots, reviewing and conducting randomized experiments, interpreting and producing data visualizations, all while accounting for ethical concerns such as data privacy and biases (human and algorithmic).

Hours & Format
Fall and/or spring:
7 weeks - 4 hours of lecture per week
10 weeks - 3 hours of lecture per week
15 weeks - 2 hours of lecture per week

MBA 252 Negotiations and Conflict Resolution 2 or 3 Units
Terms offered: Fall 2015, Fall 2014, Fall 2013
The purpose of this course is for students to understand the theory and processes of negotiation so that they can negotiate successfully in a variety of settings. This course is designed to complement the technical and diagnostic skills learned in other courses in the MBA program.

Hours & Format
Fall and/or spring: 15 weeks - 2-3 hours of lecture per week

Additional Details
Subject/Course Level: Masters in Business Administration/Graduate
Grading: Letter grade.

Negotiations and Conflict Resolution: Read Less [-]

MBA 253 Decision Making 3 Units
Terms offered: Prior to 2007
This course aims to improve the quality of decisions people make. Students learn to be aware of, and to avoid, common inferential errors and systematic biases in decision making. There are many decision traps that we tend to repeatedly fall into. These traps relate to how we think about risk and probability, how we learn from experience, and how we make choices. Upon completion, students will have internalized the basic principles of decision making and will be able to avoid falling into these traps. The course additionally aims to create a deeper understanding of the psychology of decision making, which can create an advantage in negotiations and other interactions through gaining an awareness of the predictable mistakes of others.

Grading: Letter grade.

Decision Making: Read More [+]

MBA 254 Power and Politics in Organizations 2 or 3 Units
Terms offered: Fall 2020, Fall 2019, Fall 2015
This course will provide students with a sense of “political intelligence.” After taking this course, students will be able to: (1) diagnose the true distribution of power in organizations, (2) identify strategies for building sources of power, (3) develop techniques for influencing others, (4) understand the role of power in building cooperation and leading change in organizations, and (5) make sense of others’ attempts to influence them. These skills are essential for effective and satisfying career building.

Hours & Format
Fall and/or spring: 15 weeks - 2-3 hours of lecture per week

MBA 255G Gender, Equity, and Leadership in the 21st Century 2 Units
Terms offered: Prior to 2007
With more women in the workforce than ever before – and even more joining top leadership ranks – the need for women’s voices to be heard has never been greater. This course seeks to over-write outdated scripts about power that have historically produced deep ambivalence in women pursuing leadership. Pushing past the usual stereotypes that require women to “fit into” a masculine world, this course combines evidence-based findings with pragmatic insights to override stubborn barriers to gender equality. We will focus heavily on issues facing women in global business contexts, yet the skills we will develop are applicable to anyone who is invested in creating more just and equitable organizations and societies. All students are welcome.

MBA 268D Design and Marketing New Products 3 Units
Terms offered: Prior to 2007
With rapid advancements in materials and technologies, the product life cycle is getting shorter and shorter. Consequently, companies need to constantly improve existing products and develop new ones. This course examines the strategies, processes and methods used by these companies, and the cutting-edge tools and techniques used for new-product development. Readings and guest speakers from both product and services will be used to develop understanding and mastery. Upon conclusion, students will be able to identify new market space opportunities, evaluate qualitative and quantitative research and turn it into actionable decisions, and develop long-range business plans to meet both strategic and financial objectives of a new product launch.

MBA 271 Tech and the City: How to Get Urban Innovation Right 2 - 3 Units
Terms offered: Prior to 2007
This course critically examines how new technologies and business models impact cities, and identifies the approaches that produce not only the best business outcomes, but also the most equitable and sustainable outcomes. To begin, we explore what makes cities such compelling laboratories for technology innovation, learn from past attempts at “smart city” interventions, and discuss how technologists can identify more effective solutions to today’s urban challenges. We’ll then hear from a variety of cutting edge practitioners, including venture investors, startup founders, government officials, tech journalists and community organizers about the unique opportunities and challenges of building an urban tech startup today.

MBA 291L Leader as Coach 1 Unit
Terms offered: Prior to 2007
This course focuses on the art and science of coaching including theory and practice. The curriculum will cover theory and practice for three aspects of the coaching process – knowledge-based (information and skills), motivation-based (inspiration and passion), and strategy-based (communication and integration). The curriculum will focus on primary coaching skills, tools, processes and behaviors that a coach uses. In addition, participants will learn facilitation skills as the preferred methodology in achieving successful coaching programs. Course participants will have the opportunity to utilize this material in practice coaching sessions with supervision and feedback from peers and the instructor.

MBA 291R Building Trust-Based Relationships 1 Unit
Terms offered: Prior to 2007
The objective of this course is to help students become better leaders by strengthening their ability to build trust-based relationships with others such as direct reports, supervisors, peers and customers. The course draws appropriate links back to Leadership Communications and forward to Applied Innovation. Students will (i) debrief their experience of putting learning from Leadership Communications into action in their workplace; (ii) practice various approaches to honing their empathy, including the use of insightful questions rather than assertions as the basis for a dialogue with others; and (iii) learn a simple peer coaching model that they will use in between face-to-face sessions with their classmates.

MBA 292C Strategic and Sustainable Business Solutions 3 Units
Terms offered: Spring 2007, Spring 2006
This course explores the concept and practice of corporate sustainability (CS) and corporate social responsibility (CSR) through a series of lectures, guest speakers, and live consulting projects focused on CS and CSR challenges facing actual companies. The course provides the tools and experiences that sustainable management practitioners can utilize as a part of their value-creating strategies. Viewing CS and CSR from a corporate strategy perspective enables students to understand how considerations of social impact can, in fact, support core business objectives, core competencies, and bottom-line profits.

MBA 292D Design, Evaluate, and Scale Development Technologies 3 Units
Terms offered: Prior to 2007
This required course for the Designated Emphasis in Development Engineering will include projects and case studies, many related to projects at UC Berkeley, such as those associated with the Development Impact Labs (DIL). Student teams will work with preliminary data to define the problem. They will then collect and analyze interview and survey data from potential users and begin to design a solution. Students will explore how to use novel monitoring technologies and "big data" for product improvement and evaluation. The student teams will use the case studies (with improvements based on user feedback and data analysis) to develop a plan for scaling and evaluation with a rigorous controlled trial.

MBA 292F Strategic Financial Management of Nonprofit Organizations 1 Unit
Terms offered: Spring 2010, Spring 2007
The course focuses on financial management issues faced by board members and senior and executive managers in nonprofit organizations. Students learn tools and techniques for effective planning and budgeting and how to control, evaluate and revise plans. Use and development of internal and external financial reports are studied with an emphasis on using financial information in decision making. Tools and techniques of financial statement analysis, interpretation, and presentation are practiced.

MBA 292H Managing Human Rights in Business 2 Units
Terms offered: Prior to 2007
This course will provide students with an overview of the international human rights framework and global business and human rights standards and guidelines; give students a full understanding of the ways in which companies can impact human rights negatively and positively; enable students to critically assess the degree to which companies are and should be responsible for human rights impacts; give students the knowledge, skills, and tools to effectively manage corporate human rights impacts as corporate human rights managers, external consultants, or civil society advocates; and practice the communication and persuasion skills necessary to successfully address emerging issues within a complex multinational corporation.

MBA 292ID Impact Startup Disco 1 Unit
Terms offered: Prior to 2007
This is a short, high-octane course for students interested in meeting other innovators and getting hands-on experience developing a new impact startup concept. All "social and environmental" impact themes are welcome. The course is inspired by other “hackathon” and startup weekend formats. A structured roadmap helps guide students through a sprint formation and ideation process. All students will be asked to submit an idea during the week prior to the class. After a peer vote selects the top ideas, teams are organically formed during the first session. At the end of the course, each team will present their validated concept and their next steps plan to a panel of impact venture experts.

MBA 292IL Impact Startup Launchpad 2 Units
Terms offered: Prior to 2007
This course simulates the conditions in which students can become social venture designers, founders, and leaders, and learn to create a business model that intentionally integrates financial objectives with measurable social and/or environmental outputs. Students work in interdisciplinary teams to practice starting a social venture. This course uses the Lean Launchpad methodology from the Haas entrepreneurship curriculum to frame the strategies and practices that distinguish social ventures, including: innovative company legal structures, constitutional documents, stakeholder enrollment, business model design, and social impact assessment. Each team is matched with practitioners who will serve as social venture mentor coaches.

MBA 292J Haas Sustainable Investment Fund 2 Units
Terms offered: Fall 2015
In this course, students manage a real investment fund ($3 million +) focused on both social and financial returns. Through the Fund, students have the opportunity to test the investment and corporate responsibility principles they have learned in the classroom, and to experience the complexities, challenges, and rewards of the investing world. Students have primary responsibility for investment decisions, including conducting their own research on funds and companies’ environmental, social and governance (ESG) performance. Students receive guidance from both faculty advisors and an advisory board. The faculty advisors provide regular input on portfolio management, understanding portfolio performance and ESG investing.

MBA 292K Food Innovation Studio 2 Units
Terms offered: Prior to 2007
Students will identify and solve novel and pressing challenges in the broader food-system; develop insights into the systemic interdependencies that impact personal health and planetary sustainability; and work to conceive, test and launch high impact, market-based solutions. The course emphasizes mission-driven business designs that create positive social impact. Human-centered design, lean-launch, rapid prototyping, business model development, venture formation and venture pitch-presentation are blended into an accelerated experiential learning program. The course attracts leading food industry leaders and entrepreneurs as guest speakers and mentors. The actual course topics and projects are originated and chosen by student teams.

MBA 292L Applied Impact Evaluation 3 Units
Terms offered: Prior to 2007
This course covers the methods and applications of impact evaluations, which is the science of measuring the causal impact of a program or policy on outcomes of interest. At its essence, impact evaluation is about generating evidence on which policies work, and which don’t. This subject matter should appeal to three main audiences: (1) those in decision-making positions, such as policy makers and business leaders, and need to consume the information generated from impact evaluations to make informed evidence-based decisions, (2) project managers, development practitioners and business managers who commission impact evaluations and (3) researchers who actually design and implement impact evaluations.
Applied Impact Evaluation: Read More [+]

Rules & Requirements
Prerequisites: Introductory course in statistics

Hours & Format
Fall and/or spring: 15 weeks - 2 hours of lecture and 1 hour of web-based lecture per week

Grading: Letter grade.

MBA 292R Business and Natural Resources 1 Unit
Terms offered: Spring 2007
This course incorporates business and sustainability aspects into the field of natural resource management. Using economic and ecological concepts, students will solve practical problems in this field. The course covers relevant theories and frameworks for assessing natural resource management, ecosystems services, economic valuation, climate change and water, corporate carbon footprint, forestry management, and strategies to add value through corporate sustainability. The course emulates the assessment and decision making processes that are the norm in this field. Students will improve their decision making process related to natural resources and their understanding of how those decisions influence competitive advantage in business.

MBA 293C Practical Training 0.5 Units
Terms offered: Summer 2022 8 Week Session, Summer 2021 8 Week Session, Summer 2020 8 Week Session
Internships are off-campus experiential learning activities designed to provide students with opportunities to make connections between the theory and practice of academic study and the practical application of that study in a professional work environment. Internships offer the opportunity to experience a career while gaining relevant skills and professional connections. Internships are completed under the guidance of an on-site supervisor and a faculty sponsor, who in combination with the student will create a framework for learning and reflection. Enrolled students would not be able to apply units earned towards satisfying elective unit graduation requirements.

MBA 295C Opportunity Recognition: Technology and Entrepreneurship in Silicon Valley 2 or 3 Units
Terms offered: Spring 2015, Spring 2014, Spring 2011
This course is intended to provide the core skills needed for the identification of opportunities that can lead to successful, entrepreneurial high technology ventures, regardless of the individual’s "home" skill set, whether technical or managerial. We examine in depth the approaches most likely to succeed for entrepreneurial companies as a function of markets and technologies. Emphasis is placed on the special requirements for creating and executing strategy in a setting of rapid technological change and limited resources. This course is particularly suited for those who anticipate founding or operating technology companies.

MBA 295F The Lean Launch Pad 3 Units
Terms offered: Spring 2007
This course provides real world, hands-on learning on what it's like to actually start a high-tech company. This class is not about how to write a business plan. It's not an exercise on how smart you are in a classroom, or how well you use the research library to size markets. And the end result is not a PowerPoint slide deck for a VC presentation. And it is most definitely not an incubator where you come to build the “hot-idea” that you have in mind. This is a practical class: Our goal, within the constraints of a classroom and a limited amount of time, is to create an entrepreneurial experience for you with all of the pressures and demands of the real world in an early stage start up.
The Lean Launch Pad: Read More [+]

Rules & Requirements
Prerequisites: Graduate standing
Hours & Format
Fall and/or spring: 15 weeks - 3 hours of lecture per week
Additional Details
Subject/Course Level: Masters in Business Administration/Graduate
Grading: Letter grade.
The Lean Launch Pad: Read Less [-]
MBA 295G Advanced Innovation 1 Unit
Terms offered: Fall 2009, Fall 2008, Fall 2007
This course intends to help students apply the skills of applied innovation in a loosely-structured, open-ended project. Students will learn advanced techniques in the innovation process and apply it to a project of their choice. The course is loosely structured and includes a lot of coaching time with faculty, as well as feedback and critique time with peers. The course largely follows the innovation cycle — observe and notice, frame and reframe, imagine and design, and make and test — but does so nonlinearly.
Advanced Innovation: Read More [+]

Rules & Requirements

Credit Restrictions: Students will receive no credit for MBA 295G after completing MBA 295G. A deficient grade in MBA 295G may be removed by taking MBA 295G.

MBA 295I Entrepreneurship Workshop for Start-ups 2 - 4 Units
Terms offered: Spring 2015, Fall 2014, Fall 2011
This workshop is intended for students who have their own experimental venture project under development. The business concept may be in the startup mode, or further along in its evolution. The pedagogy is one of "guided" entrepreneurship where students, often working in teams, undertake the real challenges of building a venture. Students must be willing to discuss their project with others in the workshop as group deliberation of the entrepreneurial challenges is a key component of the class.

MBA 295N Media: New and Otherwise 1 Unit
Terms offered: Prior to 2007
This course provides students with an overview of the media business and how it is changing — from startups to global conglomerates. It addresses the economics of media organizations (and industries), their organizational structures, cultures, brands, and approaches. Some of the questions discussed include: (1) How do traditional media address changing technologies; (2) How is the media business driven by metrics and data; (3) How is it driven by artistic creativity; (4) Are media companies too big? Are they too small? Students will develop and present competitive strategies for media companies, hear from guest speakers, and discuss the transformations happening in media.

MBA 295S Entrepreneurial Strategy 2 Units
Terms offered: Prior to 2007
Students learn about the key strategic choices that shape whether companies deliver real value to stakeholders. They are taught to organize the strategic choices into four different strategy “playbooks” that they can use to systematically consider alternate strategies for a startup, and the core elements needed to make these strategies work: Intellectual Property Strategy, Disruptive Strategy, Value Chain Strategy, and Architectural Strategy. Students must (a) analyze cases, thinking systematically through what they would do if they were a founder or early-employee in the protagonists’ shoes; (b) engage in class discussions, treating the classroom as a laboratory; and (c) formulate a real strategic plan for a final strategy assignment.

Entrepreneurial Strategy: Read More [+]

Hours & Format
Fall and/or spring: 8 weeks - 4 hours of lecture per week

MBA 296C Introduction to Coding for MBAs 2 Units
Terms offered: Prior to 2007
This course helps MBA students communicate more effectively with technical colleagues by understanding the basics of the programming world. Students learn industry standard vocabulary, tools, and processes used by developers. As an introductory course, it focuses on breadth instead of depth providing a foundation for learning the core topics critical to a career in technology. The course is a mixture of in-class lectures, quizzes, readings, and online tutorials. Each session introduces a new topic, with depth added in readings and reinforced through quizzes and assignments. The material is introduced cumulatively and the pace is specifically tuned for beginners. The course is aimed at non-technical students with no prior coding experience.

MBA 375 Teaching Business 0.5 Units
Terms offered: Fall 2023, Fall 2022, Fall 2021
This course will cover the important skills and resources necessary to be an effective graduate student instructor (GSI) in the Haas School of Business. GSIs are an integral part of instruction at Haas, supporting faculty teaching through administrative and pedagogical support. This course seeks to prepare MBA students for their first GSI positions, ensuring that they are ready for the many potential challenges that might await them in the ensuing semester. Students will learn effective teaching strategies from faculty and veteran GSIs, as well as resources available to them both through Haas and the Berkeley campus. This course will also teach MBA students the common pitfalls of any class--both in pedagogical style and in student interaction.
