MPS 1 Navigating the Mathematical and Physical Sciences 1 Unit

Terms offered: Fall 2024, Fall 2023, Fall 2022

This course is offered to support first-year students in the mathematical and physical sciences with their transition to UC Berkeley. This course will highlight relevant resources on campus and help students in building community and a sense of belonging. Students will receive peer mentorship and will have the chance to learn from continuing students, graduate students and faculty about classes, curriculum, internships, and research. This course will be open to all freshman and sophomore students who are intended MPS majors (mathematics, physics, astronomy, and earth and planetary science majors).

Objectives & Outcomes

Course Objectives: Upon completion of this course, students will gain:
- An enhanced mentoring network.
- Awareness of the written and unwritten rules of academic life and how to navigate them successfully.
- Knowledge of how a mathematics and physical sciences major connects to career opportunities and strategies for maximizing advancement into these career paths as well as exploring the potential for subsequent graduate study.
- Connections to successful scientists and advanced students with whom they can identify and to whom they can relate.

Rules & Requirements

Repeat rules: Course may be repeated for credit without restriction.

Hours & Format

Fall and/or spring: 15 weeks - 1.5 hours of lecture per week

Additional Details

Subject/Course Level: Mathematics and Physical Sciences/Undergraduate

Grading/Final exam status: Offered for pass/not pass grade only. Final exam not required.

MPS 375 Professional Preparation: Supervised Teaching in Math and the Physical Sciences 2 Units

Terms offered: Fall 2024, Spring 2024, Fall 2023

Mandatory for first time GSIs in Math, Physics, Astronomy, and EPS.

Topics include pedagogy theory, effective teaching methods, educational objectives, alternatives to standard classroom methods, reciprocal classroom visitations, and guided group discussions. We will provide resources, tools, feedback for your teaching and readings on pedagogy in STEM. The discussion section will be devoted to discussions relevant to the department in which you are teaching and will also be used as a forum for you to share your struggles, successes, and experiences with your peers.
