Landscape Architecture

Bachelor of Arts (BA)

Berkeley's undergraduate curriculum in Landscape Architecture centers upon creative and ecologically-tuned design and introduces students to the breadth of knowledge common to the profession. This program leads to the Bachelor of Arts (BA) degree in Landscape Architecture and provides the necessary education for students interested in entry-level professional practice.

At the heart of the undergraduate curriculum are three core studios: LD ARCH 101, LD ARCH 102, and LD ARCH 103. The core studios ensure that undergraduate students benefit from the department's full range of interests and expertise.

Licensure and Accreditation

The BA degree is certified by the State of California and counts as part of the education/experience requirement of the Uniform National Examination (U.N.E.) as well as for the Landscape Architects Registration Examination (L.A.R.E.) for licensure. Please visit the Landscape Architects Technical Committee (http://www.latc.ca.gov/) and the Council of Landscape Architectural Registration Boards (https://www.clarb.org/) for more information about licensure in California.

Admission to the Major

Students must declare one of the CED majors at the time of application to the college; however, current UC Berkeley students may apply to change colleges into CED. Transfer applicants must complete two years worth of lower division coursework to be considered for admission to CED. For information regarding admission to the major for first-year, transfer students, and current students who wish to change majors or colleges, please see the College of Environmental Design (CED) page (https://guide.berkeley.edu/undergraduate/colleges-schools/environmental-design/#choosingamajortext) in this Guide or the CED website (http://ced.berkeley.edu/admissions/undergraduate/).

History and Theory of Landscape Architecture and Environmental Design Minor Program

This program introduces students to conceptual issues of landscape architecture. A letter grade of C- or higher in ENV DES 1, LD ARCH 1, or LD ARCH 12 is required to declare the minor. To declare, students must submit the CED Request to Declare Minor, available on the CED website (https://ced.berkeley.edu/advising/undergraduate-advising/undergraduate-students/major-minor-requirements/). Open to all majors at UC Berkeley except Landscape Architecture.

Other Minors Offered by the Department of Landscape Architecture and Environmental Planning

The Department sponsors a minor in Sustainable Design, in conjunction with the Department of Architecture. For further information regarding this minor program, please see the program's page in this Guide (https://guide.berkeley.edu/undergraduate/degree-programs/sustainable-design/).

In addition to the University, campus, and college requirements, listed on the College Requirements tab, students must fulfill the below requirements specific to their major program.

The Landscape Architecture major requirements differ by students' admit year to UC Berkeley. The major requirements listed below are the most recent. In the Berkeley Academic Guide Archive (http://guide.berkeley.edu/archive/), refer to the year you were admitted to UC Berkeley for your major requirements.

General Guidelines

1. All lower division courses taken in fulfillment of major requirements must be completed with a grade of C- or better.
2. Courses taken to fulfill lower division major requirements may also be used to fulfill Seven-Course Breadth.
3. A minimum overall GPA of 2.0 for all courses taken at UC Berkeley is required for graduation.
4. Upper division major courses used to fulfill the major requirements must be completed with a letter grade.
5. A minimum grade point average (GPA) of 2.0 must be maintained in upper division major courses used to fulfill the major requirements.
6. Courses used to fulfill an upper division major requirement may not simultaneously fulfill a breadth requirement.
7. Up to two upper division courses taken at another institution, including an approved study abroad program, may be applied to the major requirements below (if transferable and approved in advance).

For information regarding residence and unit requirements, please see the College Requirements tab.

Lower Division Major Requirements

Three courses

LD ARCH 1	Drawing a Green Future: Fundamentals of Visual Representation and Creativity	4
Physical Science: Select one course from the following [1]		
CHEM 1A	General Chemistry [3]	
EPS 3	The Water Planet [3]	
EPS 7	Introduction to Climate Change [3]	
EPS 10	Earth's Greatest Volcanic Eruptions [3]	
EPS 20	Earthquakes in Your Backyard [3]	
EPS C20	Earthquakes in Your Backyard [3]	
EPS 50	The Planet Earth [4]	
EPS 80	Environmental Earth Sciences [3]	
EPS 81	Extreme Weather and Climate [3]	
EPS 82	Oceans [3] (This course can be used for either Phys Sci or Bio Sci but not both.)	
EPS N82	Introduction to Oceans [3] (This course can be used for either Phys Sci or Bio Sci but not both.)	
ESPM 15	Introduction to Environmental Sciences [3] (This course can be used for either Phys Sci or Bio Sci but not both.)	
GEOG 40	Introduction to Earth System Science [4] (This course can be used for either Phys Sci or Bio Sci but not both.)	
L & S C70Y	Earthquakes in Your Backyard [3]	
PHYSICS 7A	Physics for Scientists and Engineers [4]	

PHYSICS 8A	Introductory Physics [4]	
PHYSICS 10	Descriptive Introduction to Physics [3]	
PHYSICS C10	Descriptive Introduction to Physics [3] (Also listed as L & S C70V)	

Biological Science: Select one course from the following (Note: courses from the above PS breadth list that can be used for BS breadth instead include EPS 82, EPS N82, ESPM 15, and GEOG 40): [2]

ANTHRO 1	Introduction to Biological Anthropology [4]	
BIOLOGY 1B	General Biology Lecture and Laboratory [4]	
ESPM 2	The Biosphere [3]	
ESPM 6	Environmental Biology [3]	
ESPM C10	Environmental Issues [4] (Also listed as L & S C30V)	
ESPM 40	Insects and Human Society [3]	
ESPM 42	Natural History of Insects [3]	
ESPM 105A	Sierra Nevada Ecology [4]	
INTEGBI C32	Course Not Available [3] (Also listed as L & S C30Z)	
INTEGBI 42	Primate Biology [3]	
LD ARCH 12	Environmental Science for Sustainable Development [4]	
NUSCTX 11	Introduction to Toxicology [3]	
PLANTBI 40	The (Secret) Life of Plants [3]	

Upper Division Major Requirements

Eleven courses.

LD ARCH 101	Fundamentals of Landscape Design	5
LD ARCH 102	Case Studies in Landscape Design	5
LD ARCH 103	Energy, Fantasy, and Form	5
LD ARCH C110A	Ecological Analysis	4
LD ARCH 112	Landscape Plants: Identification and Use	4
LD ARCH 120	Topographic Form and Design Technology	3
LD ARCH 121	Design in Detail: Introduction to Landscape Materials and Construction	4
LD ARCH 133	Drawn from the Field (Formerly 134A) [3]	3
LD ARCH 134B	Drawing Workshop II	3
LD ARCH 135	Sacred Landscapes	3
LD ARCH 170	History and Literature of Landscape Architecture	3

[1] This course simultaneously satisfies the Physical Science breadth requirement (see the College Requirements tab).

[2] This course simultaneously satisfies the Biological Science breadth requirement (see the College Requirements tab).

[3] LD ARCH 133 can be waived for students who complete LD ARCH 1 at UC Berkeley

Students who have a strong interest in an area of study outside their major often decide to complete a minor program.

General Guidelines

1. All minors must be declared no later than one semester before a student's Expected Graduation Term (EGT).
2. A letter grade of C- or higher in ENV DES 1, LD ARCH 1, or LD ARCH 12 is required to declare the minor. To declare, students must submit the CED Minor Declaration Form (https://ced.berkeley.edu/advising/undergraduate-advising/undergraduate-students/major-minor-requirements/), available on the CED website.
   a. DEADLINE TO SUBMIT FORM: Prior to the start of a student's final semester.
3. Each course used to fulfill minor requirements must be completed with a letter grade of C- or above.
4. Students must earn a 2.0 GPA in the upper division requirements for the minor.
5. Any course used in fulfillment of minor requirements may also be used to fulfill major and upper division CED non-major requirements.
6. Courses used to fulfill a breadth requirement may also be used to satisfy minor requirements.
7. Students may apply the non-CED version of a CED cross-listed course towards the minor.
8. Students may use up to two courses taken abroad to fulfill upper division minor requirements, with faculty approval of the individual courses.

History and Theory of Landscape Architecture and Environmental Planning Minor Requirements

Lower Division (Choose one from list)

ENV DES 1	Introduction to Environmental Design	3
LD ARCH 1	Drawing a Green Future: Fundamentals of Visual Representation and Creativity	4
LD ARCH 12	Environmental Science for Sustainable Development	4

Upper Division (Choose five from list)

LD ARCH C110A	Ecological Analysis (formerly LD ARCH 110)	4
LD ARCH 111	Plants in Design	3
LD ARCH 119	Flood Risk Management	3
LD ARCH 122	Hydrology for Planners	4
LD ARCH 130	Sustainable Landscapes and Cities	4
LD ARCH 140	Social and Psychological Factors in Open Space Design	3
LD ARCH 154	Special Topics in Landscape Architecture and Environmental Planning (Must be taken for 3 units)	3
LD ARCH 170	History and Literature of Landscape Architecture	3
LD ARCH/ AMERSTD C171	The American Designed Landscape Since 1850	3
LD ARCH C177	GIS and Environmental Spatial Data Analysis	4
LD ARCH C188	Geographic Information Science	4

Summary of College and University Requirements

- Entry Level Writing
- American History and Institutions
- American Cultures
- Reading and Composition
- Seven Course Breadth
- Lower Division Environmental Design (2 courses)
- Upper Division Environmental Design (3 courses)

University of California Requirements

Entry Level Writing (https://guide.berkeley.edu/undergraduate/colleges-schools/environmental-design/entry-level-writing-requirement/)

All students who will enter the University of California as first-year (non-transfer) students must demonstrate their command of the English language by satisfying the Entry Level Writing Requirement. satisfaction of this requirement is also a prerequisite to enrollment in all reading and composition courses at UC Berkeley.

American History and American Institutions (https://guide.berkeley.edu/undergraduate/colleges-schools/environmental-design/american-history-american-institutions-requirements/)

The American History and Institutions requirements are based on the principle that a U.S. resident graduated from an American university should have an understanding of the history and governmental institutions of the United States.

Campus Requirement

American Cultures (https://guide.berkeley.edu/undergraduate/colleges-schools/environmental-design/american-cultures-requirement/)

American Cultures (AC) is the one requirement that all undergraduate students at UC Berkeley need to take and pass in order to graduate. The requirement offers an exciting intellectual environment centered on the study of race, ethnicity and culture of the United States. AC courses offer students opportunities to be part of research-led, highly accomplished teaching environments, grappling with the complexity of American Culture.

College Requirements

Reading and Composition (https://guide.berkeley.edu/undergraduate/colleges-schools/environmental-design/reading-composition-requirement/)

In order to provide a solid foundation in reading, writing, and critical thinking, the College requires two semesters of lower division work in composition. Students must complete a first-level reading and composition course by the end of their second semester and a second-level course by the end of their fourth semester.

Seven Course Breadth

Please see College of Letters & Science Seven-Course Breadth Requirement (http://guide.berkeley.edu/undergraduate/colleges-schools/letters-science/#breadthrequirementstextcontainer) for detailed instructions on satisfying these requirements. Guidelines include the following:

1. Up to two CED courses or courses cross-listed with CED may be used to complete Seven-Course Breadth (students admitted to UCB Fall 2013 and later only).
2. Only lower division ENV DES courses (ENV DES 1, ENV DES 5) and lower division major requirements may simultaneously satisfy Seven-Course Breadth. A course used to satisfy either an upper division major requirement or the upper division CED outside of major department requirement may not also satisfy Seven Course Breadth. Upper division CED courses that are not satisfying another upper division requirement may satisfy Seven-Course Breadth.

3. No more than two courses from any one academic department may be used to satisfy breadth requirements.
4. A Seven-Course Breadth class that is also being used to complete another CED requirement must be completed with a letter grade of C- or better.
5. Only one of the remaining Seven-Course Breadth may be taken on a Passed/Not Passed basis.
6. The International Studies breadth requirement may be satisfied by participation in the UC Education Abroad Program or a recognized equivalent program.
7. CED students may apply high school exam credit (Advanced Placement, International Baccalaureate, A-Level Exam) towards many of the above requirements. See the CED website section on High School Exam Credit for more information: ced.berkeley.edu/advising/forms-documents (https://ced.berkeley.edu/advising/forms-documents/)

Lower Division Major Requirements that May be Used to Simultaneously satisfy Seven Course Breadth Requirement

ARCHITECTURE MAJORS

Physical Sciences

PHYSICS 7A	Physics for Scientists and Engineers [4]
PHYSICS 8A	Introductory Physics [4]

LANDSCAPE ARCHITECTURE MAJORS

Biological Sciences

Approved biological science courses (see major handbook) can also be used to satisfy biological science breadth requirements. Consult a CED advisor for more information.

Physical Sciences

Approved physical science courses (see major handbook) can also be used to satisfy physical science breadth requirements. Consult a CED advisor for more information.

SUSTAINABLE ENVIRONMENTAL DESIGN MAJORS

Biological Sciences

LD ARCH 12	Environmental Science for Sustainable Development [4]

Physical Sciences

PHYSICS 7A	Physics for Scientists and Engineers [4]
PHYSICS 8A	Introductory Physics [4]

Social & Behavioral Sciences

ECON C3	Introduction to Environmental Economics and Policy [4]
ENVECON C1	Introduction to Environmental Economics and Policy [4]
(ECON 1 or 2: permission needed from SED Advisor)	

URBAN STUDIES MAJORS

Social & Behavioral Sciences

ECON 1	Introduction to Economics [4]
ECON 2	Introduction to Economics--Lecture Format [4]
ECON C3	Introduction to Environmental Economics and Policy [4]

| ENVECON C1 | Introduction to Environmental Economics and Policy [4] | |

Urban Studies Lower Division Major Electives

Lower Divison Major Electives (see major handbook) can also be used to satisfy breadth requirements. Consult a CED advisor for more information.

LOWER DIVISION ENVIRONMENTAL DESIGN (TWO COURSES REQUIRED)

| ENV DES 1 | Introduction to Environmental Design | 3 |
| ENV DES 5 | Cities and Sites [*] | 4 |

* ENV DES 5 is a requirement for all students admitted to UC Berkeley as first-year (non-transfer), including students admitted to other colleges at UC Berkeley then entered CED through the Change of College process. Transfer students are exempt from this requirement.

Guidelines for lower division Environmental Design courses:

- Must be completed with a letter grade of C- or better.
- Any of the courses used to satisfy this requirement may simultaneously satisfy the Seven Course Breadth Requirement. However, no more than two CED courses (or courses cross-listed with CED courses) may be used to complete Seven Course Breadth.

Upper Division Environmental Design (Three Courses Required)

1. Three upper division CED courses from departments outside the major (minimum of 9 units).
2. Must be completed with a letter grade of C- or better.
3. Each of the three courses must be at least 2 units and must be within the 100-299 course range (excluding 197, 198, and 199).
4. Depending on the major, this requirement may be satisfied with courses in Architecture, Environmental Design, Visual Studies, Landscape Architecture, and City and Regional Planning.
5. A course used to satisfy this requirement may not also be used to satisfy Seven Course Breadth or major requirements.

High School Exam Credit

CED students may apply high school exam credit (Advanced Placement, International Baccalaureate, A-Level Exam) towards many College and Major Requirements. Please see the High School Exam Credit section on the CED website (https://ced.berkeley.edu/advising/forms-documents/) for more information.

Semester Limit

Students admitted as first-year (non-transfer) students must graduate within eight fall/spring semesters at UC Berkeley. Students admitted as transfer students must graduate within four fall/spring semesters at UC Berkeley. EAP and UCDC count towards this semester limit; summer session, UC Extension, and study abroad through non-UC programs do not. Students approved for simultaneous degrees in two colleges may be granted an additional semester. CED does not limit the number of total units a student can accrue.

Grade Requirements

- A 2.0 UC GPA is required for graduation.
- A 2.0 GPA within the major is required at time of graduation.

Graduating With Honors

To graduate with distinction, students must meet the grade point average (GPA) requirement and complete at least 50 units in residence at Berkeley (this may include UCB Extension XB units and up to 20 units from UCDC or EAP), of which 43 units must be letter-graded (not including physical education activities courses). *Transfer students must make sure they complete 50 units at Berkeley to qualify for honors.*

Students' GPA in all letter-graded courses taken at Berkeley must be equal to or higher than the GPA established for honors in the year in which they graduate. These GPA cut-offs change slightly each year and are posted on the CED website.

Unit Requirements

Students must complete at least 120 semester units of courses subject to certain guidelines:

- A maximum of 16 units of Special Studies coursework (courses numbered 97, 98, 99, 197, 198, or 199) is allowed towards the 120 units; a maximum of four is allowed in a given semester; only upper division students (60 or more units completed) may enroll in 197, 198, or 199 coursework.
- A maximum of 4 units of Physical Education from any school attended will count towards the 120 units.
- Students may receive unit credit for courses graded P (including P/NP units taken through EAP) up to a limit of one-third of the total units taken and passed on the Berkeley campus at the time of graduation.
- No more than 60 units from a single department can be used towards the 120 minimum.

Semester Unit Minimum

All CED students must enroll in at least 12 units each fall and spring semester. Students entering UC Berkeley as first-year (non-transfer) students with no prior units need to complete 15 units per semester to graduate in four years.

Semester Unit Maximum

To request permission to take more than 20.5 units in a semester, please see the major advisor.

Senior Residence Requirement

After reaching senior status (90 semester units earned), students must be registered in the College of Environmental Design and must complete at least 24 of the remaining 30 units in at least two semesters in residence at UC Berkeley as CED students. To count as residence, a semester must consist of at least six passed units.

Students may use Berkeley Summer Sessions to satisfy one semester of the Senior Residence Requirement, provided that six units of coursework are completed. Units completed through UC Berkeley "W" web-based courses do apply towards Senior Residence.

Excluded from Senior Residence: Inter-campus Visitor Program, Education Abroad Program (UCEAP), UC Berkeley Washington Program (UCDC), Berkeley Summer Sessions completed abroad, UC Berkeley Extension units (X and XB), and non-UC Berkeley online classes.

Modified Senior Residence Requirement

Participants in the UC Berkeley-Washington Program (UCDC); a fall, spring or summer UC Education Abroad Program (UCEAP); Berkeley Summer Abroad; or the Berkeley Global Internship program may meet

the Modified Senior Residence Requirement by completing 24 of their final 60 semester units(excluding EAP or UC Extension) in residence. Note that these programs must consist of at least six passed units to meet the requirement. At least 12 of the 24 units must be completed after senior status (90 units) is reached.

Most students automatically satisfy the residence requirement by attending classes here for four years (two years for transfer students). In general, there is no need to be concerned about this requirement, unless students go abroad for a semester or year or want to take courses at another institution or through University Extension during their senior year. In these cases, students should make an appointment to see an advisor to determine how they can meet the Senior Residence Requirement.

Fulfilling Requirements with Transfer Coursework

Students may use transfer work, including courses taken via Study Abroad, to fulfill CED requirements, within the following limits (please consult your major advisor for more information):

- Upper Division Major Requirements: Up to two courses taken elsewhere may be applied, if deemed transferable by the UC Berkeley Central Evaluation Unit (https://ceu.berkeley.edu/) and approved by the faculty advisor for your major.
- Upper Division CED Outside the Major: Up to two courses taken elsewhere may be applied, if deemed transferable by the UC Berkeley Central Evaluation Unit (https://ceu.berkeley.edu/) and approved by the college.
- Upper Division CED Minor Requirements: Up to two courses taken elsewhere may be applied, if deemed transferable by the UC Berkeley Central Evaluation Unit (https://ceu.berkeley.edu/) and approved by the faculty advisor for your minor.
- CED Breadth Requirements: All requirements can be potentially fulfilled by courses taken elsewhere, if deemed transferable by the UC Berkeley Central Evaluation Unit (https://ceu.berkeley.edu/) and approved for breadth by the college (courses must be at least three units each).

To submit a request, please refer to the CED Forms & Documents page and complete the form located under Transfer Credit Evaluation: "CED Course Substitution Process-Current Students (Including Study Abroad)."

Concurrent Enrollment

Concurrent enrollment for enrolled Berkeley students is defined as a student being enrolled in courses at UC Berkeley during a Fall or Spring semester, while also being enrolled in courses at another school such as a California community college. Students who wish to take courses concurrently must seek approval from CED Advising **four weeks prior to the first day of instruction**. Students who do not have approval from CED Advising will not be approved to post transferable units to their UC Berkeley academic transcript. Only summer session enrollment does not require approval from CED Advising.

Each student's plan will vary, depending on interests. Students should see their advisor if they are interested in applying for graduate school, studying abroad, attending summer school, pursuing a minor or second major, or anything else.

For more detailed information regarding the courses listed below (e.g., elective information, GPA requirements, etc.), please see the Major Requirements tab.

	Fall Units		Spring Units
Freshman			
ENV DES 1	3	ENV DES 5	4
Bio Sci for Major (Breadth #1: BIO SCI)	3-4	Reading & Composition A	4-6
Breadth #2	3-4	Phys Sci for Major (Breadth #3: PHYS SCI)	3-4
University Elective (if needed to reach 12 units)	3-4	University Elective (if needed to reach 12 units)	1-2
	12-15		**12-16**
Sophomore			
Reading & Composition B	4	LD ARCH 1	4
Breadth #4	3-4	Breadth #6	3-4
Breadth #5	3-4	Breadth #7	3-4
University Elective (if needed to reach 12 units)	2	University Elective, if needed	2-3
	12-14		**12-15**
Junior			
LD ARCH 101	5	LD ARCH 102	5
LD ARCH C110A	4	LD ARCH 112	4
LD ARCH 133[1]	3	LD ARCH 170	3
LD ARCH 134B	3	CED Upper Div Non-Major #1	2-4
	15		**14-16**
Senior			
LD ARCH 103	5	LD ARCH 121	4
LD ARCH 120	3	LD ARCH 135	3
CED Upper Div Non-Major #2	2-4	CED Upper Div Non-Major #3	2-4
American Cultures (or university elective, if needed to reach 12 units)	2-4	LD ARCH 160 or 111 (recommended	3
	12-16		**12-14**

Total Units: 101-121

[1] LD ARCH 1 at UCB satisfies LDARCH 133.

[2] Students must complete 120 units to graduate.

Learning Goals of the Major

- To communicate effectively in graphic, written, and verbal formats.
- To understand the relationship of the history and theory of landscape architecture.
- To acquire knowledge of the basic fundamentals of environmental design, particularly the implications of social and natural factors.
- To apply design principles in a range of sites and scales.

Major maps are experience maps that help undergraduates plan their Berkeley journey based on intended major or field of interest. Featuring

student opportunities and resources from your college and department as well as across campus, each map includes curated suggestions for planning your studies, engaging outside the classroom, and pursuing your career goals in a timeline format.

Use the major map below to explore potential paths and design your own unique undergraduate experience:

View the Landscape Architecture Major Map. (https:// discovery.berkeley.edu/getting-started/major-maps/landscape-architecture/)

The CED Office of Undergraduate Advising provides a wide array of programmatic and individual advising services to prospective and current students as well as to students in other colleges who are pursuing CED minors or taking CED courses. The professional advising team assists students with a range of issues including course selection, academic decision-making, achieving personal and academic goals, and maximizing the Berkeley experience.

Advising Staff

CED Career Services

The CED Career Services Center (CSC) offers personalized career counseling, a yearly CED Career Fair, and a wide variety of professional-development workshops on topics such as licensure, internships, and applying for graduate school. For further information or to schedule an appointment with the Career Counselor, please see the CED Career Services website (http://ced.berkeley.edu/students/career-services/).

Program Requirements

For the most current information regarding major and minor program requirements and college-wide policies, please see the following pages on the CED website:

- Newly-Admitted Students (https://ced.berkeley.edu/advising/ undergraduate-advising/undergraduate-students/newly-admitted-students/)
- Current Students (https://ced.berkeley.edu/advising/undergraduate-advising/undergraduate-students/)
- Graduation and Commencement (https://ced.berkeley.edu/advising/ undergraduate-advising/undergraduate-students/graduation-commencement/)
- Articulation (https://ced.berkeley.edu/admissions/undergraduate-admissions/articulation/)
- CED Undegraduate Policies (https://ced.berkeley.edu/advising/ undergraduate-advising/undergraduate-students/policies/)
- Forms and Documents (https://ced.berkeley.edu/advising/forms-documents/)

Mission

The College of Environmental Design (CED) Office of Undergraduate Advising helps students graduate in a timely way with a meaningful educational experience at Berkeley. In alignment with the College's Vision and Principles, the Office collaborates with CED faculty, deans, and student service units across campus toward the common objective of supporting students as they achieve their educational and career goals. The Office of Undergraduate Advising seeks to achieve the following:

- Attract a highly-motivated, diverse pool of applicants
- Connect students with resources that match their goals and aspirations
- Support the development and transformation of our undergraduates as they become educated, active and socially just citizens of the world
- Prepare graduates who are uniquely qualified and highly sought after in their field of choice

Advising Values

Student Success. Above all, the Office of Undergraduate Advising dedicates itself to maximizing student potential and to helping students succeed in their university experiences. Advisors encourage students to explore their minds and their hearts, challenge them to do their best work, and help them realize their talents and passions and achieve their goals.

Equity & Inclusion. Commitment to creating an inclusive environment in which any individual or group can be and feel welcomed, respected, supported and valued. Advisors aspire to provide fair treatment, access, opportunity, and advancement for all students and to identify and eliminate barriers that prevent the full participation of all.

Health & Well-Being. Collaboration with campus partners to keep the CED community healthy by helping students balance the physical, intellectual, emotional, social, occupational, spiritual and environmental aspects of life.

Advising Excellence. In all that they do, advisors strive to deliver personalized advising services of the highest quality. They also seek to continuously educate themselves on developments in the field and

to evaluate, improve, and streamline services to support students in obtaining the best education and experience possible.

Student Groups and Organizations

The college provides opportunities for students to be involved in student chapters of professional organizations, such as the American Institute of Architects (AIAS), the American Society of Landscape Architects (ASLA), as well as other student groups like the Chican@/Latin@ Architecture Student Association (CASA), Global Architecture Brigades, and more. For information regarding student groups, please see the Student Organizations page of the CED website (https://ced.berkeley.edu/resources/student-organizations/).

Study Abroad

The College of Environmental Design (CED) encourages all undergraduates in the college to study abroad. Whether students are interested in fulfilling general education requirements, taking courses related to their major/career, or simply living and studying in a country that is of interest to them, Berkeley Study Abroad will work with students to make it happen. For information about Study Abroad programs, please see the Berkeley Study Abroad website (http://studyabroad.berkeley.edu/).

CED Career Services

The CED Career Services Center (CSC) offers personalized career counseling, a yearly CED Career Fair, and a wide variety of professional-development workshops on topics such as licensure, internships, and applying for graduate school. For further information, please see the CED Career Services website (http://ced.berkeley.edu/ced/students/career/).

Prizes and Awards

CED offers a number of annual prizes, awards, scholarships, fellowships, and grants to its currently enrolled students. Some of these prizes and awards are college-wide, and some are geared toward students in specific majors. For general information regarding CED prizes and awards, including application instructions and a deadline calendar, please click here (http://ced.berkeley.edu/ced/students/prizes/).

CED Events and Exhibits Calendar

CED and Wurster Hall is home to a variety of events, lectures, and exhibitions that welcome professors, professionals, and friends to the college to discuss and celebrate the community and professions. Through events and media CED is constantly creating ways to keep the college connected and up-to-date. To view this calendar, please click here (http://ced.berkeley.edu/events-media/events/).

CED on Facebook (https://www.facebook.com/groups/59611725522/)

CED Lecture Series

The departments of Architecture, City and Regional Planning, and Landscape Architecture and Environmental Planning each sponsor lecture series, which offers students the opportunity to hear internationally-acclaimed speakers. These speakers often also participate in classes and seminars as part of their visit to campus. For a schedule of speakers and events in these lecture series, please see the CED website (http://ced.berkeley.edu/events-media/lecture-series/).

WursterLife

WursterLife (https://ced.berkeley.edu/ced/alumni-friends/wursterlife/) is a closed-network platform that enables CED students and alumni from across the globe to connect with classmates, find alumni by practice area, geographic region, affinity group, or shared interest, share professional updates, news, photos, events, and jobs, enhance your career through your alumni connections, and find ways to stay engaged with the UC Berkeley College of Environmental Design.

Research Opportunities, Internships, Public Service, and Volunteer Opportunities

Check out the CED Office of Undergraduate Advising website (http://ced.berkeley.edu/ced/students/undergraduate-advising/) for additional opportunities.

Landscape Architecture

LD ARCH 1 Drawing a Green Future: Fundamentals of Visual Representation and Creativity 4 Units

Terms offered: Summer 2025 8 Week Session, Spring 2025, Summer 2024 8 Week Session
This introductory studio course is open to all undergraduate students in the University, who want to investigate the process of drawing as a method to learn how to perceive, observe and represent the environment. This studio will encourage visual thinking as a formative tool for problem solving that provides a means to envision a sustainable future. The focus will be on the critical coordination between hand, mind and idea.
Hours & Format

Fall and/or spring: 15 weeks - 2 hours of lecture and 6 hours of studio per week

Summer: 8 weeks - 4 hours of lecture and 6 hours of studio per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Letter grade. Alternative to final exam.

Instructor: Sullivan

LD ARCH 12 Environmental Science for Sustainable Development 4 Units

Terms offered: Fall 2025, Summer 2025 8 Week Session, Fall 2024
The scientific basis of sustainability, explored through study of energy, water, food, natural resources, and built environment. Physical/ecological processes and systems, and human impacts from the global scale to local energy/resource use. Energy and water audits, opportunities to increase sustainability of processes/practices. Discussion/lab section involves field data collection/analysis (e.g., habitat characteristics and macroinvertebrate communities in local streams, measurement of atmospheric particulate matter concentrations, measurement of water savings from updated irrigation technologies) and a final, integrative sustainability assessment project.

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture and 2 hours of laboratory per week

Summer: 8 weeks - 6 hours of lecture and 2 hours of laboratory per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

LD ARCH 98 Directed Group Study for Freshmen and Sophomores 1 - 4 Units

Terms offered: Fall 2015, Spring 2013, Spring 2012
Supervised group studies of various topics relevant to department that are not covered in depth by other courses. Topics may be initiated by students. Open to students in good standing who, in consultation with a faculty sponsor, present a proposal with clearly formulated objectives and means of implementation. Intended for exceptional students. Topics vary from semester to semester.

Rules & Requirements

Prerequisites: Department chair must approve written proposal

Credit Restrictions: Enrollment is restricted; see the Introduction to Courses and Curricula section of this catalog.

Repeat rules: Course may be repeated for credit without restriction.

Hours & Format

Fall and/or spring: 15 weeks - 1-4 hours of directed group study per week

Summer:
6 weeks - 2.5-10 hours of directed group study per week
8 weeks - 1.5-7.5 hours of directed group study per week
10 weeks - 1.5-6 hours of directed group study per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Offered for pass/not pass grade only. Final exam not required.

LD ARCH 101 Fundamentals of Landscape Design 5 Units

Terms offered: Fall 2025, Fall 2024, Fall 2023
This studio introduces students to the programmatic, artistic, and technical aspects of land form and topographic adjustments to accommodate human use. Topics include pedestrian and vehicular circulation, conservation and addition of plant materials, movement of water, recreation use, and creation of views. Sculptural land forms will be emphasized through the use of topographic plans, sections, and contour models.

Rules & Requirements

Prerequisites: Environmental Design 11A-11B or consent of instructor

Hours & Format

Fall and/or spring: 15 weeks - 2 hours of lecture and 6 hours of studio per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Letter grade. Final exam not required.

LD ARCH 102 Case Studies in Landscape Design 5 Units

Terms offered: Spring 2025, Spring 2024, Spring 2023
This studio stresses the shaping and coordination of ideas from initial concept to complete design product. A product(s) of intermediate scale and complexity (such as a garden, small park, plaza, or campus courtyard) will be developed in detail including the selection of planting, selection of construction materials, and topographic design. Lecture modules on selected professional topics are integrated into this course.

Rules & Requirements

Prerequisites: 101 or consent of instructor

Hours & Format

Fall and/or spring: 15 weeks - 2 hours of lecture and 6 hours of studio per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Letter grade. Final exam not required.

Instructor: Kullmann

LD ARCH 103 Energy, Fantasy, and Form 5 Units

Terms offered: Fall 2025, Fall 2024, Fall 2023
This is an undergraduate studio with a central focus on climate modification for energy conservation. We will research historical precedents in order to develop new garden forms for passive green designs. We will also explore how past cultures integrated metaphysics into their gardens as an adjunct to microclimate and habitat design. The contemporary landscape should be a balanced interweaving of proportion, function, comfort, energy conservation, and enlightenment. Additionally, we will study the choreography of space and investigate how to animate the landscape through the creative interpretation of text and film. Many new and exciting opportunities lie ahead for the creation of garden forms that not only conserve energy, but are also works of art and places of spiritual renewal.
Rules & Requirements

Prerequisites: 101, 102, Environmental Design 11A-11B, (Arch 100A or 100B for Architecture students) or by consent of instructor

Repeat rules: Course may be repeated for credit up to a total of 8 units.

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture and 6 hours of studio per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Letter grade. Final exam not required.

Instructor: Sullivan

LD ARCH 110 Ecological Analysis 3 Units

Terms offered: Fall 2020, Fall 2019, Fall 2018
Analysis of environmental factors, ecosystem functions, and ecosystem dynamics, as related to decision-making for landscape planning and design.
Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

Instructor: McBride

LD ARCH 110L Ecological Analysis Laboratory 2 Units

Terms offered: Fall 2020, Fall 2019, Fall 2018
Introduction to field techniques for assessment of landscape factors. Factors include topography, geology, climate, soil, hydrology, flora, vegetation, and wildlife.
Rules & Requirements

Prerequisites: Landscape Architecture 110 (may be taken concurrently)

Hours & Format

Fall and/or spring: 15 weeks - 4 hours of laboratory per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

Instructor: McBride

LD ARCH C110A Ecological Analysis 4 Units

Terms offered: Fall 2025, Fall 2024, Fall 2023
This course focuses on natural factors of the environment that are fundamental to ecosystem management, land use planning and landscape design and their relationships to one another in different terrestrial ecosystems, from predominantly natural to predominantly anthropogenic. Lectures explore the key concepts on ecosystem structure, function and dynamics and discuss different types of ecological data, their interpretation and visualization that can aid in landscape research, planning and design workflow. Laboratory sections advance lecture topics by providing hands-on training in common types of ecosystem analyses using quantitative methods and geospatial tools.
Objectives & Outcomes

Course Objectives: Develop an understanding of natural factors of the environment that are fundamental to ecosystem management, landscape design and land use planning and common approaches for their assessment and analysis of their relationships to one another.

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture and 2 hours of laboratory per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

Also listed as: ESPM C110A

LD ARCH 111 Plants in Design 3 Units

Terms offered: Fall 2025, Fall 2024, Spring 2022
Through lecture, research, and studio assignments, this course introduces the use of plants as design elements in the landscape, from the urban scale to the site-specific scale, focusing on the public open space. By analyzing historic, contemporary, and Bay Area examples, the course examines the spatial, visual, and sensory qualities of vegetation, as well as the interplay with ecological functions and engineering uses of plants.

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

LD ARCH 112 Landscape Plants: Identification and Use 4 Units

Terms offered: Spring 2025, Spring 2024, Spring 2023
This course is an introduction to the identification and recognition, as well as design applications and uses, of plants in the landscape. Through lectures, assignments, and fieldwork, the course provides class participants with an appreciation of the importance of vertical vegetation as a design element. Students will be introduced to a variety of built projects and plants commonly used in Bay Area landscapes.

Hours & Format

Fall and/or spring: 15 weeks - 2 hours of lecture and 6 hours of fieldwork per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Letter grade. Alternative to final exam.

LD ARCH 119 Flood Risk Management 3 Units

Terms offered: Spring 2025, Spring 2024, Spring 2023
This course explains fundamental concepts in flood risk management, summarizes the history
of flood management in California, the US, and globally, and tracks the development of state-
of-the art approaches to assessing flood risk, equity implications, and utilizing nature-based
solutions to sustainably manage floods. The course is offered at both the upper-division undergraduate (LA119) and graduate (LA229)
levels. Lectures are the same for both undergrad and grad courses, but there are separate
discussion sections and requirements.

Objectives & Outcomes

Course Objectives: The objective of the course is to provide students with an understanding of the physical
processes giving rise to floods, and also the social and institutional response to flood risk.

Student Learning Outcomes: Students will learn the fundamental hydrologic processes behind flooding, the models
commonly employed to assess the extent of flood hazard, the limitations of extrapolating short
hydrologic records to estimate long-return period floods such as the 100-year flood, limitations
of structural measures to control flood hazard, and increase in flood hazard arising from climate
change.

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture and 1 hour of discussion per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

Instructor: Kondolf

LD ARCH 120 Topographic Form and Design Technology 3 Units

Terms offered: Fall 2025, Fall 2024, Fall 2023
Technical, graphic and computational exercises, and studio problems in topographic site design and the shaping of the site for surface drainage.
Rules & Requirements

Prerequisites: 102 or consent of instructor

Hours & Format

Fall and/or spring: 15 weeks - 2 hours of lecture and 2 hours of studio per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Letter grade. Final exam not required.

Instructor: Jewell

LD ARCH 121 Design in Detail: Introduction to Landscape Materials and Construction 4 Units

Terms offered: Spring 2025, Spring 2024, Spring 2023
This course introduces the visual and physical characteristics of landscape construction materials including, but not limited to, stone, brick, concrete, metal, asphalt, and wood. Additionally, lectures cover the production and availability of these materials, any existing evaluations on their sustainability, and their potential impact on the immediate environment. Students also learn to utilize standard sources of information on building materials and the terminology typically utilized when choosing and specifying construction materials. They become familiar with dimensional standards for landscape structures, including pavements, stairs, furnishings, retaining walls, freestanding walls, fences, decks, and small overhead structures.
Rules & Requirements

Prerequisites: 101, Architecture 100A, or consent of instructor

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture and 1.5 hours of laboratory per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

LD ARCH 122 Hydrology for Planners 4 Units

Terms offered: Spring 2022, Spring 2019, Spring 2018
This course presents an overview of relevant hydrologic, hydraulic, and geomorphic processes, to provide the planner and ecologist with insight to incorporate these processes into the planning process and coordinate with specialists in the field of hydrology. Relevant government regulations and policies are also reviewed. The course is not intended to duplicate more specialized courses offered in such fields as engineering hydrology, coastal engineering, or geology, but rather to provide an integrated understanding. The course takes a process- and field-based approach to hydrology, and emphasizes interdisciplinary perspectives.
Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture and 2 hours of laboratory per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Letter grade. Alternate method of final assessment during regularly scheduled final exam group (e.g., presentation, final project, etc.).

Instructor: Kondolf

LD ARCH 130 Sustainable Landscapes and Cities 4 Units

Terms offered: Summer 2025 8 Week Session, Spring 2025, Spring 2024

This course is an introduction to issues of sustainability in the designed landscape and in our cities. It includes environmental history as well as contemporary social, environmental and political issues surrounding sustainable design and activism. The course stresses motives and values expressed through environmental design at various scales – from neighborhood to global and examines problems affecting healthy environments and their solutions. Students study the need for protection and restoration of healthy ecological systems within the design of cities and landscapes and discuss ways to enable these systems to thrive. Readings and discussions focus on means to evaluate, create and advocate for healthy, sustainable environments.

Objectives & Outcomes

Course Objectives: This course is an important elective to majors in the College of Natural Resources and CED students who have Architecture and City Planning majors. A new CED major, Sustainable Environmental Design (SED), has increased the number of students who require this class. It also fulfills the Social and Behavioral breadth requirement. Therefore, it is clear that the course enrollment should be increased to accommodate students from both inside and outside the CED.

This course offers students the opportunity to examine a specific range of sustainable design interventions that attempt to address primary problems related to climate change, the need for healthy watersheds, adequate food security and socially resilient communities in the face of rapid environmental change. Students will see the complexity of various aspects and approaches required of sustainable design and occasionally competing goals of a project.

Student Learning Outcomes: On the required field trip to San Francisco, students will be able to see and critique the efficacy of policy; of existing and emerging landscape design technology; to observe interventions intended to assist existing natural systems in urban environments and promote their viability; to see the value of community building to help establish resilient neighborhoods; to become verbally articulate about these issues.

Students will learn about and discuss the inter-connectedness of natural systems overlapped by human habitation. They will learn about design that can facilitate positive social systems and how the combination of ecological and social communities can present answers to some of the pressing environmental problems we face. Students will learn how various design strategies involve land preservation, watershed protection and restoration; local food production networks; resilient neighborhood design through community participation in open space design; pedestrian and bicycle friendly streets, urban forestry; reducing the waste stream.

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture and 1 hour of discussion per week

Summer: 8 weeks - 6 hours of lecture and 2 hours of discussion per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

Instructor: McRae

LD ARCH 133 Drawn from the Field 3 Units

Terms offered: Fall 2025, Fall 2024, Fall 2023

This course will provide students an opportunity to analyze and interpret the iconic built landscapes of the Bay Area through direct observation and field sketching. The vision for the course is influenced by the global popularity of the Urban Sketchers movement, a phenomenon based on personal engagement with one's environment. The annotated sketchbook will be used as the primary tool for investigation and documentation of core fundamental principles and elements of landscape and urban design. Lectures and hands-on demonstrations will give students the tools to respond to and construct meaning from their on-site observations.

Hours & Format

Fall and/or spring: 15 weeks - 1 hour of lecture and 2 hours of fieldwork per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Letter grade. Alternative to final exam.

Instructor: Sullivan

LD ARCH 134A Drawing Workshop 1 3 Units

Terms offered: Fall 2018, Fall 2017, Fall 2016

This studio will elaborate on a number of studio themes while introducing the students to a variety of graphic mediums and drawing techniques. Measured drawing procedures (including orthographic projections) will be augmented by figure-ground principles and themes of contrast, color, chiaroscuro, and compositions. On-site and visits to galleries and museums will complement the studio sessions.

Rules & Requirements

Prerequisites: Environmental Design 11A-11B or consent of instructor

Hours & Format

Fall and/or spring: 15 weeks - 2 hours of lecture and 3 hours of studio per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Letter grade. Final exam not required.

Instructor: Hood

LD ARCH 134B Drawing Workshop II 3 Units

Terms offered: Fall 2025, Fall 2024, Fall 2023
This course introduces students to digital tools relevant to the discipline of landscape architecture. The course encompasses a series of lectures, lab exercises and projects designed to equip students with a foundational and expandable computing skill set relevant to the education and practice of landscape architecture. In addition to establishing technical competency, the course emphasizes establishing creative workflows between software applications.

Hours & Format

Fall and/or spring: 15 weeks - 1 hour of lecture and 3 hours of laboratory per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Letter grade. Alternative to final exam.

Instructor: Kullmann

LD ARCH 135 Sacred Landscapes 3 Units

Terms offered: Summer 2025 8 Week Session, Spring 2025, Spring 2024

This course is a laboratory for invention and visual perception. A designed landscape has the potential to induce a powerful emotional experience. The premise of this course is based on the idea that highly valued places are works of art, as well as places of enlightenment and transformation. This class will explore ideas of 'sacredness' in the landscape through a series of design explorations and a summation project. Our journey of discovery aspires to provide future landscape architects with a new and unique perspective to help them recognize and generate Sacred Landscapes.

Rules & Requirements

Prerequisites: LD ARCH 134A, LD ARCH 201 or consent of Instructor

Hours & Format

Fall and/or spring: 15 weeks - 1 hour of lecture and 2 hours of studio per week

Summer: 8 weeks - 2 hours of lecture and 4 hours of studio per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Letter grade. Alternative to final exam.

Instructor: Sullivan

LD ARCH 140 Social and Psychological Factors in Open Space Design 3 Units

Terms offered: Summer 2025 8 Week Session, Spring 2025, Spring 2024

User-oriented approach to design. Post-occupancy evaluation as a tool for understanding use of designed open spaces. Design as a communication process. Environmental needs of vulnerable populations--children, elderly, disabled, low-income families. Personal and societal environmental values.

Hours & Format

Fall and/or spring: 15 weeks - 1.5 hours of lecture and 1.5 hours of discussion per week

Summer: 8 weeks - 3 hours of lecture and 3 hours of discussion per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

LD ARCH 154 Special Topics in Landscape Architecture and Environmental Planning 1 - 3 Units

Terms offered: Fall 2025, Fall 2022, Fall 2021
Designed to be a forum for presentation of student research, discussions with faculty researchers and practitioners, and examination of topical issues in landscape architecture and environmental planning. Topics will be announced at the beginning of each semester.

Rules & Requirements

Repeat rules: Course may be repeated for credit without restriction.

Hours & Format

Fall and/or spring: 15 weeks - 1-3 hours of seminar per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

LD ARCH 160 Professional Practice Seminar 2 or 3 Units

Terms offered: Spring 2025, Spring 2024, Spring 2023
This course provides instruction and guidance in the professional practice aspect of landscape architecture in the United States. Covering the breadth of the profession, we will learn the professional duties of a landscape architect, and the process of completing a real-life landscape architectural project. The goal of this class will be to learn what it means to be a practicing, licensed landscape architect, with the understanding that this is ultimately a construction based, service-oriented industry.

Hours & Format

Fall and/or spring: 15 weeks - 2-2 hours of seminar per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Letter grade. Alternative to final exam.

LD ARCH 170 History and Literature of Landscape Architecture 3 Units

Terms offered: Spring 2025, Spring 2024, Spring 2023
This course surveys the history of landscape architecture in four realms: 1) gardens; 2) urban open space, that is, plazas, parks, and recreation systems; 3) urban and suburban design; and 4) regional and environmental planning. The course will review the cultural and social contexts which have shaped and informed landscape architecture practice and aesthetics, as well as the environmental concerns, horticultural practices, and technological innovations of historic landscapes.

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture per week

Summer: 8 weeks - 6 hours of lecture per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

Instructor: Mozingo

LD ARCH C171 The American Designed Landscape Since 1850 3 Units

Terms offered: Fall 2025, Fall 2024, Fall 2023, Fall 2022
This course surveys the history of American landscape architecture since 1850 in four realms: 1) urban open spaces--that is squares, plazas, parks, and recreation systems; 2) urban and suburban design; 3) regional and environmental planning; 4) gardens. The course will review the cultural and social contexts which have shaped and informed landscape architecture in the United States since the advent of the public parks movement, as well as, the aesthetic precepts, environmental concerns, horticultural practices, and technological innovations of American landscapes. Students will complete a midterm, final, and a research assignment.

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

Instructor: Mozingo

Also listed as: AMERSTD C171

LD ARCH C177 GIS and Environmental Spatial Data Analysis 4 Units

Terms offered: Spring 2017, Spring 2016, Spring 2015
This course offers an introduction to spatial data analysis. It integrates ArcGIS analysis with spatial statistical analysis for the study of pattern and process applicable to a wide variety of fields. Major topics covered include: spatial sampling, processing data with ARC Info, exploratory GIS analysis, spatial decomposition, spatial point patterns and Ripley's K function, spatial autocorrelation, geostatistics, spatially weighted regression, spatial autoregression, generalized linear models and generalized linear mixed models.

Rules & Requirements

Prerequisites: Requirements are course in GIS and a course in probability and statistics. We invite participation of undergraduates and graduate students from: ESPM, Landscape Architecture & Environmental Planning, City and Regional Planning, IB, Civil Engineering, Energy and Resources Group, Public Health, Earth and Planetary Science, and other campus departments or units with students interested in learning and using spatial analysis for the environment- both natural and built

Hours & Format

Fall and/or spring: 15 weeks - 3 hours of lecture and 3 hours of laboratory per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Letter grade. Alternative to final exam.

Instructors: Biging, Radke

Also listed as: ESPM C177

LD ARCH 187 Representation as Research: Contemporary Topics in Landscape Visualization 3 Units

Terms offered: Prior to 2007
Representations typically demonstrate two different forms of landscape analysis—empirical data and personal perception/aesthetics—but landscape provides opportunities for their overlaps in order to advance and synthesize robust research. Through lectures, technical tutorials, and reading discussions, this course will profile contemporary landscape research practices and representational techniques. We will use visualization to advance landscape research, theory, and site analysis, focusing specifically on methods that tackle issues of temporality and ephemerality. We will generate original media that communicates spatial, ecological, and cultural complexities.

Rules & Requirements

Prerequisites: Working knowledge of Rhino, AutoCAD, Adobe Creative Suite (Illustrator, Photoshop, InDesign)

Hours & Format

Fall and/or spring: 15 weeks - 2 hours of laboratory and 1 hour of lecture per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Letter grade. Alternative to final exam.

Instructor: Cooper

Formerly known as: Landscape Architecture 189

LD ARCH C188 Geographic Information Science 4 Units

Terms offered: Fall 2025, Fall 2024, Fall 2023
This course introduces the student to the rapidly expanding field of Geographic Information Systems (GIS). It addresses both theory and application and provides the student with a dynamic analytical framework within which temporal and spatial data and information is gathered, integrated, interpreted, and manipulated. It emphasizes a conceptual appreciation of GIS and offers an opportunity to apply some of those concepts to contemporary geographical and planning issues.

Rules & Requirements

Prerequisites: Some computer experience

Hours & Format

Fall and/or spring: 15 weeks - 3-3 hours of lecture and 1-2 hours of laboratory per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Letter grade. Final exam required.

Instructor: Kim

Also listed as: GEOG C188

LD ARCH 197 Field Study in Landscape Architecture 2 - 3 Units

Terms offered: Spring 2019, Fall 2016, Fall 2015
See departmental information sheet for limitations. Supervised experience relative to specific aspects of landscape architecture. Regular individual meetings with faculty and outside sponsor. Reports required.

Rules & Requirements

Prerequisites: Upper division standing and consent of instructor and sponsor

Repeat rules: Course may be repeated for credit without restriction.

Hours & Format

Fall and/or spring: 15 weeks - 2-3 hours of fieldwork per week

Summer:
6 weeks - 5-7.5 hours of fieldwork per week
8 weeks - 3.5-5.5 hours of fieldwork per week
10 weeks - 3-4.5 hours of fieldwork per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Offered for pass/not pass grade only. Final exam not required.

LD ARCH 198 Directed Group Study 1 - 4 Units

Terms offered: Spring 2021, Spring 2020, Fall 2019
Enrollment restrictions apply.

Rules & Requirements

Prerequisites: Consent of instructor

Repeat rules: Course may be repeated for credit without restriction.

Hours & Format

Fall and/or spring: 15 weeks - 1-4 hours of directed group study per week

Summer:
6 weeks - 2.5-10 hours of directed group study per week
8 weeks - 1.5-7.5 hours of directed group study per week
10 weeks - 1.5-6 hours of directed group study per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Offered for pass/not pass grade only. Final exam not required.

LD ARCH 199 Supervised Independent Study and Research 1 - 4 Units

Terms offered: Spring 2016, Fall 2015, Spring 2013
Enrollment restrictions apply.

Rules & Requirements

Prerequisites: Consent of instructor

Repeat rules: Course may be repeated for credit without restriction.

Hours & Format

Fall and/or spring: 15 weeks - 1-4 hours of independent study per week

Summer:
6 weeks - 2.5-10 hours of independent study per week
8 weeks - 1.5-7.5 hours of independent study per week
10 weeks - 1.5-6 hours of independent study per week

Additional Details

Subject/Course Level: Landscape Architecture/Undergraduate

Grading/Final exam status: Offered for pass/not pass grade only. Final exam not required.
