RDEV 200 Construction and Development Project Management 3 Units
Terms offered: Fall 2020
Introduction to materials, means, methods and vocabulary of construction and sustainable building systems. Structural materials, building envelope, costs, labor conditions, conventional practices, and key regulatory factors shaping project design. Practical understanding of reading construction drawings, construction sequencing, building materials, building systems, building code and legal documents. Relationship between feasibility, budget, design, function and risk.

Construction and Development Project Management: Read More [+]

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of lecture and 1 hour of laboratory per week

Additional Details

Subject/Course Level: Real Estate Development + Design/Graduate
Grading: Letter grade.

RDEV 205 Equitable + Inclusive Development 1 Unit
Terms offered: Fall 2020
Equitable and inclusive approaches to real estate development. Historical perspective of racial injustice in low-income communities of color, including gentrification and displacement. How real estate development can either ameliorate or exacerbate inequality and injustice in relation to race, class, ethnicity, and gender. Best practices and innovative new tools and strategies to ensure the benefits of new development are broadly shared with communities.

Equitable + Inclusive Development: Read More [+]

Hours & Format
Fall and/or spring: 5 weeks - 3 hours of lecture per week
Summer: 8 weeks - 2 hours of lecture per week

Additional Details

Subject/Course Level: Real Estate Development + Design/Graduate
Grading: Letter grade.

RDEV 209 Integrated Development, Architecture + Urbanism for Real Estate 4 Units
Terms offered: Prior to 2007
This course interrogates how development forces produce our streets, neighborhoods, towns, cities and metropolitan regions. It is focused on a critical understanding of development practices and their impact on urban form as well as the social, economic, cultural and environmental nature of cities, exploring these topics through a review of selected Case Studies. The course includes invited presentations from development, design, and planning industry professionals. This course will investigate how Development, Architecture and Urbanism are intertwined, contending that cities are our most sustainable resource, holding the key to our social, economic, and culturally equitable future, as well as our planet’s environmental stewardship.

RDEV 210 Real Estate Economics + Market Analysis 2 Units
Terms offered: Fall 2020
This course teaches students the fundamentals of real estate development finance and economics. Grounded in an understanding of urban economics in large cities, the class will examine the factors in national, regional and local real estate markets that determine development needs and opportunities. Financial analysis skills and analytical processes will be developed for evaluating private and public sector development and investment sources employed across all major property classes and land uses. The class will discuss aspects of financial feasibility throughout the scope of the development process from market and predevelopment analysis and site selection to lease-up or sales of the final product.

Objectives & Outcomes
Course Objectives: Acquire an understanding of the economic and market impacts of different real estate development product types
Develop critical financial analysis skills and knowledge to evaluate real estate development markets and opportunities
Gain financial knowledge and principles which support sustainable and more equitable real estate development
Understand how urban economics and investment markets impact urban land and real estate development production and viability

Hours & Format
Summer: 12 weeks - 3 hours of lecture per week

RDEV 215 Real Estate Financial Modeling 1 Unit
Terms offered: Prior to 2007
This course is designed to facilitate a mastery of financial modeling (pro forma) skills required of real estate developers through a hands-on approach using Microsoft Excel. It is designed to develop students’ ability to think critically about how real estate value is created and develop analytical tools used to derive it. Active participation in class is a must, as the sessions are designed to be collaborative. Students will review reading materials in advance and be expected to come prepared to build pro formas in real time.

Additional Details
Subject/Course Level: Real Estate Development + Design/Graduate
Grading: Letter grade.

RDEV 220 Foundation Principles for Real Estate Development + Finance 4 Units
Terms offered: Fall 2020, Fall 2018
Fundamentals of real estate development finance. Financial analysis skills and analytical tools for evaluating private and public development and investment in real estate, over all product types. Site selection, market analysis, financial feasibility, design and legal considerations, construction, lease-up, operations, and property sales. Decision-making scenarios to evaluate and assess development concepts and project viability. Funding sources for market rate and affordable development.

Hours & Format
Summer: 12 weeks - 4 hours of lecture and 1.5 hours of laboratory per week

RDEV 225 Applications in Real Estate Finance 3 Units
Terms offered: Prior to 2007
This course is designed to facilitate a mastery of core finance and valuation skills required of real estate developers through a practical approach using real world examples / case studies. It is designed to develop students’ ability to think critically about how real estate value is created and develop analytical tools used to derive it. The primary emphasis in the course is on the acquisition, development, financing, and repositioning of real estate projects. Active participation in class is a must. Students will review case materials in advance and students will be expect to come prepared to discuss their understanding of value.

RDEV 230 Public-Private Partnerships, Strategies, and Tools 3 Units
Terms offered: Fall 2018
Public-private partnerships have emerged as a key means of catalyzing transformative urban development across the world. The course will focus on the key principles and techniques that lead to the creation and implementation of successful partnerships between the public and private sectors. Using case studies from projects across the United States, the course will explore the tools, strategies and partnerships used to implement such projects and pay special attention to the transaction and financing of such developments. The class will teach students the skills and knowledge to manage the complex processes, agreements and financing structures that are involved in public-private partnerships for real estate development.

RDEV 235 Real Estate Capital Markets 3 Units
Terms offered: Not yet offered
This course seeks to acquaint the student with the structure, instruments, and institutions of real estate capital markets. In so doing, the course considers the linkages between real estate and general capital markets. The course also reviews the major features of both residential and non-residential primary and secondary mortgage markets, including the structure and performance of residential and commercial mortgage-backed securities, and exposes students to public sources of real estate equity finance, including real estate investment trusts (REITs). Finally, the course examines recent developments in global real estate capital markets.

RDEV 260 Sustainable Real Estate Development 3 Units
Terms offered: Prior to 2007
This course is aimed at real estate development students to gain an understanding of the need and urgency of incorporating sustainable practices into real estate projects, and to understanding how best to do so in an economical way. The course will be structured around seven major concepts as defined below:
2. Government Regulations
3. Green Development Strategies
4. Green Design Considerations
5. Cost / Benefits Modeling
6. Certification Programs
7. Pre-Occupancy & Post Occupancy Considerations

RDEV 270 Development + Design Studio 4 Units
Terms offered: Spring 2020
This course will involve a real world site to provide students with the experience and skills necessary to synthesize real estate development + design projects. As developers and designers, students need to understand: the development process, program, how development teams work, what makes good design and how it adds value, and how to propose a feasible, innovative project from multiple constraints. Students will learn how to gather and evaluate market, construction, and environmental data to inform design choices; evaluate the physical, market, and public policy constraints of a given site; apply best practices of redevelopment; advance innovative design solutions, and communicate their development proposal to a professional audience.
Development + Design Studio: Read More [+]

Hours & Format
Fall and/or spring: 15 weeks - 8 hours of studio per week
Additional Details
Subject/Course Level: Real Estate Development + Design/Graduate

RDEV 277 Equitable + Resilient Development 2 Units
Terms offered: Not yet offered
The course will include discussions of various approaches to resilience and engage multi-disciplinary experts who bring resilience into their research or professional work at multiple scales: building, district, city, and region. Major infrastructure system investments and equitable community co-benefits are also key topics as they impact the physical and financial requirements for site design and development. We will examine new approaches to urban design, equity, insurance, and policy that can be applied to students’ parallel design projects.

RDEV 280 Capstone Project 2 Units
Terms offered: Spring 2020
In this course you will conduct an original investigation in order to acquire new knowledge within a framework set by a client in practice. The primary goal of this research class is to deepen your personal understanding of a particular topic or issue in real estate development. A key secondary goal is to help address a practical aim or objective of your client.
Capstone Project: Read More [+]

Hours & Format
Fall and/or spring: 15 weeks - 2 hours of lecture per week

RDEV 285 Capstone Preparation 1 Unit
Terms offered: Prior to 2007
This course is intended to assist students in defining their independent capstone research project, including the core research question(s), appropriate sources, methods, and scope, with a goal of producing a comprehensive Capstone Proposal by the end of the course (mid-semester). Given the short time frame available for Capstone during the Summer Semester, this course is designed to prepare students to embark directly on the research and summary phases of their projects at the conclusion of this course. Through lectures, assigned readings, meetings with the Instructor, much self-guided research, and the completion of three benchmark assignments this Semester, students will develop their Capstone research question and argument.
Capstone Preparation: Read More [+]  
Hours & Format  
Fall and/or spring: 8 weeks - 2 hours of seminar per week

RDEV 297 Internship in Real Estate Development + Design 1 - 3 Units
Terms offered: Spring 2022, Spring 2021, Spring 2020
Internships are off-campus experiential learning activities designed to provide students with opportunities to make connections between the theory and practice of academic study and the practical application of that study in a professional work environment. Internships offer the opportunity to experience a career while gaining relevant skills and professional connections. Internships are completed under the guidance of an on-site supervisor and a faculty sponsor, who in combination with the student will create a framework for learning and reflection. For-credit internships are open only to students who have completed at least 9 course credits, and have a GPA of at least 3.0.
Internship in Real Estate Development + Design: Read More [+]  
Objectives & Outcomes  
Course Objectives: An understanding of how real estate development and design coursework ties to professional careers of interest Develop professional connections and identify a strategy for maintaining those connections Gain insight into a possible career path of interest while learning about the industry in which the organization resides, organizational structure, and roles and responsibilities within that structure.  
Student Learning Outcomes: Ability to articulate what was learned and how it will be apply to your professional career goals Identification of additional skills that will need to be developed to ensure career readiness. This might include learning a new technology, developing a broader network, additional coursework, etc. Identification of professions that may be of interest as a result of this experience  
Rules & Requirements  
Prerequisites: 1) Students must have successfully completed RDEV core classes in the summer and be in good academic standing. 2) Students must have an approved internship application by the Executive Director of the MRED+D program  
Repeat rules: Course may be repeated for credit with advisor consent.  
Hours & Format  
Fall and/or spring: 15 weeks - 2-8 hours of internship per week  
Summer: 12 weeks - 3-9 hours of internship per week  
Additional Details  
Subject/Course Level: Real Estate Development + Design/Graduate  
Grading: Offered for satisfactory/unsatisfactory grade only.
