Electrical Engineering and Computer Sciences and Business Administration

M.E.T. at a Glance: One program, two Bachelor of Science (BS) degrees

The Electrical Engineering and Computer Sciences and Business Administration is an interdisciplinary degree program. It combines the top-ranked College of Engineering and the Haas School of Business. The integrated curriculum is completed in four years. Internships, career coaching, and other enrichment activities provide ample opportunity for hands-on experience with innovation and entrepreneurship. Each M.E.T. cohort is small, allowing for close mentoring and a tight-knit community.

Admission to the M.E.T. Program

The M.E.T. Program seeks inquisitive, self-motivated students with a passion for finding and solving big problems. It is highly competitive and is open to freshmen during the UC application period (November 1 - 30). Freshman admission is limited to a maximum of 50 students. Current UC Berkeley sophomores in the College of Engineering majoring in one of the M.E.T. tracks may apply to M.E.T. via the Continuing Student Admissions process.

For further information, please see the M.E.T. website (http://met.berkeley.edu).

Accreditation

All UC Berkeley programs are accredited through the Accrediting Commission for Schools, Western Association of Schools and Colleges (ACS WASC). The Undergraduate Business Degree Program is accredited by The Association to Advance Collegiate Schools of Business (AACSB).

In addition to the University, campus, and M.E.T. Program requirements, listed on the College Requirements tab, students must fulfill the below requirements.

General Guidelines

1. A minimum of 38 upper division business units are required, and a minimum of 12 upper division non-business units are required. (Upper division EECS classes will fulfill the 12 upper division non-business units.)
2. A minimum of 40 engineering units are required.¹
3. Students must complete the College Requirements (p. 4) and the Major Requirements.
4. Students must complete the degree program in eight semesters. (Summer Session is not required for degree completion in eight semesters.)

5. All Haas business courses must be taken for a letter grade, with the exception of UGBA 194 (http://guide.berkeley.edu/search/?P=UGBA%20194), UGBA 198 (http://guide.berkeley.edu/search/?P=UGBA%20198) and UGBA 199 (http://guide.berkeley.edu/search/?P=UGBA%20199) (only offered Pass/No Pass).
6. All technical courses that can be used to fulfill a requirement must be taken for a letter grade.
7. Students who receive a grade of D+ or lower in a core UGBA course must repeat the course until they achieve a grade of C- or better.
8. Students must complete their business prerequisite courses (including Reading & Composition Parts A & B) by the spring semester of their sophomore (2nd) year.
9. Two M.E.T. Special Topics courses are required. M.E.T. Special Topics courses will count as upper division business units.
10. Students in this program must adhere to all policies and procedures of the College of Engineering and the Haas School of Business.

For information regarding University and campus requirements, Reading and Composition, breadth, class schedule, minimum academic progress, and unit requirements, please see the College Requirements (p. 4).

¹The 40 units of engineering courses cannot include: any course taken on a P/NP basis; courses numbered 24, 32, 39, 84, H194, 196, H196, H196A, H196B; BIOENG 100; COMPSCI 70, C79; DESINV courses on a P/NP basis; courses numbered 24, 32, 39, 84, H194, 196, H196, H196A, H196B; BIOENG 100; COMPSCI 70, C79; DESINV courses (except DESINV 15, 22, 23, 90E, 190E); ENGIN 125, 157AC, 180, 183 series, 185, 187, 190 series, 191, 192, 195; MECENG 190K, 191K.

### Upper Division Requirements

**Upper Division Electrical Engineering and Computer Sciences Requirements**

Select a minimum of 20 units of upper division EECS courses.  

At least one of the courses must be a design elective. Select from the following course designs:

- COMPSCI 160 User Interface Design and Development [4]
- COMPSCI 164 Programming Languages and Compilers [4]
  or COMPSCI Introduction to Software Engineering  
  or COMPSCI Software Engineering Team Project  
  or COMPSCI Software Engineering
- COMPSCI 182 Designing, Visualizing and Understanding Deep Neural Networks [4]
- COMPSCI 186 Introduction to Database Systems [4]  
  or COMPSCI Introduction to Database Systems
- COMPSCI 194-Course Not Available [1-4] (Consult your ESS adviser for confirmation)
- COMPSCI 285 Deep Reinforcement Learning, Decision Making, and Control [3]
- EECS C106A Introduction to Robotics [4]
- EECS C106B Robotic Manipulation and Interaction [4]
- EECS 149 Introduction to Embedded and Cyber Physical Systems [4]
- EECS 151 Introduction to Digital Design and Integrated Circuits [4]  
  & 151LA and Application Specific Integrated Circuits Laboratory
- EECS 151 Introduction to Digital Design and Integrated Circuits [4]  
  & 151LB and Field-Programmable Gate Array Laboratory
- EL ENG 130 Integrated-Circuit Devices [4]
- EL ENG 140 Linear Integrated Circuits [4]
- EL ENG 143 Microfabrication Technology [4]
- EL ENG 192 Mechatronic Design Laboratory [4]

### Electrical Engineering and Computer Sciences Ethics Requirement

COMPSCI 195 Social Implications of Computer Technology  

or HISTORY 186B/186D: Contexts and Ethics of Data - DATA/History/STS

or ISF 100D Introduction to Technology, Society, and Culture

or ISF C100G Introduction to Science, Technology, and Society

or MEDIAST 10/10B: Privacy in the Digital Age

or NWMEDIA 151/151E: Transforming Tech: Issues and Interventions in STEM and Silicon Valley
Business Administration courses.

courses in order to complete a minimum of 38 units of upper division

Select a minimum of 4-6 units of upper division UGBA elective

Upper Division Business Administration Elective Courses

Two courses are required.  

Upper Division Business Administration Requirements

Select a minimum of 4-6 units of upper division UGBA elective courses in order to complete a minimum of 38 units of upper division Business Administration courses.

UBGA 100 Business Communication 2
UBGA 101A Microeconomic Analysis for Business Decisions 3
UBGA 101B Macroeconomic Analysis for Business Decisions 3
UBGA 102A Financial Accounting 3
UBGA 102B Managerial Accounting 3
UBGA 103 Introduction to Finance 4
UBGA 104 Introduction to Business Analytics 3
UBGA 105 Leading People 3
UBGA 106 Marketing 3
UBGA 107 The Social, Political, and Ethical Environment of Business 3

M.E.T. Special Topics

Two courses are required.  

Upper Division Business Administration Elective Courses

Select a minimum of 4-6 units of upper division UGBA elective courses in order to complete a minimum of 38 units of upper division Business Administration courses.

UBGA 117 Special Topics in Economic Analysis and Policy [1-4]  
UBGA 118 International Trade [3]  
UBGA 120B Advanced Financial Accounting [4]  
UBGA 122 Financial Information Analysis [4]  
UBGA 125 Ethics in Accounting [3]  
UBGA 126 Auditing [4]  
UBGA 127 Special Topics in Accounting [1-4]  
UBGA 128 Strategic Cost Management [3]  
UBGA 131 Corporate Finance and Financial Statement Analysis [3]  
UBGA 132 Financial Institutions and Markets [3]  
UBGA 133 Investments [3]  
UBGA 136F Behavioral Finance [3]  
UBGA 137 Special Topics in Finance [1-4]  
UBGA 141 Production and Operations Management [2-3]  
UBGA 143 Game Theory and Business Decisions [3]  
UBGA 147 Special Topics in Operations and Information Technology Management [1-4]  
UBGA 151 Management of Human Resources [3]  
UBGA 152 Negotiation and Conflict Resolution [3]  
UBGA 154 Power and Politics in Organizations [2,3]  
UBGA 155 Leadership [3]  
UBGA 157 Special Topics in the Management of Organizations [1-4]  
UBGA 160 Customer Insights [3]  
UBGA 161 Market Research: Tools and Techniques for Data Collection and Analysis [3]  
UBGA 162 Brand Management and Strategy [3]  
UBGA 162A Product Branding and Branded Entertainment [2]  
UBGA 165 Advertising Strategy [3]  
UBGA 167 Special Topics in Marketing [1-4]  
UBGA 169 Pricing [3]  
UBGA C172 History of American Business [3]  
UBGA 173 Competitive Strategy [3]  
UBGA 174 Leading Strategy Implementation [3]  
UBGA 175 Legal Aspects of Management [3]  
UBGA 176 Innovations in Communications and Public Relations [2]  
UBGA 177 Special Topics in Business and Public Policy [1-4]  
UBGA 178 Introduction to International Business [3]  
UBGA 179 International Consulting for Small and Medium-Sized Enterprises [3]  
UBGA 180 Introduction to Real Estate and Urban Land Economics [3]  
UBGA 183 Introduction to Real Estate Finance [3]  
UBGA 184 Urban and Real Estate Economics [3]  
UBGA 187 Special Topics in Real Estate Economics and Finance [1-4]  
UBGA 190S Strategy for the Information Technology Firm [3]  
UBGA 190T Special Topics in Innovation and Design [1-4]  
UBGA 191C Communication for Leaders [2]  
UBGA 191I Improvisational Leadership [3]  
UBGA 191P Leadership and Personal Development [3]  
UBGA 192A Leading Nonprofit and Social Enterprises [3]  
UBGA 192B Strategic Philanthropy [2]  
UBGA 192N Topics in Social Sector Leadership [1-5]  
UBGA 192P Sustainable Business Consulting Projects [3]  
UBGA 192T Topics in Responsible Business [1-4]  
UBGA 193C Practical Training [0.0]  
UBGA 193I Business Abroad [1-4]  
UBGA 194 Undergraduate Colloquium on Business Topics [1]  
UBGA 195A Entrepreneurship [3]  
UBGA 195P Entrepreneurship: How to Successfully start a New Business [3]  
UBGA 195S Entrepreneurship To Address Global Poverty [3]  
UBGA 195T Topics in Entrepreneurship [1-3]  
UBGA 196 Special Topics in Business Administration [1-4]  
UBGA 198 Directed Study [1-4]  
UBGA 199 Supervised Independent Study and Research [1-4]  

Total Upper Division Units: 57-61

1 M.E.T. Special Topics courses will count as upper division business units.
2 COMPSCI 161 can fulfill the EECS Design requirement if taken Spring 2019 or later.
3 In addition to upper division EECS courses, the following courses can count toward the 20 units of upper division EECS: EL ENG 229A, INFO 159, INFO 213, COMPSCI 270, COMPSCI C280, COMPSCI 285, COMPSCI 288, COMPSCI 294-84 (Interactive Device Design), and COMPSCI 294-129 (Designing, Visualizing and Understanding Deep Neural Networks). Note that no more than two
graduate level courses (courses numbered 200-294) can be used to fulfill requirements for your B.S. degree. See footnote 2 above for the list of excluded courses. The 20 units of upper division EECS courses cannot include any course taken on a P/NP basis, COMPSCI H196A, COMPSCI H196B, ELENG H196A, or ELENG H196B.

University of California Requirements

Entry Level Writing (http://guide.berkeley.edu/undergraduate/colleges-schools/haas-business/entry-level-writing-requiremen/)

All students who enter the University of California as freshmen must demonstrate their command of the English language by fulfilling the Entry Level Writing Requirement. Fulfillment of this requirement is also a prerequisite to enrollment in all reading and composition courses at UC Berkeley.

American History and American Institutions (http://guide.berkeley.edu/undergraduate/colleges-schools/haas-business/american-history-institutions-requiremen/)

The American History and Institutions requirements are based on the principle that a US resident who graduates from an American university should have an understanding of the history and governmental institutions of the United States.

Campus Requirement

American Cultures (http://guide.berkeley.edu/undergraduate/colleges-schools/haas-business/american-cultures-requiremen/)

American Cultures (AC) is the one requirement that all undergraduate students at UC Berkeley need to take and pass in order to graduate. The requirement offers an exciting intellectual environment centered on the study of race, ethnicity, and culture of the United States. AC courses offer students opportunities to be part of research-led, highly accomplished teaching environments, grappling with the complexity of American culture.

M.E.T. Program Requirements

Reading and Composition

Two Reading and Composition (R&C) courses must be taken for a letter grade (C- or better required), and must be completed by no later than the end of the sophomore year (4th semester of enrollment). The first half of R&C, the “A” course, must be completed by the end of the freshman year; the second half of R&C, the “B” course, by no later than the end of the sophomore year or a student's registration will be blocked. View a detailed list of courses (http://guide.berkeley.edu/undergraduate/colleges-schools/engineering/reading-composition-requiremen/) that fulfill Reading and Composition requirements.

Breadth Requirement

The undergraduate breadth requirement provides Berkeley students with a rich and varied educational experience outside of their major program. As the foundation of a liberal arts education, breadth courses give students a view into the intellectual life of the University while introducing them to a multitude of perspectives and approaches to research and scholarship. Engaging students in new disciplines and with peers from other majors, the breadth experience strengthens interdisciplinary connections and context that prepare Berkeley graduates to understand and solve the complex issues of their day.

Students in the M.E.T. Program must successfully complete six breadth courses, one in each of the following categories:

- Arts and Literature
- Historical Studies
- International Studies
- Philosophy and Values (will be satisfied with UGBA 107)
- Physical Science (will be satisfied with Physics 7B)
- Social and Behavioral Sciences (will be satisfied with Econ 1)

- With the exception of UGBA 107, UGBA courses cannot be used to fulfill breadth requirements.
- With the exception of Econ 1 or Econ 2, microeconomics and macroeconomics at any level (Econ 3, Econ 100A/B, Econ 101A/B, IAS 106/107) cannot be used to fulfill breadth requirements.
- No more than two courses from any one department may be used to satisfy the breadth requirement (L&S Discovery courses (http://lsdiscovery.berkeley.edu) are exempt).
- Advanced Placement, International Baccalaureate and A-Level exams cannot be used to fulfill the breadth requirement.
- Courses numbered 97, 98, 99, or above 196 may not be used to complete any breadth requirement.
- Breadth courses must be a minimum of 3 semester units.
- Reading & Composition courses cannot be used to fulfill breadth requirements.

Class Schedule Requirements

- Minimum units per semester: 13
- Maximum units per semester: 20.5
- Students in the M.E.T. Program must enroll each semester in no fewer than two letter graded technical courses (of at least 3 units each, with the exception of Engineering 25, 26 and 27). Every semester they are expected to make satisfactory progress in their declared major; satisfactory progress in the student's declared major is determined by their ESS adviser.

Minimum Academic (Grade) Requirements

- A minimum overall and semester grade point average of 2.000 (C average) is required. Students will be subject to dismissal from the University if during any fall or spring semester their overall U.C. GPA falls below 2.000, or their semester GPA is less than 2.000.
- Students must achieve a minimum GPA of 2.000 (C average) in upper division technical courses each semester. Students will be subject to dismissal from the University if their upper division technical GPA falls below 2.000.
- A minimum overall GPA of 2.000, and a minimum 2.000 GPA in upper division technical course work required of the major are required to graduate.

Unit Requirements

- A minimum of 120 units are required to graduate.
- A maximum of 16 units of Special Studies coursework (courses numbered 97, 98, 99, 197, 198, or 199) will count towards the 120 units; a maximum of four are allowed in a given semester.
University of California Requirements

Entry Level Writing (http://guide.berkeley.edu/undergraduate/education/#earningyourdegreetext)

All students who will enter the University of California as freshmen must demonstrate their command of the English language by satisfying the Entry Level Writing Requirement (ELWR). The UC Entry Level Writing Requirement website (https://admission.universityofcalifornia.edu/elwr/) provides information on how to satisfy the requirement.

American History and American Institutions (http://guide.berkeley.edu/undergraduate/education/#earningyourdegreetext)

The American History and Institutions (AH&I) requirements are based on the principle that a US resident graduated from an American university should have an understanding of the history and governmental institutions of the United States.

Campus Requirement

American Cultures (http://guide.berkeley.edu/undergraduate/education/#earningyourdegreetext)

The American Cultures requirement is a Berkeley campus requirement, one that all undergraduate students at Berkeley need to pass in order to graduate. You satisfy the requirement by passing, with a grade not lower than C- or P, an American Cultures course. You may take an American Cultures course any time during your undergraduate career at Berkeley. The requirement was instituted in 1991 to introduce students to the diverse cultures of the United States through a comparative framework. Courses are offered in more than fifty departments in many different disciplines at both the lower and upper division level.

Total Units: 141-143

1. Math 1A may be fulfilled with a score of 3, 4 or 5 on the AP Calculus AB or BC exam, a score of 5, 6 or 7 on the IB Higher Level Math exam, or a grade of A, B or C on the A-Level Math H1, H2, H3, Pure Math or Further Math exam.

2. Students must complete one course from the following list: ASTRON 7A, ASTRON 7B, ASTRON 7AB, BIOLOGY 1A and BIOLOGY 1AL (must take both), BIOLOGY 1B, CHEM 1A and CHEM 1AL (must take both), CHEM 1B, CHEM 3A and CHEM 3AL (must take both), CHEM 3B and CHEM 3BL (must take both), CHEM 4A, CHEM 4B, MCELLBI 32 and MCELLBI 32L (must take both), PHYSICS 7C, or any upper division letter graded course of 3 units or more in astronomy, chemistry (except 100, 149, 192), earth and planetary science (except C100), integrative biology (except 101, C105, 191), molecular cell biology, physics (except 100), or plant & microbial biology. This requirement is listed in the freshman year curriculum, but many of the options would not be appropriate for a first year student. Complete this requirement in the semester when it is most appropriate to do so (i.e., take PHYSICS 7C after completing PHYSICS 7B). Your M.E.T. adviser can help guide your selection on this requirement. The Natural Science Elective may be fulfilled with a
score of 4 or 5 on the AP Biology exam, a score of 3, 4 or 5 on the AP Chemistry exam, a score of 5, 6 or 7 on the IB Higher Level Biology exam or the IB Higher Level Chemistry exam, or a grade of A, B or C on the A-Level Biology exam or the A-Level Chemistry exam.

ECON 1 (or Econ 2) and UGBA 107 will be accepted for the Social and Behavioral Sciences and Philosophy and Values breadth requirements, respectively, as exceptions for students in the M.E.T. Program. The Biological Science breadth requirement is waived for students in the M.E.T. Program. Some American Cultures courses will also fulfill the Arts & Literature or Historical Studies breadth requirement; use Requirements filters to search the College Requirements (p. 4) for further restrictions on breadth courses.

Econ 1 may be fulfilled with scores of 4 or 5 on both the AP Microeconomics exam and AP Macroeconomics exam. However, the Social and Behavioral Sciences Breadth requirement cannot be fulfilled with AP exam scores.

M.E.T. Special Topics courses will count as upper division business units.

Math 1B may be fulfilled with a score of 4 or 5 on the AP Calculus BC exam, a score of 5, 6 or 7 on the IB Higher Level Math exam, or a grade of A, B or C on the A-Level Math H2, H3, Pure Math or Further Math exam.

Reading & Composition part A may be fulfilled with a score of 4 or 5 on the AP English Language and Composition exam or the AP English Literature and Composition exam, or a score of 5, 6 or 7 on the IB Higher Level English Literature exam or the IB Higher Level English Language and Literature exam. A 5 on the AP English Literature and Composition exam, or a score of 5 or higher on the IB Higher Level English Language and Literature exam will fulfill Reading & Composition part A and part B.

Physics 7A may be fulfilled with a score of 5 on the AP Physics C Mechanics exam. Students may choose to take the Physics 7 series or the Physics 5 series. Students who fulfill Physics 7A with an AP exam score, transfer work, or at Berkeley may complete the physics requirement by taking either Physics 7B, or Physics 5B and 5BL. Students who take Physics 5A must take Physics 5B and 5BL to complete the physics requirement. Completion of Physics 5A and Physics 7B will not fulfill the physics requirement.

Students must complete a minimum of 20 units of upper division EECS courses. One course must provide a major design experience, and be selected from the following list: ELENG C128, 130, 140, 143, 192; COMPSI 160, 161 (if taken Spring 2019 or later), 162, 164, 169 (or 169a, W169A, W169L), 182 (or L182, W182), 184, 186 (or W186), 194-26, 285; EECS C106A, C106B, 149, 151 and 151LA (must take both), 151 and 151LB (must take both). See footnote 12 for the list of excluded courses. In addition to upper division EECS courses, the following courses can count toward the 20 units of upper division EECS: ELENG 229A, COMPSI 270, COMPSI C280, COMPSI 285, COMPSI 288, COMPSI 294-84 (Interactive Device Design). COMPSI 294-129 (Designing, Visualizing and Understanding Deep Neural Networks), INFO 213 and INFO 159. Note that no more than two graduate level courses (courses numbered 200-294) can be used to fulfill requirements for your B.S. degree. The 20 units of upper division EECS courses cannot include any course taken on a P/NP basis, COMPSI H196A, COMPSI H196B, ELENG H196A, or ELENG H196B.

Students must complete a minimum of 40 units of Engineering coursework. Included in these units are CS 61A, 61B, 61C, EE 16A, 16B, and the required 20 units of upper division EECS. Technical Electives and the 40 units of Engineering courses cannot include: any course taken on a Pass/No Pass basis; courses numbered 24, 39,

Electrical Engineering and Computer Sciences

Mission

1. Preparing graduates to pursue postgraduate education in electrical engineering, computer science, or related fields.
2. Preparing graduates for success in technical careers related to electrical and computer engineering, or computer science and engineering.
3. Preparing graduates to become leaders in fields related to electrical and computer engineering or computer science and engineering.

Learning Goals

ECE

1. An ability to apply knowledge of mathematics, science, and engineering.
2. An ability to configure, apply test conditions, and evaluate outcomes of experimental systems.
3. An ability to design systems, components, or processes that conform to given specifications and cost constraints.
4. An ability to work cooperatively, respectfully, creatively, and responsibly as a member of a team.
5. An ability to identify, formulate, and solve engineering problems.
6. An understanding of the norms of expected behavior in engineering practice and their underlying ethical foundations.
7. An ability to communicate effectively by oral, written, and graphical means.
8. An awareness of global and societal concerns and their importance in developing engineering solutions.
9. An ability to independently acquire and apply required information, and an appreciation of the associated process of life-long learning.
10. A knowledge of contemporary issues.
11. An in-depth ability to use a combination of software, instrumentation, and experimental techniques practiced in circuits, physical electronics, communication, networks and systems, hardware, programming, and computer science theory.

CSE
1. An ability to apply knowledge of computing and mathematics appropriate to the program’s student outcomes and to the discipline.
2. An ability to analyze a problem, and identify and define the computing requirements appropriate to its solution.
3. An ability to design, implement, and evaluate a computer-based system, process, component, or program to meet desired needs.
4. An ability to function effectively on teams to accomplish a common goal.
5. An understanding of professional, ethical, legal, security and social issues and responsibilities.
6. An ability to communicate effectively with a range of audiences.
7. An ability to analyze the local and global impact of computing on individuals, organizations, and society.
8. Recognition of the need for and an ability to engage in continuing professional development.
9. An ability to use current techniques, skills, and tools necessary for computing practice.

Learning Goals
1. Students will be skilled in critical thinking and decision making, as supported by the appropriate use of analytical and quantitative techniques.
2. Students will apply functional area concepts and theories appropriately.
3. Students will be effective communicators who can prepare and deliver oral and written presentations using appropriate technologies.
4. Students will be sensitive to the ethical requirements of business activities.
5. Students will tackle strategic and organizational challenges with innovative solutions.

For a visual representation of the relationship between the core curriculum and the expected outcomes, please see the Haas School of Business website (http://www.haas.berkeley.edu/Undergrad/learninggoals.html).

Major Maps help undergraduate students discover academic, co-curricular, and discovery opportunities at UC Berkeley based on intended major or field of interest. Developed by the Division of Undergraduate Education in collaboration with academic departments, these experience maps will help you:

- **Explore** your major and gain a better understanding of your field of study
- **Connect** with people and programs that inspire and sustain your creativity, drive, curiosity and success
- **Discover** opportunities for independent inquiry, enterprise, and creative expression
- **Engage** locally and globally to broaden your perspectives and change the world
- **Reflect** on your academic career and prepare for life after Berkeley

Use the major map below as a guide to planning your undergraduate journey and designing your own unique Berkeley experience.
