Electrical Engineering and Computer Sciences and Business Administration

M.E.T. at a Glance: One program, two Bachelor of Science (BS) degrees

The Electrical Engineering and Computer Sciences and Business Administration simultaneous degree is part of the Management, Entrepreneurship, & Technology Program. The M.E.T. Program aims to educate leaders with a seamless understanding of technology innovation, from idea to real-world impact.

M.E.T. students earn two Bachelor of Science degrees in one program that combines the best of the top-ranked College of Engineering and Haas School of Business. The integrated curriculum is completed in four years. Internships, career coaching, and other enrichment activities provide ample opportunity for hands-on experience with innovation and entrepreneurship. Each M.E.T. cohort is small, allowing for close mentoring and a tight-knit community.

Admission to the M.E.T. Program

The M.E.T. Program seeks inquisitive, self-motivated students with a passion for finding and solving big problems. It is highly competitive and is open to freshmen during the UC application period (November 1 - 30). Freshman admission is limited to a maximum of 50 students. Current UC Berkeley sophomores in the College of Engineering majoring in one of the M.E.T. tracks may apply to M.E.T. via the Continuing Student Admissions process.

For further information, please see the M.E.T. website (http://met.berkeley.edu).

Accreditation

All UC Berkeley programs are accredited through the Accrediting Commission for Schools, Western Association of Schools and Colleges (ACS WASC). The Undergraduate Business Degree Program is accredited by The Association to Advance Collegiate Schools of Business (AACSB).

In addition to the University, campus, and M.E.T. Program requirements, listed on the College Requirements tab, students must fulfill the below requirements.

General Guidelines

1. A minimum of 38 upper division business units are required, and a minimum of 12 upper division non-business units are required. (Upper division EECS classes will fulfill the 12 upper division non-business units.)
2. A minimum of 40 engineering units are required.¹
3. Students must complete the College Requirements (p. 4) and the Major Requirements.
4. Students must complete the degree program in eight semesters. (Summer Session is not required for degree completion in eight semesters.)
5. All Haas business courses must be taken for a letter grade, with the exception of UGBA 194 (http://guide.berkeley.edu/search/?P=UGBA%20194), UGBA 198 (http://guide.berkeley.edu/search/?P=UGBA%20198) and UGBA 199 (http://guide.berkeley.edu/search/?P=UGBA%20199) (only offered Pass/No Pass).
6. All technical courses that can be used to fulfill a requirement must be taken for a letter grade.
7. Students who receive a grade of D+ or lower in a core UGBA course must repeat the course until they achieve a grade of C- or better.
8. Students must complete their business prerequisite courses (including Reading & Composition Parts A & B) by the spring semester of their sophomore (2nd) year.
9. Two M.E.T. Special Topics courses are required. M.E.T. Special Topics courses will count as upper division business units.
10. Students in this program must adhere to all policies and procedures of the College of Engineering and the Haas School of Business.

¹The 40 units of engineering courses cannot include: any course taken on a P/NP basis; courses numbered 24, 32, 39, 84, H194, 196, H196, H196A, H196B; BIOENG 100; COMPSCI 70, 79; DESINV courses (except DESINV 15, 22, 23, 90E, 190E); ENGIN 125, 157AC, 180, 183 series, 185, 187, 195 series; INDENG 95, 185, 186, 190 series, 191, 192, 195; MECENG 190K, 191K.

The 40 units of engineering courses cannot include: any course taken on a P/NP basis; courses numbered 24, 32, 39, 84, H194, 196, H196, H196A, H196B; BIOENG 100; COMPSCI 70, 79; DESINV courses (except DESINV 15, 22, 23, 90E, 190E); ENGIN 125, 157AC, 180, 183 series, 185, 187, 195 series; INDENG 95, 185, 186, 190 series, 191, 192, 195; MECENG 190K, 191K.
Students must complete 4 units of Technical Elective(s) chosen from.

EECS Lower Division Core

- **EECS 16A** Designing Information Devices and Systems I
- **EECS 16B** Designing Information Devices and Systems II
- **COMPSCI 61A** The Structure and Interpretation of Computer Programs
- **COMPSCI 61B** Data Structures
- **or COMPSCI 61B** Structures and Programming Methodology

Technical Electives (Lower or Upper Division)

- **COMPSCI 70** Discrete Mathematics and Probability Theory

EECS Lower Division Units

58-60

Upper Division Requirements

Upper Division Electrical Engineering and Computer Sciences Requirements

Select a minimum of 20 units of upper division EECS courses.

- At least one of the courses must be a design elective. Select from the following design courses:
  - COMPSCI 160 User Interface Design and Development
  - COMPSCI 161 Computer Security
  - COMPSCI 162 Operating Systems and System Programming
  - COMPSCI 164 Programming Languages and Compilers
  - COMPSCI 169 Software Engineering
  - COMPSCI 170 Introduction to Software Engineering
  - COMPSCIE 171 Software Engineering Team Project
  - COMPSCIE 172 Software Engineering

Mathematics

- **MATH 1A** Calculus
- **MATH 1B** Calculus
- **MATH 1C** Multivariable Calculus

Technical Electives (Lower or Upper Division)

- **COMPSCI 70** Discrete Mathematics and Probability Theory

EECS Lower Division Core

- **EECS 16A** Designing Information Devices and Systems I
- **EECS 16B** Designing Information Devices and Systems II
- **COMPSCI 61A** The Structure and Interpretation of Computer Programs
- **COMPSCI 61B** Data Structures
- **or COMPSCI 61B** Structures and Programming Methodology

Upper Division Requirements

Upper Division Electrical Engineering and Computer Sciences Requirements

Select a minimum of 20 units of upper division EECS courses.

- At least one of the courses must be a design elective. Select from the following design courses:
  - COMPSCI 160 User Interface Design and Development
  - COMPSCI 161 Computer Security
  - COMPSCI 162 Operating Systems and System Programming
  - COMPSCI 164 Programming Languages and Compilers
  - COMPSCI 169 Software Engineering
  - COMPSCI 170 Introduction to Software Engineering
  - COMPSCIE 171 Software Engineering Team Project
  - COMPSCIE 172 Software Engineering

Mathematics

- **MATH 1A** Calculus
- **MATH 1B** Calculus
- **MATH 1C** Multivariable Calculus

Technical Electives (Lower or Upper Division)

- **COMPSCI 70** Discrete Mathematics and Probability Theory

EECS Lower Division Core

- **EECS 16A** Designing Information Devices and Systems I
- **EECS 16B** Designing Information Devices and Systems II
- **COMPSCI 61A** The Structure and Interpretation of Computer Programs
- **COMPSCI 61B** Data Structures
- **COMPSCI 61C** Great Ideas of Computer Architecture (Machine Structures)
- **or COMPSCI 61C** Machine Structures (Lab-Centric)

Upper Division Requirements

Upper Division Electrical Engineering and Computer Sciences Requirements

Select a minimum of 20 units of upper division EECS courses.

- At least one of the courses must be a design elective. Select from the following design courses:
  - COMPSCI 160 User Interface Design and Development
  - COMPSCI 161 Computer Security
  - COMPSCI 162 Operating Systems and System Programming
  - COMPSCI 164 Programming Languages and Compilers
  - COMPSCI 169 Software Engineering
  - COMPSCI 170 Introduction to Software Engineering
  - COMPSCIE 171 Software Engineering Team Project
  - COMPSCIE 172 Software Engineering

Mathematics

- **MATH 1A** Calculus
- **MATH 1B** Calculus

- **COMPSCI 70** Discrete Mathematics and Probability Theory

EECS Lower Division Core

- **EECS 16A** Designing Information Devices and Systems I
- **EECS 16B** Designing Information Devices and Systems II
- **COMPSCI 61A** The Structure and Interpretation of Computer Programs
- **COMPSCI 61B** Data Structures
- **COMPSCI 61C** Great Ideas of Computer Architecture (Machine Structures)
- **or COMPSCI 61C** Machine Structures (Lab-Centric)

Total Lower Division Units

58-60

1. CHEM 4A and CHEM 4B are intended for students majoring in chemistry or a closely-related field.

2. Students must complete 4 units of Technical Elective(s) chosen from any lower or upper division course in the following departments: astronomy, chemistry, data science, earth and planetary science, integrative biology, mathematics, molecular cell biology, physics, plant & microbial biology, statistics or any engineering department (including EECS). The 4 units of technical elective(s) must be in addition to the natural science elective and the 20 units of required EECS upper division technical electives. If the 4 units of technical elective(s) are from an engineering department, the units can count toward the required 40 units of engineering coursework (see footnote 1 above in General Guidelines section). The 4 units of Technical Elective(s) cannot include: any course taken on a P/NP basis; any course that counts as H/SS; courses numbered 24, 32 (except MCELLB 32 and MCELLB 32L), 39, 84, H194, 196, H196A, H196B, BIOENG 100; CHEM 100, 149, 192; COMPSCI 61x, C79; DESINV courses (except DESINV 15, 22, 23, 90E, 190E); ENGIN 125, 157AC, 180, 183 series, 185, 187, 195 series; EPS C100; INDENG 95, 185, 186, 190 series, 191, 192, 195; INTEGBI 35AC, 88, 101, C105, 191; MATH 55, C103, 151, 152, 153, 160; MECENG 190K, 191K; PHYSICS 100.
Business Administration courses.

to complete a minimum of 38 units of upper division

Select a minimum of 4-6 units of upper division UGBA elective

Upper Division Business Administration Elective Courses

M.E.T. Special Topics

Two courses are required.  

Upper Division Business Administration Elective Courses

Select a minimum of 4-6 units of upper division UGBA elective courses in order to complete a minimum of 38 units of upper division Business Administration courses.

UGBA 100  Business Communication 2
UGBA 101A  Microeconomic Analysis for Business Decisions 3
UGBA 101B  Macroeconomic Analysis for Business Decisions 3
UGBA 102A  Financial Accounting 3
UGBA 102B  Managerial Accounting 3
UGBA 103  Introduction to Finance 4
UGBA 104  Introduction to Business Analytics 3
UGBA 105  Leading People 3
UGBA 106  Marketing 3
UGBA 107  The Social, Political, and Ethical Environment of Business 3

M.E.T. Special Topics

Two courses are required. 1

Upper Division Business Administration Elective Courses

Select a minimum of 4-6 units of upper division UGBA elective courses in order to complete a minimum of 38 units of upper division Business Administration courses.

UGBA 117  Special Topics in Economic Analysis and Policy 1-4
UGBA 118  International Trade 3
UGBA 120AA  Intermediate Financial Accounting 1 4
UGBA 120AB  Intermediate Financial Accounting 2 4
UGBA 120B  Advanced Financial Accounting 4
UGBA 121  Federal Income Tax Accounting 4
UGBA 122  Financial Information Analysis 4
UGBA 123  Operating and Financial Reporting Issues in the Financial Services Industry 3
UGBA 125  Ethics in Accounting 3
UGBA 126  Auditing 4
UGBA 127  Special Topics in Accounting 1-4
UGBA 128  Strategic Cost Management 3
UGBA 131  Corporate Finance and Financial Statement Analysis 3
UGBA 132  Financial Institutions and Markets 3
UGBA 133  Investments 3
UGBA 136F  Behavioral Finance 3
UGBA 137  Special Topics in Finance 1-4
UGBA 141  Production and Operations Management 2-3
UGBA 143  Game Theory and Business Decisions 3
UGBA 147  Special Topics in Operations and Information Technology Management 1-4
UGBA 151  Management of Human Resources 3
UGBA 152  Negotiation and Conflict Resolution 3
UGBA 154  Power and Politics in Organizations 2,3
UGBA 155  Leadership 3
UGBA 157  Special Topics in the Management of Organizations 1-4
UGBA 160  Customer Insights 3
UGBA 161  Market Research: Tools and Techniques for Data Collection and Analysis 3
UGBA 162  Brand Management and Strategy 3

UGBA 162A  Product Branding and Branded Entertainment 2
UGBA 165  Advertising Strategy 3
UGBA 167  Special Topics in Marketing 1-4
UGBA 169  Pricing 3
UGBA 172  History of American Business 3
UGBA 173  Competitive Strategy 3
UGBA 174  Leading Strategy Implementation 3
UGBA 175  Legal Aspects of Management 3
UGBA 176  Innovations in Communications and Public Relations 2
UGBA 177  Special Topics in Business and Public Policy 1-4
UGBA 178  Introduction to International Business 3
UGBA 179  International Consulting for Small and Medium-Sized Enterprises 3
UGBA 180  Introduction to Real Estate and Urban Land Economics 3
UGBA 183  Introduction to Real Estate Finance 3
UGBA 184  Urban and Real Estate Economics 3
UGBA 187  Special Topics in Real Estate Economics and Finance 1-4
UGBA 190S  Strategy for the Information Technology Firm 3
UGBA 190T  Special Topics in Innovation and Design 1-4
UGBA 191C  Communication for Leaders 2
UGBA 191I  Improvisational Leadership 3
UGBA 191P  Leadership and Personal Development 3
UGBA 192A  Leading Nonprofit and Social Enterprises 3
UGBA 192B  Strategic Philanthropy 2
UGBA 192L  Applied Impact Evaluation 2
UGBA 192N  Topics in Social Sector Leadership 1-5
UGBA 192P  Sustainable Business Consulting Projects 3
UGBA 192T  Topics in Responsible Business 1-4
UGBA 193B  Energy & Civilization 4
UGBA 193C  Practical Training 0.0
UGBA 193I  Business Abroad 1-4
UGBA 194  Undergraduate Colloquium on Business Topics 1
UGBA 195A  Entrepreneurship 3
UGBA 195P  Entrepreneurship: How to Successfully start a New Business 3
UGBA 195S  Entrepreneurship To Address Global Poverty 3
UGBA 195T  Topics in Entrepreneurship 1-3
UGBA 196  Special Topics in Business Administration 1-4
UGBA 198  Directed Study 1-4
UGBA 199  Supervised Independent Study and Research 1-4

Total Upper Division Units 57-61

1 M.E.T. Special Topics courses will count as upper division business units.
2 COMPSCI 161 can fulfill the EECS Design requirement if taken Spring 2019 or later.
3 In addition to upper division EECS courses, the following courses can count toward the 20 units of upper division EECS: EL ENG 229A,INFO 159, INFO 213, COMPSCI 270, COMPSCI C280, COMPSCI 285, COMPSCI 288, COMPSCI 294-84 (Interactive Device Design), and COMPSCI 294-129 (Designing, Visualizing and Understanding Deep Neural Networks). Note that no more than two
Breadth Requirement

Two Reading and Composition (R&C) courses must be taken for a letter grade (C- or better required), and must be completed by no later than the end of the sophomore year (4th semester of enrollment). The first half of R&C, the “A” course, must be completed by the end of the freshman year; the second half of R&C, the “B” course, by no later than the end of the sophomore year or a student’s registration will be blocked. View a detailed list of courses (http://guide.berkeley.edu/undergraduate/colleges-schools/engineering/reading-composition-requirement/) that fulfill Reading and Composition requirements.

Breadth Requirement

The undergraduate breadth requirement provides Berkeley students with a rich and varied educational experience outside of their major program. As the foundation of a liberal arts education, breadth courses give students a view into the intellectual life of the University while introducing them to a multitude of perspectives and approaches to research and scholarship. Engaging students in new disciplines and with peers from other majors, the breadth experience strengthens interdisciplinary connections and context that prepare Berkeley graduates to understand and solve the complex issues of their day.

Students in the M.E.T. Program must successfully complete six breadth courses, one in each of the following categories:

- Arts and Literature
- Historical Studies
- International Studies
- Philosophy and Values (will be satisfied with UGBA 107)
- Physical Science (will be satisfied with Physics 7B)
- Social and Behavioral Sciences (will be satisfied with Econ 1)

- With the exception of UGBA 107, UGBA courses cannot be used to fulfill breadth requirements.
- With the exception of Econ 1 or Econ 2, microeconomics and macroeconomics at any level (Econ 3, Econ 100A/B, Econ 101A/B, IAS 106/107) cannot be used to fulfill breadth requirements.
- No more than two courses from any one department may be used to satisfy the breadth requirement (L&S Discovery courses (http://lsdiscovery.berkeley.edu) are exempt).
- Advanced Placement, International Baccalaureate and A-Level exams cannot be used to fulfill the breadth requirement.
- Courses numbered 97, 98, 99, or above 196 may not be used to complete any breadth requirement.
- Breadth courses must be a minimum of 3 semester units.
- Reading & Composition courses cannot be used to fulfill breadth requirements.
A maximum of four units of Physical Education from any school attended will count towards the 120 units.

Passed grades may account for no more than one third of the total units completed at UC Berkeley, Fall Program for Freshmen (FPF), UC Education Abroad Program (UCEAP), or UC Berkeley Washington Program (UCDC) toward the 120 overall minimum unit requirement. Transfer credit is not factored into the limit. This includes transfer units from outside of the UC system, other UC campuses, credit-bearing exams, as well as UC Berkeley Extension XB units.

University of California Requirements

Entry Level Writing (http://guide.berkeley.edu/undergraduate/education/earningyourdegreetext)

All students who will enter the University of California as freshmen must demonstrate their command of the English language by satisfying the Entry Level Writing Requirement (ELWR). The UC Entry Level Writing Requirement website (https://admission.universityofcalifornia.edu/elwr/requirements/test-scores-grades.html) provides information on how to satisfy the requirement

American History and American Institutions (http://guide.berkeley.edu/undergraduate/education/earningyourdegreetext)

The American History and Institutions (AH&I) requirements are based on the principle that a US resident graduated from an American university should have an understanding of the history and governmental institutions of the United States.

Campus Requirement

American Cultures (http://guide.berkeley.edu/undergraduate/education/earningyourdegreetext)

The American Cultures requirement is a Berkeley campus requirement, one that all undergraduate students at Berkeley need to pass in order to graduate. You satisfy the requirement by passing, with a grade not lower than C- or P, an American Cultures course. You may take an American Cultures course any time during your undergraduate career at Berkeley. The requirement was instituted in 1991 to introduce students to the diverse cultures of the United States through a comparative framework. Courses are offered in more than fifty departments in many different disciplines at both the lower and upper division level.

Total Units: 141-143

1 Math 1A may be fulfilled with a score of 3, 4 or 5 on the AP Calculus AB or BC exam, a score of 5, 6 or 7 on the IB Higher Level Math exam, or a grade of A, B or C on the A-Level Math H1, H2, H3, Pure Math or Further Math exam.

2 Students must complete one course from the following list: ASTRON 7A, ASTRON 7B, BIOLOGY 1A and BIOLOGY 1AL (must take both), BIOLOGY 1B, CHEM 1A and CHEM 1AL (must take both), CHEM 1B, CHEM 3A and CHEM 3AL (must take both), CHEM 3B and CHEM 3BL (must take both), CHEM 4A, CHEM 4B, MCELLBI 32 and MCELLBI 32L (must take both), PHYSICS 7C, or any upper division letter graded course of 3 units or more in astronomy, chemistry (except 100, 149, 192), earth and planetary science (except C100), integrative biology (except 101, 105, 191), molecular cell biology, physics (except 100), or plant & microbial biology. This requirement is listed in the freshman year curriculum, but many of the options would not be appropriate for a first year student. Complete this requirement in the semester when it is most appropriate to do so (i.e., take PHYSICS 7C after completing PHYSICS 7B). Your M.E.T. adviser can help guide your selection on this requirement. The Natural Science Elective may be fulfilled with a score of 4 or 5 on the
Students must complete a minimum of 20 units of upper division M.E.T. Special Topics courses will count as upper division business, Math 1B may be fulfilled with a score of 4 or 5 on the AP Calculus BC, ECON 1 (or Econ 2) and UGBA 107 will be accepted for the Social, Econ 1 may be fulfilled with scores of 4 or 5 on both the AP Physics C, Physics 7A may be fulfilled with a score of 5 on the AP Physics C, Reading & Composition part A may be fulfilled with a score of 4 or 5 on the AP Reading & Composition part A, and part B, Physics 7A may be fulfilled with a score of 5 on the AP Physics C, Reading & Composition part A may be fulfilled with a score of 4 or 5 on the AP English Literature and Composition exam, or a score of 5, 6 or 7 on the IB Higher Level English Literature exam or the IB Higher Level English Language and Literature exam. A 5 on the AP English Literature and Composition exam, or a score of 5 or higher on the IB Higher Level English Language and Literature exam will fulfill Reading & Composition part A and part B, Physics 7A may be fulfilled with a score of 5 on the AP Physics Mechanics exam. Students may choose to take the Physics 7 series or the Physics 5 series. Students who fulfill Physics 7A with an AP exam score, transfer work, or at Berkeley may complete the physics requirement by taking either Physics 7B, or Physics 5B and 5BL. Students who take Physics 5A must take Physics 5B and 5BL to complete the physics requirement. Completion of Physics 5A and Physics 7B will not fulfill the physics requirement, Students must complete a minimum of 20 units of upper division EECS courses. One course must provide a major design experience, and be selected from the following list: ELENG C128, 130, 140, 143, 192; COMPSICI 160, 161 (if taken Spring 2019 or later), 162, 164, 169 (or 169A, W169A, 169L), 182 (or L182, W182), 184, 186 (or W186), 194-26, 285; EECS C106A, C106B, 149, 151 and 151LA (must take both), 151 and 151LB (must take both). See footnote 12 for the list of excluded courses. In addition to upper division EECS courses, the following courses can count toward the 20 units of upper division EECS: ELENG 229A, COMPSCI 270, COMPSCI C280, COMPSCI 285, COMPSCI 294-84 (Interactive Device Design), COMPSCI 294-129 (Designing, Visualizing and Understanding Deep Neural Networks), INFO 213 and INFO 159. Note that no more than two graduate level courses (courses numbered 200-294) can be used to fulfill requirements for your B.S. degree. The 20 units of upper division EECS courses cannot include any course taken on a P/NP basis, COMPSCI H196A, COMPSCI H196B, ELENG H196A, or ELENG H196B, Students must complete a minimum of 40 units of Engineering coursework. Included in these units are CS 61A, 61B, 61C, EE 16A, 16B, and the required 20 units of upper division EECS. Technical Electives and the 40 units of Engineering courses cannot include: any course taken on a Pass/No Pass basis; courses numbered 24, 39, 84, H194, 196, H196A, H196B; BIO ENG 100; COMP SCI 70, C79; DES INV courses (except DES INV 15, 22, 90E, 190E); ENGIN 125, 157AC, 180, 185, 187; IND ENG 95, 172, 185, 186, 190 series, 191, 192, 195; MEC ENG 191AC, 190K, and 191K, Students must complete a minimum of 38 units of upper division business coursework. See UGBA Elective course list under “Major Requirements” tab. Students must complete 4 units of Technical Elective(s) chosen from any lower or upper division course in the following departments: astronomy, chemistry, data science, earth and planetary science, integrative biology, mathematics, molecular cell biology, physics, plant & microbial biology, statistics or any engineering department (including EECS). The 4 units of technical elective(s) must be in addition to the natural science elective and the 20 units of required EECS upper division technical electives. If the 4 units of technical elective(s) are from an engineering department, the units can count toward the required 40 units of engineering coursework (see footnote 10). The 4 units of Technical Elective(s) cannot include: any course taken on a P/NP basis; any course that counts as M.E.T. Breadth; courses numbered 24, 32 (except MCELLBI 32 and MCELLBI 32L), 39, 84, H194, 196, H196A, H196B; BIOENG 100; CHEM 100, 149, 192; COMPSCI 10, (if taken after COMPSCI 61x), C79; DESINV courses (except DESINV 15, 22, 23, 90E, 190E); ENGIN 125, 157AC, 180, 183 series, 185, 187, 195 series; EPS C100; INDENG 95, 185, 186, 190 series, 191, 192, 195; INTEGBI 35AC, 88, 101, C105, 191; MATH 55, C103, 151, 152, 153, 160; MECENG 190K, 191K; PHYSICS 100. Students can also take STAT C8 or COMPSCI C8 plus a connector course (STAT 88 OR UGBA 88) to fulfill the statistics prerequisite. Students taking Data C100 must also take a connector course (STAT 88 OR UGBA 88). Both courses must be taken to satisfy the requirement, although they do not need to be taken in the same semester. Note: STAT courses will also fulfill the Technical Elective requirement. To fulfill the Ethics Requirement take one course from the following: COMPSCI 195; HISTORY C184D, ISF 100D; ISF C100G, MEDIAST 104D, NWMEDIA 151AC, STS C104D. Electrical Engineering and Computer Sciences

Mission
1. Preparing graduates to pursue postgraduate education in electrical engineering, computer science, or related fields.
2. Preparing graduates for success in technical careers related to electrical and computer engineering, or computer science and engineering.
3. Preparing graduates to become leaders in fields related to electrical and computer engineering or computer science and engineering.

Learning Goals

ECE
1. An ability to apply knowledge of mathematics, science, and engineering.
2. An ability to configure, apply test conditions, and evaluate outcomes of experimental systems.
3. An ability to design systems, components, or processes that conform to given specifications and cost constraints.
4. An ability to work cooperatively, respectfully, creatively, and responsibly as a member of a team.
5. An ability to identify, formulate, and solve engineering problems.
6. An understanding of the norms of expected behavior in engineering practice and their underlying ethical foundations.
7. An ability to communicate effectively by oral, written, and graphical means.
8. An awareness of global and societal concerns and their importance in developing engineering solutions.
9. An ability to independently acquire and apply required information, and an appreciation of the associated process of life-long learning.
10. A knowledge of contemporary issues.
11. An in-depth ability to use a combination of software, instrumentation, and experimental techniques practiced in circuits, physical electronics, communication, networks and systems, hardware, programming, and computer science theory.

**Learning Goals**

1. Students will be skilled in critical thinking and decision making, as supported by the appropriate use of analytical and quantitative techniques.
2. Students will apply functional area concepts and theories appropriately.
3. Students will be effective communicators who can prepare and deliver oral and written presentations using appropriate technologies.
4. Students will be sensitive to the ethical requirements of business activities.
5. Students will tackle strategic and organizational challenges with innovative solutions.

For a visual representation of the relationship between the core curriculum and the expected outcomes, please see the Haas School of Business website (http://www.haas.berkeley.edu/Undergrad/learninggoals.html).

Major Maps help undergraduate students discover academic, co-curricular, and discovery opportunities at UC Berkeley based on intended major or field of interest. Developed by the Division of Undergraduate Education in collaboration with academic departments, these experience maps will help you:

- **Explore** your major and gain a better understanding of your field of study
- **Connect** with people and programs that inspire and sustain your creativity, drive, curiosity and success
- **Discover** opportunities for independent inquiry, enterprise, and creative expression
- **Engage** locally and globally to broaden your perspectives and change the world
- **Reflect** on your academic career and prepare for life after Berkeley

Use the major map below as a guide to planning your undergraduate journey and designing your own unique Berkeley experience.
