Business Administration: PhD

The Berkeley Haas PhD Program offers six fields of academic study, for a curriculum of unusual richness and breadth. Since the program enrolls only 14 to 16 new PhD students each year, you will work very closely with the faculty members in their chosen specialties. This close partnership, coupled with the diverse academic and cultural backgrounds of our PhD students, fosters an atmosphere of close collaboration and intellectual curiosity.

The Berkeley Haas PhD Program is strongly oriented toward discipline and research. Emphasis is placed on preparing you to evaluate the state of knowledge in your particular field and to advance it through the application of theory from the social sciences, mathematics, or statistics.

Upon applying to the program, you are required to choose a field of study, which will not only determine your course work but also focus your future employment opportunities. You may choose from the following six fields:

- Accounting (http://haas.berkeley.edu/Phd/academics/accounting/)
- Business and Public Policy (http://haas.berkeley.edu/Phd/academics/bpp/)
- Finance (http://haas.berkeley.edu/Phd/academics/finance/)
- Marketing (http://haas.berkeley.edu/Phd/academics/marketing/)
- Management of Organizations (http://haas.berkeley.edu/Phd/academics/management/)
- Real Estate (http://haas.berkeley.edu/Phd/academics/realestate/)

Admission to the University

Minimum Requirements for Admission

The following minimum requirements apply to all graduate programs and will be verified by the Graduate Division:

1. A bachelor’s degree or recognized equivalent from an accredited institution;
2. A grade point average of B or better (3.0);
3. If the applicant has completed a basic degree from a country or political entity (e.g., Quebec) where English is not the official language, adequate proficiency in English to do graduate work, as evidenced by a TOEFL score of at least 90 on the iBT test, 570 on the paper-and-pencil test, or an IELTS Band score of at least 7 on a 9-point scale (note that individual programs may set higher levels for any of these); and
4. Sufficient undergraduate training to do graduate work in the given field.

Applicants Who Already Hold a Graduate Degree

The Graduate Council views academic degrees not as vocational training certificates, but as evidence of broad training in research methods, independent study, and articulation of learning. Therefore, applicants who already have academic graduate degrees should be able to pursue new subject matter at an advanced level without the need to enroll in a related or similar graduate program.

Programs may consider students for an additional academic master’s or professional master’s degree only if the additional degree is in a distinctly different field.

Applicants admitted to a doctoral program that requires a master’s degree to be earned at Berkeley as a prerequisite (even though the applicant already has a master’s degree from another institution in the same or a closely allied field of study) will be permitted to undertake the second master’s degree, despite the overlap in field.

The Graduate Division will admit students for a second doctoral degree only if they meet the following guidelines:

1. Applicants with doctoral degrees may be admitted for an additional doctoral degree only if that degree program is in a general area of knowledge distinctly different from the field in which they earned their original degree. For example, a physics PhD could be admitted to a doctoral degree program in music or history; however, a student with a doctoral degree in mathematics would not be permitted to add a PhD in statistics.
2. Applicants who hold the PhD degree may be admitted to a professional doctorate or professional master’s degree program if there is no duplication of training involved.

Applicants may apply only to one single degree program or one concurrent degree program per admission cycle.

Required Documents for Applications

1. Transcripts: Applicants may upload unofficial transcripts with your application for the departmental initial review. Unofficial transcripts must contain specific information including the name of the applicant, name of the school, all courses, grades, units, & degree conferral (if applicable).
2. Letters of recommendation: Applicants may request online letters of recommendation through the online application system. Hard copies of recommendation letters must be sent directly to the program, by the recommender, not the Graduate Admissions.
3. Evidence of English language proficiency: All applicants who have completed a basic degree from a country or political entity in which the official language is not English are required to submit official evidence of English language proficiency. This applies to institutions from Bangladesh, Burma, Nepal, India, Pakistan, Latin America, the Middle East, the People’s Republic of China, Taiwan, Japan, Korea, Southeast Asia, most European countries, and Quebec (Canada). However, applicants who, at the time of application, have already completed at least one year of full-time academic course work with grades of B or better at a US university may submit an official transcript from the US university to fulfill this requirement. The following courses will not fulfill this requirement:
   - courses in English as a Second Language,
   - courses conducted in a language other than English,
   - courses that will be completed after the application is submitted, and
   - courses of a non-academic nature.

Applicants who have previously applied to Berkeley must also submit new test scores that meet the current minimum requirement from one of the standardized tests. Official TOEFL score reports must be sent directly from Educational Test Services (ETS). The institution code for Berkeley
is 4833 for Graduate Organizations. Official IELTS score reports must be sent electronically from the testing center to University of California, Berkeley, Graduate Division, Sproul Hall, Rm 318 MC 5900, Berkeley, CA 94720. TOEFL and IELTS score reports are only valid for two years prior to beginning the graduate program at UC Berkeley. Note: score reports can not expire before the month of June.

Where to Apply
Visit the Berkeley Graduate Division application page (http://grad.berkeley.edu/admissions/apply/).

Admission to the Program
Review the Program Criteria (http://haas.berkeley.edu/phd/admissions/) and Application Instructions (http://haas.berkeley.edu/phd/admissions/application_instructions.html) before applying. Some of the factors that are taken into account during our admissions process are:

- A high level of scholarly ability, involving both quantitative and qualitative skills
- The motivation to complete a challenging and strenuous academic program
- Career objectives consistent with the PhD degree
- Unique experience, perspective, or research interests

Applicants are not required to have:

- Previous graduate work or completion of an MBA degree
- A minimum score on the GMAT/GRE exam
- A specific academic or professional background

Business Administration: PhD

PHDBA 219S Research Seminar in Economic Analysis and Policy 1 - 3 Units
Terms offered: Spring 2023, Fall 2022, Spring 2022
The research seminar presents new research on economics applied to business management issues.

Rules & Requirements
Repeat rules: Course may be repeated for credit without restriction.

Hours & Format
Fall and/or spring: 8 weeks - 1.5 hours of seminar per week

Additional Details
Subject/Course Level: Ph.D. in Business Administration/Graduate
Grading: Offered for satisfactory/unsatisfactory grade only.

PHDBA 229A Doctoral Seminar in Accounting I 3 Units
Terms offered: Spring 2023, Fall 2022, Spring 2022
A critical evaluation of accounting literature with emphasis on seminar contributions. Topics covered include research methodology in accounting, the private and social value of information.

Rules & Requirements
Prerequisites: Business Administration 202A or equivalent, and Economics 201A-201B
Credit Restrictions: Students will receive no credit for 229A after taking 239A.
Repeat rules: Course may be repeated for credit without restriction.

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of seminar per week

Additional Details
Subject/Course Level: Ph.D. in Business Administration/Graduate
Grading: Letter grade.
Formerly known as: Business Administration 223A
Doctoral Seminar in Accounting I: Read Less [-]
PHDBA 229B Doctoral Seminar in Accounting II 3 Units
Terms offered: Fall 2019, Spring 2018, Fall 2017
A critical evaluation of recent accounting literature involving empirical research.
Doctoral Seminar in Accounting II: Read More [+]

Rules & Requirements
Prerequisites: Business Administration 202A or equivalent, and Economics 201A-201B
Repeat rules: Course may be repeated for credit without restriction.

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of seminar per week

Additional Details
Subject/Course Level: Ph.D. in Business Administration/Graduate
Grading: Letter grade.
Formerly known as: Business Administration 223B
Doctoral Seminar in Accounting II: Read Less [-]

PHDBA 229C Doctoral Seminar in Accounting III 3 Units
Terms offered: Spring 2023, Spring 2022, Spring 2021
A critical evaluation of recent accounting literature with emphasis on financial accounting.
Doctoral Seminar in Accounting III: Read More [+]

Rules & Requirements
Prerequisites: Business Administration 202A or equivalent, and Economics 201A-201B

Hours & Format
Fall and/or spring: 15 weeks - 3 hours of seminar per week

Additional Details

**PHDBA 239B Continuous Time Asset Pricing**

3 Units

Terms offered: Fall 2020, Fall 2019, Spring 2018

This course covers topics in dynamic asset pricing, portfolio choice and general equilibrium theory in a continuous time setting. The first part of the course covers basic mathematical and statistical results. Finance results that have been developed in continuous times include the intertemporal CAPM, corporate securities and default risk, the term structure of interest rates. In addition, results are developed on non-time additive utility.

Continuous Time Asset Pricing: Read More [+]

**Rules & Requirements**

**Prerequisites:** 239A

**Hours & Format**

Fall and/or spring: 15 weeks - 3 hours of seminar per week

**Additional Details**

**Subject/Course Level:** Ph.D. in Business Administration/Graduate

**Grading:** Letter grade.

Continuous Time Asset Pricing: Read Less [-]

---

**PHDBA 239E Dynamic Game Theory and Applications**

3 Units

Terms offered: Spring 2016, Spring 2015, Spring 2014

This course focuses on repeated games and optimal mechanism design, with an emphasis on dynamics. The course presents a mix of pure theory and applications from many economics-related fields, particularly finance, macroeconomics and bargaining.

Dynamic Game Theory and Applications: Read More [+]

**Hours & Format**

Fall and/or spring: 15 weeks - 3 hours of lecture per week

**Additional Details**

**Subject/Course Level:** Ph.D. in Business Administration/Graduate

**Grading:** Letter grade.

Dynamic Game Theory and Applications: Read Less [-]

---

**PHDBA 239DA Market Microstructure**

1.5 Unit

Terms offered: Spring 2021, Spring 2020, Spring 2019

Introduction and guide to issues in empirical asset pricing. Students learn key features of asset-price behavior and study how researchers test various theoretical models from finance and economics, focusing on advantages and disadvantages of research designs. Intuition behind practical econometric tools is developed and applied to asset-pricing questions. By critically evaluating research, students determine which characteristics of an empirical paper influence the finance profession.

Market Microstructure: Read More [+]

**Rules & Requirements**

**Prerequisites:** Graduate course in contract or game theory recommended

**Hours & Format**

Fall and/or spring: 8 weeks - 3 hours of lecture per week

**Additional Details**

**Subject/Course Level:** Ph.D. in Business Administration/Graduate

**Grading:** Letter grade.

Market Microstructure: Read Less [-]

---

**PHDBA 239FA Asset Pricing Theory**

3 Units

Terms offered: Fall 2022

Asset pricing and portfolio choice in partial equilibrium and asset pricing in General Equilibrium. Specifically, static and intertemporal theories of choice under risk and uncertainty and portfolio choice. Includes two-fund separation, Capital Asset Pricing Model, and the Arbitrage Pricing Theory. In a General Equilibrium framework, it covers the notion of complete markets and welfare theorems. Also, some macro-asset pricing models are developed in addition to an analysis of incomplete markets.

Asset Pricing Theory: Read More [+]

**Hours & Format**

Fall and/or spring: 15 weeks - 3 hours of seminar per week

**Additional Details**

**Subject/Course Level:** Ph.D. in Business Administration/Graduate

**Grading:** Letter grade.

Formerly known as: Ph.D. in Business Administration 239A

Asset Pricing Theory: Read Less [-]
PHDBA 239FB Corporate Finance Theory 3
Units
Terms offered: Fall 2022
Study of the financial decisions made by firms and the effect of such
decisions on observables. These can include debt/equity ratios, dividend
policies, or the cross-section of returns. In addition, corporate finance
considers conflicts of interest between shareholders and managers and
between different financial claimants.
Corporate Finance Theory: Read More [+]

Rules & Requirements

Prerequisites: Graduate course in contract or game theory
recommended

PHDBA 279E Political Economy, Institutions, and Business 3 Units
Terms offered: Prior to 2007
This graduate course in political economy addresses the interactions among citizens, profit-maximizing firms and a vast class of non-market agents, such as governments, public administration and regulatory institutions. The class emphasizes the operative implications of non-market institutions in affecting and constraining firm strategy and individual behavior. Topics and cases cover economic and political institutions, economic policy, lobbying, clientelism, bureaucracy, regulation, antitrust, activism and the media. We corroborate the analytical framework with real-world applications, ranging from the US historical experience to cross-country comparisons, to develop insight in interpreting fundamental politico-economic constraints.
Political Economy, Institutions, and Business: Read More [+]

Political Economy: Frameworks: Read Less [-]
PHDBA 279PB Theories of the Firm and Market Failures 3 Units
Terms offered: Not yet offered
This course is designed to help students understand the role of the government in addressing market failures and improving social welfare. The course has two broad objectives. The first is to develop an in depth understanding of empirical methods and research designs that are commonly used in applied microeconomics. The second is to familiarize students with important empirical findings and lines of inquiry at the frontier (and intersection) of public economics and industrial organization.

Theories of the Firm and Market Failures: Read More [+]

PHDBA 279PC Political Economy: Empirics 3 Units
Terms offered: Spring 2023
This graduate course in political economy addresses the interactions among citizens, profit-maximizing firms and a vast class of non-market agents, such as governments, public administration and regulatory institutions. The class emphasizes the operative implications of non-market institutions in affecting and constraining firm strategy and individual behavior. Topics and cases cover economic and political institutions, economic policy, lobbying, clientelism, bureaucracy, regulation, antitrust, activism and the media. We corroborate the analytical framework with real-world applications, ranging from the US historical experience to cross-country comparisons, to develop insight in interpreting fundamental politico-economic constraints.

Political Economy: Empirics: Read More [+]

Hours & Format
Fall and/or spring: 15 weeks - 2 hours of lecture per week

Additional Details
Subject/Course Level: Ph.D. in Business Administration/Graduate
Grading: Letter grade.

PHDBA 279PD The Economic Institutions of Capitalism in Historical Perspective 3 Units
Terms offered: Spring 2023
The main focus of this course is on the economic institutions of capitalism. These institutions are studied in relation to the development of the state and the interplay of political and economic elites in the process that led to the Industrial Revolution. To properly conceptualize that process and get a long-run perspective, we use a comparative approach across regions of the world and over different historical periods.

PHDBA 375 Teaching Business 3 Units
Terms offered: Spring 2023, Spring 2022, Spring 2021
This course will cover the broad range of knowledge and skills necessary to teach in top business schools. Teaching business effectively requires a myriad of pedagogical styles and techniques, as well as the confidence and preparation necessary to convey the course material. This course seeks to prepare doctoral students for careers as faculty in business schools, giving them the insight and experience that will make their first courses successful. Students will learn effective teaching strategies by observing faculty mentors, reading pedagogical texts, and openly discussing the challenges and rewards of business instruction with experienced faculty and graduate student instructors.
